GIVE FLESH and VIGOR

Loring's Corn and Fat-Ten-U, the Greatest Reinforcing Foods Ever Known. They Make Flesh and Put Good Blood in Wasted Systems. They Have Brought Health and Hope To Thousands.

Dr. Henry Stude writes thus of these foods in the New Medical Era: "In a practice of twenty-three years I have never known remedies so powerful as Fat-Ten-U and Corn in building up debilitated systems, restoring vigor and vigor. I have used them in numerous cases with the best results."

most immediately after treatment with them is begun an improvement is at once noticed. They seem to debilitated men and women back in life ten or fifteen years. The physician who prescribes these foods in cases of this kind is most fortunate, for he cures a class of cases that have long baffled most practitioners and brings health and happiness to those who have been long debilitated and dependent.

Mrs. Sarah Homer Mayer, of Indianapolis, writing from her beautiful suburban home, says: "I took Loring's Corn and Fat-Ten-U foods for debility and emaciation. They built up my system, gave me a plump form and made me look and feel at least twelve years younger. I gained twenty-nine pounds in a month."

Marion Wayne Shatten, then whom no lady is better known in the best social circles of this city, writes: "In six weeks Loring's Corn and Fat-Ten-U gave me thirty pounds more solid flesh and such vigor, as I had not known for years. My hands again appear and act as if ten years had been given back to me."

Lucy Hamilton, the popular vocalist, so prominent in the musical circles of Indianapolis, writes: "Five weeks' use of Loring's Corn and Fat-Ten-U Foods literally gave me new life and imparted to me a well-rounded form, especially improving my bust, hips and shoulders."

The above portrait represents Mr. Albert G. Vere, popular comedian, who writes thus: "Loring's Corn and Fat-Ten-U, four weeks ago, with your Corn and Fat-Ten-U, have not only made me feel a life and vim that have not been known for years, but have increased my weight two pounds heavier than I was a month ago, and have a cheerful feeling that I will 'run down' man to try this treatment."

of trouble in getting one of them to understand the situation. "You stamp the rooster," said one of the Democrats.

The old colored man looked at his stamp. "I don't know what it is," he said. "It is a rooster, and which is the other bird?"

"You just stamp the one that has the rooster on it," said the Democrat. The colored man entered the polling place. Five minutes later he came back with a smile of triumph on his face. "I have voted," he said, "and I have done it right."

Democratic Judge Selected. In the sixth precinct of the Fourteenth ward, the board selected a Democrat to take his place. Some of the Republicans were disappointed, but they had to accept the result.

The Noon Vote Much Lighter Than Usual—The indications. The noon vote in the southwest part of the city, the factory district, was very light. This is accounted for by the fact that the election law provides that all employers shall give their employees time off on their noon hour.

WEST OF THE RIVER. Full Vote Being Quickly Pooled—A Republican's Prediction. In the four precincts of the Fifth ward, west of the river, nothing occurred during the morning to break the monotony of peacefulness that one of the officers said always marked election days in Stringtown and the neighborhood.

THE NORTH SIDE. Vote Not So Heavy As Early Indications Promised. On the North Side this morning the vote was not so heavy as the early indications promised. The people gathered around the various polling places, and there seemed to be a general feeling of indifference.

DR. COBLENTZ

ASKS A FEW IMPORTANT QUESTIONS.

Do You Use Tobacco? IS IT INJURING YOUR HEALTH?

Do You Find it a Heavy Tax On You?

Did You Ever Count the Cost of Your Tobacco?

Do You Know that the Demand For Tobacco Is a Disease?

Do You Want to Be Cured of the Tobacco Habit and Its Diseases?

Oxygen Tobacco Cure is Warranted to Cure You.

There are thousands of persons who think tobacco who have never stopped to think seriously upon the results of the habit to its effects upon their health or as to the enormous cost of the habit.

It is true that there are some to whom the cost is not an important item in a way that is more than that at best it is a waste of the money which might be made to leave a much better purpose.

A large majority of persons, however who use tobacco can ill afford the great expense of this so-called luxury—a luxury only because of a tobacco disease in the system.

Rich and poor alike are interested in the question of its effects upon the health—and all who use it at times suffer from diseases produced by tobacco.

They do not need to be told the symptoms. Every smoker knows the results produced on himself by his cigar or pipe or cigarette, and every chemist recognizes the symptoms which tell his system is being poisoned with nicotine beyond the limit of endurance.

The question is do you want to quit the practice and be cured of the disease? If so, Oxygen Tobacco Cure is what you want. It is no experiment, but a thoroughly tried and proven remedy. Out of the thousands who have tested it in this city not a single failure has been reported.

Oxygen Tobacco Cure is guaranteed by the manufacturer to cure you and will return you your money if it does not cure you. Three large boxes are warranted to cure you.

No matter in what form tobacco was used, whether chewed or smoked in a pipe, cigar or cigarette or snuff, Oxygen Tobacco Cure will entirely cure the habit and its effects.

Oxygen Tobacco Cure is for sale by all druggists at 25c, 50c and \$1.

Persons desiring to consult Dr. Coblentz's representatives are requested to call on or address them at Hotel English, N. B.—All persons desiring information as to the cure of morphine, opium or whiskey habits should address

AN ANTI-TAMMANY TICKET.

Fusion Between Republicans and State Democrats.

New York, October 8.—The County Republicans and State Democrats have finally agreed upon a fusion ticket against that nominated by Tammany, and it was formally announced by both parties yesterday. It is as follows:

For Register, Thomas F. Beating, State Democrat.

For County Clerk, Thomas H. Hamilton, Platt Republican.

For Justice of the Supreme Court—Ernest Hall, Platt Republican; C. C. Beaman, independent Republican and "committee of fifty" man; Myra Isaac, Republican and "good government" candidate.

For Judges for the Court of General Sessions—Thomas Allison, Platt Republican; John Felber, State Democrat.

For City Court Justices—Henry C. Beatty, Platt Republican; Daniel O'Connell, State Democrat; James W. Hawes, Republican.

It is expected that the German-American Reform Union will endorse the ticket because the scales plank of the State Democracy is endorsed. That plank charges Tammany Hall with responsibility for the existence of the present excise law, demands that the city be freed from the sale of food, beverages and other necessities shall be permitted on Sunday during such hours and under such restrictions as will not interfere with religious observances and exercises.

Madrid at Madrid. Madrid, October 8.—Dispatches received here from the City of Barcelona announce that serious conflicts have taken place there between the Liberal and Catholic students of the university. The trouble, it appears, is due to the fact that the government has declared to be a law which forbids the wearing of the sash in the university and finally reached the streets, where the powers were reinforced by crowds of troops.

Heavy Steel Rail Orders. Wall Street Daily News. The railroads have almost concluded that it will not pay them to wait longer before placing orders for railroad supplies. This is the meaning of aggregate orders for 125,000 tons of steel rails just put out. This includes 40,000 tons for the

THE MARKETS ON TUESDAY

INDIANAPOLIS AND CHICAGO LIVE STOCK QUOTATIONS.

Speculative Stocks and Brokers' Gossip—Grains and Provisions—Commercial Notes and Comments—Jobbers' Prices.

On slightly firmer cables and New York buying, wheat opened a half cent higher than yesterday's close. On buying by shorts, a further advance of one cent for wheat, but on the advance there were few sellers, and a reaction of a cent followed. There was a suspicion that the early cables were manipulated for the New York market, but working for an up turn upon which to sell. Receipts in the Northwest were large, being 650 cars of wheat in excess of last year. The primary receipts showed 50,000 bushels of wheat more than the corresponding day last year. The main feature of the market was that after six days' decline, it amounted to about a cent. Interests, as usual under such circumstances, were inclined to take profits by buying against sales made at higher figures.

Outright receipts showed 50,000 bushels of wheat more than the corresponding day last year. The main feature of the market was that after six days' decline, it amounted to about a cent. Interests, as usual under such circumstances, were inclined to take profits by buying against sales made at higher figures.

There were orders to buy oats at 20 cents, which slightly firm that otherwise a decline would have been expected. Provisions did not get out of the usual rut, and changes were scarcely fractional.

Oose Calf. Boston Commercial Bulletin. When White Brothers & Co. in 1852, brought out their oose calf, as they called it, neither they nor anybody else had an idea that the use of colored leather for footwear would assume such enormous proportions. This leather, as it is well known, was employed in ladies' slippers and for quarters of ladies' oxfords, in combination with patent and fine leather. It was not till 1858, however, that the above concern, the pioneers in the business, got out samples of what has since become famous as Russia leather. This branch of the trade has since dates back only five seasons, and the enormous extent of the demand which this brown leather has met with is understood by everybody.

While this Russia leather is not in the multitude of shades it was in earlier stages, the types of the leather trade have settled are practically those which have proved the most popular. From the first, as a rule the young men prefer the lighter and the older men the darker shades. For the latter trade shades as dark as chocolate are popular. For the former, the lighter shades are preferred. The handsome, light-colored shoes which a year or two ago met the fancy of some are past and gone.

As we remarked last week, the use of Russia leather for summer shoes offers such an advance in the way of comfort, both in ease and coolness as well as in pleasing effect on the foot, that there is no wonder that its permanency of use is so general. The brown shoe is essentially the one to go with loose coat, negligee shirt, etc. That of place with a silk hat, say nothing of a dress suit.

Scarcity of Hogs and Cattle. Kansas City Packer. There is scarcity of hogs reported in western Missouri, Kansas and Nebraska, and while the crop in that section is not all that could be asked and the hog is a prolific animal, yet it will take some months before the supply of marketable animals can be increased. It can, therefore, be taken for granted that not until after January at least will the hog supply show much of an increase.

The number of cattle purchased by stocker and feeder buyers on the Kansas City market within the past few weeks, that is since the market was assured to have been unusually large, but it must not be inferred from this fact that all of the cattle purchased will be immediately put on feed. Some of them are for short beef, and some are for stock.

For the week ending July 28, 1894 (the week when the World bill seemed doomed to defeat), when there were sold in Boston 10,611,000 pounds domestic and 79,000 pounds foreign.

It will be noticed that the sales the past week are 4,977,000 pounds domestic and 5,417,000 pounds foreign.

The market is in a state of activity, and it is not surprising that the present excitement has brought to realization that there is a security wool and the wool market is better bargains are likely to be offered, but the lack of response in this market to the smart advance abroad has been important and novel results. Some weeks ago we noted the sale of a million pounds of South American wool shipments to Europe. This export movement has continued.

A Large Cargo. London Times. The White Star new cargo boat George, which arrived in the Mersey on Saturday forenoon, brought what is described as "the biggest cargo that ever left New York." The George is the largest cargo boat afloat, and she certainly brought a vast quantity of merchandise.

On her freight list are 750 cattle, 3,000 sheep, 3,000 quarters beef, 126,000 bushels of wheat, 3,000 barrels of flour, 3,000 barrels of sugar, 3,000 barrels of coffee, 3,000 barrels of tea, 3,000 HARRISON, REED, McKinLEY.

The Causes of Harrison's Defeat. St. Louis Globe-Democrat (Rep.). It is safe to say that the words attributed to ex-President Harrison regarding ex-Speaker Reed and Governor McKinley correctly express his attitude toward them. He would recommend neither for McKinley for the candidacy if the convention which was to award it should consult him about the selection. This may be relied on as a trustworthy opinion. McKinley and General McKim's statements, corrections, explanations, and disclaimers. Early in Harrison's administration the relations between him and Reed became "strained," and Reed's remarks, or the remarks attributed to him, about Harrison afterward were not calculated to lessen the tension. Harrison is not a man who can be either loved or hated hard. He differs from both Reed and McKinley here. Reed himself may have forgotten things and stirs at Harrison, but Harrison has not.

The cause of Harrison's feeling toward McKinley can easily be traced. McKinley's tariff (the McKinley) in the canvass. It is possible, of course, that the Republicans would have been beaten in 1892 even if the tariff of 1890 had been passed. Short of that, however, it is likely to be the rule hereafter, unless the party on the outside finds some way to ordinarily open to a party in that position for playing the game of the man of the popular hostility. But with the McKinley revision of the tariff as an issue, the revision which was upward, and everybody wanted it to be downward if there were to be any revision at all. Republican defeat was inevitable. A weaker candidate than Cleveland, and those conditions could have beaten a stronger candidate than Harrison. Everybody knew that Harrison made a safe and creditable President. He neither went ahead of the party in 1892 and in 1896 when it elected him, was apparently as vigorous as it has been in a long time. It was defeated in 1892 by a larger majority than was cast against it in 1888, before it had been a national organization.

Harrison is not in any doubt as to the cause of his overthrow. Like every other sensible Republican, he undoubtedly sees the possibility that New York would have gone for McKinley in 1892 if there had been no McKinley law and that the party would have been beaten, but he is confident that Illinois and Wisconsin would not have been lost. He would not have been cut down to 1,000, and that one of that State's electors would have been a Republican. A beautiful story was told at the time of McKinley's capture and being taken to Kinley tariff bill, and possibly there was some truth in it, for the fight by which the bill had been passed, and it was a victory, and it was natural that he would feel physical exhilaration over his party's victory. But all the exaltation which pervaded the shocks of Republican revivits in the West in the McKinley campaign vanished when the election returns came in. Under those circumstances Harrison would be coming more or less of a surprise. He should be an enthusiastic McKinley. If McKinley had been beaten, and had been only like Blaine in 1884, it would not have been like Cleveland.

Wrecking on Harrison's Preserves. Chicago Tribune. An Indianapolis dispatch announces that McKinley and Reed missionaries have made their way into Indiana, and are endeavoring to gain converts to their cause. This is in violation of that unwritten law which declares that when a party has a "favorite son" invading his territory is a gross violation of the courtesies of political life and of the rights of "favorite sons." It is not surprising that ex-President Harrison should feel aggrieved when he learned that rival candidates were making healthy efforts to steal delegates which he had to have, especially when the candidates in question were men who had, as he declared, "dug his political grave." One of them, Harrison, has endeavored to prevent the passage of heavy appropriation bills in 1890, which the President signed. The other—Major McKinley—got up an ultra tariff bill increasing duties occasionally, which the people have rejected twice, but which the President signed without reluctance.

QUESTIONS AND ANSWERS.

Josephine Morris—Give the day of the week of April 16, 1855. A.—Monday. Southport—Give the address of Hon. Charles L. Henry, Congressman for this district. A.—Anderson.

Reader.—Which is the largest city in the world, and what is the population? A.—London. In 1891 it was 4,231,431.

Constant Reader.—The Hiram-Merrill Company of this city, would you please give me the information you desire in regard to works on mechanical engineering, and also the best method of keeping walnuts through the winter? A.—We know no one who keeps them in a cool, dry place.

A correspondent writes that there is in Ohio an "habitual criminal" act, which provides that one who has been twice convicted for crime shall upon his third conviction be sentenced to imprisonment for life as an habitual criminal. Davis—(1) Is there a marriage agency or bureau in the city that is reliable, and where? (2) If not, where is there one that does a square business? (3) Is there any law against such agencies? A.—(1) No. (2) We know of none. (3) Not that we know of.

I. K.—Who are the present members of Governor Cleveland's cabinet? A.—Secretary of State, Richard Olney, Secretary of Treasury, John G. Carlisle, Secretary of War, Daniel S. Lamont, Secretary of the Interior, Hoke Smith, Secretary of Navy, Lilly A. Herbert, Secretary of Agriculture, Sterling Morton, Postmaster-General, William L. Wilson, Attorney-General, John Harrison.

Subscriber.—A common law marriage is one inferred from the conduct of the parties. Why a man and woman, both of whom are free to marry, live together as man and wife and hold themselves out to the world as man and wife, and intend of the parties. The whole subject is one on which you should consult a lawyer.

Reader.—(1) Did not Judge Hadley in charging the Hiram jury state the law plainly, and did not the jury misunderstand him? (2) Did not Judge Hadley charge that the heaviest penalty that could be inflicted in the case of a conviction on circumstantial evidence was imprisonment for life? A.—The Judge's charge was plain, but there is no reason for believing that the jury misunderstood him. The jury was not bound by the Judge's statement of the law. In Indiana it is the sole judge, both of law and fact. (3) No, for the manifest reason that the jury was not bound by the Judge's statement of the law. In Indiana it is the sole judge, both of law and fact. (4) No, for the manifest reason that the jury was not bound by the Judge's statement of the law.

Ah, thou moon that shinest argent-clear above! All night long enlighten My sweet lady-love! Moon that shinest above! All night long enlighten! The nuts in the cloister Sang to each other: For so many sisters, and so many brothers, Is there not one brother? Ay, for the partridge mother! The call is rung away with the partridge! Puss! Puss! Puss!

throp. The chance was made under the following circumstances, as given in a note in Francis F. Browne's "Hugie Echoes": At the battle of Chancellorsville, Va., May 2, 1862, it became necessary to bring a Federal battery into position to resist a sudden assault by Stonewall Jackson. To gain a few minutes' time, Maj. Peter Keanan, of the Eighth Pennsylvania Cavalry, was ordered to charge the enemy, and, with his four hundred men, he rode against ten thousand, in a charge as gallant as that of the Light Brigade. Here is the poem:

By the shrouded gleam of the Western skies, Brave Keanan looked in Pleasonton's eyes For an instant clear, and cool, and still; Then, with a smile, he said:

"Cavalry charge!" Not a man of them shrank. "Their sharp, full cheer, from rank on rank, Rose joyously, with a willing breath— Those like a greeting hail to death. Then forward they sprang, and spurred, and dashed, Shouted the officers, crimson-sashed; And rode the men, each brave as his rode fellow.

In their faded coats of the blue and yellow, And above in the air, with an instinct true, A third of war their pennon flew.

With clank of scabbards and thunder of steeds, And blades that shine like sunlit rills, And strong brown faces bravely pale, For fear their proud attempt shall fail, Three hundred Pennsylvanians close On twice ten thousand gallant foes.

Line after line the troopers came To the edge of the wood that was ringed with flame; Tode in and sabred and shot—and fell; For fear their proud attempt shall fail, Three hundred Pennsylvanians close On twice ten thousand gallant foes.

While the circle-stroke of his saber, "Round his head, like a halo there, luminous hung. Line after line, ay, whole platoons, Struck dead in their saddles, of brave dragons. By the maddened horses were onward borne, And into the vortex flung, trampled and torn; As Keanan fought with his men, side by side. So they rode, till there were no more to ride.

But over them, lying there, shattered and mute, What deep echo rolls?—'Tis a death-salute. From the cannon in place, for heroes, You're not in vain; the army was saved!

FOOT-BALL AT NOBLESVILLE.

Butler and the Athletics Play Without Scoring—Other Sporting News.

Noblesville, Ind., October 8.—Butler played his first practice game of foot-ball yesterday afternoon, with the Noblesville Athletic Club team. The visitors had anticipated a stiff game, and were not disappointed. They knew that the Noblesville eleven included some crack college men and had been in training for several weeks.

Several hundred people witnessed the contest. Butler opened the ball and the Rhinehart pointed in touch. On the second attempt he sent the ball up the field for thirty yards. The Athletics then began a series of short rushes through the line on downs. Neither team could do much on the ends. Butler made a sensational play by jumping the Noblesville line, securing the ball and making a gain of five yards. The Athletics then retired in favor of Portus. The game closed with the ball on the Athletics' quarter back.

who is a leader in Bowery society and the heroine of the play, as done by Clara Throp, is clever. The actress received several curtain calls. Miss Emma Sardou as Maggie Morrison, one of the "crusts," played the tough girl well, and set the galleries wild with delight. The Actress of "Swipesy," a Bowery boy, by John Daly, is also worth mentioning.

"A Kentucky Girl." The Park had a great audience last night to greet Sadie Hasson in "A Kentucky Girl." Miss Hasson is a drawing card and always fills the house. She has surrounded herself with some of the best of the first, Dyer at left guard, opposed to Turner, the Purdue giant, showed some strong qualities. It was Lister's first game as captain, and the contest was a thrilling one over his management. The game was remarkable only in that neither side scored. The Noblesville team averaged nearly 100 yards in handling the players at Butler four days, and this was the first try at the selection of an eleven. Some changes will be made.

"Two Old Cronies." In "Two Old Cronies" at the Empire the first half of this week there is a violent effort to be funny, which becomes almost painful at times, to a sympathetic audience. The first act is almost entirely in the second act there are some irresistibly grotesque things done by John B. "That's the way to do it," says the audience. The latter part of the show is fairly good. The election returns will be read from the stage to-night.

Mayflower Church Entertainment. An entertainment of a musical and literary nature will be given to-morrow evening at Mayflower church, by Miss Bernice Costello. The proceeds will be for the benefit of the church.

ANTITOXIN ORDERED. Little if any abatement in the cases of diphtheria.

The reports of diphtheria cases were somewhat numerous last week than the week before. Dr. Wynn, the city sanitarian, was hopeful of a decrease, but yesterday twelve new cases were reported, indicating that the disease is not much abated. Monday's reports, however, are usually more numerous than those of other days of the week, because comparatively few doctors make reports on Monday. The sanitarian received propositions to furnish antitoxin from several firms, and to-day sent an order to the Indianapolis Drug Company for five hundred of the Roux antitoxin, made at Paris, France. It is to be used at the City Hospital and City Dispensary.

Instructions to the Police. The entire police force and the specials met in the Police Court room last night. Superintendent Powell read them the law, made the assignments of districts, and instructed them in their duties for the day. He bade them all good-bye, as he is to retire from the force Thursday noon, and would not have an opportunity to see them all together before that time. He complimented the men on the good work they have done, and assured them that in the future, as in the past, he would always be glad of a chance to show his friendship for any member of the force. The men frequently applauded him while he was talking.

No Quorum at the Council. President Cooper and Messrs. Allen, Kaiser, Koehring and Stein came to the regular meeting of the City Council last night. President Cooper made a little speech, saying that the last Council was one of the noblest that ever sat in this city, free from binding caucuses and striving for the best interests of the city. Seeing that a quorum was a hopeless thing the night before election, the few members present adjourned.

A Lafayette Club. The Wolf Club, of Lafayette, has filed articles of association with the Secretary of State, setting forth that the objects of the corporation are the improvement of its members by social intercourse and to provide them with the usual conveniences of a club-house. The directors are John B. Ray, F. R. Newhouse, William Perczy and Jacob Kurtz.

Will Muster in Admiral Brown. George H. Thomas Post, G. A. R., is to add another distinguished name to its muster roll this evening, by naming George Brown, ranking admiral of the United States navy. Ex-President Harrison and J. N. Walker, commander-in-chief of the G. A. R., are members of his post, as was the late Secretary of State, Walter Q. Gresham.

Last Night's Fire. The explosion of a lamp in the house at No. 7 Astor street, occupied by Sarah Long, caused a fire loss of \$5. A defective flue in the house at 255 East North street, occupied by C. W. Madock, caused a loss of \$20. There was also a small blaze at 191 West Third street. Cause unknown.

First Baptist Church Affairs. The annual report of the First Baptist church show receipts \$12,728.27, disbursements \$12,478.88, balance \$249.39. Henry Ellet, Arthur Jordan and Robert Zener were elected trustees. A. W. Keith secretary and R. B. Keith treasurer.

Board of Trade "Indiana" Fund. The Board of Trade governors' committee to receive funds for the battleship Indiana's silver service reported at its eighth meeting that it now had \$1,000.30. This is in addition to the board's contribution of \$100.

IN THE SUBURBS. The P. C. C. & St. L. railroad is to build a station and lay up for the east freight yards, Englewood.

The Manufacturers' Gas Company, after refusing to supply gas to private houses in West Indianapolis and Haughville, started yesterday to lay pipes in Mt. Jackson, through which to serve gas to the residents of that suburb.

One of the most active church organizations of West Indianapolis is the Ladies' Aid Society of Trinity M. E. church. It has elected new officers, as follows: President, Mrs. J. Baker; first vice-president, Mrs. J. Alexander; second vice-president, Dr. Laura Cloud; secretary, Miss Georgia Jennings; treasurer, Mrs. B. Bell.

Several of the merchants in Michigan street, Haughville, have had a foot-cement walk laid in front of their places of business. The contract for the walk of the whole length of the street has not yet been let, as the injunction suit filed against the Town Board by the owners of the property is still in court. It is admitted that the plaintiffs have succeeded now in postponing the proposed improvement until next year by the legal proceeding.

The members of the Ladies' Aid Society of Pilgrim Congregational church, West Indianapolis, had charge of a "green tea" social at the church last night, which had some unique features. One of these was a bill of fare on the European plan, with such items as "How the boy died Down Hill," two cents; "The Preacher's Delight," two cents; "Love's Sacrifice," two cents; "A Woman's Weapon," two cents; "Public Square," two cents; "Afternoon," one cent; "Below Zero," nine cents, etc.

The West Indianapolis schools opened again yesterday. Two of them have been closed for several days, and one week on account of the number of cases of diphtheria in the suburb. No other cases have developed within the last few days, and the secretary of the Board of Health allowed the buildings to be opened to the children again. The quarantine against the houses where the cases existed was lifted, and a police officer was sent by the Board of Health to the funerals of those who died of the disease to see that the quarantine regulations were observed.

THE GREAT SALE OF Tailor-Made Suits, Wraps and Furs,

As advertised yesterday at Wasson's, crowded the big department with buyers. More surprises for you to-morrow in these goods.

BLACK DRESS GOODS

It matters not how many colored dresses you may have, either silk or wool, fashion demands that you have at least one black dress. Our great exhibition of elegant black goods to-morrow will not let you stop at one dress. You will feel like having a dress of each of the new designs shown. The exhibition of Black Dress Goods alone will well repay a visit to the store.

FALL DRESS GOODS

Our Great Dress Goods Department invites you to one of the finest displays of Dress Goods ever made in Indianapolis. Here are the highest novelties from French, German and English looms. Whatever is new will be found in this great department. Even the low-priced goods will have a touch of newness usually found only in the high-priced stuffs.
