

exchange with them, and no further—By a well balanced system of agriculture, manufactures and commerce, our own market is sufficient for substantial prosperity: and, if we should have any surpluses, they may serve to furnish us with extra articles of convenience or luxury. It is an absurdity that, with such extensive grounds for the rearing of sheep, which cannot be appropriated on any other useful purpose, we should be dependent on any country under heaven for woolen goods much longer. The manufacture of cotton is forcing its way—it is established by suffering; and when our farmers shall make it a general concern to raise sheep, that of wool must follow.—These, with all the heavy works of iron, will give the farmers a market that can be relied on—which, we trust, they will demand of their own government—which foreigners cannot take away.

Annexed is the extract, from an Ohio newspaper, that led to these remarks:

"Charles Himm *nd*, Esq. in reply to a writer in the Washington Reporter signed 'A Retailer,' who made an unwarrantable attack upon the Steubenville woolen manufactory, after disproving many of his assertions, from actually experience, says:

"Your correspondent cavils at the price paid at the Steubenville factory for wool.—Here too my experience assures me he is wrong. I am myself the most extensive wool grower in the county where I reside, (Belmont, Ohio.) I find a market for my wool at the Steubenville factory, and receive payment in cloth at the prices so much reprebended by your correspondent. It is a very profitable business, in comparison with any other that can now be pursued upon a farm—I can clear more money on one hundred sheep, of blood that their wool will average sixty cents per pound, than upon farming one hundred acres of land, in wheat, corn and oats, with the labor of cultivation furnished to me gratuitously. I do not makethis assertion theoretically, but from actual experiment."

NOTE.—The government duties in England upon a number of articles in constant use, are more than double the original cost, as appears from the following table:

Spirits (Brit) original value 1,215.062/-

Produce of the duty, 3,037 655/-

Ditto (foreign) value 469,995/-duty, 2,349,966/-

Tea, value 3,085.764/-

Tobacco and Snuff, value 820,625/-duty 2,488 876/-

Wine, value 529,667 1/-duty 944,501/-

Malt, Hops and Beer, value 8,360,105/-

Duty 7,720 211/-

Salt, value 101,232/-Duty 1,529 862/-

Total value of the above articles, 10,281,451/-

Total duty, 21,156.844/-

The real tax upon *bread stuffs*, by a prohibition of the importation unless when wheat is at a certain price, is, at this time, pretty nearly equal to one third more of cost than they might be furnished to the people at

Town of ALBION, (Il.)

THIS town being fixed on as the seat of Justice for Edwards county a sale of lots by public auction will be held on Friday the 8th day of June, being the second day of the court.—Signed for the proprietors.

JOHN DECKER, Shff. x.o.

June 2, 1821 18-2t

INTERESTING SALE.

The sale of Lots in the Town of Lawrenceville,

3 Lawrenceville,

THE seat of Justice for Lawrence county, will take place on the second Monday and Tuesday in July next, being the 9th and 10th days of the month.

This favorable spot has recently been selected by authority of the Legislature of Illinois, and is handsomely situated on the west bank of L'Emberas river, about ten miles west of Vincennes, on the direct road to Vandalia the seat of government of the state, and to St. Louis, in Missouri, and in the centre of a very thickly settled, rich and fertile country.

It may be safely said, that the natural advantages of Lawrenceville, are without a parallel in the state. Never failing and healthy Springs, Stone Coal and building Rock, are in abundance around it; the

falls in the river afford every facility to water works adjoining the town, where a grist and saw mill are now in rapid operation. L'Emberas is easily navigable to this place, whenever the Wabash can be ascended to Vincennes; the surrounding country is inhabited by thriving & industrious farmers, and is fast increasing in population, riches and consequence—Lawrenceville bids fair to become a town of great manufacturing interest when people will resolve to conform to the situation of their country; when Americans will adopt their only national policy, and learn to exist upon the resources they possess within themselves, then will this place, from its natural advantages, be with few rivals in the west.

The town is laid off on a liberal plan, and offers every inducement to purchasers. Lots may be obtained by application to the Commissioners, or T. Dubois, Esqr. on the premises—mechanics particularly, of every description, are much wanted in the town and neighbourhood, and will find it their interest to attend on the days of sale, as the terms will be extremely liberal.

JOHN DUNLAP,
JAS. LANIERMAN } COMMISSIONERS.
Wm. MARTIN.

Lawrenceville, May 19, 1821. 16-7t

The Printers at Vandalia, and Shawneetown, Illinois, will please publish the above in their respective papers until the days of sale, and forward their accounts to T. Dubois, Esqr. at Lawrenceville, for collection.
