

From the Potawatamie and Miami Times.

TIPPECANOE LAKES.—It is not generally known, we presume, even by the citizens of our own state, that the Northern section of this state contains not less than 64 lakes. The principal part of these Lakes are near, or in the vicinity of Tippecanoe river, hence, we have given them the name at the head of this article; but many of them may be found near the Met-e-ma-nong, (a tributary of Tippecanoe,) Kan-ka-kee, Yellow river; St. Joseph of the Lakes. St. Joseph of the Maumee, Turkey creek and Eel river. They are of different sizes, from 3 to 15 miles in circumference. Some of the Lakes have out lets, and others have none, at least that have, as yet, been discovered; and what is very remarkable, those that have no perceivable outs, contain fish of a very large size. These fish, we are told, are from 1, 2, 5 and even 15 feet in length. This may be considered a "fish story," but we have been informed by credible persons, that the Potawatamie Indians aver, that they have frequently seen, in one of these Lakes, on Tippecanoe, near the Potawatamie mills, 25 miles North of this place, a fish, which they say is 15 feet long. That there is a fish, or serpent, in this Lake, we have no doubt, but of what kind, we are unable to say. It may be the *Ser-pen-t*, which has made its way through the New York Canal, to these Western wilds. The Indians, however, are not the only persons who have seen the monster; we are told that several of our citizens, who were employed at the Potawatamie mills, have seen, at different times, a fish which they supposed to be 15 feet long.

The Indians, we are told, will not venture themselves on this Lake for any consideration; but one of the citizens above alluded to, however, had courage enough to venture himself in a canoe, and pass round it. He ascertained that the general depth of the Lake, a short distance from the shore, was about 26 feet.

The water in this Lake, and in all of them, is clear and cold, and the land immediately around many of them, we are informed, is of an excellent quality.

The Man-a-too Lake, (or Devil's lake, so called by the Indians,) is situated between Tippecanoe and Yellow river, which we are told has no out let; it also abounds with fish of a large size. The name of this lake was given by the Indians, in consequence of some large bones, which were found in, or near it; the animal is supposed, by the Indians, to have been killed by the Devil; hence, it bears his name. From which we may infer, that these people not only believe in the existence of a devil, but that he actually inhabited this lake.

About seven miles northwest of this place, there is another Lake, which has no out let, but contains very excellent fish; to which some of our citizens frequently resort for the purpose of fishing. Large quantities of salmon, pike, black perch, &c. have been caught in this Lake. How these fish have succeeded in gaining admittance into these Lakes which have no in, or out let, is a mystery which we shall not attempt to solve.

PROSPECTUS:

THE INDIANA JOURNAL,

WILL BE PUBLISHED, AS HERETOFORE, TWICE A WEEK,

During the ensuing session of the Gen. Assembly.

IT is known to the public generally, that the **INDIANA JOURNAL** was published twice a week during the last session of the General Assembly, and that this was the first and only attempt which had been made, in the state of Indiana, to issue a newspaper more than once a week. A very considerable additional expense, over and above the ordinary expenditure of a weekly paper, was necessarily incurred by the semi-weekly publication. Encouraged, however, by the liberal patronage which was afforded on that occasion, flattered by the general satisfaction with which that effort was regarded, and anxious to continue to afford the fullest and earliest intelligence of the Legislative proceedings, we have been induced again to undertake the task—and we do so with every confidence of an increase of patronage, and of presenting additional claims to support. The time, it is confidently believed, has arrived, when a publication of this kind—through the medium of which only a **FULL** and **EARLY** account of the proceedings of our General Assembly can be conveyed to the public—will be sustained without being burdensome to the publishers. The honor of the state, and the interest of the people, alike demand such a publication.

In regard to the accomplishment of the proposed undertaking, we can only pledge ourselves that every possible exertion will be made to meet the public expectation. For a sample of the manner in which the proceedings will be reported, reference is made to our semi-weekly publication of last winter. By additional experience, and an increase of exertion, we hope to discharge our duty still more satisfactorily. Important documents, reports of committees on subjects of general interest, and as full a sketch of the debates as our limits will allow, will be speedily and carefully inserted.

It was our intention, sometime ago, to enlarge our paper to an imperial size, and publish but once a week as usual. Further reflection, however, has convinced us, that the proposed plan of issuing twice a week will be much more satisfactory to the public, although much more expensive to us. By this plan we will not only be enabled to publish nearly twice as much matter, but we can also disseminate it much earlier. It is still our intention, as soon as practicable, to issue our weekly paper on an imperial sheet.

Terms of Subscription.—To those who enter by the year, no increase will be made on the present subscription price, which is **TWO DOLLARS** in advance **TWO DOLLARS AND FIFTY CENTS** at the end of six months, or **THREE DOLLARS** at the end of the year. For three months, including the Session, the price will be **ONE DOLLAR**; and during the Session only, **SEVENTY-FIVE CENTS**—to be paid in both instances at the time of subscribing, or during the session of the Legislature; which it is believed may be generally effected through members and others, whose business will require their attendance at the seat of government during the session. Particular attention will be paid to forwarding papers according to direction.

Gentlemen to whom this Prospectus is forwarded, will confer a particular favour on us, and it is hoped promote the interests of the public, by presenting it immediately to their neighbors and friends, in order that they may have an opportunity to patronize the undertaking should they deem it worthy of patronage—after which they will please to return the same to the Editors at least as early as the meeting of the Legislature.

To the Printers of the United States

FRANKLIN LETTER FOUNDRY.—The reduced cost of the materials used in the composition of Printing Types, and the improvements & increased facilities of casting them, have induced the subscribers to adopt the following list of prices.

For accuracy and finish, the type cast at their foundry is warranted equal to any whatever.
