TRUE LEADERSHIP

COLLEGE AND UNIVERSITY EDUCATION A REAL NECESSITY

REV DR GORDON SPEAKS

Says the Smart Well Educated Negro Will Always have Following His Aim Should be High

"Negroes need leadership and the leaders must be educated," declared Rev. John Gordon, D. D., former president of Howard University, in an address to the Men's club of the Universalist church Tuesday night.

The institution of which Dr. Gordon was at the head is one for Negroes, and dissatisfied at his discipline, the students a short time ago started a revolt in the chapel, resulting in great disorder, after which he resigned.

Dr. Gordon made no reference to Howard University or the incident in his remarks.

"There must be Negro colleges and universities before there is a Negro common school," he said. "Highest education for the leaders will swing the ignorant class into line and serve to uplift the race. Crime is attributed to ignorance. In communities where there is no figure head, there is more transgression."

WILL FOLLOW THE LEADERS.

"Where there are smart, well educated Negroes, there is a noticeable trend toward their wake. There must be an example. One of the greatest fields for work among the line of civilization is the education of the Negro, especially the Southern Negro.

"Colleges of the highest standard and universities equal to those of the white race must come to the rescue of the Negro. There must be perfect education before there is perfect success. We are taught to believe this when we observe the conditions from an everyday standpoint."

WHITE HOUSE NUPTIALS

Features of Miss Alice Roosevelt's Wedding Plans.

WILL HAVE NO BRIDESMAIDS

Girl Friends to Be Asked to Breakfast and Grouped in a Conspicuous Place on Right of Bridal Party. Huge Wedding Cake From Old Recipe—Why Question of Invitations Is Perplexing the Roosevelts.

Problems of statecraft have given way temporarily in the White House to another problem probably far more vexing than the most intricate international question the president has tackled, says a Washington special dispatch to the New York Press. The great question today is, "Whom shall we invite to Miss Alice Roosevelt's wedding on Feb. 17?"

It isn't that there is any scarcity of men and women entitled to invitations. The trouble is there are too many persons whom the president's family and the family of Representative Longworth are anxious to have at the ceremony. The list of invited guests, it is expected, will reach 500, and it is believed that even with this large number invited there will be many "soreheads" who will say mean things about the president for overlooking them.

"Invite the whole nation, and then you can't slight any one," was the advice a distinguished diplomat gave the president, but as that was impossible it was suggested that only the immediate family of the bride and bridegroom be asked. Reasons developed why that would not be a good plan, and the result is that the president, Mrs. Roosevelt, Miss Alice Roosevelt, Representative Longworth and several members of his family are holding long conferences trying to determine who is to be asked.

Washington society is on the tip of its tongue in regard to the Roosevelt invitations. There had been much speculation about Miss Roosevelt's bridesmaids, but she settled the question by announcing she would not have any. Miss Roosevelt showed her wisdom in this action, for she has become so popular that no matter how many bridesmaids she would have had other young women would have felt offended at not being asked. Miss Roosevelt's girl friends, however, will not be forgotten. They will be asked to breakfast and will be grouped in a conspicuous place on the right of the bridal party.

Representative Longworth's best man undoubtedly will be his brother-in-law, Buckner Wallingford of Cincinnati. The ushers are likely to include young Theodore Roosevelt, Viscount de Chambrun, whose brother married Longworth's sister; Representative Robert Adams of Philadelphia, who has been Longworth's chum since he came to congress; Representative Gillette of Massachusetts, another close friend, and Benson Foraker, son of the Ohio senator.

Tentative plans for the ceremony include the placing of the guests in the east room and a procession from the upper corridor down the western staircase and through the wing and corridor into the historic chamber identified with events in the lives of the chief executives of the American nation for more than a century. Miss Roosevelt will enter on her father's arm and will be followed by the members of the family, her venerable grandmother, Mrs. George C. Lee, and the numerous connections of her mother in Boston. Kermit Roosevelt will escort his mother, Miss Ethel will walk with Archibald, and Quentin will be conducted by his cousin, William S. Cowles, Jr. A prominent place in the bridal pageant will be accorded Mrs. Cowles.

The bishop of Washington, assisted by the Rev. Roland Cotton Smith, will perform the ceremony. Mr. Longworth and his best man will enter the east room in advance of the clergymen. They will pass through the state drawing rooms and take their places under the massive chandelier, a few feet from the south wall, and there await the coming of the bride. Miss Roosevelt dislikes conventional ideas, and she will have no floral bell or bowers. The banking of plants and the placing of tall vases filled with bride roses will mark the temporary altar, but otherwise the apartment will be unadorned by decorations. No attempt will be made to seat the guests at the ceremony or the breakfast.

The reception will last an hour after the noon ceremony, and the breakfast will begin at 1 o'clock. There will be a mammoth cake, made from a recipe handed down for many decades in the family. The cake will be baked in the White House by the old nurse who has served the family thirty years. Miss Alice will address the boxes in which slices of the cake will go to friends. The boxes will bear pictures of the White House.

Miss Roosevelt and Mr. Longworth have had the choice of many private cars for their trip, and at least six mansions have been placed at their disposal for the honeymoon. Miss Roosevelt has confided to a few friends that her wedding gown will be made in the United States of purely American fabrics. It will be of specially manufactured satin and brocade and will be trimmed with lace woven by her mother. The gown will have a full court train and will figure later in the year as her presentation gown at the court of King Edward. The foreign trip is looked on by Miss Roosevelt as her real honeymoon jaunt, and her trousseau is being constructed with a view to appropriateness for wear abroad. In Vienna Bellamy Storer, uncle of Longworth, will present his relative to the emperor.

OUTDOOR SLEEP'S USE

Best Cure For Nervousness, Says a Society Woman.

PLACE OUT IN A PIAZZA CORNER

If No Porch Is Available, Construct a Room on the Top of the House, Says Mrs. Blanche C. Martin to an Audience of Society Women in New York—She Has Slept Outdoors For Five Years.

"Sleep out of doors if you want to know the wild joy of living," was the advice given to society women by Mrs. Blanche C. Martin, an apostle of outdoor life, following a recital which she gave in the Waldorf-Astoria hotel, in New York the other afternoon, says the New York Herald.

"I have slept out of doors in a corner of my piazza summer and winter for five years, and in that time I have never had a cold, though on several occasions it was 20 degrees below

PROF. BOOKER T. WASHINGTON, Noted educator, who will speak in this city in March for benefit of Colored Y. M. C. A. Building Fund.

zero," she said. "I believe that it is a cure for nervousness and many kinds of pulmonary troubles."

"From experience I know that a few hours spent in sleep out of doors is far more beneficial and refreshing than twice the time in a bedroom even with the windows open. The buoyant feeling in the morning following a sleep out of doors is one that surpasses description."

"Awnings properly constructed and let down when it rains will be sufficient guard against getting wet."

"I wear just a simple white linen or muslin nightgown."

"I wouldn't advise any of you to be sleeping out a very cold night, but for a woman who would like a start mild weather would be all right. Have plenty of warm bedding, good blankets, and you'll be comfortable on the coldest kind of nights."

"I would suggest for such an outdoor sleeping room a second story veranda—one where the cot can be placed in a sheltered nook, but if this is not possible then fix up a room on the roof with a top and have the sides ready to be let down in a storm."

Mrs. Martin is a remarkably healthy looking woman and has such red cheeks that every one in the audience who saw her and heard her read Justin Huntly McCarthy's "If I Were King" longed to be like her.

ROCKEFELLER WIG'S USE.

Friend Says Oil King Really Wears It For Disguise.

When John D. Rockefeller, the Standard Oil magnate, took to wearing a wig less than a year ago he adopted a disguise that has proved almost impenetrable, says a New York dispatch to the Philadelphia Press.

A close friend of Mr. Rockefeller says it was not the millionaire's vanity that prompted the change, but his desire to conceal his identity from an inquisitive public.

Mr. Rockefeller, because of his hairless head and sharp features, used to be easily recognized when traveling about the country. This was vividly impressed upon him during a trip to San Francisco about a year ago, when a porter within three minutes after Mr. Rockefeller got on the train spread the news that "John" was aboard. On his return to Cleveland Mr. Rockefeller bought the wig, and since then he has been able to go about unmolested.

CHURCH IN SKYSCRAPER.

Chicago Congressman Will Worship With Offices on All Stairs.

Chicago's tallest church soon will rise at Washington and Clark streets if the plans which were undertaken the other night are carried to completion, says the Chicago News. These plans contemplate a \$1,000,000 skyscraper on the site now occupied by the First Methodist church. Within the great building will be a large auditorium for the accommodation of the worshippers. The rest of the building will be devoted to offices.

THE OFFICIAL AX

NEGROES HOLDING OFFICE IN DEPARTMENT TO BE DROPPED

TO APPOINT WHITE MEN

This Procedure Effects Negroes Holding Federal Offices From and in Southern States.

Washington, D. C.—There are to be no more appointments of Negroes to federal offices in the Southern States. Every Negro office holder in that section is to be replaced by a white man. The only Negro republicans who have a chance for appointment to office under the Roosevelt administration are those who live in the Northern States, where the Negro vote cuts a figure in the elections.

This policy was made clear today when President Roosevelt told Judson W. Lyons, Register of the Treasury. That he is not to be reappointed to the position he has held for two terms. Mr. Lyons is a member of the Republican National Committee from Georgia, and is recognized as a leader of his race. His place is to be given to one of several candidates from Republican states all Negroes. The probability is the lucky man will be W. T. Vernon, a well known educator, of Kansas.

By applying a two term yard stick to all Negro office holders throughout the South the administration expects to rid itself of all those who were put into high office by President McKinley, through the influence of Sena or Hanna.

In addition to Lyons, those who are to go at the end of their present terms are—Robert Smalls, Collector of the Port of Beaufort, S. C.; Henry Rucker Collector of Internal Revenue for the District of Georgia; John H. Deveaux, Collector of the Port of Savannah, Ga.; Joseph W. Lee, Collector of Internal Revenue for Florida; J. E. Bush, Receiver of Public Moneys at New Orleans, La. and James Lewis, Surveyor General for Louisiana under the Department of the Interior.

All of these men were active lieutenants of Mr. Hanna in his campaign which resulted in the nomination of Mr. McKinley at St. Louis in 1896.

Chief among the influences which have brought about this new policy on the part of President Roosevelt is the better understanding of the South and its people which the President himself acquired during his recent Southern trips.

It is said that Dr. Booker T. Washington advise President McKinley, in 1897 against such appointments, but his advice had no influence against the influence of Senator Hanna. He is, however, ever closer to President Roosevelt than he ever was to his predecessor in office.

Apparently for the sole purpose of striking at these McKinley-Hanna Negro officeholders, it was announced some time ago that unless excellent reasons could be shown, no federal officeholder would be given a third term. This rule has not been applied to any of the white officeholders, but is to be rigidly enforced against the Negroes.

WASHINGTON'S DENIAL.

Booker T. Washington, when shown the statement published recently to the effect that he had advised the President to remove all colored office holders in the South from office said: "I have given no such advice; the statement is false."

The 25th Anniversary.

The twenty fifth anniversary of the founding of the Tuskegee Normal and Industrial Institute will be celebrated in April. Pres. Chas. W. Elliott, of Harvard University and Secretary of Taft have consented to be among the principal speakers during the three days celebration. The following recommendations made by Principal Booker T. Washington to the board of trustees of the Tuskegee Institute have been ratified:

"I would recommend that the celebration be made the occasion for showing the progress of the Negro people in the following directions:

"1. To display the history including the growth of Hampton Institute—out of which Tuskegee has grown—the present status, and the distinctive aims and the service of the Tuskegee Institute.

"2. To display the work of our graduates, and the history, and the present condition of the school that are the outgrowth of Tuskegee.

"3. To exhibit the scope, and the efficiency of the Tuskegee Institute.

"4. To celebrate a revival of plantation melodies.

"5. To exhibit the history, progress and present condition of the American Negro.

"6. To bring eminent men, white and black, from the South and North to represent under such auspices and to voice on the same platform the points of view and maturing convictions of their sections and the people upon Negro education and training.

"7. I would further recommend that this celebration be made the occasion for a substantial increase in our endowment fund."

NO JURISDICTION

Court Powerless to Remove State Official From Office.

Indianapolis, Ind., January 26.—The efforts of Governor J. Frank Hanly to remove Daniel E. Storms, secretary of state, from office, received a temporary check when Judge Vinson Carter of the Marion county superior court, before whom the ouster proceedings were instituted, ruled that he had no jurisdiction and that the section of the law of 1897 providing for the summary removal of state officials by trial before a circuit court judge was unconstitutional. The result was not unexpected by the attorneys who followed the proceedings closely. A majority were confident that the only manner in which the governor can ouster Storms is to call a special session of the legislature and have him impeached for his alleged irregularities. Attorney General Miller asked that Judge Carter's decision be made a part of the record in the case and gave notice of an appeal to the supreme court. If the supreme court sustains Judge Carter it is believed there is no other course for the governor to make good but to call a special session. Everywhere speculation is rife as to whether or not he will go to that extreme. A special session would cost the state about \$75,000.

The report that the governor is determined to call a special session of the legislature, if necessary, was partially confirmed by a story that he had been inviting in Republican and Democratic members of the last legislature from the southeastern part of the state for the supposed purpose of inspecting the plans for the new southeastern Indiana hospital for the insane at Madison. After talking with his callers about the hospital and showing them the plans, it is said that the governor adroitly broached the Storms case to give the legislators an opportunity to say what they would do in event of a special session. Storms' friends who heard the story said the governor is by no means confident of his ability to control the legislature and get it to accept his views. They believe, however, that he is already working hard among the members in hopes of being fortified if a special session is called. Storms' friends are very hopeful that a special session will not be called. They say that less than \$3,000 is involved in the controversy, and they suggest that an agreement might be reached whereby the claims could be submitted to the judges of the Marion county superior court for settlement. This is a pioneer case of the kind, and they believe that it ought to be settled fairly and equitably for the benefit of future generations.

The Indiana Republican Editorial association is holding its midwinter meeting here today. Various subjects of trade and public interest are up for formal discussion, such as "Political Issues," "Value of the Editorial Page," and "Co-Operation in Advertising." Officers for the ensuing year will be elected. The annual banquet of the association at the Denison last night was well attended. President R. S. Truitt of the Noblesville Ledger was toastmaster. The banquet party was addressed by Dr. Edwin H. Hughes of Depauw university, Lieutenant Governor Hugh T. Miller, Attorney General Charles W. Miller, and Mr. W. H. Sanders of the Marion Chronicle.

The candidates for places on the Republican state ticket are not pleased with the fact that there will be 1,841 delegates in the coming convention April 11 and 12. It means they will have to work a lot harder in order to get around to see all the men who have a vote. It is said that the number of delegates will be much larger than they have in either New York or Ohio, owing to the low representation on which the call was based. It would not be at all surprising if the party organization should find it necessary soon to change the representation, as the conventions are getting too big to handle.

There is a lot of speculation as to whom Chairman Goodrich will appoint on his executive committee. He is not doing any talking and no names have been suggested. It would not be surprising, however, if Harry Starr of Richmond and Warren Bigler of Wash should be retained. They have been members for a long time and are well acquainted with the duties.

There is considerable ground for the report that Congressman Charles B. Landis or Congressman Abe Brick of South Bend will preside over the Republican state convention. No definite action has been taken, but their names are being considered. Both are excellent speakers. Neither one of the United States senators will be asked to preside this time.

Fred Sims of Frankfort, secretary of the Republican state committee, was here today conferring with his friends. He has no opposition for nomination for secretary of state, but he is getting as busy as the other candidates.

Prisoner Spirited Away. Chattanooga, Tenn., Jan. 26.—After a vain attempt of a leaderless mob to get the negro who brutally assaulted Miss Nevada Taylor on Tuesday night at the entrance to Forest Hills cemetery in St. Elmo, a suburb of this city, the would-be lynchers finally became convinced through two committees to the truth of the county authorities' statement that the negro had been taken to Knoxville, and dispersed.

SPLENDID CAREER

PROF VERNON SLATED FOR REGISTER OF THE TREASURY

THE NEGRO IN BUSINESS

Andrew Dotger of New Jersey Gives A Half Million to Tuskegee Institute

William Tecumseh Vernon is one of the foremost men of his race in the West. He is president of the Western university, the school for Negroes established by the Presbyterians at Quindaro, Kans., in 1880. He is now but a little more than 34 years of age having been born of ex-slave parents in a little log cabin near Lebanon, Mo., July 11, 1871. At the age of 15 he finished the public school course at Lebanon, and in the fall of 1886 entered Lincoln institute at Jefferson City, the Missouri state school for Negroes. He worked his way through school by serving as janitor, hotel waiter, and doing other forms of manual labor, and graduated with class honors in 1890. So limited were his means that upon graduation day he did not have money enough to buy his dinner.

The summer following his graduation he was a waiter at a summer resort. In the fall of the same year, Professor Vernon was chosen principal of the Negro schools at Boone Terre, Mo. It was then his educational career began. Two years later he was elected principal of the Lebanon schools, where he taught four years. During his time he made a name for himself known in educational circles of the state.

In studying the educational needs of his people, Professor Vernon seems to have become convinced that Booker T. Washington's idea is the correct one. He resolved to make an effort along that line, and his opportunity came in the fall of 1896, when he was called to the presidency of the Western university. As a result of his vigor and enthusiasm, the university now 130 acres of land, worth \$18,000, and the valuation of the buildings is \$40,000. He has been active as a stump speaker in Republican politics.

Professor Vernon will be the third Negro to hold the office of register of the treasury, Judson W. Lyons, the present incumbent, is a leading Negro lawyer of Georgia. The other was B. K. Bruce, at one time United senator from Mississippi.

Negro in Business.

Booker T. Washington has an extremely interesting article in the American Illustrated Magazine for January, entitled "The Negro in Business." He tells of the really remarkable success of a Negro, Groves by name, and then tells what Groves says about it. Mr. Washington says:

"But why is Mr. Groves called 'The Negro Potato King'? Let me answer. Last year he produced upon his farm 72,150 bushels of white potatoes, averaging 245 bushels to the acre. So far as reports show, this is 12,150 bushels more than any other individual in the world produced. And besides the potatoes raised on his own farm, Mr. Groves buys and ships potatoes on a large scale. Last year he bought from white growers in the Kaw valley and shipped away twenty-two cars of white potatoes. He also bought fourteen cars of fancy seed potatoes in North and South Dakota, which he sold to growers in the Kaw valley and the Indian Territory. Mr. Groves says that he ships potatoes and other farm products to nearly every portion of the United States and to Mexico and Canada."

Half Million for Tuskegee

By the will of Andrew J. Dotger of South Orange, N. J., the Tuskegee Normal and Industrial institute will eventually receive a bequest that promises to be the largest in its history. At the death of the testator's wife, Clara L. Dotger, the entire residuary estate, said to be about a half million dollars, will go to the endowment fund of Booker T. Washington's Negro school. The present endowment is a little over \$1,000,000. The will containing the bequest has just been filed for probate in Newark, N. J.

Business League Incorporated

The National Negro Business League of New York City has been formed "to promote the commercial and financial development of the Negroes of the United States by thoroughly organizing them into local leagues in all the States and Territories for systematic instruction, conference and encouragement in commercial enterprise, and the proper use and saving of money." The incorporation papers, filed to take effect immediately, with the Secretary of State, give the following names of incorporators: Booker T. Washington of Tuskegee, Ala.; T. Thomas Fortune of Red Bank, N. J.; Doctor S. E. Courtney of Boston, Mass.; Phillip A. Pagton, Jr., of New York City and Fred R. Moore of Brooklyn.

The Great Explorer.

The good ship sailed the northern seas and braved the arctic frost; It braved the bitter, biting breeze, And not a man was lost. It cut through icebergs left and right; It plowed through fields of ice. Resolved its northern way to fight Regardless of the cost. The crew, a brave one, so they say, Caught large and monstrous whales. For they went fishing every day Regardless of the gales. They chased the festive grizzly bear And got him on the hip. They snatched the monster from his lair And brought him to the ship. And so they sailed and sailed and sailed As though by through express, And each day out they never failed To farther northward press. Through bay and inlet, strait and fjord Pressed on this dauntless crew Until at last a reward The pole loomed on their view. The north pole proudly reared its head Beneath the starlit dome. They painted it a brilliant red, And then they sailed for home. The good ship took the backward track, The joy was unconfined, But oh, if only sailed, alack, In the explorer's mind!

Making an Airship.

One thing that makes it so hard to construct a perfect airship is the number of different qualities that are necessary in order to insure complete success as well as safety for the operator and the hucker. In addition to soaring like a chicken hawk and dodging like a swallow, the complete airship should be constructed so that it will climb trees, slide down hills, swim rivers and, if necessary, dig tunnels. Nothing short of this will make the machine all that could be desired. An airship as it starts out in the morning to do a hard day's work never knows what will be required of it by nightfall. In order to make it a perfect companion and one that every man will feel that he must buy it should also be trained to fry eggs and play on the violin. In fact, an airship cannot be too accomplished.

NELSON'S STRAIGHTINE

NATURE'S GREAT HAIR DRESSING Makes Harsh Stubborn HAIR Soft and Pliant and Removes All Dandruff. A Powerful Hair Grower and Positive Cure for Scalp Diseases

NOT now or experimental, but an old, reliable preparation of proven merit. Nelson's Straightine is not only the best Dressing for the Hair, but the most powerful HAIR GROWER known to science; it is Nature's own remedy, containing no strong, dangerous chemicals that run in any way to injure the hair. It can be used as long as desired, or stopped at any time without bad effects. Straightine does not affect the color of the hair. No matter how harsh, stubborn or refractory the hair is, Nelson's Straightine will make it soft and pliant so that you may do it up in any of the prevailing styles, at the same time giving it that wavy, rich, glossy look so much desired. As a Hair Grower, Nelson's Straightine is without an equal; it makes the hair grow in thin places, removes dandruff, stops the hair from splitting, and breaking off at the ends, giving a rich, long and lustrous head of beautiful hair. Straightine cures all kinds of scalp diseases, such as itching, itching and scaling of the scalp, dandruff, etc. Straightine is no new, untried experiment, but an old, reliable preparation, backed by years of successful use and hundreds of testimonials. Nelson's Straightine is delightfully perfumed; put up in handsome 4-ounce square tin boxes (like one shown in cut), and sold everywhere by druggists and agents at 25 cents a box. If you cannot get it in your town, send us 30 cents in stamps and we will mail you a full size box, securely wrapped, postage paid. Address NELSON MANUFACTURING CO., Richmond, Va. We want good agents. Write for price, terms and testimonials.

Tuskegee Institute.

The Tuskegee Institute is now offering extended courses in both theory and practice to young men anxious to secure advanced instruction in Architectural Drawing and Electrical Engineering. Persons desiring to take advanced or elementary courses in either of the subjects will find the opportunity to obtain instruction at Tuskegee Institute, such as few institutions in the country can offer. There is a growing demand for young men who fit themselves, by completing the Architectural Drawing Course, to make plans for houses and who can do the work required in Electrical Engineering. Every effort is being made to make these courses more helpful than ever before. BOOKER T. WASHINGTON, Principal, Tuskegee Institute.

Are you Suffering with Rheumatism?
 Constipation or bad Blood? If so, don't fail to try a BOX of **Red cloud Blood Purifier and System Tonic**
 Why do you go to Hot Springs? Why do you pay a large fee to your doctor? We can cure you at home for a very small amount. After ten year's research in the famous Ozark mountains of southern Missouri, I have compounded a Positive CURE for Rheumatism, constipation and all Blood Disorders, made from roots and herbs taken from the sides of these hills and mountains. Thousands of people have used this Medicine and were Cured of the very worst cases of Rheumatism in three to six weeks; and some afflicted, had rheumatism from three to twenty years. I take this method of bringing this great medicine before the public, as I believe it to be the best remedy known to man. It is nature's own medicine and is bound to effect a cure. Give it a fair trial and you will be convinced of its value. From two to five boxes will cure most any case. Price \$1.00 Per Box For Sale at: PINK'S Drug Store, 550 Indiana ave. And DIXON'S Drug Store Madison ave. and Morris St.
