

## SAY!

(By CHARLES J. ARNOLD)

I understand my old friend Phil Maxwell, who has been "Spencering" on the Spencer World for the past several years, has let by gones be by gones and has left Spencer for parts not unknown. Phil, as I understand it, has accepted a position with the Chicago Tribune. From Spencer World to the Chicago Tribune is some big step, yes.

H. Weir Cook, DePauw graduate, World War aviator and now vice president of the Curtiss Flying Service in Indiana will be here Wednesday as a speaker at the Rotary Club. Although the severe frost of last night has about put an end to "fly time" for this season, we will still consider it quite a treat to have Mr. Cook with us and hear what he has to say about whatever he desires to talk about.

I have been threshing clover seed for the past two days. Excuse me, I mean "hulling" clover. I always did get my agricultural terms twisted. And, believe me, I had some mighty good men on the job. The four lead men in the gang are Reuben Masten, "Gillie" Ruark, Walter Clift and Herschel Ruark. John McCoy, who also is with us, swings a nasty hay fork. There is only one thing I have been unable to understand. And that is why "Gillie" Ruark ever gave up farming for a job with the Interurban, as station agent at Fillmore. As I see it he is entirely too good a farmer to waste his time at any other vocation. He is off on his "vacation" this week, and so as to thoroughly enjoy it he is out with a threshing—I mean "hulling" gang. Now can you beat that?

The World's Series starts today. And there is no telling when it will stop.

But why not, if the customers are willing.

The Weather—Ain't Nature grand.

I'm giving you a little tip on the World's series. The games are not played for fun. It's the cash customers the boys are after.

And in the World's Series, there is hardly anything but cash customers.

It is going to be a funny World's Series without Babe Ruth in there slugging out a home run now and then. Babe says he "likes" the athletic in the series. Well, Babe has a lot of folks who will agree with him on that, but there are about as many others who like the "Cubs".

Well, how about another little prison mutiny or hammer murder. Sensational news is getting a little scarce.

Earlham comes next Saturday for the annual Old Gold Day football game. Let's hope that it will not miss up the whole day by defeating Coach "Bish" Hughes', Tigers. But, no doubt, Mr. Hughes will look after that.

## EX-CHAUFFEUR FOR GOVERNOR GETS LIFE TERM

### PAROLED CONVICT FOUND GUILTY AT BRAZIL OF DRIVING AUTOMOBILE WHILE INTOXICATED—WAS PAROLED LIFER

BRAZIL, Ind., Oct. 7.—Henry Des camps, chauffeur and camp cook for former Governor Ed Jackson during his cutings in Dunes Park, who was paroled from a life sentence for wife murder by Governor Jackson on Christmas day, 1926, was sent back to the Indiana state prison today to spend the rest of his natural life.

Descamps pleaded guilty in the Circuit court this afternoon to driving an automobile while intoxicated and was sentenced to six months on the penal farm and fined \$500. The sentence, however, was not invoked for J. W. Lawrence, parole agent of the Indiana state prison, was in court and the prisoner was turned over to him for violation of his parole.

Since the new law regarding parole practically eliminates Descamps from receiving any further concessions from the parole board, he is faced with the prospect of spending the rest of his life behind the prison bars.

In 1911 Descamps shot his wife to death, shooting her in the back, and hid out in an abandoned coal mine for several days before he was captured. He was convicted of murder in the first degree, seven of the jury voting for the death penalty.

## LEBANON JAIL ESCAPE TAKEN BACK TO CELL

### CHARLES E. OTTINGER CAPTURED IN CLARK COUNTY BY SHERIFF—STOLEN AUTOMOBILE ALSO FOUND

LEBANON, Ind., Oct. 7.—Charles E. Ottinger, 34 years old, who escaped from the Boone county jail eleven days ago a few hours after being sentenced to ten to twenty-five years for auto banditry, was again a prisoner in the local jail tonight. Sheriff L. M. Sandlin returned Ottinger from Jeffersonville near where he was arrested today by Al Hughes, Clark county sheriff.

Hughes captured Ottinger at the home of Stanley Stoner, son of John Stoner, who was Ottinger's cell mate at Michigan City two years ago. Ottinger offered no resistance. Near the house was the automobile which he had stolen from the private garage of Luther Laughner near Whites-town in making his escape.

Sheriff Sandlin paid Hughes a reward of \$100 for capturing the prisoner. It was a "double header" for the Clark county sheriff who found several jugs of liquor in the Stoner home while arresting Ottinger. Stanley Stoner was charged with violating the liquor laws.

Ottinger still had in his possession the makeshift key which he had used in escaping here. He had fashioned a key from a piece of common wire and tonight demonstrated for the officers and newspaper men how easily he had picked the lock of his cell.

A guard was placed over Ottinger's cell tonight. The prisoner will be taken to Michigan City tomorrow. During his liberty he worked as a laborer on a farm near Bethlehem, Clark county, he said.

## TWO MEN PLEAD GUILTY IN LOCAL COURT

### CHARLES FRANK AND RICHARD EVERETT COME CLEAN AND TELL TRUTH TO LOCAL AUTHORITIES TODAY

### STOLE CAR IN MICHIGAN

Bandits Caught at Roachdale Following Theft of Ten Chickens from Four Farms Last Monday Night

James Potts, 21, of Paducah, Ky., and Richard Everett, 20, of Smithland, Ky., entered pleas of guilty to charges of second degree burglary in the Putnam Circuit court this afternoon and were sentenced to serve 2 to 10 years in the Indiana State Reformatory. The law under which they were sentenced was passed by the 1929 Legislature. In addition each was fined \$5 and costs.

The young men admitted stealing chickens from four different farms near Roachdale last Monday night, September 30, while enroute from Jackson, Mich., to their homes in Kentucky.

The young men attracted attention in Roachdale when the car they were driving broke down and a sack of chickens was seen in the car. Deputy Sheriff Alva Bryan was called and arrested the young men. At that time Potts gave his name as Charles Frank of Indianapolis.

After a week in jail the young men decided to come clean and this morning told their story to Prosecutor Marshall Abrams. They said they had stolen the Whippet car from a barn in Buchanan, Mich., and were enroute home when they stole the chickens here. They said they came to Roachdale after detouring from State Road 31 north of Indianapolis.

The youths said they had found the Indiana license plate the car carried at the time of their arrest. They stole the chickens when they ran out of funds, they told Judge Hughes. Potts said he was employed in the Jackson Steel Mills at Jackson, Mich., but had quit his job and helped steal the car at Everett's suggestion. The young men had told several conflicting stories since their arrest, and several different charges from petit larceny to vehicle taking, had been filed against them.

Charges of second degree burglary were filed against them this afternoon and the men pleaded guilty. Chickens stolen belonged to Sophie Blyades, George Jeffries, Robert S. Crosby and George Dean. Ten in all were taken. The stolen car belonged to W. T. Beardsley of Buchanan.

CRAWFORDSVILLE, Ind., Oct. 7.—Perl Grimes, slayer of Virgil Young 21-year-old farm hand who was killed at the Grimes home last spring, entered a plea of insanity today as his murder trial was opened before Judge Edgar A. Rice in the Montgomery Circuit court.

On account of the illness of two members of the regular petit jury the morning session was adjourned after Grimes, through his attorneys had entered the plea of not guilty by virtue of insanity.

A special venire of twenty-five names was drawn and the examination of prospective jurors was begun. It appeared that the taking of evidence might not be begun before the middle of the week.

The Grimes case, which resulted from an attack launched by Grimes on Virgil Young and Charles Carter occurred in May when Grimes went to the home of his estranged wife near this city. According to statements given Sheriff Tom Rice, Grimes said he intended to kill Carter, whom he charged with having broken up his home and that the shooting of Young was accidental.

Britt claimed he fired in self defense but police said an examination of a gun found on Goldberg disclosed it had not been used.

**TRIAL OF FALL OPENS TODAY BEFORE JURY**

**MIXED JURY TO HEAR EVIDENCE IN FAMOUS BRIBERY CASE—REVOLVES AROUND LITTLE BLACK BOX**

WASHINGTON, Oct. 8.—(INS)—As far apart as the poles were the two stories told the jury sitting in the Fall bribery case today.

From Owen J. Roberts, special oil prosecutor, they heard a tale of felony and secret negotiations wherein a "little-black bag" containing \$100,000 in cash reached the hands of former secretary of interior Albert B. Fall and a lease for invaluable federal oil reserves was signed over to E. L. Doheny, the California oil baron.

From Frank J. Hogan, chief of defense counsel, they heard a story of an innocent loan "from one old friend to another" and a valid oil deal that was highly profitable to the government.

By **GEORGE E. DURNO**  
International News Service Staff Correspondent

WASHINGTON, Oct. 8.—Washington's favorite drama, running intermittently now for the last six years, took the stage again today at district Supreme Court for still its latest revival as the bribery trial of former secretary of Interior Albert B. Fall, actually got under way.

The jury before which it will be unfolded has been selected and to make sure that nothing distracts their attentions from the words of the actors as spoken in the court room, and those words alone, they will remain "locked up" for duration of the case.

Today, the plot will be out-lined to them. It is still the same as it was when the Senate uncovered the oil scandals of the Harding administration back in 1923, but it is still just as serviceable as ever, to-wit:

Was the \$100,000 in the "Little Black Box" that passed from T. L. Doheny, the oil baron, to Fall a bribe to enable procurement of a lease on the naval oil reserves, or was it just an unsecured note from "one old friend to another?"

The mixed jury—there are four women and eight men, one of the latter a negro—will hear from Owen J. Roberts the special oil prosecutor, a most emphatic statement that it was an outright bribe, evidence of which every effort was made to conceal and just as eloquently Frank J. Hogan, chief defense counsel, will assure them it was a loan made on the basis of friendship that started back in the old days when the two men prospected together in the then wild West.

Let's talk about your **900 meals**

Yes, 900 meals! — at the rate of 3 a day you'll cook at least that many in the coming year. The average woman spends from 1,100 to 2,200 hours each year in the kitchen, depending almost entirely on the kind of cooking equipment she uses.

**MODERN GAS RANGES**

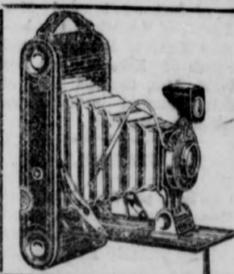

Priced well within your means. All may be purchased for a small down payment, the balance on easy terms. An allowance will be given for your old cooking equipment—regardless of its age or type.

Does your kitchen get unbearably hot? The stove is to blame, of course. Must you waste hour after hour fussing with the oven when you bake? Is the heat slow in coming up? Many hours are frittered away on these trifles—when you might be engaged in pleasanter tasks... shopping... sewing... reading... visiting... free to do as you please!

Install a modern Gas Range and you'll have this freedom. Gas cooking is FAST. Press this touch-button lighter and there's your heat. A lever regulates it. No need to watch the baking—the Oven Heat Regulator keeps the temperature at the correct degree. Why not come in today and see our display?

PRISON-MADE GOODS SHOULD BE MARKED COMMITTEE REPORTS

WASHINGTON, Oct. 7.—(INS)—Prison-made commodities should either be tagged to distinctly identify them from the products of free labor or entirely removed from the open market.

This was the high-spot in a report submitted to Secretary of Commerce Lamont today by a committee of penologists, manufacturers and labor organizations, selected to make a survey of the public sale of convict-labor products.

For several years there has been a keen agitation on the part of producers and labor for the elimination of convict goods from the market, as they can be sold far below the price of free-labor goods.

"Tagging prison-made goods will serve to eliminate one of the chief objections raised in connection with their marketing," the committee said.

"The differentiation obvious to the buyer would make it possible to sell similar goods even in the same retail store with different prices from the prison products and the 'free' goods. The only alternative would be the removal of prison-made products entirely from the open market."

The report revealed that the ratio of prison goods to the total manufacturing output of the country is negligible.

Full information regarding these examinations can be obtained from the United States Civil Service Commission, Washington, D. C. or from the Secretary of the United States Civil Service Board at the post office or customhouse in any city.

# That Brutal Overseer Roasts in Hades! AN ANCIENT PREJUDICE HAS BEEN REMOVED

Wise legislation has halted the ancient prejudice that dictated the exploitation of child labor for selfish gain. Guided by AMERICAN INTELLIGENCE it has routed greed. No longer are little children forced into slavery.

**"toasting did it" —**

Gone is that ancient prejudice against cigarettes—Progress has been made. We removed the prejudice against cigarettes when we removed harmful corrosive ACRIDS (pungent irritants) from the tobaccos.

YEARS ago, when cigarettes were made without the aid of modern science, there originated that ancient prejudice against all cigarettes. That criticism is no longer justified. LUCKY STRIKE, the finest cigarette you ever smoked, made of the choicest tobacco, properly aged and skillfully blended—"It's Toasted."

"TOASTING," the most modern step in cigarette manufacture, removes from LUCKY STRIKE harmful irritants which are present in cigarettes manufactured in the old-fashioned way.

Everyone knows that heat purifies, and so "TOASTING"—LUCKY STRIKE'S extra secret process—removes harmful corrosive ACRIDS (pungent irritants) from LUCKIES which in the old-fashioned manufacture of cigarettes cause throat irritation and coughing. Thus "TOASTING" has destroyed that ancient prejudice against cigarette smoking by men and by women.

#### STANDARD OIL COMPANY SPONSORS BROADCAST

The Standard Oil Company (Indiana) has made arrangements with Professor Stock to resume the Sunday afternoon broadcasts of the Chicago Symphony Orchestra. The series will start on October 20, from 2 to 3 o'clock, Chicago time and will be given each Sunday afternoon following, for a period of six months over WGN, Chicago; WWJ, Detroit; WTMJ, Milwaukee; WOC, Davenport; WHO, Des Moines; WOW, Omaha; WDAF, Kansas City; KSD, St. Louis; KSTP, St. Paul; WEBC, Duluth-Superior.

The Standard Oil Company's continued sponsorship of these concerts is a response to the articulate appreciation of the audience who listened to last season's series. The mounting vigor of the listeners' hosannas for Professor Stock's offerings seem to indicate that since the air was first tapped for its sounds, no program has been more cherished than the Sunday afternoon broadcast of the Symphony Orchestra.

##### THE GRANADA Janet Gaynor and Charles Farrell in "Lucky Star"

Two of filmdom's greatest favorites, Janet Gaynor and Charles Farrell, made their initial talking picture appearance in "Lucky Star," Fox Movietone feature which opens today at the Granada Theatre. Frank Borzage directed the production in his usual masterly manner, we hear from preview sources, from the story written by Tristram Tupper, the theme expressing the idea that "the things we create, re-create us."

Early sequences of the picture show Charles Farrell as a sturdy young country boy meeting Janet Gaynor, a grimy and none too honest little farm maid, on the eve of Farrell's going to war. Overseas he does his bit and comes home to Provert Hollow a cripple from the waist down. His mental view of life erases all thought of physical handicap until he finds himself falling in love with the now more mature little girl he met just before he went to war.

He virtually remakes the little girl, who is swayed by the boy's rosate view of life. Then when he
