

whom large sums of money were subscribing.

Spain. The cortes has adopted the proposition to make commercial regulations with the *American Colonies*, "which had obtained their independence."

Turkey. The Greeks, after several hard fought battles, have made themselves masters of the important island Negropont. The pacha that lately captured Janina, appears to be in a very unpleasant condition from the risings of the people around him. They had intercepted a large sum of money that was for the payment of his troops. The affairs of the Greeks are evidently prosperous; if they can sustain themselves a while longer, so as to get supplies of arms and the munitions of war, there is very little doubt that they will, of themselves, be able to beat the Turks and establish their own independence.

The St Petersburg Gazette announces that considerable sums continue to be sent for the relief of the Greek refugees in Russia. In addition to half a million of roubles, subscribed for the relief of his countrymen by counsellor Warwari, prince Galitzen has received 900,000 roubles. As this money arrives, it is remitted to count Langeron, governor general of Bessarabia, and to the commander of Bessarabia, for distribution.

The question of war or peace between Russia and Turkey, remains as it was—unsettled. But it is certain that both parties are preparing for war. The Russian armies have been powerfully increased, and an army of reserve 80,000 strong, was to be immediately formed.

Colombia. The principal fort, on the main land, at Porto Cabello, has capitulated to the patriots, under gen. Paez. The officers and men were sent off to Porto Rico, and their arms, were to be restored to them on their arrival there. The garrison of Porto Cabello must now receive all its supplies by sea.

Every thing bears a cheerful aspect in Colombia—the government appears to be firmly established, and supplies, to any amount, is tendered from England. A frigate and corvette, for the use of the republic, was just about to sail from a British port. A son of sir Robert Wilson has entered the military service of Colombia.

Peru. San Martin has resigned the protectorship, and the marquis Torre Tagle has been appointed in his stead. He has issued \$200,000 paper money, and made it penal on those that refuse to take it. Dollars were very scarce. English goods plenty—selling at a loss of from 25 to 30 per cent.

The "vice king," La Serna at the head of the Spanish army, was encamped about 30 leagues from Lima—his force is not stated.

Later—London dates to the 16 of May.

General summary. Many additional particulars of the wretched state of the south of Ireland are received—the people were perishing by famine and the typhus fever. Very large subscriptions had been made for the relief—1,000 tons of potatoes had been purchased at Lieth, and vast quantities of American flour had been sent off from Liverpool for Cork, Limerick and Galway. The primate of Ireland, the archbishop of Armagh, is dead—said to be caused by a mistake of his wife in giving him medicine—[he took two ounces of laudanum!] in consequence of which she had become a maniac. Canning's bill for the admission of Catholic peers into the house of lords, has passed its second reading—for it 235, against it 223—majority 12. It is reported that Mr. Canning will not now go to India and that lord Liverpool will resign. A motion in the British house of commons to produce economy in diplomatic affairs, failed—for it 147, against it 274.

The elections, in France were going on favorable to the liberales. Some disturbances had broken out in Spain—a party of the insurgents had passed into France, and were immediately disarmed by the cordon on the frontier.

Accounts from Turkey furnish nothing new, except that the Christians were murdered at Smyrna at the rate of from 15 to 40 per day—and the general belief that there would be a war with Russia.

SPANISH PRIVATEERS OUT!

BALTIMORE, JULY 2.

To the politeness of the supercargo of the schooner King Solomon, arrived here yesterday, in 14 days from St. Johns, Porto Rico, we are indebted for the following information. The schooner Elizabeth, of Georgetown, Col. with a valuable cargo from Laguayra, has been captured by a Spanish privateer, fitted out at St. Johns, and sent into Mayaguez, P. R.

The U. S. sloop of war Hornet called off St. Johns about the 6th of June, and

sent in a boat. It was reported and believed that the Hornet subsequently recaptured an American brig and schooner which had been captured by the same privateer.

Two large brigs and two schooners had been fitted out and sailed from St. Johns within a month, with orders to capture every vessel coming from the Main, all the ports of which, in possession of the Patriots, were declared in a state of blockade.

This state of things imperiously calls upon the American government to take such measures as will effectually protect their vessels from the spoiliations of the Spaniards in those seas—Amer.

The following gentlemen have offered their services to the people at the ensuing August election, as follows:
