

THE WESTERN SUN.

VINCENNES, SEPTEMBER 8, 1827.

The question is repeatedly asked us "Why the magistrates of this township have not been commissioned?" To which question I am unable to give a direct reply—I know the returns of the election were forwarded by mail on the 26th July last, and should have reached Indianapolis long since; whether the Governor is engaged in forming another "amphictionic league," in order that he may have the satisfaction of admiring its grandeur, or "exhilarated" by the hope of seeing our township freed from such useless and troublesome incumbrances as Justices of the Peace, I cannot tell; therefore, to those interested, I can only say, "wait patiently"—for it has been said by men of other days, and I believe has never been contradicted, that "heavy bodies move slowly," and "great men are never in a hurry" save it be in "escaping from fleas," or "before an election."

LATEST FROM EUROPE.

NEW YORK, August 14.—The Editors of the Gazette are indebted to a commercial friend for the loan of some Antwerp papers to the 27th of June inclusive, received by the brig Hornillos. Their contents possess considerable interest, and translations are annexed. It will no doubt be gratifying to the numerous friends of General LaFayette in this country, to learn that he has been elected a member of the Chamber of Deputies.

The Paris Etoile of the 23d says—"We announced several days since, that a treaty was about to be signed by the five great Powers to save Greece. We have since had to deplore the occurrences before Athens. We are happy in having it in our power this day to announce that decisive orders, in conformity to the preceding arrangements, have been given by Russia, France, and England, to re-unite their respective fleets and separate the combatants. This step, though tardy, may still, it is hoped, be in time to save them." The Observer of Trieste, of June 14.—"On Friday, the 10th, the Turkish fleet of 28 sail, was seen passing between Capo d'Oro and Andres. If it had gone towards the Gulf of Athens, it would have spread great consternation both on sea and land, and would have struck a memorable blow; but instead of that it suddenly took the direction of Suda, in the Island of Candia."

The village of Gousselin, near Grenoble, was totally destroyed on the night of the 14th of June by a water spout, which descended from the neighbouring mountains. Nearly all the inhabitants were killed, and sixty dead bodies had been taken from the ruins.

It is said that General Karaskaki, a few moments before his death, being surrounded by General Church, Lord Cochrane, and several other Greek chiefs, recommended his soldiers to their protection, to whom he gave all his property, amounting to fifteen thousand Turkish piastres.—"As to my son," said he, "I leave him my arms, that the blood with which they are stained may renew his courage." These were his last words. His body was to be transported to Napoli, their to be interred with the same pomp as those of Marco Bozaris and Lord Byron.

There have arrived at Quebec the present season, to July 30th, fifteen thousand sixty-five settlers. This is about double the number of emigrants who arrived in Canada during the same period of last year. The amount of tonnage of vessels arriving in this year is ninety six thousand five hundred and twenty-eight tons; last year to the same date, one hundred and nine thousand six hundred and sixty-five.

Brazil and Buenos Ayres—Captain Hodges, of brig Susan and Phebe, in 82 days from Pernambuco, states that peace was declared between Brazil and Buenos Ayres, two days previous to his sailing.—There were great rejoicings, and business, as well as people, wore a new aspect.

The Charleston board of health, under date of 7th inst. announces the existence of the yellow fever in that city. No other case, it is added, had come to the knowledge of the Board, and that, from its origin, appeared to be of sporadic character.

New York, (Gazette) August 12—We have received by the packet ship York, Captain De Cost, London papers to the 23d, and Liverpool to the 25th of June inclusive.

A change of ministry has taken place in Portugal, which is considered favorable to the Liberals. It seems to have originated from nearly the same cause which produced the recent changes in Great Britain—a dislike of a leading minister,

by his colleagues. General Saldanha is to continue minister of war, and the Marquis Palmeira, (at present ambassador to this country) to be secretary of state for the home department. Of the rest of the ministers, little or nothing is known.

The last Paris papers received at London, stated that Mr. Stratford Canning, the English ambassador, had left Constantinople, but the account was not corroborated by the advices received at Lloyd's, and was not believed.

A Russia fleet was on the way from the Baltic to the Mediterranean, and was expected to touch at Portsmouth. It was rumored that this fleet, and the French squadron fitting out at Toulon, were to join an English squadron in the Mediterranean, the whole to proceed to the aid of the Greeks.

Seeing is believing—Yesterday great numbers of our citizens were gratified at seeing the Steam Grist Mill, erected in this town, upon the original plan of Dr. John A. Wadsworth, in successful operation. The engine worked to admiration, and propelled a stone, of the largest kind, with great ease. It dispenses with the boiler, and is called the Safety Engine.—There can be no doubt of its entire success.

R. I. American.

We understand that orders have been forwarded to gen. Atkinson, (who was, at our last advices, at Prairie du Chien, with a respectable force,) to chastise the Winnebagoes for the recent murders and outrages committed by them; that peace will not be made with them until the murderers shall be given up for trial and punishment, and the territory between Prairie du Chien and Rock river shall be given up, to be held by the U. States, as a pledge for their future good conduct, and to constitute a sort of barrier between our frontier settlements and the Indians. On this subject, we approve the course which has thus far been pursued by the government. If the Winnebagoes should not be punished for the outrages they have committed, they would attribute our forbearance to cowardice, and fresh and aggravated outrages would inevitably follow.—Gen. Gaines, we understand, is clothed with discretionary power, in relation to our differences with the Winnebagoes, and it is not supposed that peace will be made with them, until they shall be constrained to atone for their outrages, and be taught the necessity of respecting the treaties that may be made by them with the government of the U. States.

Louisville Public Adv.

It is stated in the Black Rock Gazette that some rude unfeeling boys a few days since, took a dog, and threw him into the rapids of the Niagara Falls, and that the poor animal in despite of his exertions, was precipitated over the stupendous precipice; when strange to record, the dog was discovered in the tumbling flood below pulling for the shore; upon reaching which, he was found to have sustained only a slight injury in one of his legs.

To Masons and Carpenters.

SEALED proposals will be received between this and the 15th instant, for building a *Methodist Church* in this place; a plan of the house, and description of the work, may be seen at the store of Reynolds & Bonner.

To Saddlers.

RANAWAY from the subscriber, on Sunday the 1st day of April last, JOHN S. DAGGETT, an indented apprentice to the saddling business. He is about 19 years and 6 months old, 5 feet 6 inches high, dark eyes, fair hair and complexion; had on when he went away a new suit of light blue casinet of a good quality, and new black fur hat. The boy left my employment without provocation. Saddlers, and all others, are forewarned from employing, or in any way harboring him, as I am determined to put the law rigorously in force against him, and all those who may thus give him protection. I have been brought to this determination from his base ingratitude to myself and family. He was taken when an orphan destitute of every thing, & uniformly treated as one of the family.
