THE INDIANA IS PEERLESS

American gun builders have never been able to make a success of the wire-wound gun, but experiments have been made...

HER SUPERIORITY OVER ENGLAND'S LATEST BATTLESHIP.

With 4,075 Tons Less Displacement than the Indiana has the Same Speed, the Same Coal-Carrying Capacity as the Magnificent.

New York Evening Post. Since December 13, when the new first-class barbette battleship Magnificent, of the British navy, was launched at Chatham dock-yard, the experts on shipbuilding of all countries have devoted a good deal of time in commenting upon and criticizing the new vessel...

Even the English constructors who have spoken of the Magnificent have agreed that the entire English constructor who stated that the Magnificent was the most powerful vessel afloat, was wrong, and almost without exception they point to the Indiana as being superior to the Magnificent.

As a matter of fact, a comparison of the respective merits of the Magnificent and the Indiana appears in contrast to the latter, for the Indiana was designed and constructed for in President Harrison's administration, and the appropriation for her was made in the year 1885, and so the latter has every reason to be, and is, more modern than her American rival.

THE PRESS AND THE BATTLESHIP.

Kokomo Must Be Represented. Kokomo Dispatch. Kokomo should certainly be represented in the proposed gift to the battleship Indiana...

The Indiana News has received in subscription to purchase for the battleship Indiana a silver service and library. The amount required is \$3,000, and of this amount \$2,000 has been secured from many different sources.

A Landable Enterprise.

The Indianapolis News is engaged in the noblest of enterprises, trying to raise a sufficient amount of money by subscription to purchase for the battleship Indiana a silver service and library.

A Call For \$400.

Suppose Terre Hauteans on the fresh new text of 1885 were a subscription of \$400 to the fund to provide a silver service for the splendid new battleship Indiana, now rapidly nearing completion...

Lafayette Will Be Represented.

The Courier is to-day afforded the pleasure of printing in its news columns the welcome intelligence that the ladies of the Lafayette Chapter, Daughters of American Revolution, have formulated a plan whereby it is confidently expected that this city will be appropriately represented in the silver service to be presented to the battleship Indiana.

Pride of State at Stake.

Do not forget the battleship fund. Contribute something to it. The pride of our State is at stake. Send your share to the battleship fund, care of the Tribune.

Gerrymandering Indiana.

A disposition is manifested on the part of the Republicans of Indiana to oppose a redistricting of the State for congressional and legislative purposes, recently in an argument before the State Restricting Committee...

The Congressional Situation.

The following exchange of telegrams between Washington correspondents and his home office shows what the managing editor thinks of the situation in Congress. The managing editor led the leader on Tuesday touching the Democratic caucus in Congress.

Miraculous Recovery of Speech.

A singular occurrence has taken place at Walkersville. A girl seventeen years of age, the daughter of Friday Wilson, a corporation employe, living in Collett Row, Eastport, had spoken for over six years; but at 3 o'clock on Saturday morning she woke her sister up and began to talk just as she did before she had fits, six years ago.

The Coroner's Office.

The people of Marion and other populous counties of the State should be determined to have the present session of the Legislature to have the law defining the duties of coroners amended.

Street Paving and Sweeping.

The city engineer and Board of Public Works are now making a report on the inspection of work that has not been properly done. This excuse comes at a late hour, and it is to be hoped that the city will not be allowed to go on in this manner.

A Disrespectful Law.

The attention of our law-makers should be directed to Section 106 of the Revised Statutes of 1851, which fixes the "age of consent" at fourteen years.

They Should Unite.

Seldom have I had occasion to note the fecklessness and penetration of the editorial expression of the News, but on Tuesday, January 12, the editorial on the Democratic caucus in Congress, was a masterpiece of logic and reasoning.

Compulsory Sidewalk Cleaning.

To the Editor of The Indianapolis News: Will you kindly make the statement in the columns of The News, relative to the intention of property-holders to the fact that there is an ordinance requiring snow and ice to be removed from sidewalks?

Board of Safety Records.

To the Editor of The Indianapolis News: Are not all the records of the Board of Public Safety in the hands of the city clerk, and not a citizen of Indianapolis the right to examine those records?

Remnant of the Army.

The grand army of Napoleon numbered 120,000 men when it left Moscow. Including the fragments of various divisions which met the Emperor at Smolensk it was with great difficulty that the Emperor could now be brought together in anything like fighting condition.

THE MILITARY CAREER

OF NAPOLEON. By MONTGOMERY D. GIBBS. Written for The Indianapolis News-Courier.

The enormous train of artillery which Napoleon brought from Moscow was soon diminished and the roads were blocked up with the spoils of the city, abandoned of necessity as the means of transport failed.

HAVE YOU NOTICED

The Dissonant Chorus of Congress Which Interrupts the Play of the Season? Of course you have noticed how, in a theater or a church on a winter night, a cough seems to be contagious. Somebody begins, and in a minute there is a perfect chorus of hacking and harking.

True enough, and the sad part of it is that there is no need of it. Coughs are but signs of a general weakness, and when that is cured the cough is dispersed. Cold air has driven the blood from the surface to the interior of the body. The delicate membrane of the throat is congested, then inflammation is caused. When the inflammation is over, the blood is once more equalized the cough goes, provided, of course, that the patient takes reasonable care not to expose himself to cold.

Brave Marshal Ney.

A Russian officer appeared and summoned Ney to surrender. "A marshal of France never surrenders!" was the intrepid answer, and immediately the batteries, about 200 yards, opened a tremendous storm of grape-shot. Ney, nevertheless, had the hardihood to plunge into the ravine, clear a passage over the stream, and charge the Russians at their arms. His small band was repelled with fearful slaughter, but he renewed his efforts from time to time during the day.

Seldom have I had occasion to note the fecklessness and penetration of the editorial expression of the News, but on Tuesday, January 12, the editorial on the Democratic caucus in Congress, was a masterpiece of logic and reasoning.

Compulsory Sidewalk Cleaning.

To the Editor of The Indianapolis News: Will you kindly make the statement in the columns of The News, relative to the intention of property-holders to the fact that there is an ordinance requiring snow and ice to be removed from sidewalks?

HAVE YOU NOTICED

The Dissonant Chorus of Congress Which Interrupts the Play of the Season? Of course you have noticed how, in a theater or a church on a winter night, a cough seems to be contagious. Somebody begins, and in a minute there is a perfect chorus of hacking and harking.

True enough, and the sad part of it is that there is no need of it. Coughs are but signs of a general weakness, and when that is cured the cough is dispersed. Cold air has driven the blood from the surface to the interior of the body. The delicate membrane of the throat is congested, then inflammation is caused. When the inflammation is over, the blood is once more equalized the cough goes, provided, of course, that the patient takes reasonable care not to expose himself to cold.

Brave Marshal Ney.

A Russian officer appeared and summoned Ney to surrender. "A marshal of France never surrenders!" was the intrepid answer, and immediately the batteries, about 200 yards, opened a tremendous storm of grape-shot. Ney, nevertheless, had the hardihood to plunge into the ravine, clear a passage over the stream, and charge the Russians at their arms. His small band was repelled with fearful slaughter, but he renewed his efforts from time to time during the day.

Remnant of the Army.

The grand army of Napoleon numbered 120,000 men when it left Moscow. Including the fragments of various divisions which met the Emperor at Smolensk it was with great difficulty that the Emperor could now be brought together in anything like fighting condition.

Help the Humane Society.

To the Editor of The Indianapolis News: If Humanitas, or any other humanely inclined citizen, desiring to aid the Humane Society, would send me a check for \$1.00, I would be glad to accept it.

The Coroner's Office.

The people of Marion and other populous counties of the State should be determined to have the present session of the Legislature to have the law defining the duties of coroners amended.

Street Paving and Sweeping.

The city engineer and Board of Public Works are now making a report on the inspection of work that has not been properly done. This excuse comes at a late hour, and it is to be hoped that the city will not be allowed to go on in this manner.

A Disrespectful Law.

The attention of our law-makers should be directed to Section 106 of the Revised Statutes of 1851, which fixes the "age of consent" at fourteen years.

They Should Unite.

UNITED STATES BATTLESHIP INDIANA.

UNITED STATES BATTLESHIP INDIANA.

Leaving aside, however, the improvements of the last few years for construction of officers and men and the little details of mechanism, and viewing the Indiana and Magnificent purely as engines of war, the Indiana is, in the opinion of ship-builders, the better vessel of the two.

Lafayette will be represented. The Courier is to-day afforded the pleasure of printing in its news columns the welcome intelligence that the ladies of the Lafayette Chapter, Daughters of American Revolution, have formulated a plan whereby it is confidently expected that this city will be appropriately represented in the silver service to be presented to the battleship Indiana.

The principal dimensions of the Magnificent are: Length between perpendiculars, 200 feet; length over all, 230 feet. Her extreme breadth is 25 feet; the vessel's mean draught is 27 1/2 feet. The displacement is 4,075 tons.

The ladies of Lafayette can be depended upon to respond to every patriotic demand. It is not surprising that the Daughters of the American Revolution have taken the initiative in a movement to provide the new battleship with a silver service, to form a part of the silver service to be presented by the Indiana citizens to their greatest glory, the man-of-war ship.

With these, however, she can throw 4,800 pounds of metal either ahead or astern, and with these eight guns she can throw 160 tons of shot or shell either ahead or astern. Her extra armament, raised by the vessel's mean draught is 27 1/2 feet. The displacement is 4,075 tons.
