### MONSTROUS SERPENT.

Boston, August 18.

We have seen several letters from Gloucester, which describe a prodigious snake that has made its appearance in Cape Ann Harbour.—It was first seen some distance from shore by some fishermen, 10 or 12 days ago: but it was then generally believed to be the creature of imagination, and of the family.

"Of that huge snake tremendous, cur'd,

"Whose monstrous circle girds the world."

But he has since come within the harbour of Gloucester, and has been seen by hundreds of people. He is declared by some persons who approached within 10 or 15 yards of him, to be 60 or 70 feet in length, round, and of the diameter of a barrel. Others state his length variously from 50 to 100 feet. His motions are serpentine extremely varied, and exceedingly rapid. He turns himself completely round almost instantaneously.—He sometimes darts forward, with his head out of water at the rate of 3 miles in a minute, leaving a wake behind him of half a mile in length. His head, as large as the head of a horse, is shaped somewhat like that of a large dog, is raised about 8 feet out of water and is partly white, the other part black.

He appears to be full of joints and resembles a string of buoys on a net rope, as is set in the water to catch herring.—Others describe him as like a string of water casks. His back is black. Various attempts have been made, without success, to take him. Four boats went out on Thursday, filled with adventurous sailors and experienced gunners, armed with muskets, harpoons, &c. Three muskets were discharged at him, from a distance of 30 feet 2 bolts were thought to strike his head, but without effect.—He immediately after plunged into the water and disappeared for a short time after which he moved to the outer harbour and was seen no more that night. A number of persons are employed in making a net of Codlines, of sufficient strength and size to take him. It is conjectured that he has resorted to this harbour for the purpose of preying upon a very numerous shoal of herrings which have lately appeared there. If he has been instrumental as is supposed in driving these herrings into the harbour he has rendered an essential service to the town.

### LATEST FROM ENGLAND.

New-York, Sept. 4.

The elegant & fast sailing ship Julius Caesar, Capt. Macey, arrived at this port yesterday, in 37 days from Liverpool, whence she sailed on the 24th July.

By this arrival, we learn that the prospects for an abundant harvest continued, and that the price of bread stuffs were on the decline.

It is stated, (says the London Globe of the 22d July) under the head of Nuremberg, that Russia has engaged to support the cause of Ferdinand VII. in Spanish America, with a squadron including six ships of the line, and an army of from 15 to 20,000 men, in consideration of the cession of Old and New California, the Island of Minorca, and certain commercial advantages by Spain to Russia.

The same paper also adds, that North America is stated to have engaged, in consideration of the cession of the two Floridas by Spain, to forbid all assistance to the Insurgents in its territories.

PARIS, July 19.

A private letter from Lisbon, of the 2d July, contains as follows:—We saw the day before yesterday enter this port a ship dressed in colours. She sailed from Rio Janeiro 53 days ago, but passing before Pernambuco, and seeing little obstacle to entering the port, she put in there. Her passage from thence to Lisbon in 40 days. She has brought an account, that in consequence of 2 great and sanguinary battles on the 18th and 19th May last, the troops which Count Arcos had sent from Bahai, without any success, those from Rio Janeiro not having then arrived, had entered Pernambuco, and subjected that place to the legitimate authority. It is said also, that

the resistance there was obstinate; that a great deal of blood was shed; that the principal conspirators fell in arms, and that their leader Martinez, had fled into the woods."

### BONAPARTE.

It is again reported that there is a very deep laid and widely extended plot to effect the escape of Bonaparte. There are said to be numerous deposits in the banks of every government in Europe, belonging to Bonaparte himself, his brothers, sisters, relatives and adherents of various descriptions and under different names, which, it is added, is intended to be employed in every possible way to deliver him from his present situation and to embroil all Europe in the attempt to restore him to all his former power.
