

Manufactures.—It seems, by the annexed article, that the cotton manufacture does prosper on the Whitewater. The establishment of Mr. Rogers is stated to yield a clear annual profit of 25 per cent. upon the capital employed. This fact ought to put at rest the apprehension, entertained by many in this neighborhood, that such an establishment would not be profitable. We never had any doubt on this subject—and our opinion is confirmed by the successful result of Mr. Rogers' enterprise. Combine sufficiency of capital with prudence and skill, and there can be no doubt as to the result.

Franklin Factory.—We have recently several times visited this place of industry, and were highly gratified in finding every thing about, and in the establishment, from the regularity of arrangement, neatness, order and industry, speak loudly in favor of the skill, economy and wise management of the agent, Mr. L. Ingalls.

The Franklin Factory is owned by Wm. C. Rogers, of Cincinnati, and has been in operation about two years, running at present 600 spindles, employing about thirty hands, all but four of which are young women and boys, and nets, (as the agent informs us,) by nothing but spinning, a weekly profit to the owner, clear of all expense, of 75 dollars. The establishment has 6 or seven small dwelling houses belonging to it, occupied by those employed in the factory, and taken altogether, present a handsome little village, enlivened by active industry. Such villages, or of greater extent, we expect yet to see springing up at every eligible mill seat, (and they are numerous,) from near the mouth to near the sources of the Whitewater river.

We are authorized to state that Mr. Rogers intends to apply to the Legislature of this state at the approaching session, for an incorporation of his present establishment, with the privilege of increasing his investment of capital to forty or fifty thousand dollars.—*Brookville paper.*

Imprisonment for Debt.—We rejoice to perceive (say the Editors of the National Intelligencer) that Colonel Johnson of Kentucky, the steady advocate of the abolition of Imprisonment for Debt, has given notice of an intention to introduce into the Senate, a Bill looking to that object.—There is no abuse, practised under the name of justice, that is so unjustifiable. We have known virtuous and good men that were opposed to its abolition, but we never knew one who could give a valid reason for being opposed to it. In our view, reason and humanity equally revolt at it. There should be no imprisonment but for crime. The fraudulent debtor should be punished not because he is a debtor, but because his purpose was defraud. It is reserved to the United States to add this other to the cluster of its honors—that it was the first nation which broke through the prejudices of twenty centuries, to draw the distinction between the liability, to sequestration, of her person and of property. Such a measure would be worth the people which was the first to put a stop to the Slave Trade.

We hope we shall be forgiven by those who do not agree with us on the topic, if we use language which seems to them too strong. It is not too strong for our convictions, nor for what there would be if they could view the matter in the same light that we do.

We are sorry to say that Mr. JENNINGS, one of the Representatives in Congress from Indiana, was much injured yesterday by a quantity of plastering falling on his head, while seated by his chamber fire, at Queen's hotel, where he resides. *Nat. Jour.*

Baltimore, Dec. 15.

Porto Rico.—We had a conversation yesterday with an intelligent gentleman, who has received very late advices from Mexico, and he says his information is, that Commodore Porter is concentrating his forces, with the view of making a descent on the south side of the Island of Porto Rico; and it was thought, he would be able to make a very serious impression.—*Com. Chron.*

West India Trade.—Captain Beecher, of the brig Gold Hunter, at New-Haven, 16 days from St. Kitts, reports that a proclamation had been issued by the Admiral on that station, ordering that all American vessels remaining in the ports of the British islands on and after the first of December, unless detained for ballasting, should be seized and disposed of according to the terms of the act prohibiting the intercourse between those islands and the United States—and also declaring that all English vessels from other islands, with American produce on board, would be seized and confiscated.—*Id.*

New-Orleans, Dec. 8.

We are indebted to Captain Avery of the schooner Alpha, for a file of the *Curacao Courant* to the 4th of November inclusive, containing Curacao dates to the 18th of October. They were received at too late an hour to make extracts for this day's publication. General Paez arrived at Caracas on the 28th September, from a tour through the Provinces of the Apure. General Brisenio Mendez, late minister at the Panama Congress, also arrived there from Bogota on the 28th. Under date of October 2d, General Paez published an address to the Venezuelians, in which he develops the plan of administration, and declares that he belongs to no party but that of the people, and that he will defend no cause but what they adopt. On the 4th he addressed a communication to the Intendant of that Department, in which he details the object of his movement, and declares that he has been influenced by a desire to preserve harmony between a brother people, at all hazards, and by every sacrifice, &c. &c.—*La Adv.*

The packet ship Cadmus, Captain Allyn, arrived at New York, on Friday evening, from Havre having sailed on the 3d of November. Paris papers to the 2d. inclusive, have been received by this arrival.

Captain Allyn was at La Grange on the 24th of October, and left LA AYETTE in good health.

The market of Havre had not improved. Rumors had prevailed in Paris, that the reported settlement of the differences between Russia and Turkey, was incorrect—that the Russians had crossed the Pruth, &c. But the *Etoile*, of the 2d, announces that an express, with the treaty signed at Ackerman, on the 6th Oct, reached the Emperor on the 13th at Twer, and that the ratifications were to be exchanged in three weeks.

Another action took place between the Persians and Russians on the 23th September. The latter were attacked near Elizabethopol by the Persians, under the command of Abbas Mirza and his two sons. Their army consisted of 15,000 infantry, about 20,000 cavalry, and 26 pieces of artillery; but, after a short action, they were completely routed, with the loss of 1100 privates and a number of officers, and abandoned their baggage. The Russians had a Cossack Colonel, 2 other officers, and 43 privates killed, and 250 wounded. A despatch from General Yermoloff, announcing this event, was received at St. Petersburg, 14th Oct, when an illumination and rejoicings took place.

The Constitutional indicates that a change in the measures of the French Government, in regard to Spain, is about to take place, and that France is making an effort to separate from the Russian Alliance and unite in the policy of England.

Advices from Lisbon, of the 18th Oct, state that the insurrection in Algarves had been put down, and the Marquis d'Abrautes, the leader, had fled.

At Barcelona, on the 16th Oct, a conspiracy was discovered against the lives of the Captain General, the Archbishop, and others, who fled for safety to the quarters of the French commander. Barcelona is still garrisoned by 5000 French troops.

The Perseverance steam vessel arrived at Napoli on the 15th Sept and was purchased by the Greek Government for 15,000l.

Female School of Vincennes.

The Sisters of Charity BEG leave respectfully to inform their friends, & the public, that they have recommenced their school. The teachers are the same as formerly, as well as the rules and terms of tuition.

Although we have sustained a great loss by the death of our beloved and much regretted sister Harriet, in domestic affairs; although our sex has been deprived of one of its brightest and most accomplished members; yet we hope the school will not suffer any thing by it since teaching no longer appertained to her department.—We call to our former pupils, their parents or guardians, to attest whether we are deserving of liberal patronage, and qualified for tutoring young females, as well as superintending their education. We pledge ourselves that no trouble shall be spared to fill the expectations of every individual.
