## 300 Beautifully Trimmed New Velvet Hats

Choice, \$6.50

These Hats come to us direct from an Eastern manufacturer and are better values than you could possibly expect at the price. Our buyer, now in the market, secured them at price concessions and hurried them to us for Saturday's selling—all middlemen and jobbers' profits have been eliminated. This explains, in a measure, the striking nature of the values.

Included are dressy HATS, street HATS and smart tailored effects. All are fashioned of fine LYONS and PANNE VELVETS.

Trimmed with large ostrich plumes, fine ostrich bands, ostrich pom poms, ostrich fancies, ribbon motifs, coque feather bands and embroidered effects.

School and Dress Hats  
\$1.95 \$2.95 \$3.95

Made of good quality Velvets in scores of shapes and sizes suited to the tastes of scores of girls; the colorings are mostly the dark, serviceable shades—brown, green, navy and black predominating. Trimmed with grosgrain ribbon bands, bows and streamers.

## 1,800 Men's Shirts

Reduced from \$2.50,  
\$2.85 and \$3.00, at

These Shirts are regular Wasson Shirts, and, if purchased today, would cost more than this sale price. Such was the statement of the Shirt Chief, and he knows.

These Shirts were bought months ago—a statement that means much money saved for you. We suggest that you buy for months to come—it would be wise.

Superior workmanship—good woven materials—patterns that are worthy of Silk Shirts—colors that strike every desirable note—these are four outstanding qualities of the shirts.

All sizes from 14 to 17. All in coat style, with soft cuffs.

**BRINGS SUIT TO GAIN POSSESSION OF HIS WIFE**

**W. S. COOKE SAYS MOTHER-IN-LAW DETAINS HER.**

**ACTION IN SUPERIOR COURT**

William S. Cooke, brought habeas corpus proceedings in superior court No. 3 Thursday against his mother-in-law, Mrs. Bessie C. Anheier, for possession of his wife, Dorothy, who, he says, is being unlawfully detained at the home of her parent. Evidence will be presented in court to show that the Cookes were married last August and that they were living happily together when Mrs. Anheier interfered and took her daughter home on the ground that the daughter was only seventeen years old when she

married and therefore should be in the mother's custody. Elias W. Clouse brought suit in superior court No. 4 against Pearl M. Clouse, formerly his wife, asking that their daughter be produced in court next Saturday afternoon. It is alleged that when the Clouses were separated, the court made an order permitting each parent to have custody of the child for two months only at any single period and that Mrs. Clouse is detaining the child at Terre Haute beyond the specified time.

Mrs. Anna Gibbs, who lives in Berry county, Michigan, has brought habeas corpus proceedings in superior court No. 5 to obtain possession of Wyntha L. Howard, sixteen years old, said to be held by her father, George Howard, who lives in Indianapolis. The plaintiff alleges that she educated Miss Howard and had an agreement with her father to keep the girl as her daughter. The case will be heard Saturday morning.

The Big Furniture Store, Where Credit Can Buy As Much As Cash

**You'll Save Money By Buying Your Stove At Sommers Now**

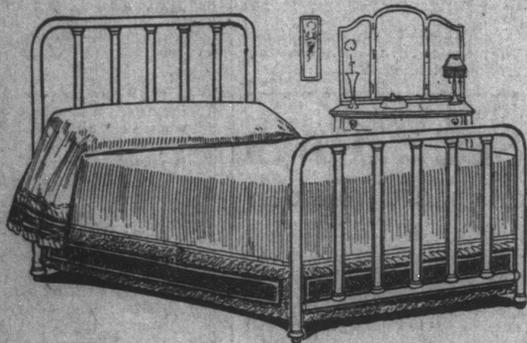

This All Cast Iron Quaker Range

**\$45.00**

\$3.50 Cash, \$4.00 a Month

It is a real coxer of kitchen comfort. It's all cast iron construction makes it hold heat—and that means a warmer kitchen this winter with less coal. And it is a wizard when it comes to baking. Has big six-hole top, large oven, strong grate and fire box, high warming closet with roll door, rich nickel trim.

This Simmons Steel Bed

**\$9.75**

\$1.00 Cash, \$1.00 a Month

Like all Simmons beds, is a quality article. Yet the price is low. Has the easy-to-keep-clean, continuous post construction. Comes either in the rich, scratch-proof and mar-proof Vernis Martin golden finish, or in clean white enamel.

Here is the reason back of that statement. Many of the stoves and ranges now on our floor were bought before the sharp advances in prices—we can and do sell them at the same prices they were selling for a year ago. Consequently you will save real money by purchasing your new stove or range now. Those that were ordered later, and which will take the place of the ones we are now selling will have to be priced higher.

Another thing—SOMMERS is the stove store of Indiana—largest and most reasonable showing of quality stoves in the state.

New Victor Overdraft Heater  
**\$17.75**

\$2.00 Cash, \$2.00 a Month

Homes that have installed the New Victor Overdraft Heater are enthusiastic in its praise. It is not only a great heater, but a wonderful economizer of fuel. Indeed, it can be counted on to pay for itself in the fuel it will save in a single winter. There is no other heater like it. It is built on a new principle that warms the air before it reaches the firebox, forcing this hot air over instead of through the coals, so the smoke is all consumed. Other models up to \$55.

**A New Sommers Service for Homeseekers**

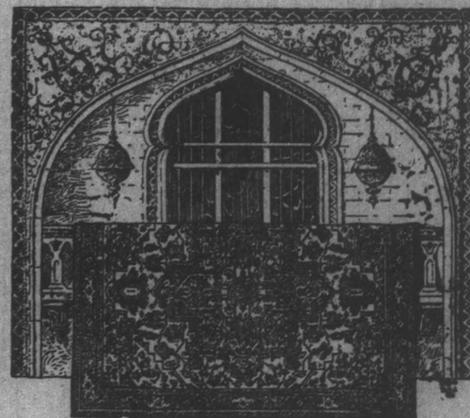

If you are looking for a new place to live you will want to take advantage of this new free service of ours. Come here and get a complete list of all the vacant houses, flats and apartments listed with the many real estate agencies. It costs you nothing.

This Handsome Charter Oak Airtight Heater  
**\$37.75**

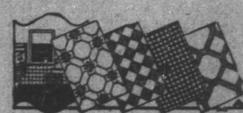

\$3.50 Cash, \$3.00 a Month

A stove that is built like a furnace, really two stoves in one—and both of them long-lasting, strong heat-radiating cast iron. The inner stove is a smoke-consuming dome. The outer jacket is ventilated so as to cause warm air from the furnace air-space to circulate about the room in all directions. Buy it for greater home cheer.

QUESTIONS AND ANSWERS. The President is now going through a transition period that is very interesting, and to some extent enlightening.

It is of course, true that under the League of Nations, the United States is bound to give up some of its independence. We do not believe that any treaty could bind this country to violate its own Constitution, which leaves its powers in the hands of Congress.

But it is in connection with the relation of the League to internal affairs that the President is least satisfactory. He was asked whether there was anything in either the League covenant or treaty which directly or indirectly in any manner imposed on the United States any obligations, moral or otherwise, of the slightest character, or a revolt in Ireland? "There is not," the President said, and there is not.

THE MINE WORKERS' STAND. The most optimistic advocate of "industrial democracy" will not deny that when the United Mine Workers' delegates convened at Cleveland last week there was much speculation as to their action on several important issues, and notably that there was a determined effort on the part of one faction to deliver the union into the hands of the I. W. W.

THE BALANCE OF TRADE. The tremendous export business of this country and the favorable balance of trade inspire feelings of exultation in some business men and feelings of depression in others. The favorable balance of trade idea is a popular fallacy.

DANCE STYLES. Members of the Association of American Dance Professors, in session in New York, predict that the dance world will swing back to such an extent that the real old-fashioned dances will become popular again.

proceed by fits and starts, thus terribly agitating the little fellows, but its general direction is right, and the United States is the pilot.

THE COAL SITUATION. Little is known by the public about the coal situation except that it is highly unsatisfactory, and is likely to become worse.

THE PRICE OF PORK. On behalf of the Indianapolis Retail Grocers' Association, Maurice P. Horn has sent an interesting letter to the Indianapolis newspapers, in which he contends that "the prices on the cuts of pork that the retail meat dealer buys, and is demanded by the consumer, has not varied over a plus or minus a cent during the last four weeks."

POLICE AND PUBLIC. In a telegram to the police authorities of Washington, the President said that he thought "that any association of the police force of the capital city or of any great city whose object is to bring pressure upon the public or the community such as will endanger the maintenance of order should in no case be countenanced or permitted."

AMERICANS WERE HISSAT IN FLUME. The Mexicans do worse than that and get away with it.

The dancing masters may go back to the old time dances with "grand right and left," "swing your partners," "do-a-dos," "forward and back," "all promenade" but the music for them— if as old fashioned as the dances— will have to be played by the blue time.

THE IMPENDING STRIKE. The organizing committee of the steel strike, which has been at work for a year and a half, yesterday refused to comply with the President's request that the strike be postponed till after the White House conference that is to be held early next month.

FOUNTAIN TO TEST OF WORK BY BOY SCOUTS

PLANS FOR ERECTION ARE MADE AT MEETING. COMMITTEE IS APPOINTED

Plans for the erection of a bronze drinking fountain, commemorative of the work done by the local Boy Scouts organization during the war, were made at a meeting of the executive board of the Boy Scouts Thursday afternoon.

The fountain would be placed in one of the downtown parks or at some downtown corner. No definite action has yet been taken, but members of the board expressed themselves as favoring the plan.

A committee was appointed to devise means whereby every Scout in Indianapolis may assist in raising the money to pay for the fountain. The committee is composed of F. O. Belsor, Scout executive chairman; Wallace G. Lee, L. C. Huesman and Irving Williams.

The figure will be life size. The Boy Scout ideal is admirably portrayed in the model. The Scout is standing at alert, with his Scout hat held under his left arm. The words "Courtesy" and "Efficiency" extend around the upper rim of the basin, and out in the stone of the base will be dedicated to the Boy Scouts.

Not Fully Adjusted Yet. As it develops this question has not been finally adjusted, but Thrace is to be excised from Bulgarian territory and left under the supervision of the principal allied and associated powers, which will later announce their decision as to the future status of the country.

BULGARIAN PEACE BODY RECEIVES PARIS TREATY

ENEMY SPOKESMAN SAYS PEOPLE WERE NOT TO BLAME. BOUNDARIES BIG QUESTION

PARIS, September 18 (By the Associated Press).—The treaty of peace between the allied and associated powers and Bulgaria was presented to the Bulgarian mission at the French foreign office at 10:40 o'clock today.

After the delegates had assembled Georges Clemenceau, president of the peace conference, spoke briefly in opening the session. He was followed by General Theodoroff, head of the Bulgarian mission.

Says People Were Not to Blame. M. Theodoroff spoke for fifteen minutes, pleading that the Bulgarian people were not responsible for the war, but that the Bulgarian government had thrown the country into "no struggle. He realized, however, he said, that the people must share the responsibility.

Terms Servitude a Crime. "We have committed faults," he said, "and we shall bear their consequences within the bounds of equity, but there is a punishment no crime can justify and that is servitude."

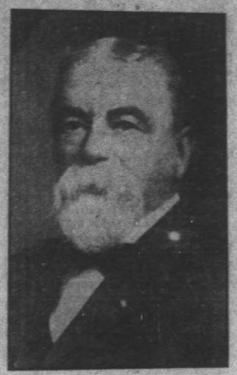

Each of the twenty-seven governments participating in the conference, including Roumania, were present. Frank L. Polk, head of the United States delegation, sat on M. Clemenceau's right. Eyre Crowe, the new British plenipotentiary to the peace conference, sat on the president's left.

Work Began May 28. Work on the pact was begun on May 28, but the negotiations with Germany and Austria presented the peace conference from completing the convention until late this week.

Boundaries Are Readjusted. Readjustment of frontiers aiming to promote the peace of the Balkans and the recognition of a new state, from the leading features of the Bulgarian treaty, which follows the Austrian treaty in general outline.

DR. TUPPER TELLS OF CARRANZA PAYMENT

MONEY TO COVER EXPENSES, HE DECLARES. WATCHES WERE ACCEPTED

WASHINGTON, September 18.—Dr. Henry Allen Tupper told the senate subcommittee investigating the Mexican situation today that he had received approximately \$2,000 from the Carranza government in settlement of expenses he had incurred. Documentary evidence had been submitted to the committee indicating that Dr. Tupper had been on the Carranza pay roll, presumably for his work for peace, under the supervision of the international Peace Forum.

Repeatedly Refused. The witness said he had repeatedly refused remuneration for his services, but when pressed by Charles A. Douglas, at the time attorney for the Carranza government, had accepted the draft which was made a part of the committee's record last week. He said the payment was on a basis of expenses of \$5 a day, and said he had received no other payment of any sort.

Approved Villa Pursuit. Dr. Tupper said he had approved the pursuit of Villa by Pershing and regretted it had not been more successful.

Approved Villa Pursuit. Dr. Tupper said he had approved the pursuit of Villa by Pershing and regretted it had not been more successful.

As to intervention, he said he believed it should be resorted to only as the "last of last resorts." Dr. Tupper filed letters and other documents to support his statements, including letters from congressmen and government officials and one message of felicitation from President Wilson.

Changed His Mind. Dr. Tupper read to the committee a letter from Dr. Douglas stating reimbursement was due him, as he had "worked ably for the cause of the revolution."

On cross-examination Dr. Tupper said there were numerous provisions of the Mexican constitution of 1917 he could not approve. Development of education has not been as rapid as he expected, he said.

Regarding his earlier writings on the Mexican problem, he said, "I have changed my mind on a good many of those subjects. At that time I thought I knew all about it. Now I know I don't."

Chairman Fall read into the record the report of I. C. Weller, in charge of an American Red Cross expedition in Mexico in 1915. Until now the report had been withheld from publication. It told of an assault on the Red Cross train, and the difficulties thrown about the work of distribution by Carranza officers. The opposition was so great that further effort to continue the work was useless, Weller reported, and the expedition was withdrawn.

\$200,000 Worth of Goods Still Selling at Old Prices

Any business man will tell the reader that to make a success in business you must take a chance.

At the time the armistice was signed, prices in nearly every line of merchandise took a drop, and we took a chance.

We Laid in Over a Quarter of a Million Dollars' Worth of Merchandise That is Today Worth 25% to 50% More

Now we are not going to reap the benefit in dollars and cents; that is not the way to measure success.

But we are going to reap the good will of the people of Indianapolis by selling on the basis of cost to us.

We could take all that the law allows and retire. But that, again, is not our mission in life.

We are out to erect a store that will be different from anything in Indiana. It will be a monument to high ideals in merchandising.

Store Hours—Every Day, 8:30 to 5:30; Saturday, 8:30 to 6:00

Twice as Good as Their Prices—These Fall Suits at \$39.50 and \$49.50

They know no superiors in style, purity of wools, or dependability of workmanship. But from the standpoint of "price" they have many high superiors indeed.

If you are a judge of quality, and many women are shrewd enough to distinguish between an article 89c and another 99c, Goldstein's is assured of your fall suit business.

But— If you are not, and depend on "name" and false prestige as indications of quality, then we are afraid our prices are too low for you to have faith in.

You'll get quality elsewhere; we don't say that you won't—but you'll be paying extra for it.

Goldstein's fall and winter suits are the result of designers who attended the great fashion congresses here and abroad and where the various thoughts crystallized.

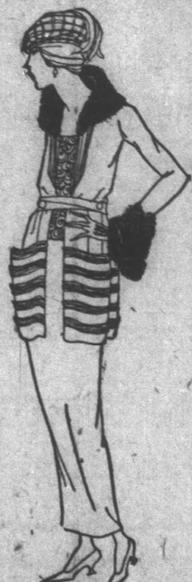

No smarter styles will be worn by the best society of Britain, Spain, Paris and New York.

The materials are all wool, and when you've said all wool you've said ALL. There is no "wool" or "wool-est"—all-wool is superlative.

The colorings are beautiful, because the most dependable dyes (we believe, Indanthryne) were used.

The fur trimmings, the buttons, the braids, and the workmanship down to the last stitch, are reliable all the way through.

The only condition, as we see it, that places them in lower rank than the others is their lower cost. Will you count that against them? We trust not.

Other Suits at \$59.50 to \$89.50 —Goldstein's, Second Floor.

School Hosiery With a Guarantee

When this store is willing to take a chance and guarantee its hosiery to give unqualified, satisfactory service, in spite of the heroic treatment young America puts them through, there must be something awful good about the hosiery.

### PLUME COUP SOLDIERS' TIME LIMIT IS ENDED

#### D'ANNUNZIO STILL IN COMMAND OF ADRIATIC CITY.

#### NEW ALLIED AGREEMENT?

ROME, September 19.—The time limit fixed by General Badoglio, deputy chief-of-staff, for the Italian troops that left their posts in the armistice zone around Plume and entered the city with Captain Gabrielle d'Annunzio to return to their commands, expired last night. Latest advice from the scene of Captain d'Annunzio's coup showed that his forces were still in control of the city. The food situation is said to be serious.

There have been no advances as to the blockade by Italian naval and military forces, but there are reports that Jug-Slav troops are concentrating on the frontier between Plume and the hinterland.

For Defense of City.

There are indications that people not essential to the defense of the place may be compelled to leave so that

the armed forces may be able to hold out longer.

According to the Messengers, an agreement has been reached between Frontiers Lord George, of Great Britain, and Clemenceau, of France, and Foreign Minister Tittoni which will insure the Italian nationality of the town, but the assent of President Wilson to the plan is yet to be gained.

The inter Allied forces which left Plume after the arrival of Captain d'Annunzio's troops, are reported to be at Abazia, two miles northwest of the city, awaiting instructions.

#### FATHER NOT DREAMER.

#### Hugo D'Annunzio Declares That Post Is No Theorist.

NEW YORK, September 19.—Hugo d'Annunzio, son of Gabrielle d'Annunzio, the Italian warrior, poet and novelist, in an interview with the Associated Press here yesterday, declared his father was a strong-willed and intensely practical patriot who undoubtedly would "sacrifice" himself rather than yield Plume to the Jug-Slavs.

He said that, while he had not heard from his father in nearly six weeks, he was of the opinion that the Plume expedition was well supplied with food and arms, and that there was no immediate danger of his father's army of 10,000 men being "starved out."

"It is an exaggeration to refer to my father as a dreamer and theorist, and to say that his present adventure is the result of poetical exaltation," he declared. "My father is practical and believes in no half-measures. If he starts a thing he always sees it through; it is a part of his nature. I never knew a man of stronger resolution, and I submit that his career as a soldier in this war raises him above the petty criticism of his enemies."

#### MEAT PRICES ARE REDUCED

#### Government Surplus Frozen Stocks Cut for Re-sale to Citizens.

WASHINGTON, September 19.—Material reduction in the price at which surplus frozen meats will be sold to municipalities for resale to residents, was announced yesterday by the war department. Pork loins were cut from 27 cents to 25 cents a pound, mutton from 16 to 15 cents, pork shoulders to 25 cents and poultry to 25 cents. Jams are reduced from 24c to 23c a can in case lots.

### NINTH REGIMENTAL REUNION

Civil War Veterans in Annual Meeting at Logansport.

(Special to The Indianapolis News)

LOGANSPORT, Ind., September 19.—The 9th Indiana Regimental Association is in its annual reunion here. The following survivors of the organization have registered:

V. L. Marx, Elkhart; D. B. McCone, Logansport; Alexander Whitehall, Watake, Ill.; W. A. Markle, Goshen; Jerome Martin, Wapakoneta, O.; W. Leish, Logansport; George Frantz, Logansport; George Wagner, L. L. Ephraim, Samuel Kessler, Laporte; James Warrington, Brimshurst; Jonas Grant, Bourbon; J. N. Kingsberry, Goodins, Ia.; Ralph, Steuerman, Elkhart; A. G. Manning, Elkhart; Harvey Gibbs, Leroy; Louis Laudure, Valparaiso; Caleb Redding, Marion, Mo.; and William Merritt, Elkhart.

Among the important engagements which the members of this regiment participated in were Greenbriar, W. Va., Chickamauga, Stone River, Shiloh, Franklin, Perryville and Danville. The regiment was formed with headquarters at Elkhart. Both this city and Elkhart are bidding for the 1920 reunion.

#### Morton Rifles Meet.

(Special to The Indianapolis News)

MARION, Ind., September 19.—The thirty-seventh reunion of the Morton Rifles, 24th Indiana volunteer infantry, was held at Marion Friday. Forty soldiers attended. This was ten less than last year, which is the number who died during the year.

The following officers were elected: Bert Seales, president; Lee Martz, secretary and treasurer; Mrs. C. Seegar, badge secretary; Oleada Applepie, recording secretary. The date of the reunion was permanently set as the second Thursday in September of each year.

#### Permanent Secretary of State.

BERLIN, September 19.—The Zeilung Am Mittag announces that Count von Bernstorff, former ambassador to the United States, will become permanent state secretary of the foreign office.

#### Edifying.

(Louisville Courier-Journal)

"It is well to meet people from other circles. They sometimes know sheep that we haven't heard."

### PLAYS AND PLAYERS

#### AT THE THEATERS TODAY.

Murat—"Scanda".....At 8:15  
E. F. Kelly—"Vaudville".....At 8:15  
Lyric—"Vaudville".....Continues

Notes of the Stage.

"Scanda" completes its engagement at the Murat with performances tonight, tomorrow afternoon and tomorrow night. Walter East, producer of the piece, is planning to present in the near future a new comedy called "Exchange of Wives."

"Midnight" the attraction at Engle's beginning next Thursday, is a more or less humorous study of character involving a group of people foreign marooned at a country home during the process of a murder investigation. In the cast are Elizabeth Peterson, formerly of the Stuart Walker company; Pauline Lord, Edward Kmerly, Philip Leigh and others. The engagement is for three days with a Saturday matinee.

A condensation of Dickens' "Oliver Twist" will be presented at B. F. Kelly's next week as one of the features of the "big time" bill. The act is called "Bill Sykes" and all of the various parts are taken by one actor, Owen McGintey, who by quick changes, is able to give the effect of a

numerous cast. Fagan, Bill Sykes, the Artful Dodger, Minnie and Nancy and others of the famous characters are all represented in the playlet.

Among the players new to winter garden entertainments in the "Pastor Show" next week's attraction at the Murat, are Roy Cummings, an acrobatic comedian; Dorcas, an Egyptian dancer; Emily Miles and Helen Carrington, singers and entertainers; Leeta Corder, a "Titan-hair" girl, with an excellent singing voice, and John Burke, a comedian of new methods. Among the old favorites are Eugene and Willie Howard, Will Philbrick, Frank Hall, Jack Hall, Alexander Dugmar and many others.

The Lyric will have a musical comedy entitled "Love and Kisses" among its features next week. It is elaborately staged by Marty Brooks, with Eddie Riley, Jack Collins and Louise Baxter as principals. An octet of girls make up the chorus. "Love and Kisses" differs from the average vaudeville bit and music skit, in that it boasts of an original book, lyrics and music.

# New Fall Fashions Fill the Store to Overflowing

## Revealing Autumn's Loveliness Are New Hats at—

**\$5**

Each succeeding day ushers in more hats at \$5, and their lines, their colors, their very air—all breathe of newness.

Smart with dark serge or tricotine dresses are the hats of black velvet—one with irregular brim slightly upturned front and back has striking ornaments made of black sequins.

A trim close-fitting toque with blue velvet top is encircled with a soft loose fold of black velvet stitched in colors.

Quite lovely, too, are the broader brimmed models, many of them with ostrich trimmings.

Among all of these lovely hats you are sure to find a number of becoming models that will harmonize admirably with your fall attire.

## A Special Presentation of New Fall and Winter Coats

In these two groups, at \$35 and \$45, will be found assortments comprising a wealth of novel debonair coats, in modes, fabrics and colors strictly according with all that is desirable and new.

Full lined or half lined, fur trimmed or plain, as you wish, in the new fall and winter shades of taupe, brown, Pekin blue, Copenhagen blue, reindeer, rookie and Burgundy.

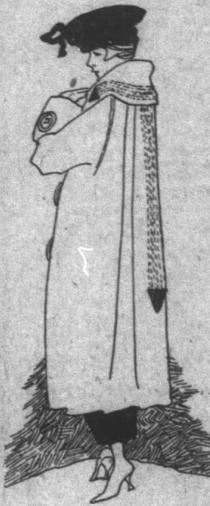

Pompoms, polo cloth, silvertones and wool velours.

The rising cost of manufacture counsels your early acceptance of present pricings.

## New Fall Blouses of Silk Georgette Crepe and Crepe de Chine

**\$6.90** **\$7.90** **\$8.90**

Knowing the difficulty stout women experience in securing blouses to meet their own particular need, we have made particular efforts to secure for the fall season most complete and attractive assortments.

Three of these are sketched, which convey only very slightly, the beauty and desirability of these.

Among the models:  
Vestee models with large soft roll pleated edge collar. Long line cluster tucking models with two and one collar. Wide pleatings, with rope silk and colored heading. Panels deftly embroidered with soutache braid or motif designs. Embroidery in colors, or cleverly executed bead effects.

Sizes 48, 50 and 52; black, white, flesh and navy blue are the colors represented.  
—Pettis blouses, second floor.

## The Prettiest New Gingham Dresses Are In \$3.95

And you'll be surprised at the dearness and the newness of the models.

Ginghams in the prettiest, softest plaids and combinations in sizes 6 to 14 years.

One model with blouse of gingham and skirt of plain blue, back and front box plaited, has collars and cuffs of the same and tiny black bow.

A Buster Brown collar, with black bow tie, cuffs and finished pockets of white pique, makes a dear little pink and gray check model most adorable.

A little "Peggy" model of tan, with red and green stripes, has laced front, set-on pockets and cuffs and collar of plain material.

Gay plaids, and plain blue collar made in crisp-cross fashion, with odd shaped panel front and button-in-back belt, make this a dress that will cause any little girl to be the cause of many admiring glances in the school room.  
Any of the models, \$3.95.

## With a Sale, Gloves Put in Their Autumn Appearance

And Saturday is the last day of this extraordinary glove sale in which women can buy gloves to harmonize with any suit or frock—gloves of exquisite quality at savings not to be overlooked.

**\$3.50 Genuine French Kid Gloves, \$2.95**

Made in Grenoble, France, are these unusually graceful and well-fitting gloves. Of soft, supple skins, in black, white and fall colors, all with Paris point embroidery on the backs.

**\$2.50 Washable Kid and Cape Skin Gloves, \$1.69**

In pure white and good shade of pearl. For wear with fall suits, these gloves are quite correct and smart. All sizes.

**\$1.25 Chamoisette Gauntlet Gloves, 65c**

Clever little affairs are these gloves in gauntlet, strap wrist style. White with self or contrasting stitching. Gloves that are very practical, since they wash perfectly.

**\$2.00 Real Milanese Silk Gloves, \$1.48**

Especially lovely are these gloves of heavy Milanese silk, in black and white, with beautifully embroidered designs and flowers in contrast.

—Pettis gloves, street floor, aisle four.

## The Semi-Annual Rug Sale ends Saturday—and with it ends the opportunity to secure the rugs you need for your home at the special prices offered. Another important thing to remember is the fact that the wholesale prices on all rugs advance October 1st. Use your foresight.

## Sale of Women's New Fall Boots Ends With the Week

**\$7.45** is the very special price for which we are offering women's shoes in new fall styles.

The most desirable dress and walking boots of the season, in lace and button styles, are represented in this sale. You will find—

Button boots, in patent colt, with white kid tops or field mouse cloth tops, or mat kid vamps with field mouse cloth tops; covered French heels and hand-turned soles.

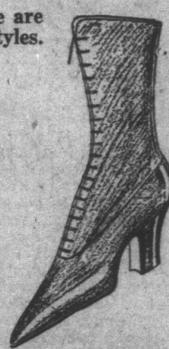

Lace boots, with Cuban heels, field mouse kid vamp cloth tops and welt soles.

Saturday is the last day you can profit by this sale.

A Store Where Both Service and Merchandise Live Up to Your Expectations

**Buy Your Winter Coat Saturday!**  
**Big, Special Sale of Fine New Coats**  
*Is to Your Advantage at* **\$49.50**

Wisdom doesn't linger in waiting until cold winds and winter temperature are actually upon us to purchase our winter coats. Undoubtedly you won't need to wear the coats for more than a month yet, but a month from now may mean a rise in prices, and certainly will NOT mean such an opportunity to buy coats and wraps of these qualities and this beauty at this special price.

COATS AND COAT WRAPS of a splendid, silky grade of plush, handsomely lined throughout (and warmly padded, too) with printed satins in warm and contrasting colorings.

Some of them have button-up or leave-open collars of self fabric, while others are collared in good-looking fur—and in the latter you are allowed a choice from several smart kinds. The dolman coat wraps are particularly smart.

FUR TRIMMED AND NOVELTY COATS of silvertone in a wide range of brown shades as well as blue—velours in the new browns—novelty mixtures—and polo cloth.

These are variously attractively fashioned with clever pockets, convertible collars of self material or smart pelts, and lined, as are the plush coats—with perfectly stunning satins.

A very youthful type of garment is a snug-fitting one, with a slightly raised waist line, held by a narrow belt of the fabric. These coats usually are shown with chic tuckings, tailored arrow heads and every mark of expert tailoring and the latest mode.

**9-19-1919**

*The Nineteenth Day of the Ninth Month,*  
*Nineteen Nineteen*

The babe born today will not have the privilege of setting down another birthday date with the same numerals, 1 and 9, until he or she is 72 years old, on September 19, 1991. Rather extraordinary, isn't it? We would like to know these babies, and will be glad to present each one of them in this community with a dainty silk and wool Vanta vest.

It is always our ambition to start the youngsters right—see that they are daintily clad. "A silver spoon in the mouth" is no happier heritage than that of always being well dressed. And just think what a lot of clothes we expect to sell these babies between 9-19-1919 and 9-19-1991!

**Vanta Garments Require Neither Pins Nor Buttons**

All Vanta garments are fastened with a twistless tape, obviating the use of pins or buttons, which are always more or less uncomfortable for the child. The Vanta Abdominal Binder is the first article needed for the new baby. It is made of soft elastic wool, giving the needed support, yet sufficiently elastic to permit the little "tummy" to expand after nursing. This article, 40c.

Vanta vests, double over the abdomen and tied with twistless tape. These little garments are pre-shrunk. Prices range from 65c for cotton to \$1.65 for those of silk and wool.

Other Vanta garments which will please you comprise Gertrudes, nighties and the pinless Vanta diaper. —Ayres—Children's shop, fifth floor.

**We Clothe the Children from Head to Foot, and Do It Well**

For girls up to fourteen years and for boys up to six years, every necessity in the way of attire is provided for liberally. Fall stocks are probably at their best right now.

The new arrivals comprise coats, headwear, wash, serge and velvet dresses, new wash suits for boys, sweaters, furs, knit underwear, bathrobes and sleeping apparel.

Our children's shoe section stands high in the estimation of Indianapolis women because we have always insisted upon fitting the feet of children with due regard to hygiene and natural development of the foot. Form-fitting lasts are featured exclusively. Among late arrivals are tan calf, welt sewed shoes in lace style. Sizes 8 to 11 and 11½ to 2.

**New Underwear**

"M" union suits for the little girls of 2 to 6 years come in heavy cotton, winter weight, with tape buttons, at \$1.00.

Knit panty waists with tape buttons, sizes 2 to 12 years, 50c.

Saturday we are going to sell them

At **\$3.95**

There will be no advance in price in this store on anything unless made absolutely necessary by reason of an advance in the cost.

There are 250 of these splendid raincoats. Cut extra full. Seams sewn and cemented. Wide pockets. Full length as shown in the picture.

**Some Coat for \$3.95**

258 Pairs of Men's Tan Cape Gloves at \$1.69

Including "Mark Cross," "Fiske," "Elite" and "Meyer" makes. The first two named are tan cape gloves in sizes 7 and upward to 8½. The Elite and Meyer gloves are of mocha in regular and cadet sizes—7 to 9.

Men's Washable Mocha Gloves at \$2.69

This greatly reduced price should sell these fine gloves in a hurry. Colorings are putty, gray and mahogany. Sizes 7 to 9.

At \$1.29 are men's chamoisette boys' alipon washable gloves; ivory, beaver and natural shades. All sizes. At \$1.00 One lot of boys' alipon sweaters, of cotton, jersey knit and sleeveless.

At \$2.25 and \$2.50, one lot of boys' wool alipon jerseys; sleeveless, round neck, light weight. Gray, maroon and navy. —Men's section, street floor.

**Hats of an Air**

At \$12.50, \$15  
-and \$17.50

And wearing one you will promenade "with an air" that is distinctly French—and due to that feeling one has when one realizes she is perfectly dressed.

Be it black, navy blue, taupe or purple, of hatters' plush, velours, panne or Lyons velvet, in poke, mushroom, sailor or turban shape, no matter—coming from this collection, it bears the stamp of exclusiveness and a will to become.

Playful tips of ostrich, soft shirrings, pretty puffings and thick rims are very smart bits of trimming as are fur bands, unique embroidery and ribbons with new turns.

—Ayres—Second floor.

**Handkerchiefs**

*In Saturday's Sale*

**19c Each**

These kerchiefs have been reduced to 19c from a considerably higher price, which really expresses their worth.

A linen-like quality of batiste was employed to print bizarre and cunning and almost dignified patterns on. And colors were used—and shades—that fittingly interpret these characteristics so that one may never be wanting for just the exact effect she prefers.

Some of the two-tones are tan and lavender, ciel blue and Nile, champagne and Copenhagen and the like.

**RETURNS FROM ORIENT;  
FORTY YEARS IN JAPAN**

BISHOP M'KIM, OF EPISCOPAL CHURCH, AT GOSHEN.

WILL ATTEND CONVENTION

Special to The Indianapolis News  
GOSHEN, Ind., September 12.—Arriving in Goshen Thursday afternoon from New York city, Bishop John McKim, of Tokio, Japan, returning to America after forty years of service in the orient, to attend the general convention of the Episcopal church in Detroit, starting October 5, delivered addresses at the Goshen high school and at St. James' Episcopal church.

Accompanying Bishop McKim was Archdeacon Long, of Kotohko. They went from here to Mishawaka. Forty years ago Bishop McKim, then twenty years old, left the United States to become a missionary in Japan.

He was trained for the ministry among the natives of Japan and soon became one of the leading Episcopal clergymen of the orient. He was consecrated bishop for all Japan in 1905. Later that country was divided into two districts and Bishop McKim was assigned to the northern half of the island, with headquarters at Tokio.

### NEW COAST LINE MADE BY HURRICANE IN GULF

SAND AND SHELL COVER CORPUS CHRISTI RESORT HOMES.

900 DESTROYED BY STORM

CORPUS CHRISTI, September 19.—Through the storm-swept area of Corpus Christi are wide stretches of sand and shell where last Saturday stood homes that had made this city of 100,000 a resort of national repute.

Fifteen hundred homes stretching along the beach for twenty-three blocks were crushed and hurled away or wrecked by the tidal wave, which reached a depth of fifteen feet in some places.

Over much of the beach section no indication of former homes now remains, except here and there a bathtub or part of a brick chimney.

From Star street, where the business district on the beach terminated, to Van Reld street, every one of the 900 beach homes has been destroyed, most of them beyond trace, while here and there a palm tree, hanging low with its oil-begrimed leaves, marks the spot of some former who placed.

In this part of the city the bay line has changed, the water having established a new line, varying from 50 to 200 feet inland from the former position.

Out from the shattered tanks at Port Aransas comes everything that will sustain it from seaweed washed ashore and furniture to homes some that back from the beach, and other objects, to the piers along the shore, many so battered with oil that they can not fly.

In the business district, the buildings demolished include the city's electric power plant, and until this service is restored, which probably will not be for at least thirty days, there will be no electric lights or street car service.

No Mention of Assassination.

WASHINGTON, September 19.—A cable dispatch received today by the Peruvian embassy refers to the dis-

placement of city officials of Lima, but makes no reference to the reported assassination of President Lorea, recently transmitted in cable dispatches from Santiago, Chile. The message received today reads as follows:

"The government has appointed a commission to estimate the damages done to private property during the recent rioting in Lima."

### MAY ASK CHANGE OF VENUE

State Highway Commission Expected to Act in Clay County Case.

(Special to The Indianapolis News)

BRAZIL, Ind., September 19.—The state highway commission will seek a change of venue, it is understood, from Clay county in the case of James Campbell against the highway commission and state and county officers, to prevent the construction of a state highway system of concrete roads, alleging that the highway commission is in violation of the constitution of the United States. It is believed that the case will be sent to Putnam county.

### LEAGUE TO ENTER POLITICS

Anti-Saloon Forces to Demand Presidential Liquor Pledges.

CHICAGO, September 19.—The Anti-Saloon League of America will enter national politics immediately, it was announced today, to enforce the demand that the political parties next year nominate candidates for President who are openly pledged to unreserved enforcement of the prohibition amendment to the federal constitution.

This course was decided on by the executive body of the league at its final session of the conference, with state presidents of the league.

### DETROIT DRILLS BEST.

Gets First Prize in Competition of Odd Fellows' Meeting.

BALTIMORE, September 19.—The Sovereign Grand Lodge, Independent Order of Odd Fellows, and affiliated bodies, the Patriarchs Militant and Association of Retrieked Assemblies, closed their annual convention here today and

adjourned to meet in Boston next year. The Sovereign Grand Lodge passed a resolution requiring compliance with its wartime order for the absolute prohibition of any language except English in lodge meetings and in the ritual.

In the competitive drill, Auto City canton, of Detroit, won first prize; Potlstown (Pa.) canton, No. 5, second prize; and Oswego canton, No. 18, of Oswego, N. Y., third prize.

### HELD FOR OLD CRIME.

Robt. Hicks Said to Have Confessed Killing Daughter 23 Years Ago.

KANSAS CITY, Mo., September 19.—Confessed murderer of his nineteen-year-old daughter Lovellen, twenty-

three years ago, according to the officer who had him in charge, Robert Hicks, age seventy-five, today was taken to Springfield, Mo., to stand trial. Hicks was arrested at Chehalis, Wash., where he went after his daughter's death.

The girl's death had remained a mystery until August 30, last, when the aged man is said to have admitted

strangling her with a piece of cord at Urbana, Mo.

A misunderstanding arose according to a statement Hicks made in his cell here, over the girl receiving a young man's attentions. Lovellen threatened to shoot him, he said, when he objected to her suit. Then he strangled her and fled to Washington, where he since has lived, Hicks said.

JEWISH RELIEF DRIVE  
OPENS SEPTEMBER 29  
WHOLE STATE IS BEING ORGANIZED FOR CAMPAIGN.  
LEADERS WILL MEET SUNDAY

The organization of the American Jewish relief committee, which will conduct a campaign in Indiana from September 29 to October 4 for money to aid the 4,000,000 old men, women and little children of the war ravaged countries of eastern Europe, is nearing completion. The state workers will gather in Indianapolis for a conference next Sunday. The entire Indiana organization will be completed this week and preparations for the actual drive for money, which will help feed and clothe those rendered homeless and penniless by five years of war, will be made next week. State headquarters for the relief committee, recently opened in the Claypool hotel building, are in charge of Albert M. Rosenthal, state chairman, associated with Mr. Rosenthal is Eugene M. Haas, director of campaign, and a number of committees.

**Many Openings Listed**  
Regulations for all sorts of workers, from unskilled laborers to professional and highly trained technical men, are being listed by the Indiana free employment office without a sufficient number of registrants to meet the demands. In one instance a request was received for 140 workers, many of them calling for special qualifications, and the office has been able to list only a small part of it. However, there are a large number of men of skill and experience as clerks, salesmen, etc., for whom there is a smaller demand.  
One of the most attractive situations that has been listed with the professional section of the service, a place in an Indiana city offering from \$3,000 to \$5,000 a year, has been "dropped." It calls for a middle-aged man, preferably a retired manufacturer with a knowledge of employment work, to take charge of the employment matters in a factory employing more than 2,000 men and women. Recently, also, it was said at the office, there have been attractive opportunities listed for efficiency and production men, as well as other opportunities than the one referred to, for employment managers.

**PERSHING MAY SPEAK BEFORE WAR MOTHERS**

MRS. JULIA C. HENDERSON TELLS OF PLANS.

**CONVENTION AT BALTIMORE**

Mrs. Julia C. Henderson, of Indianapolis, chairman of publicity for the War Mothers of America, has announced that the program is nearly completed for the second national convention in Baltimore October 7, 8 and 9. General J. J. Pershing has been asked to speak before the convention. His master, Miss May Pershing, is an active member of the St. Joseph (Mo.) chapter.

Among the speakers will be A. Mitchell Palmer, attorney-general of the United States, and William Mather Lewis, of the savings division of the United States treasury, who will speak on credit. The War Mothers are planning to carry on a thrift campaign during the coming year. On the last day of the convention there will be a boat trip to Annapolis, and business sessions will be held on the boat.

**Arranges for Banquet.**  
The Baltimore chapter has arranged for a banquet in the Emerson hotel roof garden, with several unique social features.

At this time it is expected a merger will be brought about of many of the large organizations composed of women relatives of men who were in service. The War Mothers of America have started this movement and have received responses from many organizations, which will send accredited delegates instructed to vote for the amalgamation. Among these organizations are the Daughters of Democracy, the Women's National Patriotic League of Wyoming, the World War Women of Iowa, Daughters of Liberty of California,

Women of American Patriots of Utah, American Mothers of National Defenders of Alabama, and Sammie's Mothers.

The War Mothers of America have announced their willingness to give up their name and organization, and to adopt a name which will be decided upon by the delegates at the convention.

At the first convention of the War Mothers of America last year, in Evansville, Ind., twenty-seven states were represented. It is expected that more states will send delegates this year. Mrs. B. W. Gillispie, of Indianapolis, is president of the organization in Indiana, and Mrs. Linton Cox, in Marion county.

**WORK FOR A HOME**  
This magnificent addition is located on the north-west corner of Washington street and Lynhurst drive, west of White River, and a few squares north of the popular and well-known Drexel Gardens additions. It fronts on Washington street for almost half a mile and is in the direct line of the rapid growth west of White River and midway between the city limits and Ben Davis, a thriving suburb, in a built-up community, with school, church and stores. It lies between the Ben Davis and Danville electric lines and is only from six to eight minutes' walk from either one. It is only twenty minutes' ride on either line from the Terminal Station, and only six minutes on the Ben Davis line to the big west side manufacturing district. Forty-trip tickets make the fare on the Danville line 8 cents and on the Ben Davis line 8 1/2 cents.

**FREE EXCURSIONS TO Biltmore Gardens**  
Saturday and Sunday, Sept. 20th and 21st.  
On Ben Davis and Danville Electric Lines  
Extra Cars on the Ben Davis Line Every Hour on Sunday From 9:30 a. m.

Each excursion ticket attached hereto is good for a free round trip on either line to Biltmore Gardens by a white person over 21. These tickets are good going on above dates on all cars leaving Indianapolis Terminal Station between 8 a. m. and 6:35 p. m., and are good returning on above dates on all cars leaving Indianapolis Heights (Stop 5) on the Ben Davis line, or Lynhurst (Stop 3) on the Danville line, between 9 a. m. and 7:45 p. m. These free excursion tickets will be accepted by the conductors. No other tickets will be required.

You can get these cars at the Terminal Station or at any corner along the following routes—  
On Ben Davis line: West from Terminal Station on Market street to Capitol avenue, south on Capitol avenue to Kentucky avenue, southwest on Kentucky avenue to Oliver avenue, and west on Oliver avenue to Indianapolis Heights (Stop 5).  
On Danville line: West from Terminal Station on Market street to Capitol avenue, south on Capitol avenue to Washington street, west on Washington street to Mt. Jackson, northwest to Rockville road, and west on Rockville road to Lynhurst (Stop 3).

**BUILDING IN 153 CITIES  
SHOW BIG INCREASES**

**AUGUST RECORD IN INDIANA-  
POLIS NEARLY DOUBLE JULY.**

**ACTIVITY IS IN SPOTS**

Building permits issued in 153 cities of the United States in August, as officially reported in the American Contractor, show that building activity has forged ahead as evidenced by number and valuation of permits taken out. July activity is exceeded, the average valuation in cities in July being less than \$60,000, while the value a city for 153 cities in August is more than \$1,000,000, giving a total valuation of \$10,912,000 for 153 permits issued in the latter month, as against a valuation of \$10,042,000 for 153 permits issued in July.

It is interesting to note that the valuation of the individual permit has increased considerably, the average value in August being \$71,250 as against an average value of \$65,500 for July, \$375 for June, \$1,000 for May, and \$1,500 for January.

Activity in spots. Activity may be said to be spotty, but there are no defined regions wherein cities show gains and where they show losses. A comparison of 150 cities with July records shows eighty-three gains for August and sixty-seven losses. Important cities wherein relatively heavy gains are shown are Akron, Boston, Cleveland, Des Moines, Duluth, Ft. Worth, Grand Rapids, Indianapolis, Pittsburgh, Pueblo, Seattle, Toledo and Worcester.

**Record in Indianapolis.**

In Indianapolis the number of buildings constructed in August of this year was 70, as compared to 61 the same month last year. The estimated cost this year was \$1,000,000, as compared with \$810,000 last year in August. Chicago, Denver, Philadelphia, South Bend, Springfield, Ill.; Tulsa, Okla., and Wilkes-Barre, Pa., show great recessions from July valuations. The gains in activity over 1918 is heavier in August than it has been in any preceding month. As shown in previous analyses of permits this gain over 1918 has been constantly increasing. January showed a 72 per cent. loss. The per cent. gains from then on are: February, 48; March, 71; April, 91; May, 119; June, 126; July, 224; August, 301.

**TALK ON LEAGUE BEFORE  
THE CITIZENSHIP SCHOOL**

Henry Lane Wilson to Present Arguments Against It—Franklin McCray in Its Favor.

Included in the course of lectures for the citizenship school, which is to be given in the Board of Trade building, will be talks on the league of nations Thursday afternoon, September 25, by Henry Lane Wilson, who will give arguments against it, and Franklin McCray, who will present arguments in its favor. The two sides of the league will be presented in order that the voters attending the school may receive all the information possible. The talks will be thirty minutes in length, and there will be no debate or discussion.

The program of the citizenship school includes many of the best informed men in the state, and the colleges and universities are co-operating with the committee in charge, and sending their experts along the lines of better government. Professor Hartwig Lindley, of Earlham College, will present the subject of state government; Professor G. L. Christie, of Purdue University, will talk on "The Relation of the Ballot to Household Supplies"; Professor E. M. Linton, of Indiana University, will talk on "Party System"; and Professor J. J. Pettibohn will give "The History and Principles of Other Political Parties."

The program for the course follows:

PROTEST ON TAX RATE MADE TO STATE BOARD

SEVERAL RESIDENTS OF MUNCIE COME TO INDIANAPOLIS

CONTENTION OF THE CITY

(Special to The Indianapolis News.) MUNCIE, Ind., September 18.—The city council, which has fixed the city tax rate, as fixed by the city council, would result in the raising of about \$100,000 more in revenue for the maintenance of the city in 1920 than it cost to run the municipality during the present year, and because of the opinion of James P. Drago, county auditor, nearly every township of Delaware county, not all of them, has fixed a tax rate that is too high, a number of Muncie citizens have protested to the state board of tax commissioners.

It is feared here by interested persons that the tax rate for one living in the city of Muncie under arrangements now made would be \$1.50, whereas the legal limit is \$1.00, unless the board gives special permission for a city of township to receive a higher rate than that. The city's contention is that the annexation to the municipality of a number of suburbs recently has increased greatly the cost of operating the town's affairs. Muncie will become a second-class city next January 1 with an approximate population of 40,000.

Crugin Conducts Hearing. W. N. Crugin, member of the state board of tax commissioners, who heard evidence today regarding Muncie's proposed tax rate, stopped short in the hearing and requested that the varied interests get together and then present a united case to the commission. He asked that a committee be formed to harmonize the controversy and to ascertain certain additional facts the board wishes, and then come before the board again next Wednesday.

J. Monroe Fitch, a Muncie citizen, was not on the committee by Mr. Crugin to represent, in an unofficial way, the state board. T. F. Fitzgibbon, Muncie school superintendent, is another member of the committee, as is also John Kelley, city controller, representing the city, and Everett Warner, attorney, representing Center township, Delaware county.

Since last April the city has annexed Center township territory which carries a valuation of approximately \$600,000 and the state board wishes to know exactly what was the total assessment of the territory under the old assessment. The disposition of tax revenue from assessments in this territory is said to be responsible for most of the difference.

HOT WATER IN MAINS.

Heat Company to Start Flow From Sixteenth Street Plant.

The Merchants Heat and Light Company will begin Saturday to introduce hot water into its hot water heating system mains from its sixteenth street plant, according to an announcement by M. K. Foxworthy, general superintendent of the company.

A recent order of the public service commission covering service provided by the sixteenth street plant calls for the flushing of the company's hot water mains. Mr. Foxworthy said that there already is organized a force to begin flushing and "blowing" the mains as soon as the pipes are heated so that oil and other gummy substances in the pipes are made more liquid by the heat.

TO STUDY TELEPHONE COSTS Committee Will Ascertain What Charges, if Any, Should Be Made.

The telephone connection committee, under auspices of the public service commission, is to make a study of telephone installation costs and the like has organized and will meet again Wednesday at 10 a. m. to hear a report on installation and instrument changing costs as ascertained by S. B. Ridge, general plant engineer for the Central Union Telephone Company. H. O. German, chief engineer for the public service commission, is chairman of the committee, and Robert E. Tracey, of the bureau of government research, Indianapolis Chamber of Commerce, is the other member. The committee is to ascertain what charges for moving a telephone from one place to another. The committee is to recommend to the commission a scale of charges, or no scale at all, to replace the Surleson charges, the first of the kind to be set up in Indiana.

What the Smoke Inspector Saw

Some years ago the Indianapolis Stove Company ran a test on a new design of stove. Mr. J. P. Brown, city smoke inspector, was present and this is what he saw: A Palace Hotblast and an ordinary stove were placed in the yard, as shown, and fired with Indiana mine run coal. After the temperature in the fire-bowl reached 275 degrees Fahrenheit the Palace Hotblast ceased to smoke. The photograph displayed was then taken by The News photographer and published with a news article the day after the test. We quote from that article: "In the fire-bowl there is a circular casting that contains two chambers (the hotblast ring). From the rear, air is admitted to one of these chambers to be heated, uniting with the gases from the coal in the second chamber. The gaseous smoke is thus ignited and consumed. "The consumer thus gets two heating forces in one. It is said that a saving of from 50 to 75 per cent. is possible and that the cheapest coal can be used." Come in today and see our display of

**INDIANAPOLIS PROBABLY NEXT CONVENTION CITY**

**MINE WORKERS FAIL TO IN-DORSE LEAGUE OF NATIONS.**

**MITCHELL MEMORIAL PLANS**

(Special to The Indianapolis News)  
Cleveland, Sept. 19.—Indications are that the United Mine Workers of America in session here would select Indianapolis as the next convention city.

Cleveland lost its opportunity to obtain the removal of the international headquarters from Indianapolis to this city, because Cleveland people are overcharging the delegates for everything they buy. It appears that the Cleveland merchants, hotels and restaurants have raised the prices to a prohibitive level for high prices. Besides an entertainment of any kind has been provided for them except a plentiful supply of whiskey. For the miners' reason this and they have intimated that if Cleveland is chosen by this city had found that this is not the kind of entertainment that appeals to the delegates.

**League Movement Falls.**  
Efforts to put the mine workers on record in support of the peace treaty and the movement of the league of nations, as it is written, failed in the convention because the majority of the delegates take the ground that it had no political questions. The convention did not take action against the treaty and the league of nations, but it was refused to commit the organization on the subject or to commit the organization either way.

The general line of argument in the debate was that there should be numerous and serious reservations to the treaty if it were adopted. A number of the delegates of the league were based on the subject of the treaty for Ireland. This appealed to a large number of the delegates of the league of nations, and an American flag and waved from aloft.

**Cheered by Delegates.**  
"I am opposed to any proposition that would place the Union Jack above the Stars and Stripes," he shouted, and the delegates cheered wildly. Shantung was another stumbling block in the way of endorsement by the convention.

Practically all of the speeches against endorsement of the league of nations were made by Socialist delegates, among them being John Lester, of Indiana; Duncan McDonald, of Illinois, and others.

The action of the convention was a distinct surprise to some of the leaders, among them being William Green, international secretary, who introduced one of the resolutions calling for endorsement. Green was named as one of the peace commissioners of the American Federation of Labor that went to France last year as an advisory body to the American peace commissioners on labor matters. Green made a speech in support of his resolution, but was unable to carry it through.

**Block Memorial Movement.**  
The convention blocked a movement started through a number of labor publications throughout the country for the collection of money with which to erect a John Mitchell memorial hospital.

W. D. Ryan, who was secretary-treasurer of the union for several years when Mitchell was president, called attention to these movements and said that he felt that there should be no commercializing of the memory which the miners had for Mitchell. On the suggestion of Acting President Lewis, the convention decided that the Mine Workers would erect some kind of Mitchell memorial, and created a committee to have charge of the project. Lewis appointed Secretary-Treasurer Green as chairman of the committee, and the other members are the secretary-treasurers of the various districts, numbering twenty-seven in all. This committee will decide on the character of the memorial and the place where it shall be erected.

A resolution against the practice of various coal companies of requiring physical examination by company physicians as a preliminary to employment, since this could be used as a pretext for refusing employment for other reasons, was accepted in principle.

**Far Night School Work.**  
A resolution recommending the establishment of night schools for the benefit of foreign-language speaking miners to hasten their Americanization, was adopted. The miners again went on record against the Rockefeller industrial plan under which mines in Colorado are working, and instructed the international officials to press vigorously the endeavor to unionize the mine of the Colorado Fuel and Iron Company.

W. D. Ryan, who is connected with the largest of mines, asked cooperation in the safety first campaign in industry. He declared that so far as safety ventilation and safety provisions are concerned the coal miners are 100 in this country and cited metal mines in this country and cited metal mines where, he said, the average life of the miner in the mine was today only seven and one-half years, after which period he was either a hopeless consumptive or in his grave.

**PRINCIPALS IN HABEAS CORPUS SUIT**

MR. AND MRS. WILLIAM S. COOKE.

Judge Bolton J. Carter in superior court, Room 3, will hear evidence Monday in habeas corpus proceedings brought by William S. Cooke, 125 Middle drive, Woodruff Place, in which Cooke demands possession of his wife from her mother, Mrs. Beattie C. Archer, 256 Fall Creek boulevard. Mr. Cooke, who is vice president of the Compensating Hydraulic Press Company, and secretary of the Danmehill Milling Company, was married to Dorothy Worthington DeLong, daughter of Mrs. Archer, August 15. The bride was seventeen years old and her mother objected to the marriage. It is said she filed charges in the juvenile court, accusing Cooke of contributing to the delinquency of his wife, Cooke said, and then detained her daughter at her home, refusing to permit her to return to him. The habeas corpus suit was brought because of this detention of Mrs. Cooke, her husband said. The case had been set for hearing Thursday afternoon, but a continuance until Monday was agreed on by attorneys in the case. Mr. and Mrs. Cooke sat together in the courtroom when the attorneys were conferring Thursday and they left the courthouse together, but Mrs. Cooke returned to her mother's home pending the settlement of the controversy. The Rev. T. W. Grafton, pastor of the Third Christian church, and the Rev. Allan E. Fulpitt, pastor of the Central Christian church, were in the courtroom, prepared to testify as character witnesses for the young man. The Rev. Mr. Grafton pronounced the wedding ceremony of Mr. and Mrs. Cooke in August. Cooke is twenty-two years old.

Efforts will be made to bring about a settlement of the dispute between Cooke and his mother-in-law before the date set for the court action, according to Alvin J. Tucker, attorney for Cooke.

**Rain and Wind at Evansville.**  
(Special to The Indianapolis News)  
EVANSVILLE, Ind., September 13.

A heavy rain fell for three-quarters of an hour in Evansville today, preceded by a wind from the west that had a velocity of forty-four miles an hour. The wind did considerable damage to shade trees in the city. The rain is not believed to have been heavy enough to break the drought that has prevailed in this vicinity for the last several weeks.

**Brought From Detroit.**  
Lucius Stillson, brother of Chauncey Stillson, under arrest as being a member of the Muscle game of prize fight swindlers, was brought to the Marion County Jail today from Detroit, where he has been held under \$5,000 bond on the same charge since his arrest a week ago in Canada by H. H. Wasson, postoffice inspector. He refused to make any statement to the district attorney today.

**POINTS TO RUSSIA AND SIBERIA FOR U. S. TRADE**

**F. H. WILLIAMS SETS OUT SYSTEM OF GREAT FAIR.**

**INDIANA PRODUCTS NEEDED**

Russia and Siberia, not South America, are the lands of commercial opportunity for Indiana business men, says Francis H. Williams, vice-president of the Trade Mark Title Company, of Washington, D. C. and Ft. Wayne, Mr. Williams, who is in the city on business, said that Americans could make fortunes following Russian fairs.

"The great fair at Nizhni Novgorod, Russia, has just closed, doing a business of more than \$50,000,000 in a few weeks," he said.

"Russia has a population of 150,000,000, three times as many people as South America and has an immense and rapidly growing purchasing power that makes a big and expanding market for many lines of products that are manufactured in the state of Indiana. Russia, in developing her four industries needs the four machinery that has made Indianapolis famous all over the world."

**Standard Being Raised.**

"Russia is quickly raising her standard of living, she wants modern appliances and in many of her sections she is on the market for kitchen cabinets, another famous Indiana commodity. There is a big field for automobile accessories and tires. At the fair, I am informed, that they could have closed business for more than \$5,000,000 on both automobile tires and automobile accessories. Indiana has these items, and is doing a large export business on many of them to other countries."

"We must keep in mind that Russia has articles to sell us. Russian lace, Russian tea, handsome shawls for all of which no market has been developed in the United States. If we will take items like these and create a market for them, no other nation will have a chance for Russian trade because the United States is their logical market for just such products. Russia needs railways, power houses and general construction works."

**Big Money in Tires.**

"Direct exports to Russia in 1913 by the United States were \$28,000,000. Our indirect exports were more than \$200,000,000. We can triple that business through the 14,000 Russian fairs during the next year if the American manufacturers will get together and each

seek certain fairs, thus covering the entire territory of Russia.

"In eight years, by following up the Russian fairs, Germany increased her business with Russia from \$12,000,000 to \$200,000,000. Before the war Germany was doing nearly \$200,000,000 worth of business with Russia.

"Siberian Russia is first of all a modernized country, despite all reports to the contrary, more so than the majority of the sections of Latin America. It has factory systems with more than 2,000,000 of operatives. The best proof that we can sell into this market is the fact that we control today the agricultural implement trade of Siberian Russia. If we can do it with few articles we can do it with many."

**"South America Exhausted."**

"South and Central America have reached their capacity in buying for the next five years. It may be possible to increase our exports. My own personal opinion is that we will lose more than 50 per cent of the business we have gained in Latin America. This will be due to

the fact that Latin America is now the big goal of the German manufacturer and also because of the fact that Latin America has the raw materials that Germany will be able to use. The United States will lose trade on wearing apparel, cosmetics, perfumes and the 50 articles that have met the demand of the fashion markets of Latin America during the last few years. This is because Paris creates her styles for Latin America, not for the United States, as is generally supposed. The wealthy women of Latin America expend thousands for Parisian gowns and articles as against the American women's hundreds.

**London Will Come Back.**

"London will again come into her own as the creator and seller of men's fashion clothing and all of Latin America will again purchase these products from those sections of Europe with whom she formerly dealt."

"Why seek markets where you need to correspond in a language other than your own when the great English

speaking markets of Australia and New Zealand, whose seasons follow those here in the United States, would take thousands and thousands of items for which our seasons have run their limit, and still be new in those markets."

"There is the great market of China where English is the business language. India, another country where the business language is English, is waiting for the American manufacturer. If one-eighth of the time spent in South and Central America had been given to other important fields of the world, the American manufacturer would be counting his big cash orders instead of counting his lost dollars in advertising that never did any more than produce a few inquiries regarding the product."

**NIGHT SCHOOLS OPEN SOON**

Training is Offered in Grade and High School Courses.

Free public evening schools to be conducted under the vocational training department of the Indianapolis public schools, will be opened October 6, according to announcement on window cards which will be distributed throughout the city in a few days. Announcement of this fact will be made also by bills to be distributed in packages sent out from the leading department stores.

At the elementary schools work will be given in all grades from 1B to 5A in the following schools: Nos. 2, 4, 12, 41, 45, 51, 52, 55, 17, 34, 38, 42, 43 and 64. Woodwork and shop drawing will be given at schools Nos. 8, 12, 32, 35, 39 and 53. Cooking and domestic science will be given at schools Nos. 1, 3, 12, 51, 52, 53, 17 and 28. Shoe repairing will be given at schools Nos. 17 and 28.

**SMALL CHANCE OF WAR TAX REPEAL JUST NOW**

DEFICIT OF \$5,000,000 IS FACED BY THE TREASURY.

**MANY LUXURY PETITIONS**

The Indianapolis News Bureau, 21 West Building, WASHINGTON, September 19.—According to members of the ways and means committee there is small prospect of a repeal of any of the war taxes during the fiscal year. The announcement by Representative Good, of Iowa, chairman of the committee on appropriations of the house of representatives, that the federal treasury would take a deficit of at least \$5,000,000 on June 30, 1920, has served to make firm the decision, informally reached, not to do away with any of the taxes during this year.

Representative Fordney, of Michigan, chairman of the ways and means committee, formerly in favor of repealing some of the sections of the revenue law, now believes that they should stand until some loss of the government expenditures for the coming year can be obtained from the executive department.

Not Until December.

There will not be submitted until after the convening of the regular session in December, and are for appropriations for the fiscal year beginning July 1, 1920. "We are certain to have a deficit, and a large one, at the end of the present fiscal year which will have to be added to the war debt," said Mr. Fordney, and any step to reduce revenue must be taken after careful consideration.

The excess profits and income taxes enacted last year, and we are planning certain changes in the tariff laws which will affect revenue. I believe we should consider all these related subjects at one time and not try to complicate the situation by repealing parts of the revenue law now.

The strongest demand for repeal was

directed at the tax on soda water and ice cream. Hundreds of petitions were sent to the congress, and in response to this the house passed a bill eliminating the soda water section from the revenue law. This was almost two months ago, the hope being that soft drinks would be made cheaper during the hot weather.

Slumbered for Two Months.

Opposition to the repeal was encountered in the senate and the repeal has

slumbered ever since. It is practically assured that the repeal will not be passed until next spring, before hot weather begins. It even then regarded desirable. Senators hold that nothing is quite so nearly a luxury tax as the imposition on drinks in a land where water is free.

Another request was for the removal of the so-called luxury tax, but as these affect only the higher priced clothing and meat, a loss to the government of nearly \$100,000,000 a year, opposition was strong against the appeal.

Mr. Fordney said that all plans to press the repealing bill to a vote had been abandoned.

Likewise, petitions for lifting the amusement taxes for theater tickets are falling on deaf ears and must wait until a general view of the government financial situation is submitted to the congress.

Will Go To Serbia.

Miss Nellie B. Chadwick, formerly of New Harmony, but now a resident of Indianapolis, will sail September 21 from New York on the President Wilson for Serbia, where she will be chief dietitian with the Serbian relief committee. This commission is composed

of thirty men and women, including a physician, surgeon, nurses and an expert agriculturist, and will act with the Red Cross in an attempt to improve the conditions of the poorer

classes of Serbia. They will enter Serbia via the Mediterranean sea through Greece, and will be stationed near Cacak. Their headquarters will be established on a tract of 140 acres.

# Is prohibition going to stay ?

*Just what is prohibition going to accomplish?*

*Will it make the laboring man satisfied with his wage?*

*What will become of the men who used to frequent saloons?*

*Will more people have better homes, food and clothing?*

**W**E'VE been working for prohibition for more than a hundred years—and now we've got it, but—are we going to keep it?

Do you know just who have been behind this movement all these years, and just what they have expected to gain by it? Why have the church members wanted prohibition? Why have the social workers been so tireless in their efforts? How have business men and employers expected to profit? Strangest of all, why has labor advocated prohibition?

Martha Bensley Bruère, in an illuminating article in October Pictorial Review called "What We May Expect From Prohibition", reveals how each of these groups of people expected to gain a different end!

And what have been the results in our own dry states? Mrs. Bruère tells you these things, and the lights she throws on what is likely to happen are certainly most interesting!

Which of these people will win? Temperance people, social workers, church workers, business men, labor—for each and all, Mrs. Bruère has a definite message!

*Who is going to benefit most by prohibition?*

## HOW CAN WE MAKE MARRIAGE MORE ATTRACTIVE ?

**A**LL over the world, there is an alarming increase of bachelors. Some say they cannot afford to marry. Others frankly admit they are too selfish. Young women in appalling numbers have no desire for marriage. They prefer economic independence.

Do you know about the so-called "new morality"—that menace to our home and family life? Do you know of the changes—social, legal, political and economic—that must be worked out before marriage can be made easier and more attractive?

Charlotte Perkins Gilman, in "What is Going to Happen to Marriage," in Pictorial Review for October, shows only too clearly the main causes for the present chaos in the marriage relations. She tells things that many women are thinking without daring to say.

## DOES YOUR HUSBAND TELL YOU EVERYTHING ?

**O**R do you just think he does? He may be like Pelham Madden. And you may be like Mrs. Madden before she found the letter from the other woman in his pocket. Every woman, young or old, can learn a whole lot about managing a man by reading "Happily Married" by Corra Harris, in

Pictorial Review for October. Mrs. Harris sees through men as if they were glass. She knows her own sex just as thoroughly, and in the most amusing way in the world she shows you their little vanities and weaknesses in this delightful serial novel. Don't miss it.

## Other Features in this big October Issue

**A message from the Queen of Belgium**

**T**HE King and Queen of Belgium are soon to be the nation's guests. A special greeting to Pictorial Review's readers accompanies a charming portrait of this dainty Queen, with her signature.

**"Uncle Joe" Cannon**

*What does he think of women in politics?*  
**A**SK Uncle Joe! He tells what he thinks in a delightfully reminiscent interview with Richard Barry.

**The servantless home**

**C**AN you imagine a house so simplified in its housekeeping arrangements that no servant is necessary? Don't miss Mabel Dulon Purdy's helpful article.

**The alarm clock**

**D**O you know that Kansas spends less money on the health of its babies than it does on the health of its bees?

What do you know about the Conference on Social Morality? What country in Europe has the highest birth-rate and why? Look for "The Alarm Clock" each month.

### HERE'S REAL CHANCE TO BRING HOME THE BACON

1,800 TWELVE-POUND CANS WILL GO ON SALE. SURPLUS FROM ARMY STOCK

One thousand eight hundred twelve-pound cans of surplus army bacon will be placed on sale at five Indianapolis stores Saturday morning, at a rate of 1 1/2 cents a pound lower than the same quality of bacon sold by the government through the postoffice department recently. The local branch of Swift & Co. is handling the sale here for the government. The price will be \$4.5 a twelve-pound can. The bacon will be on sale at the New York store, 233 East Washington street; the Frank Schurman meat shop, 6 Virginia avenue; the Mortimer

Schurman meat shop, 609 East Washington street; the Schultz-Worrell Company grocery, 12-13 East Washington street; and the M. F. McNamee meat shop, 355 West Washington street. When this same quality of bacon was sold by the government through the postoffice department, the consumer paid \$4.3 a twelve-pound can delivered. These hundred cases of 1,200 cans will be on sale Saturday and until the entire supply is sold out. The bacon is salt-cured and smoked. It is of the finest quality, and officials in charge of the sale point out that it gives Indianapolis persons a chance to lay in their winter supply of bacon at a price lower than they have already paid for this surplus army meat.

**Postmasters' Salary Demands.** DETROIT, September 18.—Third and fourth class postmasters yesterday framed a new salary schedule that they will present to the congressional postal salary commission at a meeting in Cincinnati next Monday. H. H. Collins, secretary of the National League of Postmasters, announced at the close of the convention here. A maximum of \$3,900 is asked for third class postmasters and \$4,500 for fourth class ones. An additional allowance for fuel, rent and clerk hire is also requested. Nearly 10,000 postmasters are represented by the league.

### DITCH DIGGERS WELL PAID

**College Professor, on Other Hand Get Less Cornell President Says.** ITHACA, N. Y., September 18.—The United States pays its ditch diggers more than its college instructors and its mechanics and tradesmen more than its professors, Jacob Gould Schurman, president of Cornell University, declared yesterday in a statement issued in support of a campaign for an additional \$5,000,000 endowment to increase the salaries of Cornell's faculties. "The teacher must be paid," said Dr. Schurman, "if not in proportion to the value of the high service he performs for society, at least on the basis of compensation received by men of equal intelligence, education and energy in other professions." The president pointed out that the

bureau of education at Washington had calculated that the average increase in the cost of living in the United States from July, 1914, to July, 1918, was about 70 per cent. In the face of this, he said, Cornell salaries were practically the same as they were in 1900.

### RADICAL CHANGES PLANNED

**Community Councils Propose National Collective Bargaining.** NEW YORK, September 18.—Resolutions offering to President Wilson the services of community councils throughout the United States in a campaign for national adoption by industry of the principles of collective bargaining, profit-sharing and the right of workers to a voice in industrial management, were ready for submission to the council today. The program drafted by Mrs. C. C.

Bumsey, daughter of E. H. Harriman, was approved unanimously by the community industrial relations committee at a meeting here last night and ordered submitted. The offer, if approved by the council, will be in the President's hands when his industrial conference begins in

Washington, October 5. The program also includes suggestion for social insurance, embracing unemployment, sickness, old age, accident, maternity and widowhood insurance, government employment exchanges and co-operative buying and selling tending toward the elimination of the middleman.

### SHIDEHARA COMES TO U. S.

New Japanese Ambassador to Washington Is Announced at Tokio. TOKIO, September 19 (by the Associated Press).—Official announcement has

been made of the appointment of Kijuro Shidehara, vice foreign minister, to be Japanese ambassador to the United States. At the same time the official gazette states that Masahito Hanbara, former Japanese consul at San Francisco, had been appointed vice foreign minister.

# A Prediction Tire Prices are Going Up!

Some months ago we predicted a drop in prices and "scooped" every dealer in the city. We now predict a raise. It's coming sure as shootin'. In anticipation of just such happening we have loaded up on tires. Our stock rooms and warehouse are packed to the ceiling. That's why, a few weeks ago, we bought the \$100,000 stock of the Rubber Products Company. Not that we want to hoard or to profiteer; we promise that no matter how high tires go, we will not raise our prices a penny so long as the present stock lasts. The only exception will be on one brand of tires which, according to an old contract, we must sell at prices named by the maker. Remember, however, that it is neither hoarding nor profiteering for you to buy a set or two of tires while getting the good; it's simply good business for you to anticipate your normal needs. Buy tires now is the best advice we can give any auto owner.

TWO HIGH POWER CARS TAKEN BY AUTO THIEVES

ONE OF THE MACHINES LATER IS ABANDONED.

GARAGE DOORS ARE BROKEN

Automobile thieves, who evidently made a lot of noise when going about their work, broke into a garage at the rear of 239 and 241 North Capitol avenue, Thursday night, and stole two high-powered automobiles. One of the machines was abandoned farther down the alley after they apparently had failed to get it started.

The missing car belongs to Frank B. Haines, 239 North Capitol avenue, and the other machine, which had been pushed into the back yard of a neighbor, belonged to Warren F. Smith, 241 North Capitol avenue. Smith's machine was the first car stolen in 1919, but was later recovered.

Padlocks Are Broken.

The doors of the garage, a three-stalled structure, were locked with heavy padlocks. In obtaining the missing car the thieves twisted the lock off the door and in taking the other machine they tore down the door to that part of the building. The automobile in the third stall was not molested.

Edgar C. Andrews, 125 North Tacoma avenue, reported to the police that his automobile was taken Thursday from Ohio and Alabama streets. Two boys, apparently about sixteen years old, were seen to get in the machine and drive away, he said.

On Fugitive Charge.

Franklin Chase, age fifty-two, arrested on a vagrancy charge a few days ago when detective Fletcher Huggins, McMurry and Brick found him trying to dispose of two machines at a local spread, was released Friday on a fugitive charge and turned over to

Detective Cline of Terre Haute. One of the machines found in Chase's possession has been identified as the one stolen from Charles Eaton, of Terre Haute, a few weeks ago. Chase contends that he bought the car but has no bill of sale to substantiate his statement, the detectives say.

SAYS AMERICANS BUY MILLS

Berlin Newspaper Tells of Disposition of Bechler Steel Plants.

BERLIN, September 19 (By the Associated Press).—The Bechler steel syndicate plant at Kapfenberg, Wurttemberg, have been bought by Americans, according to the Tages Zeitung. Coupled with this announcement the newspaper prints a report of the plans of the new management. The purchasers, the newspaper declares, on taking charge promptly notified the employees that a ten-hour day and a piece-work schedule would again be put in force and that those opposing this plan would be discharged October 1 and replaced with American laborers.

When told that this plan would be likely to provoke disturbance, the new management, according to the Tages Zeitung's account, replied that in such an event American military forces would take charge of the situation. The employees, it is said, accepted the conditions.

TELLS OF CONNECTION WITH ALLEGED CHICAGO SWINDLE

Bassett Says He and Ahlgren Had Unwitting Part in Affairs of Company.

That he and John M. Ahlgren, who were indicted yesterday by a Chicago grand jury for participation in the sale of unsecured oil and mine stocks, were unwittingly connected with the scheme, was the statement of E. W. Bassett, of the Bassett Grain Company, of this city, today. Mr. Ahlgren, who is owner of the Ahlgren Light and Storage Battery Company, 265 North Delaware street, was out of the city, but Mrs. Ahlgren said her husband had lost money because of his relations with the twenty-three other men indicted by the grand jury.

Mr. Bassett said that in October or November of last year, Henry P. Leavitt, of Chicago, who was one of the indicted men, and others connected, interested Mr. Ahlgren and himself in their scheme to manufacture automobiles by promising to place an order for \$100,000 worth of storage batteries with the Ahlgren Company. Mr. Bassett said he then became a partner with Mr. Ahlgren. An investigation of the Chicago men seemed to indicate that they were thoroughly trustworthy, he said. Checks they presented on a Mt. Carmel (Ill.) bank were always honored. Because of the storage battery order they were persuaded, Mr. Bassett says, to permit their names to be used as trustees of the company being formed.

The Chicago men through various delays never had their order filled, he says, and in January he dropped out of the concern. Before that time, Mr. Bassett said, he and Mr. Ahlgren went to Chicago to attend a meeting of the board of trustees, and there everything appeared to be all right.

Mr. Bassett says he and Mr. Ahlgren lost what they had spent as an outlay for the large order of batteries they were expecting to fill. Mrs. Ahlgren said her husband knows nothing about the oil stock scheme the men indicted are alleged to have been backing. His attorney has gone to Chicago to try to straighten out the matter.

### FOUR SCHOOLS OPEN IN STOCKTON TOWNSHIP

### DEADLOCK OVER DEMANDS BY UNION OF TEACHERS.

### TRUSTEE TELLS OF THREATS

(Special to The Indianapolis News)  
LINTON, Ind., September 19.—Four of the fourteen schools in Stockton township, outside Linton, were open today, according to James T. Roach, township trustee, who has been engaged in a controversy with a union of teachers that has resulted in keeping closed all except one of the schools.

The schools which are open now are the Black Creek, the West Linton, the Atlas and the Elletts schools. The Elletts school, which was the only one opened according to schedule Monday at the opening of the 1919-20 term, has been closed following a meeting between the trustee and a committee of the Teachers' Union.

In announcing that four of the schools were open, Mr. Roach said he had told the teachers to use their own judgment, and had not advised them to take any action. On the opening day committee of citizens sympathetic with the union teachers, persuaded the teachers employed not to open the schools.

The controversy developed when the union made demands for a salary scale, and for preference to be given members of the union. Mr. Roach employed some members of the organization, but contended that he has the privilege of choosing teachers solely on the grounds of their qualifications.

Mr. Roach has made the following statement:

"Privately, many of the school patrons tell me that they want the schools to go ahead and some seem to have been intimidated in different ways, even with the threat of losing their United Mine Workers cards if they send their children to school. The truth may as well be known. I am not now, nor never have been opposed to union labor. I am for it. People seem to think this is another telephone affair. It isn't and there is no connection between the two controversies.

**No Strike Breakers.**

"I have hired every teacher who applied for a place, whom I thought qualified and deserving and have never discriminated against members of the union. In fact, I have told each and every applicant of the true situation here and have explicitly stated that I would hire no 'scabs' nor 'strike breakers.' These teachers are neither, inasmuch as they are taking the places of no one legally employed and as far as I know those who do not already belong to the union are perfectly willing to join if it does not mean that they must immediately relinquish their places.

"One girl, whom I asked about joining the union, said she was willing to do so, but if she joined she understood she would have to give up her place to one of the original charter members of the union, so what would be the use to do it unless there was a job in it?"

### TRAINING SYSTEM SCORED.

### Poor Results Alleged by American Legion Weekly in Attack.

NEW YORK, September 19.—The American Legion Weekly, official organ of the American Legion, publishes in this week's issue an attack on the federal board for vocational training, the congress and the war risk insurance bureau, asserting that up to September 4 last only thirty-three men of the 200,000 Americans disabled during the world war had been completely trained and established in employment by the board.

"Certainly no one should appreciate better than the men who served that the hearts of the people are right," the article says, "but the penitents and jobless cripples, who crashed in the vigor of his manhood on the fighting front may sometimes find it difficult to differentiate between the sentiments of that people and the crass and inexcusable incompetence of its public servants. The public servants in this case are the members of the Sixty-fifth congress, which promulgated a law providing for the rehabilitation of maimed men, that applied so high and achieved so little and the federal board which has presented an even more lamentable spectacle in its bungling efforts to function under that statute."

"Washington figures of September 4 last," the weekly continues, "give the number of men placed in employment with no training or incomplete training as \$420." It added that inquiry showed that of this number 12,520 were self-placed.

**OKLAHOMA MAN TAKES OVER PREMIER PLANT**

L. S. SKELTON OBTAINS 65 PER CENT. OF STOCK.

**WILL INCREASE PRODUCTION**

L. S. Skelton of Okmulgee, Okla., reached an agreement with the owners of the Premier Motor Corporation Thursday whereby he comes in possession of about 65 per cent. of the stock of the corporation and becomes general manager of the plant at Twentieth street and Olney avenue.

with the directors Thursday afternoon. Mr. Skelton met with the department heads after which he announced that they would be retained under the new management. The present board of directors will retire.

Mr. Skelton announced that he plans immediately to enlarge the plant and increase the force of employees to about 2,000. He plans to start quantity production immediately of the new model Premier cars, about 20 of which are now practically completed. The price of the new car was not announced.

A short time ago the plant shipped the last of the old model cars built with material bought before the war.

2,000 pleasure cars have been built since January 1. The plant at present has about seven acres of floor space and forty acres of land. Mr. Skelton said that extensive improvements will be made at once to increase the production capacity.

The new owner has extensive glass, lead and zinc interests in the west and is an oil operator on a large scale. He was the distributor for the Premier automobiles in Los Angeles, Cal., and other places in the west.

PHYSICAL INSTRUCTORS AT TEND EDUCATIONAL MEETING.

**SCHOOL HEADS ARE PRESENT**

Nearly fifty instructors of physical education in Indiana schools, and a number of city school superintendents, are in attendance at a conference on physical education at the Claypool hotel, which opened today, and will continue through Saturday morning.

The conference was called by L. N. Hines, state superintendent of public instruction.

Practical demonstration of setting up exercises were on the program at the opening session. After a short talk explaining the methods of physical education used in Indianapolis schools, W. A. Ocker, supervisor of the department of physical education for the Indianapolis schools, gave the teachers a snappy drill of "Arms in thrust, forward, sideward and upward."

This afternoon he discussed "Mass Athletics and Competitive Games." Mr. Ocker had planned a model lesson in physical training, in which about fifty school children of Indianapolis would participate this afternoon, but was unable to make the arrangements.

At 8 o'clock this evening, J. J. Pettigrew, director of the extension division of Indiana University, will make an address on "Community Activities."

L. D. Koblinsker will demonstrate a motion picture machine.

**\$2,400 A YEAR NOT ENOUGH**

Postoffice Job at Whiting Is White Elephant for Uncle Sam.

(Special to The Indianapolis News)  
HAMMOND, Ind., September 19.—The fourth Standard Oil Company employe to be appointed postmaster of Whiting within a few months has resigned because, he says, the salary of \$2,400 a year is not enough.

George W. Jones, the postmaster, offered his resignation and the government in turn appointed D. B. Purinton, Arthur Vernon and Charles Carrotte. Each resigned after his appointment and the job has gone begging again. In the meantime Mr. Jones wishes to sever connection with the government will not permit him until it can find a man who will take the place.

**WE ARE EXCLUSIVE AGENTS FOR**  
**Globe Stoves and Ranges**

Through our recent purchase of several carloads of stoves and ranges from the Globe Stove and Range Company, of Kokomo, Indiana, we have secured the exclusive agency for Indianapolis on this line.

We are enabled, thereby, to show a "most complete, practical and exclusive featured, high class line of stoves and ranges."

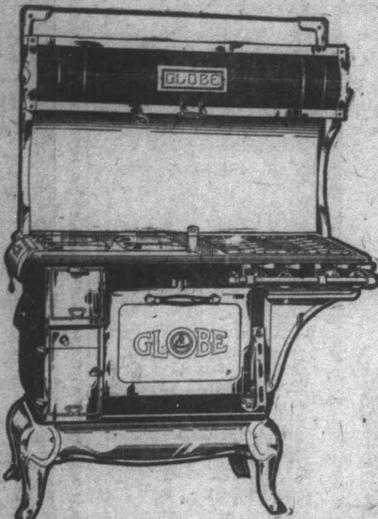

Globe stoves and ranges are superior in design and quality as well as the best known line of stoves in Indiana.

On account of the unusual great demand for Globe stoves and ranges, we have anticipated with the thought in mind of being able to serve our patrons' stove requirements with promptness, also giving them the best choice of selection of stoves ever offered in this city.

May we have the pleasure of a call from you to our stove department where we will be glad to show the many great advantages contained only in the Globe line of stoves and ranges?

**New Globe Hotblast**

The stove of no regrets. Your coal bill will be cut 25%. The fire pot is so arranged that coal burns from the outside toward the center. One filling lasts all day. Coal does not clinker. All soot, smoke and gas is consumed, right in the heater; no combustible substance escapes through the chimney.

CONVENIENT CREDIT TERMS.

**Gas-Kol Globe Combination Range**

Finished all black with white enamel parts. Two stoves in one. The gas section has three ordinary burners and one giant burner. The coal or wood section has four eight-inch covers. Equipped with drip pan under the gas section. The most serviceable all-year-round stove you can buy.

**The Rex Hotblast**

This stove is not as large as the Globe Hotblast, but is an exceptionally good heater. Air is taken in at top of fire pot, thus assuring absolute combustion of both smoke and gases.

**We Thank You**

Big values speak for themselves. That explains the phenomenal business of our opening week. Those who were here were amazed at the varied choice of period and standard patterns that were on display. They told their friends about it, and so the word was spread broadcast. We thank you for the kind words you said about our new store—we want you to come again—and often, whether you desire to purchase or not it will be our pleasure to receive you.

### PERSHING REPLIES TO CONGRESSIONAL THANKS

PRaises Army Under Him For Great Task Done.

### LAUDS ALLIED WAR WORK

WASHINGTON, September 19.—Acknowledging the honors conferred by the congress yesterday, General Pershing said in his address at the joint session:

"I am deeply sensible of the privilege of appearing before you as a representative of the American expeditionary forces, and am filled with emotion at the sentiments that have been expressed. This honor affords me profound gratitude as a recognition of the achievements of our splendid army. In returning to your kind and generous approval of our people I am richly rewarded.

"A final report of the organization and the operations of our armies will be made to the secretary of war. The manner in which this great force was developed into an instrumentally for victory is well known to you. The hardships that fell to the lot of our soldiers have been heavy, and the war beset by many obstacles, but faith in the Almighty God have given us courage and inspiration.

"The trials of battle sever. The trials of battle demanded Spartan endurance and utmost self-sacrifice. Never have men faced a more difficult task, nor borne greater hardship, and never have troops shown a finer spirit of willingness or more resolute purpose.

"The might of America lay not only in her numbers and her wealth, but in the spirit of her people and their determination to succeed at whatever cost. While every man who went to France courageously did his part, behind him were millions of others, eager to follow, all supported by a loyal people who devoted themselves to sustain our armies and support our allies. Whether in French, Belgian or Italian villages, or in the camps of England, the young men have left behind them a standard of frankness, of liberality, of gentleness and of helpfulness which will cause the other nations of the world to prize their soldiers in sincerity of their motives.

"The benefits flowing from the experience of our soldiers will be broadly felt. They have returned in the full vigor of mind, body and spirit. In the community of effort men from all walks of life have learned to know and to appreciate each other. Through their patriotism, discipline and association they have become virile, confident and broadminded. Their conduct and association of honorable public service, they will bring into the life of our country a deeper love for our institutions and a more intelligent devotion to the duties of citizenship.

"To you, gentlemen of the congress, we owe the existence and maintenance of our armies in the field. With a clear recognition of the magnitude of the struggle you adopted the draft as the surest means of utilizing our manpower. You promptly enacted wise laws to develop and apply our resources to the best effect. You appropriated the fabulous sums required for military purposes. Many of your members visited the armies in the field and showed us their interest and sympathy. You made possible the organization and the operation by which victory was achieved.

"Support of the President. Throughout the war the President reposed in me his full confidence and his unflinching support stimulated my task. The secretary of war made repeated visits to the front and I am deeply grateful for his wise counsel. Under him the various staffs, bureaus and departments, with all their personnel, deserving of especial acknowledgment for the ability with which their problems were met. The officers and soldiers who served at home are entitled to their full share in the victory. There existed a unity of purpose between our government in all of its branches and the command of the troops in the field that materially hastened the end.

"Our navy performed a brilliant part in transporting troops and supplies and in maintaining our sea communications. The army was conveyed overseas with the maximum of safety and comfort, and with increasingly small loss. In this arduous service the generous assistance of the seamen of Great Britain deserves our lasting appreciation.

Ministers to Soldiers. "A special tribute is due to those benevolent men and women who ministered to the needs of our soldiers at home and abroad. The welfare societies, maintained by a generous public, gave us invaluable aid. In our hospitals the surgeons and nurses, both permanent and temporary, served with a skill and fidelity that will ever be worthy of our grateful remembrance.

"Business and professional men abandoned their private interests and gave their service to the country. Devoted men, women and even children, often in obscure positions, zealously labored to increase the output of ships, munitions, war material and food supplies, while the press and the pulpit stimulated patriotic enthusiasm.

"Our admiration goes out to our war allies, whose tenacity, after three years of conflict, made possible the effectiveness of our effort. Through their loyal support and hearty co-operation, a genuine spirit of comradeship sprang up among us, which should firmly unite the peoples as it did their armies.

"The cheerfulness and fortitude of our wounded, were an inspiration and a stimulus to their comrades. Those who are disabled should become affectionate charge of our people, whose care they have so richly earned. Let us, in sympathy, remember the widows and the mothers who today mourn the loss of their husbands and sons.

are disabled should become affectionate charge of our people, whose care they have so richly earned. Let us, in sympathy, remember the widows and the mothers who today mourn the loss of their husbands and sons.

"Our hearts are filled with reverence and love for our triumphant dead. Buried in hallowed ground which their courage redeemed, their graves are sacred shrines that the nation will not fail to honor.

"The glorious record made in the fight for our treasured ideals will be a precious heritage to posterity. It has welded together our people and given them a deeper sense of nationality. The solidity of the republic and its institutions in the test of a world war should fill with pride every man and woman living under its flag. The great achievements, the high ideals, the sacrifices of our army and our people belong to no party and to no creed. They are the republic's legacy to be sacredly guarded and carefully transmitted to future generations.

"From four states have come reports on wholesale prices indicating a decline of 2 to 5 per cent. Virtually no reductions in clothing prices have been noted. The reports on retail food prices were said to have been from cities and counties well distributed throughout the country, and the information is believed by officials here to be a fair indication of what is going on everywhere. They think that results now becoming evident will be cumulative as the season advances, new declines in wholesale prices being reflected in retail prices, and additional reductions coming from the campaign against hoarding and profiteering.

MAN'S USELESS LILY. Woman Doctor Says He Just Must Have Her Around. NEW YORK, September 19.—Man in general and "a great trust of garment manufacturers in particular," are responsible for the "contortions" which women undergo in order to wear so-called fashionable clothes, the International Conference of Women Physicians was told here by Mrs. Beatrice Forbes Robertson Hale, Man, according to Mrs. Hale, likes to have a "little, useless lily about the house" to flatter his conceit that he can afford such a luxury.

DECLINES ARE REPORTED Sixteen States See Some Weakening in Food Prices. WASHINGTON, September 19.—Reports to the department of justice from twelve states indicate there has been a decline of 10 to 15 per cent. in food prices since the time the fair-price committee began their work.

Oppose Suffrage Amendment. BALTIMORE, September 19.—The Democratic state convention here yesterday ratified the nominations of Albert C. Ritchie for governor and his associates on the state ticket, all of whom were announced at the primary election. The platform warmly endorsed the administration of President Wilson, the treaty with Germany and the league of nations, and opposed the ratification of the proposed federal woman suffrage amendment.

are disabled should become affectionate charge of our people, whose care they have so richly earned. Let us, in sympathy, remember the widows and the mothers who today mourn the loss of their husbands and sons.

DECLINES ARE REPORTED Sixteen States See Some Weakening in Food Prices. WASHINGTON, September 19.—Reports to the department of justice from twelve states indicate there has been a decline of 10 to 15 per cent. in food prices since the time the fair-price committee began their work.

Oppose Suffrage Amendment. BALTIMORE, September 19.—The Democratic state convention here yesterday ratified the nominations of Albert C. Ritchie for governor and his associates on the state ticket, all of whom were announced at the primary election. The platform warmly endorsed the administration of President Wilson, the treaty with Germany and the league of nations, and opposed the ratification of the proposed federal woman suffrage amendment.

Bread. the most wholesome and the most nourishing of all foods, is today the only economical food. Bread has not increased in price like other foods. Your loaf today costs only a few cents more than before the war—an advance that represents the increased cost of labor more than anything else. So Bread, the staff of life, is within the reach of everybody. Eat Bread—More Bread—instead of the richer, higher-priced foods, and you will cut down the high cost of living, and be healthier and happier. Lang's 4 o'clock Bread. A Trial Is Convincing. YOUR GROCER WILL SUPPLY YOU.

WORK OF DICKY KERR SWINGS MANY AWAY FROM REDS—DISSEMINATION REPORTS.

(By the United Press) NEW YORK, September 18.—New York favors Kid Gleason's entries in the October campaign. What little betting is being done around here makes the White Sox a 7 to 5 favorite over the Reds.

Reds Are Blumping. Much is taken also from comparison of the two teams in the last ten days. The hitting of the Reds has slumped badly and on their own grounds the team has been playing far off the form that has characterized their work all season.

Cleans Up on Rapid Day. HAYNE DE GRACE, Md., September 18.—One of the biggest crops in recent years was engineered yesterday by C. E. Clement, prominent member of the Baltimore Yacht Club, when he sailed his 100-foot motor launch, the "Havre de Grace," on the Chesapeake Bay.

LARGE QUAKER SQUAD. RICHMOND, Ind., September 18.—Barthman has a squad of forty-five men in motion in field. The men are working under the direction of Coach B. M. Brown, assisted by Nash Higley, Ben Jetter, Eben, and Harold Gordon, tackle Miller, end, and Harold Gordon on the left eleven, are all back in school. There is much promising material among the new men and several of them are former high school stars.

BREAKS WORLD'S RECORD FOR TROTTING TEAMS

This picture shows Walter Winans breaking world's record at Parsloe's park, London, with his famous trotting horses, Harmony and Discord. They covered two miles in 6:44.

Today's Baseball Schedule

National League. New York at Pittsburgh, cloudy, 2:30 p. m. Boston at Chicago, rain, 3 p. m. Philadelphia at St. Louis, rain, 3:30 p. m. Only games today.

American League. Detroit at New York, clear, 2:30 p. m. St. Louis at Philadelphia, clear, 3:30 p. m. Cleveland at Boston, clear, 3:35 p. m.

BOWLING COSSIP. The Calumet set away to a poor start in the games taking all three games with the Hamilton of the latter team doing the best bowling.

FOOTBALL NOISES

Portland has organized a strong football eleven this season. The team is expected to start its season Sunday and wants to book a game with a strong local or state team.

The Apollo A. C.'s, after two weeks of hard practice, are now ready to book games with the best teams either local or state. The A. C. will hold a meeting and practice this evening at Indianapolis park.

The Tarzars will meet tonight for a light workout. All members should be present. The Tarzars are playing in the 38-39 class and will put up some very nice competition with any team in their class.

GRAND CIRCUIT RESULTS

COLUMBUS, O., September 18.—The feature event for today's race card in the Grand circuit here, is the 2:30 pace, the C. T. Dunkle event. A splendid field of horses, including Lillian T. is scheduled to start. Other races on today's card are the 2:15 pace and the 2:10 trot.

The free-for-all pace Thursday was a disappointing affair on account of the slow time. Miss Harris M. the favorite, lost it after taking the second heat from Directum J. who stood a terrific drive in the third heat.

Four men of unusual promise turned out for the Butler football squad yesterday despite the fact that rain made the field heavy and the day uncomfortable.

HALF OF BUTLER FOOTBALL MATERIAL YET TO REPORT

Four men of unusual promise turned out for the Butler football squad yesterday despite the fact that rain made the field heavy and the day uncomfortable.

The return of Phillip Brown to the fold is a great boon in the hearts of many good and true on the Butler commons. Last year Brown was variety center, but as Captain Price Mulligan is back, Brown is out for the back field.

Paul V. Brown was out for the first time yesterday. He is trying for an end position and a year of independent football experience tucked in behind his ears, he should be a valuable asset to the Bulldogs.

INGLES AT DE PAUW.

GREENCASTLE, Ind., September 18.—James J. Ingles, star tackle of Indiana University's football team and captain of the 1918 eleven, is here planning to enter DePauw.

Paul V. Brown was out for the first time yesterday. He is trying for an end position and a year of independent football experience tucked in behind his ears, he should be a valuable asset to the Bulldogs.

VICTORY OVER INDIANS PUTS TEAM SIX GAMES AHEAD OF KANSAS CITY.

ST. PAUL, Minn., September 18.—By smothering the Indians 7-3, while rain kept Kansas City idle the Saints yesterday increased their lead over their nearest rivals to six full games and with only ten playing days remaining it begins to seem safe for the Kellymen to begin looking up time cards of trains headed for the Pacific coast.

Hendricks is Fired.

Leary and Hendricks were ordered off the field in the fourth inning. The manager heeded the command, but Leary stood unobscured to his own bench. Later the umpire saw him and once more desired him to retire.

Little Duke Reilly pulled an unportable trick in the ninth and was fined \$15 by Murray. After Yerkus had fanned the outfielder lifted a pop fly in the second frame and made it snafu.

YESTERDAY'S HERO: Carl Mays. The pitcher struck out ten batters and pitched a double and single. The Yankees won.

BAT, TWENTY FEET LONG, TO BE READY FOR REDS IN BIG SERIES

GREENSBURG, Ind., September 18.—Presentation of a huge baseball bat to the Cincinnati Reds champions of the National League.

Recently Gregory S. Stewart, wealthy lumber man and uncle of Clarence and Frank Donnell, of this city, who are also in the lumber business, while talking to a reporter of a Cincinnati paper recalled the fact that in 1869 the Red Stockings of Cincinnati, won every game that season and that a huge bat was presented to the club. When the reporter casually asked if Mr. Stewart would give the Reds a big bat if they won the pennant, he replied, "Yes." Accordingly a story appeared in the Cincinnati paper and Mr. Stewart went to his nephews here to fill the order.

The Donnells will supply an ash log for the bat, which is to be from eighteen to twenty feet long. The bat will be turned out at the Morris-Indian mill. The bat will be highly polished, it is stated, and the names of the Reds, games played, and other data will be painted or burned on the bat.

One thing certain the bat will be ready when the Reds take the field against the White Sox in the title series and the Donnells are planning to be on hand for the presentation.

Indiana vs. Purdue

BLOOMINGTON, Ind., September 18.—Resumption of athletic relations with Purdue University of the conference basketball meeting at Chicago last Saturday has been welcomed at Indiana University.

Indiana has had nothing but a friendly feeling toward Purdue," said Coach E. O. Stehm. "I believe that the breaking of athletic relations between the two schools came about through causes other than the feeling of the respective student bodies. Student body and alumni of Indiana, I am sure, will welcome the resumption of relations."

Two basketball games were scheduled at the recent basketball meeting—Purdue at Bloomington, January 23, and Indiana at Lafayette, February 20.

UNDER THE INFLUENCE OF CAUTION IN THE STOCK TRADE MODERATELY ACTIVE; STEADY DEMAND FOR STEELS. LABOR SITUATION A FACTOR

Average Stock Prices

Stocks were under further pressure today, the acute steel labor situation causing additional short selling and moderate fluctuations. The average price of twenty individual stocks September 18, 1919, was 77.75 per cent. The average price of twenty active rails was 73.50, of 79 per cent.

NEW YORK, September 19.—The decision of the labor unions to begin the steel strike next Monday caused a slight settlement at the opening of today's stock market, such action having previously been discounted. U. S. Steel declined the smallest fraction at the outset, later yielding to sympathy. The steel market was active and steady, and reflected an undertone of caution.

As a result of selling pressure, some modest short covering, the market became moderately active. United States Steel gained 1/8 point, showing an actual gain of 1/8 point. The price of numerous large individual stocks. There was a steady demand for American and Railway Locomotive stocks. The market was active and steady, and reflected an undertone of caution.

The one exception was Crucible Steel, which made an early gain of 1/8 point. The Texas Company featured the oil, advancing almost 2 points, and tobacco was active and steady.

BEARISH FACTORS APPARENT; LIGHT GRADES AT LOWEST BEARISH FACTORS APPARENT; LIGHT GRADES AT LOWEST

CHICAGO, September 19.—Lack of selling pressure rather than any aggressive buying appeared to be chiefly responsible for moderate upticks which took place today in the value of corn.

The market for traders inclined to the view that the recent big smash in grain quotations had overdisciplined all bearish factors in corn, as common to other commodities.

Continued rally was followed by a further lift in the market. Opening receipts ranged from 1/2 to 1 1/2 higher, with December contracts leading.

Higher quotations on hogs gave steadiness to provisions. Trade, however, lacked volume.

SUGGESTS CUT IN ACREAGE

A reduction in winter wheat acreage from 1918 to 1919 is suggested by the fact that the average yield per acre is 27.5 bushels.

It is suggested that the acreage of winter wheat be reduced to 120,000,000 bushels.

Under normal conditions this would give a wheat crop of 3,300,000,000 bushels.

It would be enough for normal consumption, and give an exportable surplus of 1,000,000,000 bushels.

Convertible at option of holder at any time into two shares of Common Stock

Dividends exempt from Normal Federal Income Tax

We summarize from the letter of J. N. Willys, President of the Willys Corporation, as follows:

Willys Corporation, formerly the Electric Auto-Lite Corporation, of Toledo, Ohio, is acquiring the New Process Car Corporation of Syracuse, N. Y., and the Duesenberg Motors Corporation of Elizabeth, N. J.

A New, Light, Six-cylinder Car will be manufactured on a large scale by the Corporation and sold by the Willys-Overland Company, through its branches and a special sales unit, in accordance with the purchase and sales contract recently made between the two companies.

Net Tangible Assets shown by the Consolidated Balance Sheet prepared by Messrs. Price, Waterhouse & Co., after giving effect to the recapitalization of the Corporation, based upon the acquisition of the New Process and Duesenberg Corporations, are \$43,079,338.27, or \$287 per share of First Preferred Stock, and net quick assets exceed \$101 per share, exclusive of marketable securities which equal \$121 per share additional at book values of their net tangible assets.

Net Earnings of the Auto-Lite and New Process Car divisions for the five months ending May 31, 1919, are reported by Messrs. Price, Waterhouse & Co. at the rate of 3.41 times First Preferred Dividend requirements, and including 1916, 1917 and 1918, at averaging 2.33 times dividend requirements.

These two plants now have booked sufficient business to indicate a net profit, after all taxes, of over \$6,000,000 for the next twelve months, or 5 times dividend requirements. These earnings are exclusive of any profits from the new six-cylinder car.

No Mortgage or lien of the Corporation or its subsidiaries, except purchase money mortgages, may be created without the consent of 75% of this issue.

Annual Sinking Fund Payments (which are cumulative) are called for, ranging from 10% on the first \$3,000,000 of net earnings (after dividends on this stock to 3% on the excess over \$6,000,000.

We are advised that application will be made in due course to list this stock on the New York Stock Exchange.

**HOME-COMING AT SHERIDAN**

Hamilton County Soldiers Eat Chicken Dinner and Parade. (Special to The Indianapolis News) SHERIDAN, Ind., September 12.—A home-coming for the Hamilton county soldiers of the world war, featured by the dedication of a bronze tablet in the Sheridan library in their honor, was held at Sheridan today. A chicken dinner was served in the basement of the Christian church to all former service men. Several hundred men took part in a parade, which was reviewed by Harry B. Smith, adjutant-general for Indiana, and Colonel Robert Tyndal, who commanded a regiment in the Rainbow division in France. The welcome address was made by

Mrs. Charles Martin, and the response by Dr. P. E. Johnson. M. E. Foley, of Indianapolis, delivered the address at the dedication of the tablet. At the campfire, to be held this evening, the principal address will be made by Ed Jackson, of Lafayette.

**LEWIS JOINS LEGION.**

Major-General Produces Dollar Post at New Albany. (Special to The Indianapolis News) NEW ALBANY, Ind., September 18.—Bonnie Sloan Post, American Legion, of this city, can boast of being one of the few in the country that has a general as one of its members. Before his return Thursday to Camp Gordon, Ga., Major-General Edwin M. Lewis, who

was in command of the 20th division in France and who has been the guest of his former home city during the home-coming celebration for returned soldiers, became a member of the post. Sherman Minton and S. W. Watta, postesses, active in the organization of the local post, asked him if he would not like to become a member. "Readily assenting, he inquired, "What qualifications are required?" "Your signature and \$1, sir," chorused the solicitors. "The dollar was quickly forthcoming, the signature was made, and General Lewis became a full-fledged member.

The World's Greatest Heater

We made the offer in Indianapolis papers for the last several years, and it was never claimed. We challenged any dealer to produce a soft coal stove at the price designated for the demonstration that would burn all ingredients of hard or soft coal, also burn poisonous gas, smoke, soot, etc. and still this offer is unclaimed. The Florence Hot-blast will heat three times as much space any stove on earth will heat with the same size fire-pot or enable the user to obtain three times the amount of heat out of the same amount of coal. There are over 7,000 Florence Hot-blasts being used in Indianapolis and every one is giving perfect satisfaction. It is without a doubt the most wonderful heater ever made.

## ILLEGAL ACTS ALLEGED IN EXAMINER'S REPORT

### COMMISSIONERS UNDER FIRE IN VANDERBURG COUNTY.

### CONTRACTS POINTED OUT

(Special to The Indianapolis News)  
EVANSVILLE, Ind., September 19.—Charges that certain transactions of two of the county commissioners of Vanderburg county have been illegal and against public policy and detrimental to the taxpayers were made in a report filed with the county auditor here Thursday by J. L. Donaldson, civil engineer and field examiner for the state board of accounts.

The report is based on examination of the records of the county commissioners taken from the books in the county auditor's office. It was reported earlier in the day that the board of county commissioners had withheld the report from the public after it had been received, but the commissioners later showed the envelope in which the report came from Indianapolis, showing it was mailed Wednesday.

**Upper Red Bank Road.**  
Donaldson tells of the building of the Upper Red Bank road in Perry township, Vanderburg county, the contract for which was let May 5 of this year to the R. E. N. Construction Company, of which Philip Euler, former county treasurer, is the manager. The contract price for the road was \$20,000, because Euler had not built the road in accordance with plans and specifications Euler was forced to pay \$20,000 to the county. This was brought out in the report of Donaldson.

Donaldson further says that he finds at least two of the commissioners in excess of authority granted them by the state. He says that no duplicate plans and specifications of proposed improvements have been certified and placed on file, as the law requires. He also says that the state law requires that bridges and culverts costing less than \$100 shall be under the supervision of the county highway superintendent, that contracts must be let to the lowest and most responsible bidder if the work exceeds \$100.

**Schlotz Avenue Bridge.**  
The report shows that no bids were received for the rebuilding of the Schlotz avenue bridge and that the work was of poor construction. The commissioners allowed the contractor for this bridge to use for fill the soil he has and cement. Lumber worth \$50, the report says, was provided from the contractor's supply.

The contractor presented a claim for \$100,000 but Willis Copeland, county auditor, refused to issue a warrant for this claim, saying it was unreasonable, and the contractor withdrew his claim and presented one for \$175,000. This was certified and allowed, making the total cost of the bridge \$225,000, which the engineer says is an exorbitant figure.

Donaldson referred to a Diamond Truck transaction. He says that on May 25 of this year, the board of county commissioners bought a motor truck for the county for \$5,000.00.

Twelve other bids are quoted, all of them lower than the Diamond Truck and the lowest being \$2,700, made by the Motor Company. The commissioners bought the truck from a Chicago concern.

**"Should Be Set Aside."**  
In closing his report, Donaldson says: "Such transactions are not only illegal, but against public policy and detrimental to the best interests of the taxpayers and should be so declared and set aside."

The postmark on the envelope containing the report shows that it was mailed at Indianapolis Wednesday afternoon. It is expected that Donaldson's report will be presented to the grand jury, which for the last week has been investigating the alleged irregularities of the county commissioners.

**J. M. Harlan Kills Himself.**  
(Special to The Indianapolis News)  
CONNERSVILLE, Ind., September 19.—John Marquis Harlan, age sixty-nine, a native of this county, and a retired farmer, killed himself Thursday by swallowing strychnine, while in the office of the undertaking establishment of Charles Thompson. Harlan had been dependent since the death of his wife, two years ago. He left a note, directing the disposal of his body. Six children survive.

### Little Stories of Daily Life

### All the Same.

Five-year old Dorothy is very fond of listening to auntie's Victrola. Recently she has formed the habit of asking for the music she wants to hear. The other night she perplexed the entire family when she persistently demanded that a piece called "Sleepy Crickets" (Creeks) be played.

Not until the next day, however, did auntie think what Dorothy meant, and then she thought right. The piece Dorothy had wanted was "Drowsy Waters."

### Terrible Hardship.

Twilight, a fireplace and a returned sailor.

The girl was troubled over the common boast of the mariner that he has a "girl in very port." She did not wish to believe that if the boat put in "any old port in a storm" that Vic, her jacks, would find a girl awaiting him there.

Then she asked, "For how long a time have you gone without kissing anyone?"

"Well, one time we were at sea for two weeks," said the sailor.

### Willard Jessup Dead.

(Special to The Indianapolis News)  
RICHMOND, Ind., September 18.—Willard Jessup, age thirty-one, a newspaperman, died of typhoid fever here Thursday at the home of Wilfred Jessup, his brother, after a short illness. He was for a number of years employed in the news department of Richmond newspapers and was for a time city editor of the Richmond (Ind.) News. He also had been connected with the Indianapolis office of the Associated Press, and served with that organization during the last session of the Indiana general assembly. He was the son of Mr. and Mrs. Thomas R. Jessup, of Centerville.
