TO LOAN--MONEY ON JEWELRY, CLOTHING, Furniture, etc., at City Loan Office, at 66 North Illinois street. 117

THE REMEDY.

Egypt's Ruler and His Riches--Ex-Cousin General Butler's Talk About Him. Said Pasha is described by Mr. Butler as a person of culture; speaking French with ease, and English a little; fully educated at the military school in Paris, and wearing the dress of Christian people. He is a shrewd and rich merchant, and not a soldier by profession; and his income and the luxury of his court exceed the tales of Haroun Al-Raschid's splendor. He has an income of \$10,000,000 per annum, or more than half as much as the whole annual expense of the United States Government, inclusive of the cost of the public debt. To keep our 50,000 or 60,000 office-holders, our army, our navy, do the public building, etc. etc. requires \$1,000,000,000 per annum. Said Pasha has no more subjects than there are citizens of New York State; has, by Mr. Butler's careful estimate, between \$7,500,000 and \$10,000,000 a month, or above \$300,000 a day. He has twenty-seven palaces, all the corporate property, or that which with us would be controlled by corporations--in the country, and no laws whatever but what he can think of or will from day to day. He has four wives and a vast harem, and being an unwise husband, does not know all of his own children; yet he is temperate and prudent, and still he is not happy. He wants to be a King, but the domination to Turkey sits upon his dreams like the gobbler on the full boy after Christmas-dinner. Turkey is put above him by European treaty which dates back to 1840, and from the treaties of Europe--

Whatever link you strike, Tenth or tenth thousand breaks the chain alike. To neutralize Turkey, the khedive has been for a long time conciliating Europe, and the power he sets most store by is Russia. The Consul-General at Cairo are men of the first-class, and the greatest astuteness, being really Foreign Ministers without the name, as the khedive is only Viceroys. Mr. Butler says he could have had absolute power, under this Viceroys, over the life of any American in Egypt.

People who advertise but once a year are reminded that the average man or woman does not remember "things in the paper" for more than nine months, at the outside.

Custom Revenue Receipts--Secretary Richardson's Views--Foreign Trade--Boss Shepard's Fortune--Etc.

WASHINGTON, October 28.--The Secretary of the Treasury stated yesterday that the customs revenue for the current month would be about \$12,000,000, being a falling off from the estimate of some \$2,500,000. There was a decided improvement in the receipts during the past week, and the Secretary expects November to do better than October. Half a million of dollars was received from the internal revenue, making six millions thus far in October. The total receipts from this source will approximate seven millions. The returns of customs for the third quarter of 1873 fall off three millions dollars in receipts for the month of September. They were \$15,963,000, as against \$19,441,000 for the corresponding month of last year. The entire receipts for the fiscal year ending 30th of June, 1873, were \$188,000,000, against \$218,000,000 for the previous fiscal year.

The exports for the year ending June 30, 1873, were increased \$78,000,000 over the previous fiscal year. The officers of the Statistical Bureau of the Treasury appear to think that the books show a favorable condition of the foreign trade, and that, counting in the special export, there will be a balance in favor of most of the monthly totals this year.

The closing up of the September quarterly accounts discloses the fact that the Government loses by the failure of Clews, Habicht & Co., their London bankers, the sum of one hundred and fifty thousand dollars, being the funds of the consular and diplomatic service. Morton, Rose & Co. will hereafter act as bankers for the Treasury and State Departments. The financial agents for the Navy Department, and will thus have the lion's share of the pickings.

New silver coinage will be the first issue of silver coins of the metric standard, established by the last Congress. The value will be one-half of one per cent. in excess of the former standard.

Boss Shepherd, Governor of the District, is said to have made eight hundred thousand dollars by real estate operations during the period in which he has been a member of the Board of Public Works.

Secretary Richardson says he will begin at once to pay out silver in sums not exceeding five dollars, where requisitions upon the Treasury call for fractions of five dollars. Under no circumstance is silver to be exchanged for greenbacks or fractional currency, as supposed by many. No such purpose has been at any time entertained by the Secretary. It would, he says, be absurd to even think seriously of such a thing, in view of the fact that, in the first place, there are only from \$25,000 to \$300,000 worth of silver coin now available, and in the second place, it would be impossible to coin enough silver in less than five years to meet the demand for silver coin if a general full payment and exchange for greenbacks and fractional currency were attempted. Therefore it will be seen that the much talked of "resumption" is a pipe dream.

Judge Richardson says, however, that if the people will be reasonable and not make a rush for the little silver that the Treasury may have to pay out, the action of the government will prove of ultimate assistance and value to the country; but if a rush is made for this coin for the purpose of hoarding it the supply will soon be exhausted, and no general benefit will be felt. He has received telegrams from numerous banks asking him to let them have as high as ten thousand dollars worth of silver coin, but those are the same banks that are hoarding their proposed exchanging silver for greenbacks. The fact is, the Secretary says, there has been no silver coined this month, while there has been about ten million dollars in gold coined at the Philadelphia mint alone. The demand for gold is very large, and almost the utmost capacities of the mints will be exerted to keep up with it. When the demand for gold coinage lessens silver will be coined as rapidly as possible.

Ex-President Johnson has become uneasy and impatient about his little fortune which is held by the suspended First National Bank of this city, and he called on the Comptroller of the Currency to-day to obtain information regarding the condition of the bank and the probability of its ability to pay creditors. Johnson and his late Secretary the Treasurer McCulloch, are in the Comptroller's office for the first time within about five years.

President Grant has accepted another invitation to attend a show. This one is to be held at Baltimore, under the auspices of the National Institute. President has promised to attend the Exposition next Thursday.

NEW YORK CITY.

A New Ocean Cable in the Interest of Railroads--Condition of the Union Trust Company--More Trouble Coming--Etc.

New York, October 28.--A company has been formed in England with a capital of \$2,000,000 for the purpose of laying a cable between the United States and England, the terminus on this side to be somewhere on Long Island. The Board of Directors is made up of prominent English and American capitalists. A large portion of the cable is said to be already constructed, and all the contracts if not now signed, soon will be. When laid the cable will be connected with the instruments of the Automatic Telegraph Company, whose wires will be extended along the lines of the Erie, Baltimore and Ohio and Pennsylvania Railways. It is even asserted on good authority that the President of the Pennsylvania Railway has already given orders for extending the wires of the Automatic Company along his road. The object of the co-operation of railways with this enterprise is understood to be to prevent any espionage of rival railroad enterprises over particular messages relating to their business.

The Times to-day says the Receiver of the Union Trust Company has so far had very little success in calling in loans and getting money together for the purpose of resuming business. The fact is the Union Trust will not resume. They have taken notes at three,

THE TELEGRAPH NEWS. Outstanding legal tenders, \$360,374,888.

The bank of the Continent has raised the discount rate. The Senatorial Transportation Committee visits Louisville to-day.

Fort Jefferson, Florida, with its quarters, barracks and storehouses, suffered damage to the extent of \$100,000 by the hurricane of the 6th.

There are no tidings of the steamship Isabella, nearly a month out from New York. Those immediately interested fear the vessel is lost.

Ten thousand pounds sterling were received at the assay office at New York yesterday, making a total of \$1,547,000 since October 6.

William H. Porter, Chief Justice of the Superior Court of Chicago, was found dead in his bed yesterday morning. He had evidently died of apoplexy.

The indications are that in disposing of the affair growing out of the Canadian Pacific railroad scandal, the Dominion Parliament will sustain the government.

The mortality from yellow fever at Memphis from noon Sunday to noon Monday was thirteen, a falling off from the previous twenty-four hours of thirteen.

The Hon. John P. Potter, of Roger A. Pryor bowie knife notoriety, is a candidate for the State Senate on the Liberal Democratic ticket in his district in Wisconsin.

The managers of the Conservative campaign in Virginia claim that they have completed the canvass of the entire State, and that the Democratic majority will be between twenty and thirty thousand.

The Baltic Gazette says the Russian Government has been obliged to order arrests among the Roman Catholic clergy in the diocese of Chełm. A vast political-religious conspiracy has been discovered among the clergy.

Mrs. Yano, the wife of the Japanese Charge d'Affaires at Washington, arrived at San Francisco by steamer yesterday afternoon, to join her husband. She is the first Japanese lady who has ever left her native country to visit foreign lands.

A difficulty occurred yesterday between Dr. C. M. Gray, the proprietor of the Mammoth Cave Hotel, and E. Wilcoxen, an agent for the Cave, in which, pistols were used, and several shots fired by both parties. Graves received a wound in the bowels, which it is thought will prove fatal; Wilcoxen is unhurt.

As a street car was crossing the track of the Baltimore and Ohio Railroad, in Wheeling, West Virginia, on Saturday, a passenger train struck the hind end of the street car, the passengers becoming frightened, jumped and one man, named Adam C. Lozeur, ran over and so badly injured he died in four hours.

At Pittsburg yesterday Patrick Coyne fired three shots at his wife, two of them taking effect, one in her left side and the other fracturing her skull, wounding her seriously, but not fatally. Cause, jealousy. Coyne was arrested and will be held until the result of his wife's injuries can be ascertained.

The guarantors of the Exposition might as well make the best of a bad bargain and let it be rendered. They should be cautious, however, and arrange matters in such a way that they will get the profits that may accrue from subsequent Expositions.

Mr. English's remarks at the meeting of business men on Saturday night, that the only immediate remedy for the times and the one that would soonest give relief was for each individual to pay his debts as far as possible, even at a sacrifice, was eminently correct.

It seems to us very bad policy for the City Council to vote public money for the relief of Memphis. It is true the cases are urgent. The sympathy of every person must be excited, and every heart must bleed over the frightful calamity which has visited our sister city.

The trial of Taintor, defaulting cashier of the Atlantic Bank of Brooklyn, commenced yesterday. His stealings amount to \$400,000.

Fort Jefferson, Florida, with its quarters, barracks and storehouses, suffered damage to the extent of \$100,000 by the hurricane of the 6th.

There are no tidings of the steamship Isabella, nearly a month out from New York. Those immediately interested fear the vessel is lost.

Fort Jefferson, Florida, with its quarters, barracks and storehouses, suffered damage to the extent of \$100,000 by the hurricane of the 6th.

There are no tidings of the steamship Isabella, nearly a month out from New York. Those immediately interested fear the vessel is lost.

Ten thousand pounds sterling were received at the assay office at New York yesterday, making a total of \$1,547,000 since October 6.

William H. Porter, Chief Justice of the Superior Court of Chicago, was found dead in his bed yesterday morning. He had evidently died of apoplexy.

The indications are that in disposing of the affair growing out of the Canadian Pacific railroad scandal, the Dominion Parliament will sustain the government.

How The Baby Came. BY MARY E. SHIPLEY. The Lady Moon came down last night— She did, you needn't doubt it— A lovely lady dressed in white: I'll tell you all about it.

"You lie as quiet as can be: Perhaps you'll catch her peeping. Between the window-bars, to see What the lass is sleeping. And then, if both of you keep still, And all the room is shady, She'll float across the window-sill, A bonnie white moon-baby."

And so we had to tiptoe in, Asleep as we could get. As if it was a secret, As if it was a mighty sin, To make a bit of riot. But I kept quiet in the crib, The funniest little mischief!

Ambose Thomas, composer of "Mignon," is writing a new opera. The Erie road loses \$200,000 a year from employes and others who steal from the freight cars.

A lazy man at Paris, Kentucky, has invented a wheelbarrow which a man can sit down on and wheel. Aimee is playing opera bouffe in Havana, a kind of entertainment, it is stated, the Havanaes never had before.

The youngest officer of his rank in the German army is Marshal Manteuffel, and he is a giddy youth of sixty. The Duke of Genoa has been visiting the Mikado. The Celestial potentate took occasion to remark, "Me likee he."

An Illinois County Clerk refused to issue a marriage license because the man was only four feet high, while the woman was six. Sir Samuel Baker, the African explorer, who a few weeks since returned from his Nile expedition, is dangerously ill at London.

The Mendelssohn Quintette Club will be accompanied by their Western tour by Mrs. J. W. Weston, a popular Boston soprano. Olive Logan has arrived at Paris, where she again makes her home, and threatens never more to display lovely millinery on lecture platforms in this benighted land.

Judge Maine, of Boston, has invented a car ventilator which excludes cinders and gives no exposure to a draft. It has recently been tested with satisfactory results.

singers will appear in the costume of the periods from which date the musical compositions are to be rendered. The debut will be made in Philadelphia.

A man in Eldora, Iowa, married again the week after his wife's death, and his neighbors gave him a deafening charivari. The bridegroom finally appeared at a window, and administered a scathing rebuke to the crowd, in this manner: "Ain't you ashamed of yourselves to be making a noise about my house, when a funeral took place here but four days ago?"

General Kilpatrick, in his lecture at Canonsburg, Pennsylvania, in his peroration alluded to all who died in the Union service during the rebellion as now standing in robes of light and "more than beautiful" in the presence of God. The good people of Canonsburg are shocked to think that General K. thinks patriotism is a better means of salvation than the atonement.

It was one of the evidences of Horace Greeley's power in controversy, and his thorough reliance upon himself and his cause, that he always stated the argument and presented the facts that his antagonists relied upon, with the most scrupulous fidelity.

By the way, isn't it about time that some of the high-priced lecturers came down to a basis of 108? And taverns below \$5 a day? \$2,500 APPROPRIATED.

The absorbing matter of interest at the Council meeting last night was the presentation of the needs of the suffering at Memphis by Dr. Wise, the celebrated Rabbi of Cincinnati, and H. M. Lowenstein, of that ill-fated city, who came into the chamber after the commencement of the session, accompanied by Rabbi M. Messing, Herman Bamberg, I. Schwabacher, Sol. Moritz, A. Lang, Mr. Lyon, and the beautiful and fascinating Mrs. Sol. Moritz.

Dr. Wise and Mr. Lowenstein, who plaid but forcibly and convincingly gave a short sketch of the terrible calamity which had befallen the Bluff City of the South, and of the unusual and extreme necessity which demanded aid from this city in the name of common humanity.

Dr. Wise and the Memphis gentlemen left early this morning for Cleveland, to meet the Council, which holds a special session there to-night on this same question of appropriation. To-morrow evening the ladies of the Hebrew Benevolent Society have arranged for a ball and banquet at Washington Hall, the net proceeds to go to the relief of Memphis, and the management already report a sufficient number of tickets sold to guarantee it a magnificent occasion.

At the regular meeting of the Council last evening the Gas Inspector reported the erection of 90 odd street lamps, which were ready for use; the City Clerk gave notice that Mr. Wellman in numbering the streets, was acting under authority of June 7, the City Attorney ruled that the Street Railway Company, at its own expense, could not be compelled to remove the track on that part of Illinois north of First street; \$25 was ordered given to Frank Wood for damages to a horse on Hoyt street in September last; the Gas Committee recommended that the office of Gas Inspector be not abolished; the Committee on Road Roller sat square down on the project for an engineer to be employed to use the roller on the bowled streets; the contract for improving Dillon street and sidewalks, from English avenue to Harrison, was given to Sullivan at \$1.18 per front foot; and passing an ordinance appropriating \$2,500 to the relief of Memphis.

OUR Immense stock for the present and approaching season embraces all the popular styles and fabrics in SUITS, OVERCOATS AND CLOTHING

Of every description for all classes and occasions. GEO. H. HETTKAM & KENNEY, 35 West Washington Street.

CONDITION OF THE INDIANA NATIONAL BANK, Saturday, October 11, 1876. Table with columns for various financial metrics and amounts.

Denier's comical, very laughable, intensely funny "Humpty-Dumpty" pantomime was brought out at the Academy last night to a large audience. The whole thing is good, save that the "Clown," who is the veritable Tony himself, in some of his antics is a little too "broad," and gives a suspicion of vulgarity.

Some months ago the city authorities offered a reward for the arrest and conviction of incendiaries, and a few weeks thereafter Wm. J. Edwards succeeded in unearthing one of the rascals and brought him to punishment. Edwards immediately laid claim to the promised reward, but the Police Board and the Council have ever since "pollyfoxed" over the matter, and proffered a compromise of \$250.

Prof. Hitchcock states that the total area of the coalfields of the United States amounts to 230,650 square miles, besides the strata which belong to other formations than the carboniferous, as, for instance, those of Virginia, of the territories west of the Missouri river, and those in California. LOTS IN NORTH INDIANAPOLIS To exchange for a pair of good horses and top buggy. LOTS IN JOSSELYN'S NORTH INDIANAPOLIS ADDITION To trade for lumber or brick. LOTS TO TRADE For other good property. OFFICE: 21 AND 23 BALDWIN'S BLOCK CORNER DELAWARE AND MARKET STS. H. R. JOSSELYN.

BAMBERGER HATS, CAPS AND LADIES FURS.

THE EVENING NEWS TUESDAY, OCTOBER 28, 1873.

Barometer, 30.008; Thermometer, 62.2

CITY NEWS.

Snow winter, and the day for orthodox red noses. It was Witherton, and not Atherton, drunk yesterday. General Lew Wallace, of Fair God notoriety, is in the city. The German Veteran Association dances at Mozart Hall on the 3d. George H. West, of this city has been declared bankrupt by default. An important meeting of the Emmet Guards will be held this evening. A marriage license has been issued to Theodore Hudson and Ada Douglass. Edmund Hill, the butcher accused of stealing a hog from Mrs. Matilda Carter, has been acquitted. Mrs. Martin Grunert had her husband arrested this forenoon for "provoke." Well, what next?

Hiram Lindley, the forger, goes by the name of the "volunteer convict," at the Northern Prison. Engineer Morgan returned to-day from the meeting of the Brotherhood at Philadelphia. He reports a profitable convention.

A festival for the benefit of St. Patrick's Church will be given this evening at Shakespeare Hall. It will close with a social hop. Work has been commenced on the new Shelby street bridge over Pleasant Run, which is to be completed by the first of December.

Peter D. Shinville, of Elkhart county, has filed his voluntary petition in bankruptcy, which has been referred to Register Cole, of Laporte.

Next Sabbath is the anniversary of the organization of the Olivet Presbyterian Sabbath School, on which occasion some interesting exercises have been arranged for.

General Harrison concludes his argument to-day on behalf of the defense in the Butschendorf case, and will be followed by Judge McDonald, who makes the closing argument.

Judge Pettit, of the Supreme Bench, calls the Journal a liar. It must be he has just taken judicial knowledge of it, for the fact has been apparent to the people of the State for many moons.

The several Presbyterian congregations will hold a union service at the Second Presbyterian Church on the morning of Thanksgiving day, at which Dr. Withrow has been requested to deliver the discourse.

Constable Boardman's buggy came in collision with Washington street car No. 61, this morning, tripping up the horses of the latter, and for a time causing much excitement among the lady passengers.

W. J. Morden has invented a railway switch, which is to be tested by the L. B. and W. on Friday next, at its junction with the I. & St. L. It is claimed that by this if the switch is set wrong, the train can not leave the track and is forced to remount the rail.

The joint committee meeting yesterday afternoon resulted in nothing further than that the accounts of Secretary Heron were reported systematically kept, and the commission to still further investigate several large bills which didn't look altogether square.

Thomas Neise, an eight year old lad, entered a plea of guilty to grand larceny in the Criminal Court this morning, but owing to his extreme youth he was dismissed from custody, his father being recognized to the court in the sum of \$100 for his future good behavior.

Councilman Reagan denies, it is understood, that he was present at the prize fight Sunday last. Fraps, but the denial has not been made over his own signature, and he was seen returning to the city from that direction in company with some of the prize-fighting gang.

The "artist" who built the cisterns at the corner of Central and College avenues, and Tinker street and College avenue, has brought down upon his head the indignation of the residents in that part of the city, for the reason that the tops are caving, because they were not given sufficient arch.

Henry Feltzman, shoemaker, up stairs, 14 1/2 East Washington street, last evening, issued such a rumpus that Officer Kitzmiller felt called upon to go up and converse. Both came sailing down together, locked not in fraternal embrace, and to-day Feltzman was fined for drunk, disturbance, etc.

Civil Circuit Court. Judge Howland. Watson Ballou vs. Hiram Rains. On trial by jury.

Superior Court. Room No. 2—Judge Blair. Shaw & Lippincott vs. Harry Sheets et al. On note. Judgment against defendant for \$250.

J. H. Ross vs. Charles High et al. On note. On trial by jury.

Criminal Court. Judge Test. Thomas Brown entered a plea of guilty in five cases of selling liquor without permit and was fined \$10 and costs in each case. The jury were discharged until to-morrow morning, at which time the Cole-Cain case will be called for trial.

City Court. Drunk—Henry Feltzman, Tim Murphy, Samuel Frazier, Thomas McGoff, Fred Alderman, John Lauson and John Mussel. Disturber of the Peace—Henry Feltzman. The public indecency charge against Mike Lynch, assault against Wm. Shepherd, and obstruction of an alley against Chas. Glazier, were dismissed.

Sam Frazier was assessed \$15 1/2 for carrying a pistol.

Chism Fined. Robert Chism, the colored man arrested for the outrageous trespass upon Councilman Thalman's residence, Friday evening, was brought to trial to-day before the Mayor, and his counsel, James Knuball, constructed an ingenious defense by which an alibi was "upped to be proven. The alibi failed to be sustained, and the hard reputation of the defendant, coupled with the positive identification by a competent witness, was sufficient for the assessment of a penalty, not only for trespass but for carrying concealed weapons. It is also understood that he will be further prosecuted for attempting the life of young Geisendorff.

Judge Test on Enforcing the Liquor Law. At the opening of the Criminal Court this morning Judge Test took occasion to make some general remarks bearing upon what action he should take in the future in reference to those who are brought before him for violation of the liquor law, in which he expressed his determination to decrease, if possible, the large number of liquor cases which are brought into his court, by imposing the highest penalty in his power. For the past three months the Grand Jury have returned on an average of one hundred and fifty indictments against parties violating this law, and much of the time of this Court is taken up in disposing of these cases, to the exclusion of other and more important ones. Violators of this law may expect no further leniency from Judge Test, and the community at large will heartily second his efforts in this direction.

Death of Father Siegrist. At 9:50 this forenoon, the tolling of the bell of St. Mary's announced to the parishioners, the death of their good Priest, Father Siegrist, who was stricken with paralysis eleven days ago, and has been hovering between life and death ever since. At the time his demise was considered merely a matter of a very few hours at farthest, and The News published a brief resume of his life and labors within this city. On Saturday last he was pronounced to be dead, and the parishioners on Tuesday, his "Name Day," and known in church calendar as "All Saints Day," he would breathe his last, while High Mass was being celebrated within the church, with Canon, Vice Chancellor of this Diocese, the beloved father and friend, and faithful counsellor, expired with a smile of perfect peace upon his lips. Notification of his death has been sent to Bishop de St. Palais, and it is thought that funeral services will be held on Friday at St. Mary's. The Catholic held on Friday at St. Mary's. The Catholic held on Friday at St. Mary's. The Catholic held on Friday at St. Mary's.

That Prize Fighting. George Haven, one of the principals in the disgraceful prize fight Sunday last, was fined to-day the trifling matter of \$15 1/2 for his offense, and Albert Blake, an eye witness, if nothing further, cashed \$18 1/2 for his participation. Joe Miller, the other principal, still hiding, and so, too, Eugene Salter, supposed to have been a "second" for Haven. This forenoon Lieutenant Campbell arrested James Irvin, also an eye witness, and credited by some with being the referee, and he gave security for \$5 and cost on a plea of guilty. These parties who have been fined claim that there was no regular ring, nor referee or seconds, that the combatants squared in a ring formed by the spectators, and that at the end of the third round Haven's friends "threw up the sponge" by holding an umbrella. No matter how trying this melee may have been in a "prize-fighting-scientific-point-of-view," it was a disgraceful, abominable, law-violating offense, and the meager fines above assessed are in no way whatever a palliation for the infamy. The strong arm of the Criminal Court should be made to interfere, and the participants prosecuted to the fullest imaginable extent of the statute, even if it requires imprisonment; and the officer who "lets up" before the last possible agency has been tried, deserves the strictest censure.

The Cr 14 and the Remedy. To the Editor of the Evening News. To a great many persons it will not only look singular, but contradictory for a lifelong Democrat to advocate an expansion of the currency of the country; but there are circumstances that are ignored by many that we think ought to be taken into the account before a final decision is made. In what was supposed to be the necessities of the case when the Government was fighting for her life, it was determined by her patriotic representatives to open what is known as the greenback currency and also to open National bonds, which bonds were put into the market and sold for or paid with this legal tender currency. The same power have since said that the bonds so issued shall be paid in a circulation, showing a specific debt that would not be able to pay if we were the owners of all the gold in the world. To make a market (as was said) for the bonds National banks were organized and they have issued a circulation about equal or perhaps larger than the amount of the legal tender money in circulation, making in all about \$750,000,000, which we think is about one third less than is needed to transact the business of the country.

1873. Indiana State Exposition awarded the FIRST PREMIUM to W. P. BINGHAM & CO., For best General Display of Diamonds, Watches, Jewelry, Solid Silver and Plated Ware. 50 EAST WASHINGTON STREET.

REVISION IN CHAIRS. We wish to call attention to our Perforated 3-Ply Veneer Chairs, Made by gluing Veneers together, so that the grain of each layer shall cross the grain of its neighbor. By this device we have an ornamental, comfortable and cleanly seat at about the cost of cane.

These new and beautiful Chairs and Rockers need but to be seen to secure admiration. They are new, not only in appearance, but in plan and construction also. One piece of our three-ply Veneer forms the seat and back, which fit the person in the most acceptable manner. By this plan we secure unusual strength, as well as comfort and beauty, with the least possible weight of material.

Extract from Judge's Report at the last Exhibition of the American Institute, held in the City of New York, October, 1872: "The Perforated Chair and Settee Bottoms are almost indestructible by ordinary use, and are cleaner, cooler, and far superior to either wood or cane bottoms. They are recommended for special mention or a special reward." Made only by the GARDNER MFG CO., 110 Bowery, N. Y. City.

L. S. WHITE, Trade Agent for Indiana, 173 E. WASH. ST., INDIANAPOLIS.
