THE BOY AVIATORS

Their Polar Dash, Or Facing Death in the Antarctic.

If you were to hear that two boys accompanying a South Polar Expedition in charge of the aeronautic department, were to penetrate the Antarctic regions—hitherto only attained by a few daring explorers—you would feel interested, wouldn't you? Well, in Captain Lawton's latest book, concerning his Boy Aviators, you can not only read absorbing adventure in the regions south of the eightieth parallel, but absorb much useful information as well. Captain Lawton introduces—besides the original characters of the heroes—a new creation in the person of Professor Simeon Sandburr, a patient seeker for polar insects. The professor's adventures in his quest are the cause of much merriment, and lead once or twice to serious predicaments. In a volume so packed with incident and peril from cover to cover—relieved with laughable mishaps to the professor—it is difficult to single out any one feature; still, a recent reader of it wrote the publishers an enthusiastic letter the other day, saying: "The episodes above the Great Barrier are thrilling, the attack of the condors in Patagonia made me hold my breath, the—but what's the use? The Polar Dash, to my mind, is an even more entrancing book than Captain Lawton's previous efforts, and that's saying a good deal. The aviation features and their technical correctness are by no means the least attractive features of this up-to-date creditable volume." Sold by booksellers everywhere. Hurst and Co., publishers, New York.

For Women Who Care

Of course you use an antiseptic in your family and in the care of your own person, and you want the best. Instead of what you have been using such as liquid or tablet antiseptics or peroxide, won't you please try Paxtine, a concentrated antiseptic powder to be dissolved in water as needed. Paxtine is more economical, more cleansing, more germicidal and more healing than anything you ever used.

Paxtine
ANTISEPTIC

In the toilet—to cleanse and whiten the teeth, remove tartar and prevent decay. To disinfect the mouth, destroy disease germs, and purify the breath. To keep artificial teeth and bridgework clean and odorless. To remove nicotine from the teeth and purify the breath after smoking. To eradicate perspiration odors by sponge bathing.

As a medicinal agent for local treatment of feminine ills where pelvic catarrh, inflammation and ulceration exist, nothing equals hot douches of Paxtine. For ten years the Lydia E. Pinkham Med. Co. has been regularly advising their patients to use it because of its extraordinary cleansing, healing and germicidal power. For this purpose alone Paxtine is worth its weight in gold. Also for nasal catarrh, sore throat, inflamed eyes, cuts and wounds. All druggists, 25 and 50 cents a box. Trial box and testimony of 31 women free on request.

BUILDING ADDITION AT CAMP GROUND

New Building Being Erected By the Holiness Association — Camp Meeting Begins August 29 For Two Weeks.

The Eastern Indiana Holiness Association is making some showy improvements at their camp meeting grounds at Cleveland. A new building 24x24 and two stories high is being erected at the entrance to the grounds. This is to be an office and book building and general information bureau. Miss Myrtle Crider, who has been elected general secretary, will have her office in this building. The entrance to the grounds will be through this building and the cars will stop at the church west, which will be nearer the entrance. The building will be finished nicely and will be a credit to the association.

The summer meetings will begin August 29th and will continue until September 10th. They will bring many people from a distance, as well as attract people from all over this county.

LOOK BEFORE YOU TURN.

The writer stood in one spot on Saturday afternoon and witnessed two "near" accidents which were due to pure carelessness. Others of a similar nature can be seen half a dozen times on Main street alone in the course of a day. These two will demonstrate the nature of the others:

A man in a buggy was driving west on Main street and suddenly, without looking around, or even to the side, he jerked the horse about, turning directly into the path of an automobile, which happened to be going at a gait slow enough to be stopped before the rig was struck.

Another man was driving west on the north side of the street and when about half across State street he seemed to take a sudden notion to go south and jerked the horse suddenly in that direction just as an automobile came up, and was kept from smashing the buggy by the driver, who was calm and quick enough to turn his machine in the same direction the buggy was going, and run along a few feet by its side until he could stop his machine.

Such things as these can be witnessed many times each day if one will observe, and a majority of them are due to pure carelessness that would only take a few seconds to correct. One seeing these occurrences time and again, wonders because of the comparatively few real mixups and dangerous accidents.

WENT FOR A PICNIC.

Spot Cash Proprietors and the Employees Spent Day in Barnard's Grove.

Quite a large number of the Spot Cash Co-Op. Store people and their guests enjoyed a picnic Sunday.
