

## WESTERN SUN

VINCENNES, JUNE 9, 1832.

**APPORTIONMENT BILL.**—The house rejected the amendment of this bill made by the senate, and sent it back to them. The senate gave up their pretended constitutional scruples, and passed the bill as originally reported. Indiana will have seven members in congress, and nine votes for President and Vice-President, which the PEOPLE will give to JACKSON and VAN BUREN.

In the first page of this day's paper I have given all the reports and statements of Indian depredations, both in Illinois, and on the northern frontiers of Indiana.

The Wabash river is at a good navigable stage, and still rising.

I am authorized to announce ELEANOR ELMORE, Esq., of Daviess county, as a candidate for the legislature at the August election.

### VINCENNES RANGERS!!

The VOLUNTEERS in the above company will parade on horseback, opposite General Lassel's tavern, this morning, at 11 o'clock, when a full attendance is requested.

**MILITARY**—Yesterday, at 11 o'clock, (says the Terre Haute Register, of June 2nd,) one hundred of our fellow citizens left this place for the upper country, to act in concert with other military detachments in protecting our exposed frontier. On Tuesday last an order reached this place from the Executive, conveying a requisition for the above number, with instructions to proceed to Lafayette, and there await such orders as the exigencies of the occasion may suggest. In a few hours after the receipt of this order, the whole number was made up, a fact that speaks loudly for their patriotism and public spirit. May success attend them!

**From the Army.**—We learn, (says the Springfield Illinois Herald, of May 31,) from several of the Volunteers from this place, who have returned, that the mounted men under General Whiteside, are disbanded, and that most of them are on their way home. This measure has been adopted in consequence of the difficulty in obtaining provisions, and of co-operating advantageously with the footmen. The infantry under General Atkinson have descended Rock River.—The Indians are divided into several parties, which enables them to act with more facility, and renders a pursuit of them, by a large body of men, unavailing. By their trails, most of them are supposed to have returned to Rock River, and that the remainder have ascended Fox River. A detachment of the Volunteers will remain at Ottawa, to guard the frontier, till the arrival of those who are now on their way from the eastern and southern counties. From present appearances, there is a prospect of a protracted campaign, the Indians still retaining their foothold in the State, and their movements being conducted with great caution and secrecy.

### Commercial Report.

FROM THE LOUISIANA ADVERTISER, OF MAY 16, 1832.

**REMARKS.**—The weather has become dry and pleasant within the last three days, and business has again commenced with activity; a good opportunity has presented itself for completing the cargoes of vessels nearly loaded, which had been retarded by the unsettled state of the weather; accordingly a large quantity of produce has cleared from Saturday last, but the arrivals from the interior have exceeded the exports, and caused a considerable increase in the stock. The Mississippi has risen about two inches, and remains seventeen inches below high water mark.

**COTTON.**—The market since Friday has continued brisk and animated, and considerable sales for shipments have taken place, at the small reduction mentioned in our last; the quantity changed hands is estimated to be from 8000 to 9000 bales, of which the following sales and prices obtained, have come to our knowledge, viz 1300 bales of Tennessee, at 94; 200 Alabama, 9c; 100 Louisiana and Mississippi at 94, 101, and 111; 100 Mobile 94; 200 Arkansas 91 a 94; 100 Tennessee 84 a 9c; 100 Louisiana 10c. It is supposed by many that prices must decline further before any real animation can take place, purchasers being unwilling to transact largely at present rates; in choice cotton nothing appears to be doing, the article is scarce, and would command 12c.

**SUGAR.**—Nothing has transpired since our last to afford an opportunity for remarks, the demand both in the city and on plantations continues dull, and as remarked before, planters are willing to dispose of their crops at a reduction in prices now quoted. We continue our last quotation; in the city 54 a 64; on plantations 5 a 54.

**MOLASSES.**—This article continues in good request, at prices from 19 to 20c, on plantation; 23 a 24c per gallon in the city, but the great scarcity prevents any large transactions from occurring.

**TOBACCO.**—Very little has been done in this article since Friday last, the stock on hand offering no little choice; holders however are firm, anticipating that the imports will fall short 50000 bbls, compared with the last season, and in prices we

have no alteration to notice; sales of several low running lots, averaging \$2 75, were made at 24, 3 and 4 cts, fine bright free leafy lots will bring 24, 31; fat descriptions continue scarce; sugar wrappers are in good demand from 5 to 12 cts, according to quality.

**FLOUR.**—Since our last a reduction of 25 cents per bbl. has occurred, at which price some large sales have been made for shipping and bakers' use. The arrivals during the week have been very large and exports limited.

**LARD.**—For good leaf a fair demand still exists for shipping, at present quotations, 71 a 74c; we hear of a sale of 1500 kegs good leaf at 74c.

**PORK.**—The arrivals of this article at the present time are heavy, and the demand for shipping has subsided, during the last week; we continue former quotations.—Mess inspected, \$11 50; Prime inspected, 9 50; Cargo inspected, 7 50.

**WHISKEY.**—The large supply received into the market for the last few days, and the daily expectations of a further increase have caused a considerable falling off in the price; we now quote 32 a 33 cents, and looking down.

**BUTTER** (Goshen) is very scarce, and improving, we now quote 33 a 35 cts.

**LEAD.**—The last sales, to our knowledge, were made at 54 cts. No arrival this week.

**BEES-WAX.**—A fair supply of yellow remains in market, the demand continues good; for white very little demand.

**COFFEE.**—A considerable stir has been manifested in the market this day, and some large lots of Havana green have changed hands at a small advance on prices formerly offered; the sales to our knowledge were at 134 a 134 cents.

**CORN.** in ears, we have to notice a reduction in price; 87 cts per bbl. is now asked; shelled in sacks containing two bushels, we quote as before, \$1 124, a great quantity in ears have arrived during the week.

**SALT.**—A large lot of Liverpool ground, has been disposed of at \$1 65; Turin Island remain without change.

### PROPOSALS

FOR AN

### EXTRA GLOBE.

A severe political conflict is approaching. A "New Coalition" of factious men are managing at Washington to accomplish their selfish ends at the hazard of their country's peace, prosperity and honor. Extremes have met. The Champion of an unreasonable Tariff, and the Author of Nullification, having no principle in common but a restless ambition, are found united in their efforts to baffle the President in his foreign negotiations, and fill our country with discontent and anarchy.

It is time for the people to take the alarm! The causeless rejection of our Minister to Great Britain, was but the first overt act of this "Holy Alliance" against every thing that is pure in our government, and patriotic in its administration. It will soon be followed by others equally hostile to the interests of the people, and insulting to the President of their choice. Instead of devoting themselves to the promotion of justice, harmony and peace, a band of political managers in Congress are spending sleepless nights and anxious days in devising means to array against the President all the selfish avaricious, corrupt, and corrupting influences which pervade the Republic. With these they hope to vanquish the conqueror of Europe's bravest armies, and close in obloquy and disgrace, the public career of him who "has filled the measure of his country's glory."

What are we to expect from the success of this "new coalition"? Will our foreign relations be better managed? Will our laws be executed with more fidelity and energy at home? Will our agriculture, commerce and manufactures flourish more? Will our national debt be sooner paid? Is there hope that the train of public affairs in general would progress better or so well? No—it is not for the benefit of the country that the "new coalition" has been formed; nor is any improvement in the public prosperity expected from its success. The struggle is for power, for place, for the public treasure.—Men who want foreign missions, judgeships, and other valuable offices, unable to swerve the stern integrity of Andrew Jackson, and sell to him their influence and support, have united with other aspirants to the Presidency in all sorts of combinations to destroy his popularity, and defeat his re-election, that his

place may be occupied by one with whom they may bargain for promotion. It is these men only—men who would prefer "war, famine & pestilence, or any other scourge," to their own exclusion from power, that are seeking to fill the country with complaints and factions.

It is the interest and desire of the people to preserve the administration of their government in honest hands. To effect this object, it is only necessary that they guard against deception, and take steps to procure correct information in relation to the administration. They will find Andrew Jackson as true to his country now, as he was when he put to hazard fortune, fame, and life, in repelling our invaders. They will not be content with his simple re-election by the same vote which placed him in the Presidential chair; but, by securing him an increased majority, they will reward his patriotic devotion, and enable him to finish his career of public usefulness in glory and in triumph. As in the case of Washington, so in that of Jackson, they will take care that our Republic shall not be stigmatized with the imputation of ingratitude.

To enable every freeman to obtain correct information during the impending conflict, we propose to publish thirty numbers of an EXTRA GLOBE, commencing about the first of May, and continuing until the election of Electors, for one dollar. It will be a large imperial sheet, entirely filled with useful matter. One number will be published after the election, giving the result in every State, as much in detail as possible.

It will be chiefly devoted to a vindication of the character, fame, and principles of ANDREW JACKSON, with a view to his re-election. It will promptly repel the slanders and falsehoods which may be promulgated to destroy him, and hold the "new coalition" up to merited detestation.

From the nature of the undertaking, all subscriptions must be paid in advance, and no paper will be sent until the money shall be received.

To enable all subscribers to begin with the first number, we beg our friends who may receive these proposals, immediately to raise a subscription and make returns.

### SAW MILL

### AND LAND FOR SALE.

THAT valuable property situated at the Falls, on the west fork of White River, on the road leading from Louisville to St. Louis, 4 miles west of Washington, and 16 miles east of Vincennes, Indiana, consisting of 121 ACRES OF FIRST RATE LAND, on which a SAW-MILL has been erected together with dwelling and other

HOUSES, (belonging to the estate of Michael Murphy, dec'd.)

The very abundant supply of water power for machinery to any extent, together with its situation on a navigable stream to which steamboats have access, and 200 miles above, in the centre of a rich grain growing, and rapidly improving district, renders it one of the most desirable situations in the western country for the employment of capital.

Persons wishing to purchase, and desirous of information, can apply to the undersigned, living in Washington.
