Terrible Disaster on the Nickel Plate.

TRAIN WENT DOWN WITH CREW AND WORKMEN.

SEVERAL KNOWN TO BE DEAD

OTHERS ARE BURIED UNDER HEAP OF DEBRIS.

Seventeen Men Killed on the Bridge Were Also Carried Down—Death List in C. & A. Wreck.

SPRINGFIELD, Pa., July 11.—A local freight train, bound west, containing two cars of stone to be left at a bridge undergoing repairs, went through the bridge, which collapsed from the weight, carrying with it the entire train, with its crew and gang of workmen.

P. A. Moore, conductor, of Conestoga, O., and William Griffith, engineer, of Buffalo, were instantly killed. Seventeen men at work on the bridge also were carried down in the wreck and many are believed to be buried under it. The wreck occurred at 10 o'clock this morning, near here, on the Nickel Plate railroad.

TWENTY C. & A. VICTIMS.

Death List Swelled Hourly—The Scene at Norton, Mo.

KANSAS CITY, Mo., July 11.—The wreck on the Chicago & Alton yesterday grows more appalling every hour.

The latest from here and the scene of the disaster, near Norton, Mo., shows twenty dead and two fatally injured. As the wreckage is overhauled dead bodies are found, and it would not be surprising if the list of victims should be swelled considerably.

CONFERENCE AT PITTSBURG

STEEL OFFICIALS MET WITH AMALGAMATED OFFICIALS.

STRIKE TROUBLES TAKEN UP

Highest Body in the Amalgamated Association Was Present—Some Big Men on the Other Side of the Question.

PITTSBURG, Pa., July 11.—At 10:28 to-day the conference arranged between officials of the Amalgamated Association of Steel Workers and officials of the American Sheet and American Steel Hoop companies, for the settlement of the strike now in progress, began at the Hotel Lincoln.

The combine conferees present at that time were Warner Arms, vice-president of the American Sheet and American Steel Hoop Company, and William Leeds, of the American Sheet Steel Company. The workers' organization was represented by the executive committee, the highest body in the association. It is composed of President Morgan, the national officers and the vice-presidents of the different districts, and it was the second time in the history of the association that it had been called together.

Refusal to Unionize Plants.

It was authoritatively stated that the combine offered to sign the Amalgamated scale for all the plants and make the wages uniform, but declined to unionize the plants operated as non-union for the purpose of conceding the right of Amalgamated officials to enter the mills and organize the workers, but will object to compulsion. It was nearly noon before the conference got down to business. The situation was some over carefully. Every one present showed in good humor, and everything pointed to a harmonious meeting.

Hundreds of Mill Hands Out.

UTICA, N. Y., July 11.—It is reported from Tupper lake to-day that about 750 mill hands are out, but that there has been no disturbance whatever. It is believed the differences may be settled during the day.

Molders' Strike Threatened.

CHICAGO, July 11.—The iron molders have refused to accept the offer of the manufacturers and a strike will result which may assume national proportions.

STEEL RAILS WILL KEEP UP.

Price for the Next Year Will Remain at Twenty-Eight Dollars.

NEW YORK, July 11.—Steel rail manufacturers forming the steel rail pool have agreed upon a 23 1/2 ton as the price to be asked for the coming year. This price is a ton higher than that agreed upon at the steel rail pool meeting last fall. Since May 1, however, a new schedule went into effect and prices were advanced from \$23 a ton to \$24 a ton.

Much Importance is attached to the fact that the price, \$24 a ton, will be maintained for the next year's business. It is considered the best evidence that the big steel trust considers that the present prosperous condition in the steel and iron business will continue for at least a year.

NEW BOXER MOVEMENT.

Heir Apparent Said to Have Gone to John Tuan's Forces.

SHANGHAI, July 11.—A new boxer movement is being started. Pu Chun, the heir apparent, with other members of Prince Tuan's family, has gone to join the forces of John Tuan, who is a former Prince Tuan's bodyguard, and there are strong indications that Prince Tuan is preparing to march against the foreigners, with the tacit approval of the Empress dowager.

Another Battle in China.

PERKIN, July 11.—The imperial troops, under Lu Pen Yuen, has been defeated by the allied Yaguers' society at Atchi-chow. The local magistrate has asked Li Hung Chang to dispatch a thousand reinforcements.

HIS DAUGHTER GONE.

Patrick Donahue Reports to Police—Suspects Eloquent.

Patrick Donahue, living at No. 27 South East street, reported to the police this afternoon that his sixteen-year-old daughter, Goldie, left home last night, taking all her wearing apparel. He believes she has eloped.

PANIC WAS THREATENED

RUMORS OF TROUBLE BETWEEN MORGAN AND HARRIMAN.

STOCK VALUES SLUMPED OFF

Tremendous Combination to Support the Market—Trouble Abroad—Money Rates Are Threatening.

[Special to The Indianapolis News.]

NEW YORK, July 11.—The Stock Exchange was swept by a bear raid this morning, which for a time threatened a general implosion of the market. Rumors were circulated late last night that there was trouble between the Morgan and Harriman interests in Northern Pacific. When the market opened traders were inclined to believe this rumor, and there was a rush to unload. For a moment the offerings were actually absorbed by the strong syndicate pledged to protect the market, but they could not hold the break.

The Grangers Involved.

Naturally the Grangers and Northwestern stocks involved in the big Northern Pacific deal were the roads most affected. They were already weak because of reports of great damage in the Western corn belt, and under the pressure gave way 3 points. The declines to-day were from 2 to 5 points, and followed a break in yesterday's market of from 5 to 7 points.

The War Denied.

Interests connected with Northern Pacific hastened to deny the stories of inside conflict, and when the traders were not prepared to knife each other again, the break was stopped. Heavy support came into the market again and there was a recovery of most of the stocks to within a fraction of the close last night, but there was a nervous undertone and every one was looking for more trouble.

Germany and Russia.

Berlin was anxiously watched, as a crisis is impending there, and little relief can be expected from London. America must furnish the gold and American money rates are already high. If the trouble is precipitated, money here will go much higher. Then there were reports that two big Russian banks in Moscow were in difficulties, and their influence on the continental financial capitals could not be estimated with the meager information at hand.

A source of fear lay in the attempt of Standard Oil interests to buy money.

Their big institution, the City Bank, has taken every opportunity to embarrass Standard Oil. On the other hand Morgan interests have loaned great quantities of money at call through the Bank of Commerce.

Morgan Hope of Market.

Morgan is regarded as the hope of the market. He must keep it up to make his profit on the steel combine. His profits are now on paper; they must be turned into money, and to do this the market must be made attractive. His influence was felt to-day in checking the break, and was felt yesterday.

In order to better carry out his plans, a great combination to support the market and keep money easy has been formed.

These include the right of Amalgamated officials to enter the mills and organize the workers, but will object to compulsion. It was nearly noon before the conference got down to business. The situation was some over carefully. Every one present showed in good humor, and everything pointed to a harmonious meeting.

WILD EYED STRANGER.

Told Federal Building Officers Telephone Companies Controlled Him.

A stranger who said his home was in Cincinnati slipped about the Government building this afternoon with a wild look in his eyes and his hat in his hands. He went into the office of the Clerk of the United States Court and asked Deputy Clerk W. C. Nichols for an injunction against the telephone companies.

The deputy clerk thought he was dealing with an insane man and sent him to the United States Marshal John Foley. The stranger said he was under the control of the telephone companies and wanted the United States Court to release him. Foley said the visitor would take to the United States Court for his injunction, but the marshal was not about the building and the stranger left.

INDEPENDENCE IN FORM.

Holding Her Own Against Constitution and Columbia.

BATEMAN'S POINT, R. I., July 11.—The third and final race of the series between the yachts, Constitution, Columbia and Independence, was started at 12:25 p. m. to-day. The yachts sailed a fifteen-mile windward and leeward race, with the turning mark near Block Island. The Independence showed greatly improved form and was holding her own at the end of the first five miles.

An Associated Press launch, on her way from the yachts, signals "Independence ahead." The launch probably left the yachts about 1:45.

DIVORCE LAW ATTACKED.

This One May Be Decided Before Vacation Adjournment.

The law making plaintiffs in uncontested divorce cases pay, before trial, \$5 prospective fee was again attacked before Judge Carter to-day. He will try to decide the case before adjournment for vacation.

W. B. Schwartz, attorney, contends that his client, William S. Moorman, is entitled to have his case reinstated. It is contended because he did not pay the fee. He says he can not be compelled to pay for the defense to his own action.

WEATHER CHIEF RESIGNS

C. F. R. WAPPENHANS WILL RESIGN AFTER THIS MONTH.

More Than Thirty Years Ago Has Been in Charge All That Time—Is Going to Europe in September.

Charles Frederick Robert Wappenhans, who opened the Indianapolis weather station, February 9, 1871, thirty years ago, to-day, sent his resignation to Washington.

All of this time, with the exception of four years—1878-1883—spent in Detroit as signal officer, he has been at the head of the service in this city. His resignation will take effect August 31, when he will retire on a military pension.

He was born in Berlin, Prussia, April 9, 1834, but has been an American since October 24, 1853, when he stepped on an American vessel at Hamburg as a sailor. In December, 1862, he entered the United States navy as a master's mate, from which he was promoted to ensign, then to master.

He was one of the first to enter the weather bureau and was at once assigned to Indianapolis.

Will Quit Work July 31.

"I shall leave the office," said Observer Wappenhans, "July 31 on a month's vacation. My successor will be sent from Washington and will arrive before that date. I have no idea who will be designated as my successor."

"For the last ten years this office has been attached to the Department of Agriculture and I have been, during this time, director of the Indiana section of the weather bureau. When this office began, it was independent of the other weather corps and connected with the army."

Going to Europe This Fall.

"I think I shall spend my vacation here. In August some time I shall go the Atlantic coast, and in September I shall go to Europe. I have three sisters living in Berlin. I may stay in Europe for several months, perhaps as much as a year, but I shall return to Indianapolis, which has been my home for thirty-one years."

ADDRESS BY JUDGE DAY.

Former Secretary of State Before the Ohio Bar Association.

PUT-IN-BAY, O., July 11.—Judge William R. Day, former Secretary of State, was the principal speaker at the annual meeting of the Ohio Bar Association here to-day. His subject was "Our Place in the International Family." He said, in part:

"The United States is now regarded as a factor, and an important one, in the solution of the world's problems in which it is interested. The world has come to know that to be an American citizen is every quarter of the globe implies the protection of the United States, and the world of its citizens, however distant, however humble. This by no means indicates that we have become or are likely to be a 'world power' in the sense that we shall adopt the policy of promoting our own interests at the expense of weak and defenseless people. It does mean the maintenance of the principle of wherever they may be assailed."

"The torch of liberty rightly shines at the gateway of our country. More than any country, we have taken the lead in enforcing the principle of arbitration of international questions. Nothing can be better settled than the purpose of the Monroe doctrine is its true interpretation as preventing the imposition of monarchies on the continent of the Americas, and the further extension of European colonization upon American soil."

"That our relations to the outside world will be extended and opportunity for trade and commerce greatly advanced can not be doubted. We shall have an isthmian canal and our widening horizon will give us clearer as well as broader visions. We must prepare to acquit ourselves in these new relations in a manner creditable to our traditions. We must never lose sight of the fundamental principles of our Government."

SOLDIERS ON TRIAL.

One Killed a Filipino—More Notoriety for Whitmarsh.

MANILA, July 11.—The trial of Lieut. Brown, of the Second Infantry, charged with murdering near Binangnan, in Ilocos province, a native who was suspected of responsibility in the death of a soldier, began to-day. Capt. Francis H. Fremont, also of the Second Infantry, is being tried for striking a soldier. The court has requested that Capt. Wright, now in Washington, be ordered here to testify.

As an outgrowth of the ill-feeling existing in some quarters, it developed recently that H. Phelps Whitmarsh, governor of Binangnan, who has been ordered here to answer charges against him, had a physical encounter with Secretary Sherman, of that province, who disappeared of responsibility in the death of a soldier, began to-day. Capt. Francis H. Fremont, also of the Second Infantry, is being tried for striking a soldier. The court has requested that Capt. Wright, now in Washington, be ordered here to testify.

THE CITY IS BROKE AGAIN

HAS NOT MONEY ENOUGH TO PAY ALL ITS BILLS.

WATER CO. MUST WHISTLE

Comptroller Dunn Will Hold Up Its Twenty-Two Thousand Bill While He Asks the Council to Let Him Borrow Some Money.

The city of Indianapolis is once more flat "broke," and the policy of borrowing from month to month to pay current expenses must begin again. City Comptroller Dunn, in going over the bills allowed the first of this month, has found that, including quarterly bills, they amount to \$56,000 in round numbers, while the cash in the city treasury the first of this week was only \$40,000 in round numbers. How to pay the larger with the smaller amount was his trouble.

He has finally decided to hold up the quarterly bill of the Indianapolis Water Company, amounting to \$22,600.35, until he is a little more "flush." The city's other creditors will get their money at once. This plan will leave the city a balance of about \$17,400, together with all the current receipts from miscellaneous sources, with which to pay bills from the first of this week to the last of the month, when monthly bills and salaries become due.

Mr. Dunn will send to the next meeting of the City Council a request for authority to make a temporary loan to pay this month's bills and the water bill. Just how large the loan must be he has not yet decided, but it is expected to be somewhat over \$50,000. He must do the same thing to pay August bills, and again to pay September bills, when quarterly bills are again to be included. A small loan may also be needed to pay October bills, though fall taxes, due early in November, are, in part, available in October.

Money from Month to Month.

The plan of borrowing from month to month, instead of in one lump sum, was enforced by the City Council when E. M. Johnson, as city comptroller, had to do the borrowing the latter part of last year.

Mr. Dunn says he supposes he will be compelled to do the same thing.

All the temporary loans made between now and fall tax-paying time will be paid out of the fall taxes and enough will be left, it is expected, to run the city until the first of the year. The city will still be behind, however, the \$15,000 borrowed last year out of this year's revenue and paid last spring. It was expected that economy in the use of appropriations and the energy of Treasurer Koehne in collecting delinquent taxes would reduce this shortage materially. It will not be reduced, but the city, as usual, has had many calls for money that could not be foreseen, and the shortage is expected to stand at the end of the year at just about the same figure as at the beginning.

There may be some provision made in the fall tax levy to wipe out this shortage and start in the first of the year with a clean slate. Last fall this was talked of, but the plan was decided against, on the theory that it would make the tax levy too high.

MUST SHOW THE BOOKS.

Judge Carter Sustains Proceedings Against County Treasurer.

Judge Carter to-day sustained Melvin R. Buchanan's petition to mandate County Treasurer Koehne to allow him to inspect the books in the treasurer's office, but he made the writ subject to rules that may be adopted by the treasurer. He said the law did not give the treasurer right to exclude persons from his office, but that he might allow them access to the records only at certain hours, or even certain days; he may also demand proper conduct while there.

The Treasurer's Contentions.

Koehne contended that Buchanan forfeited his right because he asked his fellow citizens, he said he was employed by an abstract firm, when in reality he was in the employ of S. M. Richcraft, who has been barred from behind the counters. Richcraft files many suits to collect improvement liens. Judge Carter said that this business was so odious, especially when attorney's fees are added to little claims, it is legal.

Koehne refused to plead further and gave notice of appeal.

TO RACE HALF WAY AROUND.

Sailing Contest from New York to Yokohama.

NEW YORK, July 11.—An international sailing race half-way round the world will start from this city the first week in August. The racing will be between the Acme and the Brilliant. The Acme was built in Maine, and flies the Stars and Stripes. The Brilliant was launched a few months ago at Glasgow. These vessels are the latest additions to the big sailing fleet of the Standard Oil Company. They are loading at Bayonne, N. J., for Yokohama, Japan, and their sailing dates are almost identical. The two ships will follow the same course, reaching Yokohama by way of the China sea. It is natural that there should be a race under the circumstances.

SHOT BY HIS RIVAL.

Young Civil Engineer Killed at Auding, Miss.

JACKSON, Miss., July 11.—Will Nolan shot and killed A. H. Palmer last night at Auding. Palmer was a civil engineer in charge of the improvement work in the Illinois Central.

The young men are said to have been rivals in a love affair and quarreled because Nolan used profane language in the presence of a young woman telegraph operator at Auding.

Judge Baker Says He Is Satisfied with Present Position.

A dispatch from Washington to-day says that in a private letter written to a friend in that city, John H. Baker, judge of the United States District Court, says positively that he will not be a candidate for the United States circuit judgeship, made vacant by the death of Sheriff Griffith returned here to get reinforcements.

Lieut. Governor Higgins has announced a reward of \$1,000 for the arrest of the robbers.

TEACHING OF ECONOMICS.

Subject Discussed at the Convention of Educators.

DETROIT, Mich., July 11.—The interest among educators on the subject of teaching economics in the public school systems of the country was reflected in the attendance at this morning's session of the National Educational Association, which was devoted to it. Although Light Guard armory was very close when President Green called the session to order, there were 2,000 teachers present.

Talking extemporaneously, Prof. George E. Vincent, of the University of Chicago, made a splendid address on "Social Science and the Curriculum." "All subjects in the present curriculum, particularly literature, lend themselves to the social point of view," said Professor Vincent, after announcing that he did not want another subject added to the curriculum.

Prof. F. W. Spiers, of Philadelphia, emphasized the importance of economic training for the great mass of citizens, and after telling of what he considered an ideal teacher of economics, Professor Spiers said: "If such a specially trained, thoroughly equipped teacher can not be obtained, omit the subject from the curriculum. R. H. Hallett, of Louisville, entered into the discussion, asserting that suggestion is necessary on the part of the teacher.

He said he would die and leave his boy to be left at Indianapolis with relatives. To-day Joseph Morath was taken from the mills by his father and promised an easier life in Philadelphia. Then they went to Indianapolis to get the boy. Morath, with his son and grandson, will leave for Philadelphia to-day. The reunion came about by the long-lost son, a member of the Knights of Pythias, speaking of having been born in Philadelphia, but not knowing what became of his parents.

DISCOVERED IN A ROD MILL.

Father and Son Reunited After Many Years.

[Special to The Indianapolis News.]

ANDERSON, Ind., July 11.—John J. Morath, capitalist, and landlord of the Capitol Hotel, at Philadelphia, created a sensation at the local rod mill this morning, when he appeared among the roaring furnaces and picked out one of the big, brawny men as his son, Joseph Morath, whom the father lost trace of twenty-one years ago. At that time the parents of Joseph Morath were poor; his mother died, and the one son, then a child, was taken by an aunt to rear.

She died in another city, and the father was never able to locate his son until this week.

The son became a rod mill worker and married. His wife died and their baby boy was left at Indianapolis with relatives. To-day Joseph Morath was taken from the mills by his father and promised an easier life in Philadelphia. Then they went to Indianapolis to get the boy. Morath, with his son and grandson, will leave for Philadelphia to-day. The reunion came about by the long-lost son, a member of the Knights of Pythias, speaking of having been born in Philadelphia, but not knowing what became of his parents.

A. N. MARTIN DEAD AT MARION.

Passed Away To-day at the Soldiers' Home There.

[Special to The Indianapolis News.]

MARION, Ind., July 11.—Ex-Congressman A. N. Martin, of the Eleventh congressional district, died in the hospital of the Soldiers' Home here, to-day, of consumption. He was admitted two months ago from his home at Bluffton, S. C. A Democrat he represented this district in Congress three terms. He defeated Maj. George W. Steen, the present incumbent, in 1880; Colonel Bryant, of Huntington, in 1880, and Capt. W. F. Daily, of Peru, in 1882. In 1884 he was defeated by Major Steele and retired from public life.

It was through Major Steele that Mr. Martin was admitted to the home. During his term in Congress Martin was chairman of the committee on pensions. He leaves a widow and one daughter. At the time of his death, the Rev. Father Wachman was raising a fund with which to send Mr. Martin to Mexico, in hope of recovering his health.

TO MARRY LORD ROSEBERY.

Daughter-in-Law of Queen Victoria to Wed.

LONDON, July 11.—The announcement of the betrothal of the Duchess of Albany to the Earl of Rosebery is not unexpected. The widowed duchess and the bereaved earl would have been married long ago and not had been declined to countenance the union.

So strongly did her Majesty insist that in the seventeen years that have elapsed since the death of Prince Leopold, Duke of Albany, the duchess has avoided society, and devoted her life to the rearing of her children. She has invented a peculiarly shaped school seat, for which she received a gold medal, and which is now in general use.

In the midst of her studies her schemes for charity and social reforms, she believes interested in the earl. She made a mild attempt to win the Queen over to consent to their marriage. The royal mother-in-law would not hear of it.

WOMAN STARTED THE RUN.

Cleveland Bank Kept Doors Open Over Night to Satisfy Patrons.

CLEVELAND, O., July 11.—The run on the United Banking and Savings Company, which began yesterday, was continued to-day. The bank kept its doors open nearly all night in order to permit anxious depositors to withdraw. All demands were promptly met.

The run was started by a Bohemian woman who called at the bank yesterday before banking hours to draw her money. She was told to wait. Failing to understand, she spread the report that the bank had no funds.

HOTTEST OF THE SUMMER

WEATHER BUREAU THINKS SIX DAYS' STRETCH AT HAND.

HAS FORGOTTEN HOW TO RAIN

Cisterns Are Getting Low and July Promises to Break Some Dry Records—Temperature Climbed Rapidly To-day.

The hot wave that was central over a large area of territory west of the Mississippi river yesterday touched Indianapolis to-day. The weather bureau is inclined to believe the warmest week of the year is at hand. Indications point to a six day's siege.

Following is what the mercury did to-day:

It all depends upon what you want in a soap. If you require simply a dirt remover, almost any soap will do. But if you care at all about the thing which is to be washed, you must think twice before you act.

ASSAULT ON WITNESSES

AFTER BROAD RIPLE SALOON KEEPER'S TRIAL.

TOUGH GANG GOT IN WORK

Jap Clemens and His Clerk Badly Battered—Clemens Says He Did Not Appear Voluntarily, but was Unwilling to Lie.

Jap Clemens, a well-known bicyclist, carries a very black eye to-day and a smile, while his clerk's left eye is as big as a fist.

These were the only two witnesses, in addition to detective Frank Hay. They were waiting for a car at the station when one of the gang walked up unseen and struck Clemens, knocking him down.

As he rose he was kicked under the arm, but saw the crowd kicking his clerk, who was down in the gravel. He jumped in and pulled the young man to his feet, but when he turned to give the assailants some attention they were seen scattering in all directions.

Town Marshal Shields rushed out of the court-room and asked for names so that he might pursue and make arrests. Clemens knew every one of them, but refused to give names. He intimated that he would settle with them, and those who know him say he will.

Eye Nearly Kicked Out. The clerk who knocked him down was in the mouth. His eye was kicked nearly out of its socket.

Clemens says he did not appear voluntarily as witness in the case, and he does not know who is responsible for his being summoned. He and his clerk were approached by people interested in the defense, they say, and were asked conveniently to forget dates and circumstances. Clemens said:

"I take beer whenever I feel like it, and get it at the saloon. I don't like to get anybody into trouble who quenches my thirst, but when I hold my hand and see people interested in me, I don't intend to lie if I get a dozen black eyes. I am usually able to take care of myself in an act of that kind, but they got me for once."

The saloon keeper, Philip Hoffbauer, was fined \$10 and costs by White.

The State's Testimony. The state's testimony was that Clemens and his clerk were seen drinking beer served by Hoffbauer himself, between 5 and 6 o'clock Sunday afternoon, June 28. Frank Hay testified that he saw them enter the saloon. Hoffbauer and Clark Boyd testified that they left the saloon at noon that day and did not get back until about 6 o'clock.

Two other witnesses swore that they were in the saloon yard after noon that the saloon was closed, and that they did not see Clemens or others enter it. Expected Affidavits Not Filed.

Expected affidavits against local saloon keepers at Broad Ripple were not filed yesterday. It is said that B. L. Pearce, a barber, who has been appointed deputy prosecutor in the local courts, is not willing to divide fees with the attorney whom it will be necessary to employ to assist him. He thinks that he should get the \$25, which will be his share of the county prosecutor's fee, who has been "made," and that the attorney should be paid.

NEW HUSBAND.

Quite an improvement on the Old. "I have been compelled to stop drinking," I said to the friend who asked me to strengthen up on a cup of her good coffee. "Well, she said, 'what needed brother you, for I have Postum Food coffee here, which completely cured a friend of mine of sick headaches.' I tried her coffee and it was very good, and when I tried it I found it better than any I had ever had. I soon found that I was not making it correctly, but by putting in two heaping teaspoons of Postum for each person and letting it boil twenty minutes it was delicious. I had at that time been an invalid for several years, but did not know my trouble was caused by coffee drinking. I began to feel better after leaving off coffee and using Postum. I wrote him one day I had a lady who was troubled on the street nearly choked me, for she was so excited. She exclaimed in surprise at my improved appearance, and asked to know what I had been doing. She asked me if I had had a better of any kind. I said, 'Yes, I have allowed Postum Food to work the almost complete miracle of curing me.'"

Wayne County Reunion. Former residents of Wayne county will have an all-day reunion and picnic at the home of J. Sylvester Johnson, in Irvington, Friday, July 13. Addison C. Harrison, late minister to Austria-Hungary, will make the principal address and B. B. Hartman, of the same county, will also speak. It is expected that in addition to residents of this city who formerly lived in "Old Wayne" others who now live here will attend this reunion. The arrangements for which are in charge of Sylvester Johnson, D. M. Bradbury and B. A. Richardson.

Senator Finney's Quarry Purchase. W. C. Hines, of Bloomington, who was here yesterday afternoon, says Senator Hanna has invested \$25,000 in the stone quarries of Lawrence county, ten or twelve miles south of Bedford, and intends to operate the quarries on an extensive scale. He also says the Federal quarry operators have combined for the purpose of petitioning Senators Fairbank and Beveridge to have Indiana limestone used in the new Federal building in this city.

State Banks Asked to Report. The Auditor of State has issued a call on the 104 State banks of Indiana, asking for a report of their condition at the close of business July 8. The call goes on to advise the banks that the Auditor is authorized to examine the books of any bank which fails to report. The last call was made April 28. A fuller must make at least five

LAW ABUSED, NOT VIOLATED

GRAND JURY REPORT ON INSANITY INQUESTS.

WORDS OF CENSURE SPOKEN

Methods of the City Dispensary Internees Criticized in Several Particulars—The Insanity Inquest Law Defective.

The county grand jury did not return any indictments as a result of its investigation of the insanity inquest evil, but the following report, members of the "trust" are censured for abuses of the law.

"We, the grand jury, beg leave to submit to the court the following report in relation to the insanity inquests, as referred to us by your honor:

"It has been our purpose thoroughly to sift this matter to the bottom of the theory that there might have been some violation of the law to perjury, subornation of perjury, extorting fees from the county and conspiracy to extort fees from the county. With that end in view we have examined all the insanity inquests since the amendments to the old law went into effect, and some inquests which were held under the old law. We subpoenaed twenty-four witnesses to appear before us to testify. We especially investigated the cases of Dr. Ross, William DePoy and Lillian Parks.

Deserving of Censure. "We are of opinion that there has been no violation of the laws of the State of Indiana, but we are also of opinion that the law has been abused. We feel that Dr. Christian, police surgeon, and William Lockman, justice of the peace, deserve censure for their conduct in this matter, for the reason that they are trying to control all the inquests possible in Marion county for the pecuniary interests involved.

"We are of opinion that the superintendent of the dispensary and the dispensary internees deserve some criticism for several reasons.

Bad Practices at Dispensary. "1. It is the custom of the internees to pool all the insanity and other fees they receive and divide the amounts so received among each other. We believe this to be wrong, for the reason that they are overzealous in appearing as witnesses in each case.

"2. They judge a man to be insane from his own statement and their observation of him without inquiring into his family and prior history, and that they too frequently fail to notify the friends and relatives of the parties alleged to be insane to appear as witnesses.

"3. The practice among the internees of calling on the matron of the dispensary, the sub-internees and the ambulance driver to accompany them to the inquests, and have them then take to said party and from that make the affidavit believing said party to be insane, and proceed to have the inquest investigated by the Justice of the Peace.

The Law Defective. "We are of opinion that the law is defective in some ways. It permits unscrupulous men to obtain money from the county and still not violate the law. In our opinion there should be some way devised by which a ward could be set off at the City Hospital or some other suitable institution where the persons supposed to be insane could be detained and held for a certain length of time before being sent to an asylum. We believe that this would remedy some of the evils now existing.

"4. We are of opinion that it is in the interest of the county to have a certain number of persons supposed to be insane could be detained and held for a certain length of time before being sent to an asylum. We believe that this would remedy some of the evils now existing.

The Board of Health will Act. The City Board of Health will at once make preparations to begin its investigation of the connection of present dispensary internees with the "insanity inquest trust." The board has the power of removal, and the number of commissions held, will be the line of the board's inquiry.

CHRISTIAN-LOCKMAN PLAN. Agreement that One was to Serve Whenever the Other Did. The testimony of Dr. Wilmer Christian, police surgeon, before the grand jury yesterday morning, it is known, was that there was a deal between him and Justice of the Peace Lockman, by which Lockman was to act as justice in all the cases unhealed by Christian, on the condition that Christian should be called in all the cases that came before Lockman. Dr. Christian is free to admit that such an arrangement existed and says there was nothing wrong about it.

DISPENSARY INVESTIGATION. The County Medical Society Committee is at Work on It. The committee appointed by the Marion County Medical Society to investigate the conduct of the internees of the City Dispensary concerning the insanity commission cases and their conduct in receiving fees for prescribing for the sick or for prescribing for persons at the dispensary who are able to pay fees, will not report until the next meeting of the society.

Dr. Frank Ferguson, chairman of the committee, said to-day: "We have just begun our investigation and can not as yet determine what the outcome may be. The return of the grand jury will have nothing to do with our action. We shall make a thorough investigation, examining not only the dispensary officials, but a number of persons on the outside."

FALL CREEK BOULEVARD.

City Engineer Jeup has become interested in the scheme for a boulevard along Fall creek, which the Commercial Club committee on parks has been talking about for so long. Clarence Kenyon, chairman of the committee, says all the property owners of the property that would be the boulevard have consented to make a gift of the necessary land, on condition that they be not assessed for the cost of constructing the boulevard. The committee has been waiting, he says, until Roscoe O. Hawkins and Judge H. C. Allen prepare the deeds for the property. It is then the intention to submit the plan to the Park Board, the idea being to construct a boulevard on the south side of the creek, from Capitol avenue to Central avenue, and on the north side, from Central avenue to the Fair grounds.

City Engineer Jeup wishes to see the boulevard built this year, and is a little tired of waiting for the Commercial Club to act. He will probably confer with the Park Board to-morrow, with a view to arranging some plan by which the city can go ahead with the scheme. His plan is for the Board to purchase the boulevard as far as Central avenue, where the city limits stop, by accepting donations of land from property owners, with the condition that they be not assessed, and then assessing other benefited property owners under the district Park Board would have the power to complete the boulevard to the Fair grounds.

Aid for Versailles. A communication from Versailles, O., was received at the office of Mayor Taggart to-day, asking that a committee be appointed to solicit funds for the relief of the sufferers from the fire at Versailles last Saturday. The communication says that thirty-nine families and 109 persons are homeless, seventy-one persons are permanently dependent, and the occupation of thirty-eight producers is completely ruined. Versailles itself can provide food and shelter, but needs financial aid to start the sufferers toward self-support again.

To Repair the Bridge. City Engineer Jeup accepts as final the announcement of City Comptroller Dunn that the bridge at Washington-street bridge can be built this year, and says he will have to plan some means of strengthening the present bridge. It can be made safe, he thinks, by an expenditure of about \$2,500.

Dunn and Taggart Away. City Comptroller J. P. Dunn went to Logansport to-day to deliver an address on Indiana history before the Democratic Editorial Association. Mayor Taggart is expected to leave for Chicago to-day to attend the annual meeting of the National Association of Mayors.

SOUTH SIDE CITIZENS' CLUB. Will Work for Street Railway Extensions to Garfield Park. The South Side Civic League, which is heretofore known as the South Side Citizens' Club, met last night to consider the question of street car extensions to Garfield Park. It appointed a committee consisting of F. J. Meyer, John F. White, Charles B. Stiles, William E. Bailey, Henry C. McCreary and William Kaiser to wait on Mr. McGowan, president of the street railway company, and ask him to extend the street line in Southern avenue to Garfield Park.

The officers of the Germania Park, which will also get the benefit of the proposed extension, will join in the petition with the Citizens' Club. The club last night also discussed informally the extension of the South East street car line to the park, the practicability of making the South East street a loop in Raymond street over to Shelby, or of opening Singleton street from the East to East street at Lincoln lane, and have the car line go to Singleton instead of East street at Lincoln lane.

The club does not expect to have much difficulty with the street railway company, but it is necessary to have frequent meetings and to enlist a large membership to purchase the necessary ward for the improvement of the South Side.

MUST FILE CERTIFICATES.

State Auditor Notices Foreign Insurance Co. Agents What to Do. State Auditor Hart, to-day, sent out a circular letter to all agents of foreign insurance companies, that will be necessary in Indiana, relating to the licensing of insurance agents.

"The insurance department of Indiana," he says, "holds that under the law authorizing the issuing of certificates of authority for agents to do business for foreign insurance companies, it will be necessary for each agent in Indiana to file a certificate of authority with the State Auditor, and to file in the office of the clerk of the Circuit Court of the county, a certificate of authority with the clerk of the Circuit Court at Martinsville."

The Auditor says it will not be necessary for the general or district agents of a company whose business is supervisory and who do not write insurance, to take out a certificate of authority in any other county than the county where their offices may be located.

MACHINIST'S SUICIDE.

Edward Sues Kills Himself in an E. Washington Street Saloon. Edward M. Sues, a machinist employed at the Chandler & Taylor Company, killed himself yesterday afternoon by taking morphine in the Tammany Club saloon, 44 East Washington street. He was twenty-four years old and lived with his parents at 24 Walnut street.

Sues had been drinking heavily for several days and became morose. He visited Horanbrook's drug store, at East and Washington streets, and purchased 15 cents' worth of morphine. An hour or two later he again visited the place and secured a bottle of the poison. He went to the saloon, poured both packages into a glass of soda and drank it.

No one noticed him until the bartender, John Buck, heard heavy breathing in the back room, and went to investigate. Sues was unconscious, and Drs. Young and Gray, of the City Dispensary, who were called, were unable to revive him.

Judgment for \$7,500 Damages.

Charles J. Donk, formerly an engineer on the Pennsylvania lines, has obtained judgment for \$7,500 against the railroad in the United States Court. He complained of injury in a wreck east of Chicago.

Plies Cured Without the Knife.

Your druggist, when you know to be reliable, will tell you that he has cured a number of cases of Piles with the application of the medicine of Dr. J. C. Rogers, of the city of Indianapolis, Ind. The medicine is a simple, safe, and effective remedy for Piles, and is sold by all druggists.

surrounded, were compelled to retreat, leaving their tents standing and their wounded in the hands of the enemy.

Doublets the fighting will go on, and the British will ultimately control the whole country. But, nevertheless, the war is one of the most wretched that Great Britain ever engaged in.

Men out of a job do not have to go as far west as Kansas or Nebraska for work. A dispatch from Kokomo says that girls and women are working in the fields in that county in order to save the crops, there being a dearth of harvest hands.

The sentiment of the Ohio Democrats seem to be that Bryan should not stand in the way of the party any longer. They have either smallpox or "contagious impetigo" in Daviess county, and the doctors can not tell which.

The law is defective and easily justice and the police surgeon, Justice Lockman and the fledgling doctors and attendants at the dispensary have been making a sorry record.

John of England had the reputation of being the handsomest man of his age. From 1808 to 1813 many attempts were made to fasten metal collars to quell him.

Publicity is probably what that character, Dowie, wants. Is there no way to protect weak-minded people from themselves, or must they be left to the consequences of their own folly?

What is the good of "endowment ranks" unless the managers be endowed with business sagacity and common honesty? It is reported that a certain actor will use the wardrobe of Edwin Booth next year.

Some of the imperfections of the primary election law are coming to light. It is foolish for Chairman Logsdon, of the Republican city committee, to assert that everything is all right and that there is no trouble in getting men to serve as election officers without pay at the primaries.

The application is just as true as that which "Pinafore" made, taking the first of Mr. Smith, who was at that time first lord of the admiralty, Mr. Smith being famous as the proprietor of news stands at most of the railway stations in England.

The conclusion is quite as logical and as full of practical value as that which is reached in the case of Charles Schwab or Albert Johnson or Hugh McGowan. You have simply to begin as a teamster or street car driver, as Mr. Johnson and Mr. McGowan did, and behold, in a few years you will be a millionaire.

Why are railroad wrecks always bunched? There are 60,000 applicants in Oklahoma for the 13,000 farms that are to be opened to settlement. As much of this land is of little value, the ordinary man can easily figure out his chances of making a good strike.

After all, the Hon. Tom Johnson was treated pretty kindly by the Ohio convention. Here's wishing that the visit of the Y. P. S. C. E. to Cincinnati will do the city much good, but considering that she is a pretty hardened sinner, there may be no harm done in expressing a doubt.

Mr. Bryan had few friends in the Ohio Democratic convention. The committee on resolutions decided by a vote of 20 to 1 that nothing should be said in the platform about him or the two platforms on which he made his fight for the presidency.

The sun is out to beat its own record, and it is making some great heats. The "insanity train" can not be reached, which clearly shows its relationship to all other trains.

Another woman was struck by a scorching last night. Scorchers, particularly on tandems or motorcycles, are numerous. They race through the streets at railroad speed. The police ought to give more attention to the regulation of traffic in the streets.

The talk of a new bridge over White river this year seems Dunn for. A paragraph in the Ohio Democratic platform denounces boss rule. This, too, may have been adopted at McLean's own suggestion.

Turkey has paid us \$50,000. As the Porte is not accustomed to meeting its obligations, we can consider ourselves a preferred creditor. The reckless man with a belt full of revolvers does not have the call in Oklahoma this time.

The Ohio Democratic convention declared against trusts and for commercial "freedom," but it turned down Monnet, the special foe of monopolies. Was it because of the Bryan campaign he kept?

The Chamber over the Gate.

It is so far from these parts that I have never seen the Chamber over the Gate. Weeping and wailing sore for his name who is he?

There is no far or near, From this western shore here, There is neither son nor heir, In that Chamber over the Gate.

From the ages that are past The voice sounds like a blast Over seas that wreck and drown, The result of his mad quest, Over from ages yet to be, Come the echoes of to-day.

Somewhere at every hour The watchman on the tower Looks out for the passing feet Approach of the hurrying feet In the distance of to-day?

He goes forth from the door, From the western shore here, With him our dear departed, In that Chamber over the Gate, And forever the cry will be, "Would I had I had my share!"

Last night I dreamed I saw my mother young, I never knew her till her hair was gray, Last night I saw the wrinkles smoothed away, And from our homely looks of old among the stars came down the moon.

Who had watched the stolen march of days, And would not see the days that stole away, Moved bravely to meet her, mute with prayer, But, ah, the vibrant hand that in mine lay, Her mother's eyes, deep deep with prayer!

The cultivation of sugar extended from India to Persia some time in the ninth century. Some varieties of mosquito work only by day, others are nocturnal, but all are equally destructive.

Hundreds of horses in New York have been treated to shower baths from fire hoses during the last few days. The early inhabitants of the Nile valley had excellent roads, paved somewhat in the macadam style of the present day.

The use of perfumes became so extravagant in Athens during the time of Solon that he issued an edict forbidding Athenians to use them except in certain specified cases.

At a recent convention held at Corvallis by the Texas Reform Press Association, an essay on "The Humorous Side of the Newspaper Business" was read by Nix Houx, of the Mexico Evening Ledger.

Porto Rico contains 300 people to the square mile, but the population of the United States is only 150 to the square mile. The population of the United States is only 150 to the square mile.

King Edward VII is cutting down many useless expenditures of the crown. The number of his courtiers has been reduced from thirty-six to twelve.

In a life of Pasteur, published in Paris, attention is called to the fact that the man who was destined to revolutionize chemistry came fourth in the list of twenty-two candidates at his school in Dijon, and was marked "weak" in chemistry.

For several years oil has been used in southern California to lay the dust in the streets in summer and on the roads in the country. The oil has been used as an experiment as a dust-catcher, and the people say it is a splendid road maker.

The postmaster-general of Great Britain, the marquis of Londonderry, is reported to be a man of great wealth for neatness and correctness. Everything is in its proper place. There is no searching for pens, books or letter weight; all are within his reach.

Glasgow University conferred 120 honorary degrees of Doctor of Laws on the occasion of its 40th anniversary. The American recipients were Prof. William G. Parlow, of Harvard; Prof. Thomas A. Seymour, of Yale, and Prof. Paul Haupt, of Johns Hopkins.

The terms of three United States Senators expire on March 4, 1902, and of this number eight are Democrats, five are Republicans and one is a member of the Republican party. Vacancies will occur in that year in the senatorial representation of New York, Kansas, Ohio, Illinois, California, Indiana and Missouri.

### SYRUP OF FIGS

NEVER IMITATED

**An Excellent Combination.**

The pleasant method and beneficial effects of the well known remedy, Syrup of Figs, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

### MORE EGGS FOR DOWDLETES

**RIOT AT EVANSTON AND A CHARGE BY THE POLICE.**

**HOSE USED TO GOOD EFFECT**

A Four Inch Stream Forced the Invaders to Seek Shelter—Several People Injured and Many Arrests Made.

CHICAGO, July 11.—There was a riot in Evanston, last night, when 150 followers of Dowdlet tried to hold a meeting in that suburb. A crowd of 1,500 people surrounded the Dowdletes and pelted them with eggs and vegetables. The police ordered the Dowdletes to move on, but they refused to do so, and the police charged. This was without result, and the mayor ordered out a fire engine. A four-inch stream was turned on the invaders soaked, many being knocked down and injured. Elders Piper and Spelcher, with twenty of his followers, were arrested, and on the way to the police station they were treated to eggs, dirty water and stones.

**Several People Badly Hurt.**

Those hurt in the melee are: Overseer J. G. Spelcher, cut on the shoulder; W. O. Deming, head cut; Elizabeth Van Horn, back injured; B. F. Morris, cut over eye; Caroline Hartman, cut over eye and shoulder sprained; F. A. Graves, face cut; C. C. Kirby, cut about head; Norris Van Horn, badly hurt from blows on the head and body; Mrs. Jennie Plank, back and shoulder hurt.

When the Dowdletes which had been arrested by the police reached the courtroom they broke out into song, in spite of their plight, and continued shouting their exhortations so that those who had collected on the outside could hear them. Overseers Piper and Spelcher were put under bonds to insure their appearance July 12 to answer to charges of rioting, and refusing to clear the streets.

Chief of Police Knight guarded the march to the station. Before the train pulled out for the city proper the crowd became boisterous and many were thrown, but Chief Knight saved the Dowdletes from further harm.

CHAPTER XL  
**ALVA'S REVENGE.**

They were happy days thereafter in Breutha town, when we walked together on the walls, in the burgomaster's garden, sometimes as far as I dare go into the country. And that is what I loved for me—O yes, your mistress, I see your pretty face brown, and indeed, I had, I have blood in my veins like you—I say, 'twas allowed for me with the thought of Alkmar. I hate to fall, and, worst of all, I hate to fall by my own hand. But still my eyes, and it would have been a man with less to regret who won Gabriella's love. She would not suffer me to speak of it, laughed at it, for pride, and that was some comfort; but the knowledge that Alva's 3,000 might have been crushed still lay in my mind and rankled. I have heard Gaspar—he was a man of learning before he took to the sword and the saddle—I have heard Gaspar talk of an old Greek who said that the worst of woes was to see things wrong and have no power to right them. He was a wise man, but I think it out deeper now you might have righted them, and to have thrown the chance away.

Well, the days went by and we had little news from Alkmar. It held out still, there was comfort in that, but Alva loved the waiting game, and that could only have one end. The lines round Breutha were broken, but who would dare to lead such a force as we could bring against the 15,000 Spaniards who lay before Alkmar? The prince went back to Deo to meet Dietrich. Some day, some day, I have cause to remember the time!—O I have cause to remember the time!—O I have cause to remember the time!—O I have cause to remember the time!

And what is that to you? quoth he. 'What have you to do with me?' cried one. 'Falls, did you learn your manners?' cried one. 'Perhaps it was Spick,' cried he. 'Perhaps it was,' cried my gentleman. 'What?' howled the burghers at once, laying hold of his neck. 'No, then, do my errand yourselves,' he said coolly, twisting out of their grasp and leaving them staring after him. 'What have you to do with me?' said they. 'What have you to do with me?' said they. 'What have you to do with me?' said they.

### ARGENTINE BACKED DOWN.

Abandoned Its Financial Bill in the Face of Opposition.

**Buenos Ayres, July 11.**—The Argentine government has sent a message to Congress, saying that, while it can not withdraw the bill for the unification of the public debt, because the measure has been passed by the Senate, in view of the situation in the country, the administration does not insist upon the passage of the bill, and requests the chamber not to support it.

In accordance with the wishes of the government, the Chamber of Deputies dropped the bill, which disposes of it finally.

President Roca has appointed Senor Marco Avellaneda, Minister of Finance. He is president of the Chamber of Deputies. He has accepted. He opposed the financial bill.

Minister of Agriculture, Senor Ezequiel Ramos Mejia has resigned.

### NEW STEM ON THE OLYMPIA.

Bronze, Which Commemorates Admiral Dewey's Great Victory.

BOSTON, July 11.—The stem ornament designed to commemorate the cruiser Olympia's great victory at Manila bay is being attached to the hull of the vessel. The stempiece was set up a few days ago.

Some of the bronze used in casting the two pieces was taken from the Olympia and this given added value to them. The stem ornament is the more elaborate. A winged victory holds high above her head an eagle, which she is about to launch into the air. Victory's wings lie against the sides of the stempiece. The stempiece consists of a shield with a mass of scrollwork on each side.

### MORE MONEY FOR HER NAVY.

France's Bill Continues to Run Up.

PARIS, July 11.—The naval expenditure of France for 1902 is officially proposed to be \$2,420,000, which at first sight seems to be \$1,100,000 less than in 1901, but if it is taken into account that the cost of maintaining the marine, infantry and artillery, amounting to about \$5,000,000, has been transferred from the navy to the Ministries of War and the Colonies, it is found that the money that France intends to spend upon the navy during 1902 is in reality \$2,420,000, the same as the naval expenses of the current year.

### SELLING OFF ITS OLD STUFF.

England is Rejoicing at American Prosperity.

LONDON, July 11.—The prices obtained at Christie's this year have been higher for furniture, paintings, engravings and jewels than have ever before been known. The results are attributed to American prosperity.

good and evil I have been true to my cause. When I left Alva I did it openly, and when his friends were at their banquet, all this I knew. But what would she think? At the best, at the best, it would be very bad for her. I was not a traitor, as these fools thought, and if she doubted me now, why that was the end of our friendship. I was not a traitor, as these fools thought, and if she doubted me now, why that was the end of our friendship. ## Just Kidney Ache

INDIANAPOLIS CITIZENS KNOW THE CURE

Some people call it backache—some say it is overwork—others know it is simply the failure of the kidneys to do their duty. A man can't be well if the kidneys are sick. He'll have backache, lame back, headache, stomach trouble—be miserable generally. It's the uric acid in the blood—poison that the kidneys ought to take out.

### Doan's Kidney Pills

help the kidneys to do their work. Cure backache, urinary troubles, every form of kidney disease—have done it for hundreds of people right here in Indianapolis—are doing it every day. Here's proof of it—

Mr. Frank G. Smith, of 129 E. Morris street, watchman of the Panhandle at the Downey street crossing, says: "I was treated by my kidneys and bladder trouble by physicians, but never obtained permanent relief. There was a steady aching pain in my kidneys, which, when I stood, became terribly severe. In damp weather, or when I took cold, it always settled across the small of my back, and in the morning I felt so lame and sore I was almost unable to get up. The kidney secretions were irregular, discolored, and annoying. I obtained Doan's Kidney Pills at Henry J. Huder's drug store, and they strengthened my back and regulated the secretions. I prefer Doan's Kidney Pills to any other remedy I ever heard of, and I can highly recommend them to others."

### W. K. GRESH & SONS

ASK THE MAN BEHIND THE CASE

A PROMINENT HOTEL MAN.

An interesting letter is given by Mr. L. D. W. in which he tells of the central portion of the United States as an excellent hotel man, as all those who can testify who know him associated with the management of the Spencer House, Indianapolis, Ind. He is now manager of the Hotel Enterprise in that city. Under date of Nov. 14th, 1899, he writes as follows: "I have known Mr. Gresh since I have been keeping house for five years and am never without Dr. Caldwell's Syrup Pepsin. We find nothing to equal it for stomach troubles, and my children like it as well as candy. One night recently my wife was giving a dose to our baby (3 1/2 years old) and held, our little girl (4 years old) cried for some time. Her mamma told her she didn't need it for that. The effects are so good we hate to be without Dr. Caldwell's Syrup Pepsin. Yours truly, L. D. W. Western Hotel, Enterprise Hotel, P. O. Box 1000, Indianapolis, Ind. Dr. Caldwell's Syrup Pepsin is sold by most druggists in 50c and 1.00 bottles. Positively cures Dyspepsia, Indigestion, Constipation, Bilelessness, Sleeplessness, Liver and Kidney disorders and Malaria. Put up only by Pepsin Syrup Co., Westfield, Ill., U.S.A."

BALL CLUB WILL DISBAND

SEVERAL PLAYERS WILL GO TO CINCINNATI. NO TEAM TILL NEXT YEAR. Then a Good Club, in a Good Organization, is to be Provided—Minor League Club No Go in This City.

The last ball game of the Western Association season of 1901 in Indianapolis was scheduled for this afternoon. The club as it now stands will be disbanded.

Just what will happen then depends largely on the result of the visit of President Meyer, who will arrive this afternoon and consult with the Indianapolis magnates.

An effort will be made to reorganize the club with what players are left, after the several deals now pending for the best men are closed up, and send it on the Eastern trip.

If this is done the team will be sent out either in the name of some other city or the Indianapolis team in name only.

Watkins and Ruschaupt are through with the Western Association as magnates and will not consider any plan which can possibly involve the loss of any more money.

Muncie Could Not Take It. The report that Muncie has organized a company to take the club and franchise to that city is not considered seriously by President Watkins, as the Indianapolis team would cost the Muncie people more in a week than could be taken in at the club in a month.

Just what will become of the players has not fully been decided on, as several deals are pending, and will not likely be closed up before to-night or to-morrow.

The only two players who have actually been sold are Fox and Boy, and they will go to Cincinnati, where they will be sold to the Reds. Heydon, Stimmel, Kelly, and possibly Suthoff, may go to that city.

This will happen, however, only in the event that the deal for Fox and Boy is consummated. If the majority of the players are transferred to Cincinnati, as now contemplated, all except Fox and Boy, who have been sold outright, will simply be held by the Indianapolis club.

It is expected that the players will be returned to this city next spring. If the present plans do not materialize, a Good Club Next Year.

The breaking up of the ball club, while it means the end of professional baseball in Indianapolis for the season, is only a temporary set-back. Both Watkins and Ruschaupt have not lost faith in Indianapolis as a baseball town, but realize that they made a mistake in trying to conduct a minor league club here after having had an American League team in this city for several seasons.

It is expected that the players will be returned to this city next spring. If the present plans do not materialize, a Good Club Next Year.

Washington Park, with all its improvements, represents an investment of over \$20,000, and while it will be something of a load to carry, the Indianapolis magnates are planning several entertainments to be given there this fall which, if successful, will relieve them of much of the expense of keeping the park up.

Marion's attendance for the season was 10,000, and the association experiment conducted by Watkins and Ruschaupt at \$5,000.

MARKET ACTIVE AND PRICES WERE HIGHER.

WAS AN UNLIMITED DEMAND

Corn was boosted again, going well above fifty-one cents—Provisions Open Strong.

CHICAGO, July 11.—Favorable weather and encouraging cables were the causes for the steady opening in wheat today.

Offerings were light, while the demand was better than for some time past. Commission houses and local shorts were liberal purchasers, and there was also a good foreign demand.

The market was strong and advanced to 69c on good buying. Northwestern receipts were 300 cars, against 146 cars a year ago.

The market held firm most of the day and the high point was reached at 69c. Toward the close prices eased off in sympathy with coast grain, and September closed 1/2c higher at 67c.

High Price in Corn. Corn opened higher on unfavorable weather conditions and reports of damage throughout the Southwest.

Trading was general, and offerings were liberal on the advance. September opened 1/2c higher, at 51c, and closed at 51c.

Heavy buying prices advanced 1/4c. Local receipts were 32 cars, 12 of contract grade.

Heavy realizing later in the session caused a slight decline after 51c had been reached by 50c and the close was 1/2c higher, at 51c.

Enormous Trading in Oats. Oats were extremely active, with an enormous trade. The opening was higher.

The main features were the apparently unlimited demand from outside, and the heavy selling by elevators.

September opened 1/2c higher, at 31c, and closed at 31c. At 31c there was considerable profit-taking. Local receipts were 12 cars.

On strength in hogs and light receipts, provisions opened strong. Trading was almost at a standstill, with only a few outside orders to buy.

York opened 2 1/2c higher, at 11c, and closed at 11c. Pork was 1/2c higher, at 11c, and closed at 11c.

Beans opened at 11c, and closed at 11c. Corn opened at 51c, and closed at 51c.

CATTLE UNSATISFACTORY

Only a Partial Clearance Made—Common Kinds Were Weak and Lower—Conditions Unchanged in Sheep Market.

A. W. THOMSON'S LETTER.

Government Report Does Not Fully Reflect Poor Condition of Corn.

Wheat—Liverpool was 1/4 higher. The general tone of the market was firm. Strength in coarse grains was a factor and the talk that wheat selling cheaper in the Southwest than corn is inducing a feeding of the former.

There was also some little apprehension regarding the effect of hot, dry weather, in southern Minnesota and South Dakota. We think these fears so far are premature.

All this, however, induced covering of shorts, and little better speculative buying. Northwest stocks show a fair decrease and another decrease in the visible is not improbable.

We would not be surprised to see a further reaction in wheat. Drouth in the Southwest will tend to decrease the amount of wheat that can be raised, and the Northwest crop is at a critical period.

Unless serious damage results, however, we think it would be pretty safe to sell wheat on any material receipt. Indicating—The Government report, indicating a crop of only 1,000,000,000 bushels, was more bullish than had been expected.

It was generally believed that the report gave the market a fresh impetus. Fears that the report would induce a run-away market. Advice from the Southwest are getting extremely gloomy.

There is a feeling that the Government report does not fully reflect the poor condition of the crop.

GOVERNMENT CROP REPORT. Corn Acreage Reduced and Condition Very Low.

WASHINGTON, D. C., July 11.—Preliminary returns to the statisticians of the Department of Agriculture on the acreage of corn planted indicate a reduction of about 400,000 acres, or 5 per cent, from the area planted last year.

The average condition of the growing crop is 83.5, as compared to 83.5 on July 1, 1900, 85.5 at the corresponding date in 1899, and a ten-year average of 84.4.

The condition in Nebraska is 88, in Illinois and Iowa, 87; in Kansas, 74; in Missouri, 70, and in Texas, 64. In Indiana the condition is a little above the ten-year average.

Winter Wheat Improved. The condition of winter wheat improved during June, being 85.3 on July 1, as compared with 87.8 on July 1, 1900, and 85.6 at the corresponding date in 1899 and a ten-year average of 86.2.

The average condition of spring wheat also improved during the month, being 55.6 on July 1, as compared with 57.1 one month ago, 52.3 on July 1, 1900, and the corresponding date in 1899, and a ten-year average of 55.8.

The amount of wheat raised in the United States during the year 1900 is estimated at about 31,000,000 bushels, or the equivalent of 6.88 per cent, of the crop of 1900.

The average condition of the oat crop is 82.7, as compared with 83.3 one month ago, 82.7 in five departments. The average condition in 1899 and a ten-year average of 82.7.

THE FUTURE OF WHEAT. Heavy Surplus Does Not Mean Lower Prices.

CINCINNATI, July 11.—The Price Current says: The suggestion made by the Price Current a week ago that the crop position justified the view that this country could spare 350,000,000 bushels or more for exportation the coming year has not been disturbed by conditions the past week.

This means a quantity more than 50 per cent greater than has been disposed of within a year in foreign markets. It may be added that there is promise of an unusual surplus this season in Canadian provinces.

But these facts do not necessarily imply that the wheat market is overabundant. There are various features likely to counteract the effect of the surplus. The most important of these are: 1. The fact that the wheat crop is not so generally abundant, under influence of the great surplus in this country, is a fact that is likely to be more in an upward than a downward direction.

French Wheat Report. PARIS, July 11.—The agricultural department reports that the conditions of wheat are good in the various departments, good in twenty-eight and fair in fifty-five departments. Spring wheat is good in thirty-two and winter wheat in twenty and middling in six departments.

To-Day's Primary Markets. Primary market receipts: Wheat, 484,000 bushels, against 444,000 bushels the corresponding day a year ago; corn, 353,000 bushels, against 344,000 bushels; oats, 283,000 bushels, against 277,000 bushels; hay, 335,000 bushels, against 327,000 bushels.

Minneapolis received 27 cars of wheat and 10 cars of corn, a total of 37 cars, against 34 cars the corresponding day a year ago.

St. Louis: Receipts—Wheat, 18,000 bushels, against 18,000 bushels the corresponding day a year ago; corn, 14 cars; oats, 14 cars; hay, 14 cars.

Estimated cars at Chicago for July 11: Wheat, 30 cars; corn, 25 cars; oats, 20 cars; hay, 20 cars.

BOYS PLAYED TO CROWDS

GREAT NUMBERS WENT TO BROOKSIDE PARK. PARK NEW TO MANY OF THEM. Surprise at Its Beauty—Difficulty in Finding the Way About Owing to Lack of Familiarity with the Place.

More persons were introduced to Brookside Park yesterday evening than Brookside Park believed existed. The introduction was brought about by a concert by The Indianapolis News Boys Band, the first of a series to be given in the various parks this summer.

Lulled into Forgetfulness. The greater part of the crowd was about the shelter-house, whence the music came, but the benches were soon occupied, and those persons who felt too dignified to sit on the grass in the glare of the lights, took to the hills and distributed themselves on the cool grass, plugging themselves against the trees or lying with their heads luxuriously cushioned in their hands.

...CHANGE OF FIRM... Dissolution Sale...

The WHEN, which was established in 1876, and has been under the same management for twenty-five years, is now to undergo a change in the firm. The partnership existing between John and Phillip Owen and John T. Brush, of Indianapolis, for more than a quarter of a century is to be dissolved. The Messrs. Owen are to retire from the business. This makes a dissolution sale a necessity—this necessity is your opportunity.

We begin with 450 men's Sack Suits, and 250 Suits for boys, sizes 14 to 20. Every garment was made this season to sell at prices from \$10 to \$30. To-day the prices are \$6 to \$20. Of course the early bird gets the pick, but every Suit you buy you're actually making your pocketbook a present of from \$4 to \$10.

The reason for this sale is legitimate and genuine, and the bargains are genuine and honest. Watch our daily advertisement; different bargains will be offered from day to day. Everything has actually got to be closed out, and after this the new WHEN will open its doors with a brand new stock.

THROUGH THE MICROSCOPE. She vigorously thumps on the piano. While she fills the whole flat building with soprano—How the neighbors would rejoice if she'd only lose her voice! They would celebrate their good luck to a man, Oh!

"I have been called a durn fool more times this morning than I have during my whole life," said a Washington-street merchant, "and just because I wanted to do something for my country. I had some stamped checks left over," said he, wiping his brow, "and as they amounted to only 50 cents, I concluded to use them up, even if the tax had gone off. I sent twenty-five checks out by mail last night and over a dozen of the recipients, some of them friends of mine, have rung me up by telephone this morning. Some of the expressions were 'Hello, old Rip Van Winkle, wake up!' 'Say, old geezer, get off the hand-car and get on to the express.' The band wagon is four miles ahead of you; get a bike and overhaul it!" And many others equally abusive. It will be a long time before I am loyal again.

"You say Bixbee is a man of rare wit. I never noticed it." "Yes, very rare; he cracks a joke at least once in every five years."

At the Telephone—Don't you think it would sound much better if— "At the Desk—If what? "At the Telephone—If the girl at the exchange would say 'How do you do?' instead of 'Hello!'"

"Git out of my way," growled the tough in the crowded street, "or I'll take a bust at you and stop yer clock." "If you stop my clock," politely replied the suave pedestrian, "I shall be delighted to see that you get into the works."

Probably the main reason for pardoning the Younger brothers is that they are older now.

"Politics," said the Imperial Preserver of Precedent to the King of the Peagreen Isle, "is looking up a trifle." "Then," said the King, "there is a slight prospect of her seeing her best friends and chief supporters." For the impression of the observant ruler was that those politicians who had come from the land of his stepfathers were not of the class to be found by scanning the upper scandal.

BOARDS MAY CLASH. Medical and Pharmacy People Differ Concerning Druggists' Custom. The State Medical Board and the State Pharmacy Board may clash if the State medical authorities carry out their threat to prosecute druggists who prescribe for patients. Both boards were in session here yesterday. The State Medical Board decides that it will bring legal proceedings against druggists who are in the habit of prescribing for persons applying to them for remedies for minor ills. The practice is common among druggists, the doctors of the medical board aver.

President Sloan, of the State Pharmacy Board, says few druggists prescribe for sufferers, unless it is to give them standard medicines for certain minor ailments. It is not necessary, he says, for a man with a cut finger or the stomach ache to go to a doctor. The pharmacy board late yesterday attorney-elect George W. Sloan, of this city, president, and Theodore E. Otto, of Columbus, secretary.

Keith's Final Effort.

His Attorneys File Their Brief in the Supreme Court. In the brief which attorneys for Joseph D. Keith, who is condemned to be hanged for the murder of Nora Kifer, at Princeton, filed in the Supreme Court it is maintained that the Gibson county court erred in permitting the State to introduce an alleged confession of Keith in writing. It is also held that the court erred in allowing Fred W. Korte to testify that certain letters were in Keith's handwriting without having the letters in his hands at the time Keith's attorneys also allege that the lower court ought not to have allowed the introduction of certain articles in evidence, such as slips, a corset, a rope with a loop and bunches of hair, which, as Keith's attorneys declare, were not sufficiently identified.

Attorney-General Taylor will begin at once to prepare a brief for the State.

Woman Run Down by Scorchers. Mrs. Ella Pettit, of Spencer, Ind., who is visiting her uncle, at 522 Warren avenue, was run down by a colored "scorchers" last evening, while walking along the sidewalk at Morris street and Belmont avenue. She was badly injured, and was taken to her home in the city ambulance. Mrs. Pettit was walking with her sister, when two colored riders, who appeared to be racing, ran them down. The one who struck Mrs. Pettit was knocked off, but he jumped to his feet and escaped, leaving his wheel. Mrs. Pettit's sister was not hurt.

Another Man Missing. Mrs. F. E. Bell, of 1801 Olive street, reported to the police to-day that her husband disappeared from his home Tuesday forenoon and has not been heard from. Bell, employed at the Semative Governor Company factory, and has not been at work since Monday. Mrs. Bell wrote a pathetic letter to Superintendent Quigley, saying she was heartily crazed with grief. Bell is a young man and a member of the K. of P. and the A. O. U. W.

Burton Cottrill's Body Arrives. The body of Burton C. Cottrill, an Indianapolis boy who died while serving in the army in the Philippines, arrived here at midnight. It was taken to the undertaking of Whitsett & Culver. The arrangements for the funeral have not yet been made.

A Palatable Feast for 2 Cents. Try It. Did you know that the Deerfield Valley and Hoosier country traversed by the Boston & Maine railroad, is one of the most beautiful regions in the country? As a scenic paradise it has no equal. On every side the scenes change with panoramic swiftness to the intense delight of the beholder.

Then, too, there is no little historic interest attached to the territory journeyed through. This interior country is a delightful vacation ground, and on every hand there is to be found unlimited accommodations for the vacationist who delights in a rural outdoor life. Another pleasurable feature is its accessibility, from not only the whole of New England, but from New York and the West as well.

The Boston & Maine has just issued a book bearing the name, "Hoosier Country and Deerfield Valley," which is a delightfully written story of the country, and after reading it you will want to visit the region. Send a 2-cent stamp to General Passenger Department, Boston & Maine System, Boston, for Book No. 15; you will enjoy reading it.
