Latest from Amelia.

We have just time to state, that we have conversed with a gentleman direct from Amelia, who informs us that the Patriots completely defeated the Spaniards on the 13th inst. & compelled them to retreat 9 miles. Several officers belonging to the Spaniards were killed. On the part of the patriots no loss was sustained whatever. Col Irwin was daily receiving reinforcements, and it is confidently thought that he will be able to hold possession of the town of Fernandina. The Spanish force amounts to 500 men, negroes, Spaniards and renegade Americans. The patriots had on the day of battle no more than 150 men—Gen MacGregor and suite have sailed for Nassau. (N. P.) in the brig St. Joseph. Two large ships prizes arrived at Amelia last week supposed to be worth 250,000 dollars. Com. Aury had also arrived at Amelia with 2 large privateers and a prize captured by him of considerable value. The force which went against Fernandina was not commanded by gov. Coppinger; but by a Spanish col. name not recollected. Coppinger is still in Augustine.

Treaty with the Indians

We are gratified in being enabled to inform our readers that Gen. M. Arthur and gov. Cass have succeeded in purchasing from the Indians, all their claims to territory within the boundary of this state, with the exception of a small tract of country, lying east of the county of Drake, and west of the river t. Mary's not exceeding 300 square miles in extent. This purchase has been made on terms very advantageous to the U. States—the amount paid for it being very inconsiderable. It consists of an annuity of \$4,000 to the Wyandotts—one of \$2,000 to the Shawanoes—and one of \$500 to the Senecas; together with the sum of \$3,300 annually for 15 years, to be divided between the Pottomatomies, the Chippewas and the Ottowas, as a consideration for the tract of country, within the boundary of this state, lying north of the Miami of the Lake.

The lands reserved by the Indians, within the purchase, are as follows, viz: by the Wyandotts, 12 miles square at Upper Sandusky; by the Shawanoes, 10 miles square at Wappakonata 7 miles square at Lewistown, and 5 miles square at Hog creek; by the Senecas 7 miles square on the east side of the Sandusky river, opposite Fort Seneca; and a few individual reserves.

The commissioners deserve great credit for the ability with which they have performed their mission, and for the success with which they counteracted the influence of the British, which was strenuously exerted to prevent the purchase.

EFFECTS OF INDUSTRY

In consequence of the premium offered by the *Berkshire Agricultural Society* for the best crops, &c produced the greatest rivalry has been exerted among the farmers in that county. We state on the most unquestionable authority, that a farmer, this season from two measured acres, has harvested Ninety-

Three shocks of Spring Wheat, which when threshed, yielded him eighty bushels. When we consider, that but a short time since, the cultivation of wheat was almost wholly abandoned, on account of the unproductiveness of the soil, for that kind of grain, we can form something of an idea of the valuation of the institution, which has thus induced the Farmers to regenerate their lands by proper culture.—*Hartford Times.*

FEVER AND AGUE

AND

Intermittent Fever, Cured.

THE subscribers have just received of Dr. Griffith, from New-Jersey, an infallible remedy for the above mentioned diseases. When this medicine was first announced to the citizens of New-York, Mr. John Murray, one of the most respectable merchants then certified that in thirty instances where he had known it used, a single box never failed to cure in three days, several other gentlemen there and of Cincinnati attested to its superior efficacy, it is safely taken in pills, or mixed with any drink, and has no sensible operation—printed directions accompany each box.
