

PROPOSALS

FOR PUBLISHING BY SUBSCRIPTION

THE SECOND EDITION OF THE GEOGRAPHICAL SKETCHES OF THE WESTERN COUNTRY,

Being the result of the travels, extensive researches
and remarks of

EDMUND DANA,

who was commissioned as agent, to explore and select from the Public Lands, the most eligible situations for **AGRICULTURE & COMMERCE**, with a view to make locations and purchases.

The curious and interesting facts collected by the author, in surveying these rude scenes of Nature, so lately the haunt of the untutored Savage, have accumulated to the size of two volumes.

This work is intended as a guide to emigrants, who are seeking how to better their condition by traversing sea and land thousands of miles, to gain a new home, where a more temperate climate and fertile soil, confers health and plenty—Also, for schools.

The intention of the author, in the first volume, is to give a general view of the whole western country, from the Allegheny Mountains to the Pacific Ocean. Also, the boundaries and latitudes of the British and Spanish dominions in the preliminary remarks—After the former, will be given a more compendious geographical description of the western country, as delineated and parcelled off into separate states and territories, by the acts of Congress. And also, a description of the respective parts of the unsettled and unsold public lands and late surveys, in the states of Ohio, Indiana, Illinois, Tennessee, Louisiana, Mississippi, Alabama, and the Arkansas, Missouri, and Michigan territories—including lands designated by the Spanish and French for donations, but not called for, and a brief account of the Canals now opening, and in contemplation to connect the waters of the great Western Lakes, with the Mississippi and Hudson rivers. Also will be added the Census for 1820 of the United States and territories and the latitudes of each state.

The attention of the author in the first volume has been chiefly confined to objects which would be most likely to determine the choice of a prudent man in a place of residence where he purposed to fix himself down for life.—Such as the temperature of climate, healthiness of situation, face of the country, quality of the soil and the water, rivers and permanent streams—natural mill-seats, growth of timber, distances and bearings from places designed by nature for a market—mines and fossils.

Indeed, the author has endeavoured in his researches and remarks, to truly present, principally from his own personal and critical observations, the peculiar privileges and advantages naturally attached to the respective parts of the Western Country.

The second volume will contain a complete and correct description of the Military Bounty Lands in Illinois & Missouri, collected from personal observations and actual survey, and a map taken from the same, designating sections—the author having lived on and explored those lands one year.—Also, a particular description of the fractional sections which lie on the Mississippi and Illinois rivers—they being the most important part of the lands in the tract, and will be sold like other Congress lands. On these fractional sections are the principal scites for towns, Mills and Ferries within the military tract—Also, those sections which have on them minerals and salt springs, will be particularly designated.

There will be added to this work, a list of the principal roads and routs by land and water extending from the provinces of New-Brunswick, and Nova Scotia, through the United States and its Territories, to the Pacific Ocean—embracing the main interior cross roads, between the towns and places of most note. Also, will be added, the numerous tribes of Indians, and their manners and worship, west of the Allegheny Mountains to the Pacific Ocean, and numbers of souls, as far as can be obtained from every authentic source.

CONDITIONS.

The work will be printed with a handsome type on good paper and delivered to subscribers neatly bound, and gold lettered for \$1 75—bound in boards, \$1 37½. The 1st volume will contain 400 pages—the second volume will contain about 200 pages at one dollar without the map, and with it \$1 75. There will be Maps of each of the western states and territories, from actual survey, as soon as possible after the surveys are received, of the late purchases from the Indians.

A discount of 30 percent will be made to those who take 25 or more copies.

The author tenders his acknowledgements to those who have patronized him by their very liberal purchases and recommendations of the first addition of his work, and assures the public generally that he will, if his life and health are spared, be indefatigable in his researches, and that the most particular care will be taken, in the revision and correction of the second edition.

Descriptions of new villages, recently established, shall be inserted if forwarded to Cincinnati, postpaid.
