

THE WESTERN SUN.

Vincennes, November 2, 1816.

Monday, the 4th inst. is the day appointed for the meeting of the first General Assembly of the State of Indiana.—A great variety of new officers for the state government, as well as our senators to the congress of the United States having to be appointed by them, will render it an important session.

The Rev. Mr. Treat, a missionary from Connecticut, will preach at the Court House tomorrow at 12 o'clock.

Spencer Creek Salt Works.

We have it from good authority that the Messrs. *Ellis's* have succeeded in sinking a well which promises to be of much value to them and the country generally—producing salt water of more strength and greater abundance than any heretofore known in the western country. It appears that they perforated the earth 150 feet, when they met with a stream of water which immediately rose to the top of the well and run over. It takes about 47 gallons of the water to produce a bushel of salt.

Ohio.—Thomas Worthington is re-elected governor of Ohio—his majority over Mr. Dunlap, is estimated at 10,000 votes.

Gen. William H. Harrison is elected a representative to congress to fill the vacancy occasioned by the resignation of Mr. McLean, and also a member of the 15th congress.

Maj. John Scott is elected the Delegate to represent the Missouri Territory in the 15th Congress—[We have understood his election will be contested by his opponent Mr. Eastin.—*Ed. Sun*]

Nathaniel Pope is elected the Delegate to the 15th Congress from the territory of Illinois.

Boundary Line.—A paragraph has been going the rounds of the papers, stating, that the settlement of our northern boundary line, will give the U. States sixteen townships of Lower Canada, and their fort and island, the Isle aux Noix.—We have respectable authority for stating, that this report is entirely incorrect.—Gentlemen who are every way qualified, inform that they have repeatedly taken observations on the spot, for their own satisfaction, and have found that the line, as it always has been received, is the true 45th degree or parallel of latitude. One of the commissioners for settling this line, passed through town yesterday and confirmed the above statement which induces us to give it publicity.

General Jackson returned home from the Indian nation on Friday last. We believe the conditions of the treaty with two nations, to wit: The Chickasaws' and Cherokees, amounts to this: The former are to be paid annu-

ally the sum of twelve thousand dollars, for ten years. The latter the sum of eight thousand dollars for the same period. By the treaty with the Cherokees, the United States regain all the lands which were included in the boundary specified by the late treaty made at Washington.—Whig.

CANADA TAKING BRITAIN.

MARRIED,

At Wilmington; (N. Carolina) Mr. Solomon Canada, to Miss. Susan Britain.—We never supposed that *Britain* would be taken by *Canada*—but it is a voluntary surrender, and we shall be very much deceived, if, after the capitulation and matters are adjusted, *Canada* does not keep possession.

Extract of a letter from Buenos Ayres, dated Aug. 27, 1816.

“At this moment our artillery is ordered out, and I am about starting to witness the expected battle.”

From the *Richmond Enquirer* Oct. 10.

Highly Interesting.

It is whispered, that information has been received from an officer of high rank in the U. S. army, in the south, (neighborhood of New-Orleans,) that he expected to be attacked by the Spaniards. It is added, that a consultation has been held at Washington, in consequence; & it is surmised that a strong naval force is to be sent to cruise in that direction, say the Gulph or vicinity of Florida, to ascertain the movements, and if necessary, to prevent the landing of a hostile force.

New Subject of Postage.

One day last week as the postmaster in this town was opening the great Eastern mail, closed at Portland, out jumped a full grown Cat, not a little fatigued with a journey of 60 miles over a rough road, and occasionally subjected to the weight of the coachman's feet. As no law exists of franking live stock, the post-master has detained her on suspicion of being a spy, till he receives the orders of the department in her case,—*Portsmouth Oracle*.

PARIS, August 18.

Some of the German Journals contain the following article:—“At the moment which the Diet of Frankfort is about to occupy itself with arrangements relative to the Germanic body, there is a current report that two great protectorates will be created, and that they will be conferred on Prussia, and Austria. Prussia to have that of the North and Austria that of the South. Several

Princess of the 3d and 4th orders desire the re-establishment of the imperial dignity of the person of the Emperor of Austria. It is thought that the courts of the South of Germany such as Bavaria, Wirtemburg, and the grand Duchy of Baden, whose states are of considerable extent, neither desiring an imperial dignity nor protectorates, wish to preserve a full and entire independence. It is said even that those courts have recently formed the most intimate relations, and that they intend to give the same vote and

to act upon the same system at the conferences which are to take place at Frankfort. Several persons believe also that it is scarcely probable that the kingdom of Hanover will submit to the protectorate of Prussia.”

AT LAST

ALL those indebted to the subscriber for beef or otherwise, are requested to call and pay off their accounts immediately to Mr. Henry Ruble, who is authorized to collect and receipt for the same—those who neglect, will have to settle with an officer.

JOHN H. AVERY,

(eldest son of the Rev. John Avery of Stamford, Connecticut) having been many years absent, his friends, after a long and painful state of anxiety and suspense, disappointed in every effort to obtain information respecting him make this earnest request, that any person possessing any knowledge of him, or of his situation or circumstances, will communicate the facts for their information.—

Any information respecting him, (which may lead to a knowledge of his present situation if he is still living, or if otherwise, of the place and circumstances of his death) directed to Mrs. Ann Ripley, Sagatuck, Connecticut, will be very gratefully received.

At the time of his departure, Mr. Avery was about 25 years of age. He possessed a serious and thoughtful countenance; & was, at times, rather inclined to melancholy. He has been absent about eight years.
