ONLY MEANT TO ROB VICTIM, MAN HELD FOR MURDER TELLS POLICE

Jobs Dwindling, Says State Study Of U. S. Census

By CHARLES S. PRESTON
New job opportunities in all occupations will have to be opened to Negroes in Indianapolis to avoid great unemployment in the next few years, according to a study of the U.S. Census released Thursday by the Indiana Civil Rights Commission.

Comparing the types of jobs and in 1960, the study found held by local Negroes in 1950 that "the two traditional areas of employment for our non-white citizens — unskilled labor and Negro-owned businesses — are not producing new job openings at a time when the rapidly expanding population is bringing an increasing number of young Negroes into the labor market."

According to the Census of 1950 a total of 11,709 Negroes in Marion County held jobs in the "service" and "laborer" categories, the study showed. By 1960 this number had grown only to 12,000.

Yet in that same ten years the total number of Negro workers in the county increased from 28,912 in 1950 to 40,833 in 1960.

In other words roughly speaking an increase of almost 12,000 workers were trying to squeeze into less than 1,000 unskilled jobs which had been added here during the decade. The non-white population of the county including Indianapolis, rose from 65,000 to a whopping 100,729 — an increase of 54 percent in the 10-year period. At the same time the proportion of whites increased less than half as fast, or only 23 percent.

COMPILED BY MRS. VIRGINIA HEISS, the commission's research director, the study noted that "for all practical purposes, 'non-white' is synonymous with 'Negro' in Marion County. Less than 1 percent of the Marion County non-white population is other than Negro."

(In this news story, "Negro" is used interchangeably with "non-white.")
Though not pointed out in the report, this mushrooming of the Negro population makes Indianapolis the "seventh largest city" in the state — being exceeded by the total populations only of Indiana itself, Gary, Fort Wayne, Evansville, South Bend and Hammond.

The lack of growth of Negro business was deduced from a standstill in the number of Negroes

Slain Woman Jumped, Not Thrown Into Creek, ExConvict Claims

Saying that he "had been drinking and needed money" a 25-year-old, much-arrested Northside man confessed to police Saturday that he attacked a 30-year-old nursing home employee, slain Feb. 17 as she walked home from her job.

The arrest of James Norman Woods, 2445 1/2 Ethel, on a preliminary charge of murder, climaxed an intense two-week investigation by a creek homicide team.

steadfastly maintains the dead woman jumped into the water after "making advances" to him.

An autopsy performed at General Hospital showed the woman was dead before her body either fell or was thrown into the creek.

WOODS, whose police dossier list numerous arrests, from violation of the anti-switchblade knife law to assault and battery with intent to kill, was first questioned by police on the day Mrs. Watts' body was recovered.

His name had come to the attention of investigating officers after it was reported that his wife had called a friend of the dead woman and explained that her husband (Woods) had found a red pocketbook containing a slip of paper with the name "Thelma" and a telephone number written on it.

Notified that the slain woman's purse had been found the detectives went to Woods home where he told them he had taken her pocketbook back to 25th and Northwestern where he found it. A search of the area turned up no trace of the large red bag, which has never been recovered.

"The story didn't 'click' with us," Sgt. Uberta told The Recorder, "but we had another suspect we thought was pretty good so we decided to take one thing at a time."

"After everything checked out alright on the other fellow we picked up Woods, who still maintained he had found the purse, and after some questioning asked him to take the polygraph test. He took the test Thursday and when the results showed some deviations on certain pertinent questions we added that to the lab results

Woods, suspect in the murder of Rosalie Watts, 457 W. 18th, since her body was pulled from the murky water of Fall Creek on the morning of Feb. 19, was arrested on the murder charge last Thursday evening after he "flunked" a lie-detector examination and laboratory test revealed samples of blood taken from a sweatshirt he had been wearing were of the same type as that of the dead woman.

The blood, which Woods had originally claimed dripped on his shirt when he cut himself shaving, did not match his type, the test also revealed.

Although Woods admitted in a signed statement to Det. Sgts. Patrick Uberta and Joseph Mertz that he accosted Mrs. Watts as he walked west on 21st Street and drug her through the alley between Al-free and Shriver to the Creek, he

"Centennial" Board to Meet At 'Y' March 17

Appointment of Miss Anna P. Stout, pupil personnel worker for the public schools and well-known civic leader, to head the "Emancipation Volunteers of Indianapolis" was announced Tuesday by an official of the American Negro Emancipation Centennial Authority.

D.W.D. Hector, state director of the authority, said Miss Stout's committee will coordinate functions of the Emancipation Centennial in the Indianapolis area. Similar units are now being formed throughout the state.

A state board of directors meeting of the authority will be held at the Fall Creek Parkway YMCA on Saturday, March 17, to set the wheels of the organization into full motion, Mr. Hector added. He said responses to announcement of the project has been "terrific" from all parts of the state.

THE EMANCIPATION Centennial is a nation-wide project commemorating the American Negro's progress since slavery was abolished by the Emancipation Proclamation on Jan. 1, 1863. It will culminate in a Negro Exposition to be held in Chicago in the summer of 1863.

Suggestions by the public on the Negro's progress in Indianapolis are welcomed by the state group at its headquarters, 301 Walker Building. Mr. Hector is on duty there from 4 to 8 p.m. daily, and the telephone number is ME. 4-4916. Noble R. Nolcox is publicity chairman, and Charles S. Preston co-chairman.

leaders in an address Sunday at the Fall Creek Parkway YMCA. Ralph Helstein, international president of the United Packinghouse, Food and Allied Workers of America, AFL-CIO, spoke before a YMCA Public Forum which was co-sponsored by the Negro American Labor Council.

STRESSING THE RAPID growth of automation which he said is causing the loss of 1 1/2 million jobs a year, Mr. Helstein asserted:

"Armour & Co. has installed a machine in one of their Nebraska plants into which you feed the carcass of a hog, and out the other end come pork chops and all the other cuts of pork."

What this "Revolution of Automation" means for our society—in the way of "benefits or problems"—is staggering to the imagination, the Chicago labor leader declared. He estimated that the production of 40,000 new jobs a week is needed to offset the results of automation plus the entry of 2-150,000 new workers into the labor force each year. "In my judgment, this will not be done," he added.

WHITE COLLAR WORKERS need not think they are better off than blue collar workers, Helstein continued, for "their jobs are even more susceptible to automation. And it is even moving into the middle level of management."

As a result, the speaker pointed out sternly, "In an affluent society such as the world has never before known, we have an increasing number of people who are not allowed to participate. A society like this cannot even survive, unless all elements of inequity and discrimination are abolished!"

He said the job problem "exists on a national level and can be resolved only by national action."

The Negro's function is "to continually press forward for full equality without ever being satisfied." Mr. Helstein said, thus rendering a service to "all groups" by helping the nation adjust to the new situation.

Petition Seeks Better Service By Ambulances

Petitions and resolutions from various citizens and organizations throughout the county urging the improvement of ambulance service to General Hospital were presented this week to the semi-monthly meeting of the Marion County Health and Hospital Board.

Atty. Frank R. Beckwith, president of the Yankee Doodle Civic Foundation, acting as spokesman for the petitioners, pointed out that long and unwarranted delay in transporting the sick and injured from remote areas of the county (now 400 square miles in area) has resulted in unnecessary suffering and, in some cases, death which could have been prevented.

Beckwith recommended the adoption of the Detroit (Mich.) plan, under which teams of law enforcement officers cruise their beats in huge station wagons equipped with cots, first aid kits and the like who, instead of calling for an ambulance, transport the sick or injured person immediately from the scene to the hospital.

A. L. Huggins Makes Bid for Seat in General Assembly

Allen L. Huggins tossed his hat in the political arena last week, announcing his candidacy for state representative on the Republican ticket.

Mr. Huggins, 40, of 3215 W. 48th, has long been active in civic affairs of the community, although this is the first time he has aspired to public office.

A lifelong resident of Indianapolis, he was former secretary of Mid-Continental Securities, an officer in the E and H Investment Company, and for the past 10 years has operated the well-known Huggins Appliance Company at Southern and Madison Streets.

A graduate of Public School 51 and Technical High School, he also attended Butler University.

His club affiliations include the Scottish Rite, Shriners, and the Englewood Blue Lodge. He was a charter member of the Southside Sertoma Club and held a reserve officers commission in the Army until 1954.

A member of the Episcopal Church, he is married and has two children.

National NAACP Aide Addresses Local Meeting

While Indiana was one of few northern states that did not show a decline in NAACP membership during 1961, there is little cause for rejoicing, Gletcher Current, director of the Indiana Conference of branches, told membership workers of 18 branches attending a meeting here March 3.

Current was the main speaker at a meeting for state executive and advisory boards held at the Fall Creek YMCA. The meeting was called by South Bend attorney Charles Wills, president of the

While Indiana showed an increase of nearly 3000 member over 1960, percentage wise the state is among the lowest in memberships. Memberships are generally up in the South but in northern communities where some aspects of racial discrimination are absent, there is a tendency toward complacency, Current said.

The fifty delegates present for the meet accepted quotas for their respective branches and set dates for their 1962 campaigns. Quota set for the Indianapolis branch was three thousand members and a thousand dollars in Freedom Fund contributions.

The campaigns in the twenty branches will be under the direction of Mrs. Virginia Davis, who is state membership chairman.

Among the local workers attending were Atty. John Preston Ward, executive secretary of the local branch; Earl Barnette, state treasurer; Robert Williams, state youth director; and Joseph Summers, membership chairman of the local branch.

Purse Snatcher Draws Long Term, 10 to 25 Years

J. W. Prewitt, 21, found guilty of injuring a woman in a purse grabbing last June 12, was sentenced last week to 10 to 25 years in prison.

Prewitt, 437 Blake, was sentenced by Special Judge Judson Haggerty in Criminal Court 2. He will serve time until he is 30 in the Indiana Reformatory and then will be sent to the State Prison at Michigan City.

A jury that deliberated 8 hours found Prewitt guilty of grabbing the purse of Marie Wright, formerly of 1627 Talbot, now of Terre Haute. He struck the woman as she tried to hold on to her purse.

Miss Wright said her purse contained between \$300 and \$500, mostly in checks. She was attacked as she left her parked car near 16th and Talbot.

Hold-up Men Favor Midtown Area in Hauls

The Star Service station at 502 W. 16th was robbed of from \$35 to \$50 by a lone bandit who entered the service station and drew a gun early Friday evening.

The assistant manager, Paul T. McDougal, 26, said a colored man came into the station at about 7:30 p. m., drew what the attendant believed to be a .38 caliber pistol and demanded the keys to the safe.

After the bandit was told that the keys to the safe were not at the station, he took the money from the cash register and told McDougal to remain in the station while he made his escape. The man, who was described as about 30 to 35-year-old, stocky build and wearing a overall suit and heavy shoes, was seen running north in an alley east of the Indianapolis Water Company canal.

After buying a half pint of whiskey, a bandit robbed the Neighborhood Liquor Store, 1101 Burdall Parkway, of from \$50 to \$60 late Saturday night.

Robert Stricklen, 31, 1001 W. 33rd, said the bandit came into the store shortly after 9 p. m. and asked for a half pint of whiskey.

Three Dead in Fire Toll Since Last Weekend

A fire which caused the death of her sister, Mrs. Della Parish, on March 2 has resulted in the death of Mrs. Lydia Prince, 73, who died Sunday in General Hospital.

Also a fire victim is Oscar Benson, 66, of 3018 N. Kenwood, who died in a \$1,500,000 blaze at the Windsor Village Shopping Center March 6.

Mrs. Parish, 66, 901 W. 26th, was found dead of suffocation in her home shortly after the fire was reported at 7:39 p.m. March 2. Her sister, Mrs. Prince and

Karen Jean Sleet, 5, also occupants in the house, were taken to General Hospital, where the little girl had been reported in fair condition and Mrs. Prince in serious condition. Mrs. Prince died Sunday.

Fire Chief Arnold W. Phillips said he believed an overheated furnace touched off the fire, which gutted a bedroom and caused extensive heat and smoke damage throughout the one-story frame house.

Firemen found Mrs. Parish dead on the kitchen floor and her sis-

ter lying nearby.

Fire Pvt. Earl Ridoup of Truck Company 14 said he heard a moan from an adjoining bedroom, where he found the little girl unconscious.

A relative said the child had been reared by the two women since she was 6 months old, when her parents left her in their care. They never returned for her.

Funeral services for the two sisters were held Tuesday in the Patton Funeral Home, with burial in New Crown Cemetery. Both were born in Evansville and had lived in Indianapolis 5 1/2 years. Both were members of Simpson Methodist Church.

Mr. Benson, a porter for nine years at the Windsor Village Shopping Center, died when a \$1,500,000 blaze destroyed the center March 6. The fire was reported by Edward Summers, 34, 2027 N. Kildare, who was clearing the parking lot of snow when he smelled smoke. At first he thought something was wrong with his tractor engine, he said. He looked and saw flames coming through the roof of one of the buildings.

Benson's charred body was

Watson Young Case Presented To Grand Jury

Evidence in the case of Watson Young Jr., suspected in the killing of an Indianapolis couple, was presented to the grand jury Thursday, it was learned.

Prosecutor Phil Bayt said seven witnesses were scheduled to testify, including the son of the dead couple, the two policemen who arrived first at the scene of the murder and the two policemen who went to Kansas to get Young.

Young, 30, is accused of the Dec. 13 slaying of Hansel Guyton, 64, and his wife, Mary Alice, 58, in their home at 1524 E. 17th where Young had been staying.

On Feb. 5, Young was placed on the FBI's list of the 10 most wanted criminals. Eight days later, he was arrested in Salina, Kas., after driving an ambulance through the town with the red light on and a siren screaming.

Two men accused of aiding in the escape of Young, Harold G. Turner, 29, 2101 N. Park, and Jerry Bradford, 28, 2024 Central, were both placed under \$20,000 bond after their arrest last week on preliminary charges of accessory after the fact to murder.

Home Protect Us League Joins NAACP

The Home Protect Us League last week voted to take out a \$10 membership in the Indianapolis NAACP. Members making contributions to the membership were A. E. Pope, Sam Williams, Eliza Williams, Ada White, Ethel Abernethy and Eliza Inabnet.

Bayt Not to Run for Office

Reports that Prosecutor Phil Bayt has been considering running for a major office this year remain to be proved.

The Prosecutor made the announcement more than a year ago he would not run for re-election. Bayt said his decision leaves him free to campaign vigorously for election of Mayor Charles Boswell as U. S. Senator and the success of the Democratic Party.

After his Dec. 31 term as prosecutor ends, Bayt said he would enter private law practice with his son, Phillip A. Bayt.

on the bloodstain and placed him under arrest," Uberta related. Under further questioning Woods admitted attacking Mrs. Watts, but said she was swimming around in the water when he last saw her.

Recounting his activities preceding the attack on Mrs. Watts shortly before midnight Woods told Uberta and Mertz that he had been drinking with friends in a northside tavern and accompanied the party when it was decided to come to Indiana Avenue.

In an Indiana Avenue tavern Woods met another friend, his statement related, and they left the tavern and went to a nearby whiskey store and purchased some wine.

AFTER DRINKING the wine he went back to the tavern and rejoined his friends, drinking some beer and some gin. Woods related.

The group then left the Indiana Avenue tavern and went to 21st and Senate where the others in the party went to another tavern while he stayed in the car, the detectives quoted Woods as saying.

"I was sitting in the car which was parked on 21st Street when I saw this woman dressed like a nurse walk by," Woods went on.

He told the detectives that he noticed the large red purse she was carrying, and being broke, decided to rob her.

When the woman (Mrs. Watts) walked by Woods got out of the car, crossed to the other side and followed a short distance behind her for several blocks. As she approached the alley between Alfree and Shriver Woods crossed the street and asked, "Hey sis, you got a match," as he approached her.

At that point, Woods claims, the woman cut him several times with an open knife she had in her hand. He then grabbed her in a "headlock" and forced her into the alley after wresting the knife from her hand, the statement continued.

In the alley the woman continued struggling and he cut her "two or more times, in the head I think" and demand to know if she had any money, Woods said, adding that his intended victim told him she didn't have any money.

He also denied dragging her to the creek, saying that she walked, "sort of leaning on my shoulder," Woods said he had no intention of sexually assaulting Mrs. Watts. He claimed she offered to have relations with him removed her pants when queried, as to why the slain woman's underclothing had been found near the water's edge.

Appearing in Municipal Court Thursday Woods was bound over to Grand Jury and order held without bond in the Marion County Jail.

NAPE Members, Postal Employees Promoted Here

With longtime service records in the Post Office four members of the Indianapolis branch of the Postal Alliance received promotions last week.

Promoted were James Harden to Level 9—Superintendent at Fountain Square Station; John Moore to Level 8—Station Examiner, Floyd Starks to Level 8—Carrier Foreman, and Richard Powell to Level 7—Clerical Supervisor.

Henry L. Dixon, Employee Relation Assistant to Assistant Post Master General Richard J. Murphy, was in Indianapolis for the week preceding the promotions as a direct result of the local Alliance's refusal to be bypassed any longer in just promotions.

Local Alliance President Mrs. Cherry Brown, has spearheaded the fight for more equitable promotions in the Indianapolis office.

working in the "sales" and "supervision" classifications. There were 1,097 such employees in 1950 and only 1,111 by 1960.

"This indicates that Negro-owned businesses are having the same competitive difficulties as small businesses generally, and do not provide as many jobs as they formerly did," the study commented.

ON THE BRIGHTER side of the picture, outstanding gains were made in the clerical field during the 1950-1960 period. The number of Negro women holding clerical jobs increased from 539 in 1950 to 2,446 in 1960—an increase of 354 percent!

At the same time the number of Negro male clerical workers in the county increased from 731 in 1959—or 132 percent.

"This gain was primarily in the various branches of government," the report observed, "particularly where employment is granted on the basis of ability as judged by merit examinations."

Other highlights of the report: The proportion of Negro population in Indianapolis rose from 15 percent in 1950 to 20.7 percent in 1960.

Education-wise, Negroes with high school diplomas increased 15 percent of the population to 26.4 percent.

Incomes under \$3,000 were reported by 30.1 percent of Negro families, only 12.2 percent of whites.

In the city, 9.9 percent of the dwelling in which Negroes live are classified at the bottom of the scale as "dilapidated." Only 2.8 percent of homes occupied by whites are so classified—almost a fourfold difference!

The percentage of overcrowded dwellings is approximately twice as high among Negroes as among whites. The figures are 21.5 percent for Negroes and 9.9 percent for whites in the city.

The median value of owner-occupied homes is \$8,300 for Negroes and \$11,300 for whites. The median monthly rent paid by Negroes is \$69. For whites it is \$80.

Negro Promoted to Technician At Western Electric Ga. Plant

ATLANTA (ANP)—The first Negro to be hired above the janitorial level began work last week at the sprawling Western Electric Co., Inc., plant here.

The man, identified as William L. Price, was assisted in getting the job by the employment division of the Atlanta Urban League. Price, it was reported, is officially designated at the plant as a reconditioning technician, working with the building of telephones.

CONTACTED about his job, Price, said he has had no trouble—"nothing out of the ordinary has occurred."
His application had been on file with the Urban League for two or three months before his present employment opportunity came his way, he said.

Price has had college training at Wayne State University, Detroit, and he is now attending night school at Morris Brown College after his regular work day.

Officials of Western Electric were contacted about the new desegregation move, but none contacted were willing to discuss the matter. They refused to answer all questions.

A reliable source reported that there are at least 11 other Negroes employed with the company, but all are said to be janitors.

This is the second major breakthrough within a week at a company or company affiliate operating under a federal contract. Last week two Negroes were upgraded to the production line at Ford Motor Company's Hapeville branch.

ANOTHER FIRST for Negroes in Georgia was announced at the State Capitol last week.
F. E. Robinson, state fire marshal, said that his office had employed a Negro to coordinate fire prevention efforts in Negro schools throughout the state.

Robinson and T. C. Hooper, director of the State Fire Prevention Education Division, identified the new state employee as Raymond C. Covington of Milledgeville.

State Fire Commissioner Zack D. Cravey said the \$3,000 per year job went to Covington after he had been highly recommended by a former county agent in the Milledgeville area.

A major part of Covington's new responsibility will be the coordination of the Negro Junior Fire Marshals Annual Camp in Dublin, Georgia.

There, high school students are taught how to conduct fire drills, and are lectured on fire prevention, and other fire safety measures.

found in a room near the Village Inn kitchen where he had been working. Another worker, Bill Williams, 28, 2009 N. New Jersey, said he and Benson had been working in the kitchen area.

Williams said he left to go to a supply room and saw the blaze in the dining room. He said he called to Benson and thought Benson was with him when he fled the smoke-filled dining room.

Benson's son, Leroy Benson, 37, 3011 N. Kenwood, was working in the bowling alley at the time.
Charles P. Hill, fire prevention chief, said the blaze started in a false ceiling of the Inn. He blamed faulty wiring.

Destroyed by flames were the Ben Franklin Five and 10 store, Man's World Inc., Windsor Village Jewelers, and Brodey's Village Inn, Inc.

Funeral services for Benson will be held Saturday, March 10, in North-Side New Era Baptist Church. Burial will be in Floral Park Cemetery.

Besides his son already mentioned, Benson is survived by his wife, Corrae Benson; another son, Oscar Benson, Indianapolis; a daughter, Miss Edna Mae Benson, Chicago; his stepfather, Louis Harris, Indianapolis; eight grandchildren and three great-grandchildren.

First Oral Penicillin Is Made Available to Treat Infections

NEW YORK — Prostaphlin, a new synthetic penicillin in pill form, was made available this week for use by the medical profession in the treatment of dreaded resistant staphylococcal infections. The most common of these infections takes the form of boils and other skin eruptions, known medically as furuncles or carbuncles. Resistant "staph" also infect the lungs, the heart, the soft tissues, bones, muscles, joints, the blood, the gastrointestinal tract, and the genito-urinary tract. This is the third synthetic penicillin introduced by Bristol Laboratories since 1959.

Prostaphlin is the only oral penicillin effective against the most dangerous and stubborn strains of staphylococcal bacteria. Staphilin, another synthetic penicillin, which has proved effective in treating resistant staphylococcal infections, was introduced by Bristol in 1960. However, it can be administered only by injection, usually four times daily.

Before its introduction for prescription use, Prostaphlin was subjected to clinical trials in medical centers throughout the United States and in Canada. On October 11, 1961 more than 400 medical scientists met in New York and heard 23 reports on the use of the drug in the first series of clinical studies.

The New York conference heard reports on Prostaphlin's use in approximately 500 patients. Since October, the clinical trials have been expanded. Today more than 1,000 patients have received Prostaphlin. The response has been most favorable, according to Dr. Charles H. Mann, Vice President and Director of Bristol.

Staphylococcal infections which could not be controlled with available antibiotics first became a threat in hospitals, particularly in pediatric wards where they took the lives of infants and children. Some mothers were infected by their children. During the 1950's patients with serious resistant

"staph" infections were given only a one-to-one chance of survival. In recent years "staph" infections have become entrenched in communities. The medical journal, *Lancet*, in July, 1961 reported that in one community babies born at home, and their mothers—developed as many infections and had as high a carrier-rate of resistant staphylococci as a comparable group of hospital-born babies and their mothers.

A study in Seattle, Washington, found that meat handlers and animals were a source of infection. A total of 318 meat handlers were examined and thirty-two per cent were found to be carriers of resistant staphylococci. Twenty per cent of the workers had at least one attack of "staph" infection.

Prostaphlin is 5-methyl-3-phenyl-4-isoxazolyl penicillin sodium. It is known generically as sodium oxacillin.

A course of therapy with Prostaphlin represents a major reduction in the cost as well as the complexity of dealing with resistant staphylococcal problems. Now, for the first time, treatment in the doctor's office and home, as well as in the hospital, becomes practicable and reasonable.

Gracious Omegas Thank Kappas For Wonderful Time

A gracious Zeta Phi Chapter of Omega Psi Phi Fraternity commends and thanks the local chapter of Kappa Alpha Psi Fraternity for the informal social gathering given for them Saturday at the Kappa House.

Representing the Omegas at a recent initiation on the campus of the University of Illinois was John Henderson, vice-district representative and James S. Mullin, chapter reporter.

The "Brothers" at Champaign entertained the neophytes, visiting brothers and guests at a formal dance in the Student Union Building following the service.

An investigation by the Marion County Welfare Department has resulted in a court order forcing an Eastside couple to give up custody of their five children after it was determined they could not "properly provide for them."

Investigation revealed that as early as 1955 the family had been living under filthy and unsatisfactory conditions, according to Wayne Stanton, Welfare Department director.

In addition, the mother was a "frequent" drinker and the children often went without supervision, Stanton added.

STANTON SAID the father works daily at a Westside junk yard. The children, ranging in ages from 3 to 13 were placed in the Children's Guardian Home.

Steps will be taken to make the children permanent wards of the Marion County Juvenile Court unless conditions at the family's home change Stanton said.

The police department called Stanton's attention to the case after receiving a complaint a few weeks ago that the mother had apparently abandoned the children. The Recorder also investigated reports the children had been left alone in their home for several hours without food or heat.

A neighbor told police she went to the home and stayed with the children for awhile but left when the mother did not return. The neighbor said she called police when she learned the oldest child had

left the house searching for his mother who was reported to be at a "drinking party" in the neighborhood of 12th and the Canal.

Police went to that location but failed to locate the mother or her son. Investigators then took the younger children to the Guardian Home and contacted Stanton's office.

Stanton assigned Fenton McKeller, one of his top investigators, to the case.

McKeller quickly located the mother and her son. He placed the boy in the Guardian Home and told the parents that their children would not be returned to them until the conditions under which they were taken are greatly improved.

HE NOTED that the Welfare Department had had a problem with this particular case for several years—dating back to 1955. The parents had only two children in 1955 and both were made wards of the court on a complaint of child neglect, McKeller said.

Almost every year since then the Welfare Department has had a problem with this family, McKeller added.

"These are the type of people who are not able to provide for their kids and are not willing to give them up," he said.

Church Events . . . of the City

By WILLA THOMAS

Throughout the many, many years since 325 A. D., Christians in America have observed the Lenten Season leading up to Easter. Many Christians will give up something they like the most for the celebration. This year Lent began Wednesday, March 7, on "Ash Wednesday."

It will be a 40-day of Penitence preceding the Holy weekend. Protestant churches will have Lenten meditations and mid-week worship services. This event will commemorate the 40 days Jesus spent in the wilderness fasting. Let each of us be reminded why he spent those days there.

I remind each about the "World Day of Prayer" observance of the Indianapolis Council of United Church Women. Attend services Friday, March 9, at 10 a.m. in your neighborhood church or at 1 p.m. united downtown services at Christ Church on the Circle.

The business and professional women's prayer service will be at Christ Church also at 7 p.m. Mr. Guy Boyd is general chairman.

Rev. Otis Armistead, pastor of College Avenue Baptist Church, is guest evangelist for a revival at South Calvary Baptist Church. Services are each evening at 7:30 p.m.

A total of 100 directors of vacation church schools of the city met Feb. 25 at Woodruff Place Baptist Church sponsored by the Children's Workers' Council of the Division of Christian Education of the Church Federation. Miss Catherine Carter is staff director.

I was happy to see Rev. John Wright, minister at Coppin Chapel A.M.E. Church, taking an active part in the discussions.

I am sorry to have missed the Men's Fellowship program of Allen Chapel A.M.E. Church Saturday. I am sure they had a fine program. Thomas Williams was president.

The Interdenominational Ministerial Alliance will meet Tuesday, March 13 at 8 a.m. in the Fall Creek Parkway YMCA.

Boy Scout Council's board of review will meet Tuesday, March 13, at 7:30 p.m. in the Inter-Church Center, 1022 N. Meridian.

We extend sympathy to the following: Rev. Little in the loss of his mother, Mr. and Mrs. Theodore Matthews in the loss of her sister, Mrs. Lillie Thomas, loss of her loved one in Cleveland, Ohio, and Mr. and Mrs. Samuel Barnett in the loss of his father.

My aunt, Mrs. Maggie Henry, died last week. She was a fine Christian missionary worker and was a member of Mt. Olive Baptist Church at Laurel, Miss., formerly pastored by my dad, Rev. S. S. Thomas. We shall miss her.

Mrs. Costella McGray is president of the Nurses Group of Phillips Temple C.M.E. Church. They did a fine job helping during the Bishops' Council meeting. Mrs. Joan Redd is secretary and Mrs. Verdel Blackman, treasurer.

Others include Mesdames Edwina Caldwell, Virginia White, Katie Luster, and Vera Mae King.

If you have sick and shut-ins, it's nice to include their names in your church bulletin each Sunday. Remember them with cards.

The state council of United Church Women will meet in Marion Tuesday and Wednesday, May 8 and 9. Members of Indianapolis are urged to prepare now to attend. Mrs. Paul Halladay is state president.

Rev. John Scott, associate minister of Puritan Baptist Church, is ill at 2712 N. Illinois. He would appreciate cards and prayers from his many friends.

School of Christian Living will be in session at New Bethel Baptist Church March 11-16 from 7 p.m. till 9 p.m. Classes for all age levels will be offered.

The Lord's Supper will be served Sunday at New Bethel Baptist Church during the morning and evening services. Dr. F. B. Davis, pastor, will preside.

Rev. A. E. Chew of Fort Worth, Texas, will be guest evangelist for the Spring Revival at 25th Street Baptist Church March 18-23. Worship will begin at 7:30 p.m. each evening.

Mrs. Lanet Barnes of Birmingham, England, will be guest soloist for the Woman's Day at Barnes Methodist Church. The women will be in charge of the service.

The "Bishop's Crusade" will open Monday, March 12, at Barnes Methodist Church. The Commission on Evangelism and membership will be in charge.

Word comes from Nigeria, West Coast of Africa from Rev. Howard I. Jones, an associate of Dr. Billy Graham, who is preaching in that country. Send offering in support of Billy Graham to Minneapolis 3, Minn.

A good friend, well-known in this city, Rev. Allen H. Smith, has been ordained in the Congregational Church at St. Albans, L.I., New York. He is from South Bend and is former president of the Indiana Baptist State Youth Convention.

He won respect from the youth for his speaking of the truth and standing for what he believed in. He is a graduate of the Yale Theological Seminary.

Mark these dates — Oct. 15-20 — Chain of Missions will be held in our state sponsored by the Indiana Council of Churches.

Let us pray for Dr. and Mrs. R. T. Andrews, pastor of Mount Zion Baptist Church, and his wife, and others who will join them in New York enroute to the Holy Land. It was wonderful to see so many out Sunday night to say goodbye.

Rev. M. L. Breeding, secretary of the Kingdom Extension of the C.M.E. Church, is in Africa working and organizing churches there. Pray for him.

We send get-well greetings to Mrs. Andrew J. Brown, 233 West 44th. Let us pray for her also.

If you have a car and can spare some time during the week, I would appreciate someone willing to take me around one day to collect magazines are really needed in Central State Hospital, Flower Mission, Sunnyside Hospital, and Veterans Hospital on Cold Spring Road. Please drop me a line if you can help with this volunteer work.

There are many who think that one mass revival should be held in the city at one centrally located place and with one speaker and a mass choir where we can share in the singing. Our church group should be able to fill Cadde Tabernacle easily. There are many leaders who like to visit other churches during revivals. With theirs going on at the same time as the others, no one can visit. We hope this is being thought about.

Officers Named, Events Slated By Committee

Besides electing officers, members of the International Student Welcome Committee made plans for a concert featuring a blind Korean girl and the annual welcome party for foreign students during a recent session.

The tentative date for the party is Saturday, Oct. 20, when all new students and adults from various parts of the world will be officially welcomed to the city and state.

Mrs. Marcia Bryant will entertain at the Sunday, March 18, 4 p.m. gathering in her home. Foreign students are available for speaking engagements. For information write Miss Willa Thomas at The Indianapolis Recorder.

Drive Seeks 30,000 Blankets For Overseas

Tormenting Rectal Itch Stopped In Minutes

Science Finds New Healing Substance That Promptly Stops Itching and Pain of Piles

New York, N. Y. (Special)—One of the most common afflictions is a condition known as "itching piles." It is most embarrassing for the victim during the day and especially aggravating at night.

No matter what you've used without results—here's good news. For the first time, science has found a new healing substance with the astonishing ability to promptly stop the burning itch and pain. It actually shrinks hemorrhoids—without surgery. Medical science has proved this substance produces a remarkably effective rate of healing. Its germ-killing properties also help prevent infection.

In one hemorrhoid case after another—very striking improvement" was reported and verified by a doctor's observations. This improvement was maintained in cases where a doctor's observations were continued over a period of months! Among these sufferers were a wide variety of hemorrhoid conditions, some of 10 to 20 years' duration.

The secret is this new healing substance (Bio-Dyne®)—discovery of a world-famous research institution. This substance is now obtainable in ointment or suppository form known as Preparation H®. Ask for Preparation H Suppositories (convenient to carry if away from home) or Preparation H Ointment with special applicator. Available at all drug counters.

GOP National Chairman, Sees Demos' Faults

DURHAM, N.C.—William E. Miller, Republican National Chairman, suggested last week that if President Kennedy wants to name a Negro to the cabinet he might well appoint one as attorney general.

"If the President wants a Negro in the cabinet," Miller told a news conference here, "I know hundreds of Negro lawyers who are better qualified than brother Bobby."

Miller also pointed out that Health, Education and Welfare Secretary Abraham Ribicoff is about to resign and Kennedy could appoint a Negro to that position if he wished.

Miller described as "Politics at its shabbiest" the President's proposal to create a Department of Urban Affairs and his intention to appoint a Negro to head it.

Miller was here to keynote the Republican State convention.

Responsibility Of Christians To Politics Discussed

"What Is the Christians' Responsibility to Politics?" was discussed by Atty. Cary D. Jacobs, Donald B. Davidson, Rev. W. K. Fox and Dennis Dowdell Saturday at Allen Chapel A.M.E. Church.

★ A SALUTE TO THE NEGRO PRESS ★

1829 — 134 Years Old And Still Lighting The Way To Freedom — 1962

NOTE: Because of space limitations, we are reproducing in part and editorial which appeared in an Ohio weekly newspaper. We believe it is fitting for the occasion.

Despite the great history of the Negro press, despite all the fights the Negro press has unselfishly waged for Negroes; despite the fact that without the Negro press there would be no NAACP; and no fighting now for desegregation in the South; despite all of these things, the Negro press today faces its greatest fight to continue to exist as the voice of the Negro.

College students who think Negro editors are fools and Negro newspapers just so much effort misspent, remember this: the 1950 census shows that Negroes still earn far less than whites who have the same amount of education. In the North and West as well as in the South, Negro college graduates earned less in 1949 than whites who had attended but not graduated from high school. In 1940, Negro college graduates earned less than whites who had not graduated from grammar school. The only way to improve these conditions is through the use of a militant Negro press.

To the so-called Negro intelligentsia who find all manner of fault with Negro newspapers, I direct this question: Where would you be if there were no Negro press? No groups; have profited more than have our white collar and professional groups.

To all who criticize the Negro press, we ask: What substitute do you have if it goes out of business?

The Negro press wants victory in this fight for desegregating America, because no one knows better than we do how hard the yoke of a master race presses down upon a helpless people; no one knows better the deep yearnings our people have for freedom and justice. Who else has had a harder climb up the Hill of Hell for just a peak at the rays of freedom's sun rising behind a horizon of hope that seems ever so near, but, yet so far?

We can delude ourselves with the opiate of magazines that publish beautiful pictures and Pollyanna articles, but, the more we seek to fool ourselves in this manner, the more difficult we are making our fight for our civil rights. The Negro press recognized this in 1827; the Negro press recognizes this now.

As to our policies, the Negro press recognizes that the Negro is no taller in America than he can reach in Mississippi. Our freedom must not be measured in Ohio, but in South Carolina. The level of justice is not what it is in Illinois, but what the gage shows in Georgia. Our education must be evaluated by Alabama standards and not those of Pennsylvania.

The Negro press is our outpost of thought and action. Only the full support of our own people can keep us in this position.

People who don't read,—and this includes newspapers— are not well informed, and people who are not well informed, are a backward and exploited people.

Freedom for minorities and subjugated people always comes high. If the Negro thinks he can purchase his freedom from segregation and poverty in America at a bargain, cut-rate price, he is going to be sadly mistaken.

The Negro press wants and will lead the way to freedom, but can only do this if we have followers, and are backed up by the unity and cooperation of all Negroes.

INTEGRATE THE FLOAT

The proposal by the Citizens Float Committee to enter an all-Negro float in the 500 Festival Parade this year appears to be based on that time-worn Southern philosophy, "Separate but equal facilities must be provided for both Negro and white." This may be good politics. It is poor race relations.

It is true that the Committee has done a remarkable job in getting a Negro-sponsored float in the parade. For this, all Negroes should be grateful.

Yet, it is equally true that the Committee is guilty of being too soft and apathetic with the white merchants downtown. The Committee, it was learned, wrote a letter to parade officials asking if they could enter a "Colored" float in the parade this year. The white officials said "Yes," though perhaps reluctantly, and the Committee went home smiling. Some time later, the Committee publicly announced, "In former years participation of Negroes in the 500 parade has been limited to bands and marching units. This year a glittering \$2,000 float will bear brown beauties."

WOODS

To the average Negro, if such there is, this perhaps was good news. But not to me. I was dismayed. The wrong approach was used. History shows that this Committee, representing over 100,000 Negroes, should have gone to the white merchants downtown, who sponsor the various floats, as early as last year demanding, not pleading, that Negro participants be allowed to appear on those floats sponsored by those businesses which enjoy a large percentage of the Negro's spending money. If they refused to comply, then no more Negro business. This is an ultimatum. This is the Rev. Martin Luther King approach, and the one they should have used.

The Committee itself is made up of honest, conscientious Negroes who in the past have maintained an informed interest in the progress of our race and our community. It is a pity that they made this mistake.

Time may not allow the Negro community this year to apply pressure on the white merchants for spots on their floats, but certainly we do not have to make the mistake of entering a segregated float into a society of Negroes and whites who we someday hope will understand and accept the principles of a free and equal democracy.

It was a source of satisfaction, as we pointed out, that the Negro did get a spot in the parade this year, but can there be an advantage in segregating our float sponsored by our people simply because a group of stubborn whites refuse to integrate theirs? This is how it would look to the thousands of white people watching the parade: "Look, there's a 'colored' float," they would say. Isn't this what we're trying to get away from?

The current estimate to enter this float in the parade is set at over \$2,000, which the Negro community will raise. This is no small sum. Yet, it should be appropriated to bring our races closer together in the community, and the Citizens Committee should provide modest and consistent efforts for this goal and no other. Unless, perhaps, the Committee feels that by entering this "Colored" float in the parade the white people will willingly accept the Negroes as their equals. Certainly this cannot be their feeling.

As for our "Brown Beauties," as the Committee puts it, we should re-examine our objectives, which I hope are not to try and compete "Our" girls with "Their" girls, but rather to try and assume our rightful place in the community and improve our relations with the white man, with whom we have to live whether we like it or not. I do not think it is asking too much to show respect for our people by maintaining the Democratic principles which we have been taught by our great many Negro leaders.

Moreover, it might be logical to assume that the white merchants might be more willing to integrate their floats once they've seen that the Negro is willing to integrate his. We know it is true that our people often fight long and hard for civil rights and integration and then all at once we segregate ourselves. This is a despairing thought, but it is certainly true, as is being evidenced here and now.

It would be, I believe and so do others, a practical thing to integrate the float. It would show the thousands who will watch the parade that not only does the Negro want equal rights and equal opportunities for himself, but also that he is willing to share those rights and opportunities with others, regardless of their race, creed or color.

The Citizens Float Committee, therefore, would be wise to reconsider its plans to enter a segregated float in this parade, and do more to advance the integration movement in Indianapolis which has brought so much joy and relief to whites and Negroes alike.

Vice-President Cites His Stand On Job Chances

NEW YORK — Vice President Lyndon Johnson told NAACP officials this week that he was ready to call the labor men for official chats and that he wanted action and desired signed agreements so that American labor can be desegregated.

Johnson also told Roy Wilkins, NAACP executive secretary and Herbert Hill, its national labor secretary, that from now on he wants to see to it that the nation's most celebrated labor chiefs and the unions they lead "practice what they preach on racial equality."

The NAACP officials noted four major methods used by unions to keep Negroes out: (1) There is an outright exclusion. If specific non-Negro membership clauses are removed, then the exclusion is by tacit consent; (2) there are segregated locals; (3) there are separate racial seniority lists and (4) refusal to accept Negroes as apprentices thus preventing them from learning skills.

Revealing that he had conferred privately with George Meany and Walter Reuther, labor leaders, Johnson said he would move on a formal basis within 30 days.

Labor Secretary Arthur Goldberg, also in on the conference, agreed wholeheartedly with Johnson as he listened to the NAACP representatives relate how easy it is for Negro craftsmen to join and stay in Southern skilled construction trade unions than it is in Northern ones.

It was noted that in the North there are thousands of labor unions in which there are no Negroes including the operating engineers, the iron workers, the sheet metal workers, the plumbers, the carpenters, the boilermakers and the rail unions.

Home Building Project Launched On Eastside

Flanner House Homes, Inc., has announced the start of construction of 44 new homes under the Flanner House "self help" housing development program. The homes are to be built in the newest Flanner House development on the near Northeast side.

In this program persons who desire to become homeowners can save from \$2,500 to \$3,000 by an "initiative investment," doing some of the work on their home and the homes of their neighbors under the guidance of qualified construction supervisors.

The homes are lovely three bedroom modern ranch style, built to FHA specifications and financed through local mortgage companies.

Interested persons can gain additional information about participating in the program by calling ME. 5-7586 and asking for Flanner House Homes.

The first college physical education director in the United States was a Negro, Professor Stewart, at Harvard University. (ANP)

2 Negroes Named Co-Conspirators In Lake Co. Scandal

GARY (ANP) — Two Negro members of the Gary city council have been named but not indicted on income tax fraud charges which cite 12 prominent citizens including Mayor George Chacharis and Sheriff Peter Mandich.

Named among a group as "co-conspirators" were David Mitchell, Gary council president, and Terry Gray, Gary council member, both Negroes.

Mayor Chacharis and Sheriff Mandich headed a list of 12 key Gary area leaders who were indicted by the federal government. Among these are some members of the Hammond city council.

One of the indictments outlined a fantastic framework of sham corporations, phony names and presumed shakedowns which allegedly netted Chacharis nearly a quarter million dollars.

The mayor, Mandich and four other men were accused of conspiring to conceal that money from government tax collectors.

The Hammond council members are charged with failure to include in their income tax returns for the year 1955 a total of \$13,000 allegedly collected in pay-offs from the Missouri Valley Dredging Corp.

All 12 of the defendants were scheduled for arraignment in Hammond District court.

CITY ORDINANCE TAKES ODD TWIST IN OHIO TOWN

XENIO, Ohio (ANP) — City commissioners went into a quick huddle last week when an alert reporter pointed out that under provisions of an ordinance passed Nov. 12, a city employe could draw three days' pay FOR ATTENDING HIS OWN FUNERAL!

The section of the Ordinance with the ODD TWIST permits a city employe to be granted a THREE-DAY LEAVE OF ABSENCE — WITH PAY — ON SUBMISSION OF PROPER PROOF OF HIS DEATH!

They are in the youth's new laying house surrounded by 350 layers that produce 140 dozen eggs a week. Ethel Louise and Melvinor are shown stacking away jars of fruits and vegetables for winter eating by their large family. There are 12 sisters and brothers. Their storehouse is in their backyard.

Bias May Contribute To Emotional Disorders, Church Leaders Told

NASHVILLE (ANP) — Possible alleviation of emotional and mental illnesses might be found in a world devoid of racial prejudices and artificial barriers based on race which result in frustrations, according to a physician speaking here recently.

Dr. Robert M. Metcalfe of Crossville, president of the Cumberland Clinic, spoke at a quadrennial meeting attended by about 190 rural church leaders.

"Right on the surface of our life in America is an obvious cause for emotional disorders," Metcalfe said. "I refer to racial or cultural prejudice."

Prejudice cuts at the very roots of emotional health—self-respect.

"AN INTEGRATED society would be a healthier society," he declared.

Prejudice is as harmful to the

excluders as to the excluded, he said.

Metcalfe is a member of the First Methodist Church of Crossville, and is the chairman of its commission on Christian Social Concern.

Metcalfe noted that half the public institutions of higher education in the South have had at least some token integration.

"Could church-related colleges say the same?" he asked.

Another speaker, Rev. M. Wilson Nesbitt Jr., a faculty member at Duke University, Durham, N. C., cautioned delegates against impatience when their work does not seem to produce immediate results.

"It may take 25 years to make a difference in the outlook and religious life of a community," Nesbitt said.

THIEVES' NET LOOT — ALMOST NOTHING! — MUSKOGON, Mich. (ANP) — Thieves wasted a lot of energy last week when they raided a Township service station and carted off the following loot: a rifle, tire, a battery jumper cable; two batteries, a snow shovel; AND A CASE OF SOFT DRINKS!

The station owner told police the rifle was rusty and wouldn't fire; the jumper cable won't work and EACH BATTERY HAS A DEAD CELL! Only items of doubtful value: THE SHOVEL AND THE SOFT DRINKS!

'STAND INS' AT POLLS NEXT CIVIL RIGHTS MOVE: REV. MARTIN LUTHER KING

SAN JUAN, P. R. (ANP)—Speaking in Puerto Rico where he was on a lecture tour last week Rev. Martin Luther King, Jr., champion of civil rights in the United States, predicted voting "stand-ins" will be the next dramatic integration weapon used by his people.

Interviewed at a TV press conference, Dr. King also said: (1) President Kennedy has not lived up to his civil rights campaign promises; (2) There is a direct correlation between the U.S. Negro integration struggle and the anti-colonial fight of African nations; (3) The next major breakthrough in the fight for integration will be waged over voting rights; (4) Nationalist organizations like the Black Muslims cannot and will not gain the support of most colored people.

LOUIS LAUTIER, special assistant to GOP National Chairman William E. Miller, said Weaver should quit and "not compromise himself by administering one of the most radically discriminatory federal agencies."

Lautier writes a column for the national committee called "Looking at the Record" which is distributed primarily to the Negro press. He said Weaver has been a leading foe of government-enforced racial discrimination all of his adult life.

"Dr. Weaver," Lautier added, "now finds himself in the uncomfortable position of administering policy which requires or permits racial discrimination in federally assisted housing."

"Perhaps he (Weaver) was misled by candidate John F. Kennedy, who promised during the 1960 campaign to end such discrimination with one stroke of the presidential pen."

"Unless President Kennedy can find that pen and sign the proposed executive order which has been on his desk for months, it appears that Dr. Weaver has no conscientious alternative except to resign."

BUYS ELECTRIC PAD FOR HIS WATCHDOG!

BUCKEYE, Ariz. (ANP) — Gail Taylor who operates a pickup truck here, is very fond of his dog who keeps a sharp lookout while Gail makes his deliveries, and keeps all strangers at a safe distance. But the pooch won't sleep anywhere but in the cab of the truck.

This worried Taylor when the recent wintry blasts shook Buckeye, but the faithful hound just whined and shivered and refused to move.

To solve the problem, Taylor BOUGHT AN ELECTRIC PAD FOR THE DOG and ran an extension cord through a bedroom window to the DOG'S FAVORITE SEAT IN THE CAB OF HIS MASTER'S TRUCK!

Human Relations In The Calumet Area

The Human Relations Committee of the Gary Chamber of Commerce organized in recent weeks has been dedicated "to the ideal that rights, privileges and opportunities of all citizens of Gary shall be protected equally."

This is in keeping with a recent statement by Mr. Louis Haller, chairman of the newly created committee. Community leaders serving on the committee include officials of the Chamber of Commerce, top-ranking leaders of the press, leaders in all phases of business and industry, civic, professional leaders and religious leaders of all creeds or racial backgrounds.

Chamber of Commerce officials affiliated with the committee include A. A. Coons, president; W. W. Gasser, Jr., vice president of the Civic Affairs Dept.; Charles Jolliff, executive vice president and John P. McMichael, manager of the Civic Affairs Dept.

A resolution passed by the committee (in part) was as follows: "Whereas, the Chamber recognizes that community well-being is largely dependent upon good human relations, and therefore, has established a Human Relations Committee,

"Now, therefore, be it resolved that the Gary Chamber of Commerce seeks an improvement in the communications among all segments of our population and the development of better understanding of social problems in the greater Gary community leading to full equality for all people.

"We seek to achieve this in all areas where the interests of Gary citizens are involved: namely, religious practices, business employment practices, labor membership procedures, education, public and private housing, all levels of government, publicity and public attitudes concerning all groups, court procedures and law enforcement, health and medical services, recreational facilities, civil rights matters, in all phases of Human Relations.

"Finally, the Gary Chamber of Commerce seeks to initiate the creation of, and to participate in the continuing work of a city-wide Human Relations Committee composed of members of representative Gary community organizations for the purpose of furthering these objectives."

Singularly compelling statements were made on the general policy or objectives of the Human Relations Committee by various members. Mr. A. A. Coons, president of the Chamber of Commerce stated (in part) as follows:

"The Gary Chamber of Commerce has taken the lead in a move to create a sympathetic understanding among all people in our city by recognizing and attacking problems which exist in the field of human relations . . . It is important that we recognize these problems, . . . and that we act objectively in solving them with common sense in a spirit of mutual sympathy and cooperation.

"Gary has an unlimited future. It has the potential of becoming one of the world's greatest cities. One of the first things we must do as we face the responsibilities which go with greatness is to so strengthen our civic foundation that on it may be erected a 'House Not Made With Hands' in which all people can live in friendship and understanding on a basis of equality."

Negro members of the Human Relations Committee include an attorney, a physician, a minister and the executive secretary of the Gary Urban League. Our conclusion herein might follow generally observations by various members of the committee. Among these the Urban League head, Clifford E. Minton observed (in part) as follows:

"The lag in the achievement of equality of opportunity and respect for human dignity irrespective of race, religion or national origin presents a costly and damaging divisive influence, which affects all citizens, the vitality of the community and the security of the nation; progress has been made but much of the surface tranquility is deceptive . . ."

Education To Disperse Unemployment

A ranking labor leader recently told a special U.S. House Education and Labor subcommittee that the adult education program launched or proposed by the Kennedy Administration figures practically in dispersing the nation-wide current unemployment problem. Among other things the witness declared that lack of education has been, and is one of the most serious considerations involved in retaining workers displaced by technological changes.

General provisions of measures sponsored by the Kennedy Administration are aimed at raising the educational level of persons with less than six years of schooling, and furnishing instructions to an estimated 20 million adults. These while not illiterate, are not able to read and write English adequately.

Commenting recently and generally on federal aid to education Labor Secy. Arthur J. Goldberg observed that our educational problems "transcend state lines" and their "urgency calls out for federal help." Otherwise he declared, "A man with no education, with no skill, is bound to be a derelict in our fast-moving industrial world unless active efforts are made to reclaim him."

Many proponents of federal aid to education declare that the nation will gain or lose on the basis of training or retraining potentially skilled workers as these are related to gross consumer potential, encompassed in the evolution of the greatest gross production potential. Herein, it has been noted that a vast group of potential consumers, workers with little or no education or skill may not figure in the gross production potential.

There is another equally challenging aspect of the dilemma confronting our land in logical reflections on our educational traditions. Millions of people not alone are unprepared to retain places in our fast-moving industrial world, but they are ill-prepared, or ill-informed and unformed, on their roles in the total politico-economic pattern of our way of life.

Thus in keeping with observations of some high-placed explorers of political science it is charged that "vast areas of ignorance" and/or widespread apathy exist over our land. This specter may encompass largely our economically repressed element, but it includes a vast group of our fellow-citizens who appear to have small concern or understanding of the common and basic functions of our politico-economic pattern of life.

Finally one might conclude logically a wide scope of socio-economic maladies encompassed in the specter might be alleviated by closing gaps in formal and purposeful schooling (education) for millions of people, the lowest down in our socio-economic pattern of life.

"SETTLED BEYOND QUESTION THAT NOSTATE CAN REQUIRE THIS DISCRIMINATION SUNDAY SCHOOL LESSON"

In Loyalty To Truth

REV. J. T. HIGHBAUGH, Editor

(LARGER LESSON: Exodus 20:16; Proverbs 12:17, Matt. 12:33-37, John 16:13-15, John 14:6, 18:38. LESSON PRINT: Exodus 20:16, Proverbs 12:17, Matt. 12:33-37. MOTTO TEXT: Matt. 12:37. TIME: 1500 B.C. 30 A.D. PLACE: Mt. Sinai). Our lesson this week has to do with the foundations of human living. Suppose we approach it as follows:

I. The Meaning of the Command, Exodus 20:16; II. The Source of Truth, Matt. 12:33-37; III. The High Cost of Lying, Matt. 26:69-75; IV. The High Cost of Truth, John 8:38.

THE MEANING OF THE COMMAND. This very important question of hearing clearly what God says and believing it and acting on that belief is the very foundation of our present confused state with God and our neighbor. It the Garden of Eden, Adam and Eve were challenged to hear well what God said and obey it diligently. In Gen. 3:1-7, the challenge which was brought to Eve was, "What is the truth here?" Her fall, her husband's fall and our moral and spiritual dilemma is in her making the wrong choice of truth. She wanted the forbidden fruit, surface beauty, cheap wisdom and the opportunity to be a God. What a fool she was and we are. The essence of the Hebrew philosophy is that Jehovah is God of the Universe and that He has built the universe for the good of mankind and for harmonious living of all mankind.

"All things work together for man's good," Romans 8:28-29. So, to bear false witness against our neighbor is to bear false witness against God and His Universe. The Jew believed that the world was built intrinsically for everyone's good. Therefore, a lie against his neighbor was a lie against God and His orderly world. He believed there was consistency in this universe. It was a universe not a multiverse to witness against a neighbor.

This is the original Law of Moses.

THE SOURCE OF TRUTH. Jesus came to make truth more practical and simple. Had Pilate stayed with Him a little longer he might have received a clearer answer to his question, what is truth? But instead he rushed out to the crowd. Truth generally is never gotten in a crowd.

Truth to Jesus was that harmony and consistency of fact and thought, and attitude with God that assures us inner harmony in ourselves and with our neighbors. Thus, to bear a false witness against one's neighbor is to disrupt that relationship between neighbor and God and mankind.

Jesus assured us that when we accepted Him he would send His spirit into our hearts which would guide us into all truth. So to mis-state the facts, to tell a white lie, to pervert the facts, to help one out of trouble, all are deceptive elements of Satan to throw our minds in conflict with the great mind of age. Once man launches on a road of bad reasoning the whole tree is rotted. Get the truth right and life will turn out right. For out of the heart are the issues of life.

THE HIGH COST OF LYING. Probably no other apostle represents the average Christian as does Simeon Peter. Here in our lesson, after following afar and after boasting his loyalty to his Christ, he is, at the time of Christ's greatest need of him, associated with Christ's enemies, warming by their fires. Look how quickly that crowd turned on him.

The story is told that one spring the crows pulled a farmer's young corn. So he was determined to put an early stop to it. The farmer had a parrot which, seeing the crows eating the corn, decided to fly among them for a meal. So the farmer, came along the fence out of sight of the crows, fired a shot

into the midst of the crows. He did not see the parrot. So, upon final discovery, he discovered his parrot had been shot in the leg. When the parrot was taken home the children asked sorrowfully, "Who hurt our pretty parrot, who hurt our pretty parrot?" To which the parrot, himself, replied, "Bad company, bad company" So you see how imperative it is for us to watch our company.

THE HIGH COST OF TRUTH. I think that Jesus' devotion to truth cost Him His very life. This very breath of God in our hearts is the foundation of orderly society. Without dependable words our world has no capacity to hold together. Our real problem with the Communist world is that truth does not mean the same thing to them as it does to us. To we Christians, truth is basically composed in the word of God and the mind of Jesus. To them, truth is the accumulated opinion of the race expressed through the Supreme Soviet.

Also, Jesus identifies Himself with the rights and duties of each individual person, thus a testimony against truth in general. Thus, how careful must we be in the use of our tongues.

The tongue untamed is like the horse without a rudder, or a ship without a rudder. James says the untamed tongue sets on fire the fires of hell itself. But the tongue once left to God and His spirit became a holy fire of eternal dedication.

Community Value System Back Of Underachievement Of Youth

By Andrew W. Ramsey

While there are splendid examples of Negro youth achieving high scholastic honors in all of the major fields, the sad fact remains that as a whole Negro youth lags behind the national average. There are many explanations of this phenomenon but they hardly suffice in a world which demands performance.

The fact that by far and large the Negro youths come from underprivileged homes—homes where there is no tradition of scholarship, few books and no interchange of ideas except on a very limited bread and butter level—is one of the excuses that we might give for the established under-achievement.

On the other hand Negro boys without the benefit of gyms, club houses and sports equipment often develop into stellar athletes.

ANDREW W. RAMSEY

The difference is that the community hails the athlete and heaps honors upon him so long as he is able to deliver—of course it promptly forgets him when he ceases to make the sports headlines.

IN ANY GIVEN COMMUNITY the Negroes can name all of the outstanding athletes for the past twenty years while most of them cannot call the name of a single boy or girl who was the valedictorian of any graduating class in the past ten years.

The community will turn out to see an athlete awarded a letter, but the boys and girls who make the honor roll go virtually unnoticed.

In addition to ignoring those

of a scholarly bent, the adults in the community demonstrate daily their value system to the youth about them. By putting a high value on the ownership of high priced automobiles, by spending hundreds of thousands of dollars for dances and cabaret parties at formerly hilly-white amusement places and acclaiming those who are lucky enough to "hit" on the pool or numbers racket, the adults put themselves on the side of rank materialism.

The youth know that hundreds of adults who are willing to bet a hundred dollars on the outcome of a basketball game will object very much to donating ten dollars to enable a worthy student to go to college.

THE YOUTHS also know that less than two percent of the adults in Indianapolis, for example, either belong to or work in the NAACP, which is fighting for first-class citizenship for them.

The youths are acquainted also with adults who would gladly supply them with liquor or dope or contribute to their delinquency in other ways.

Most Negro high school students realize that they can get low grades with impunity because no one at home really cares and they can misbehave because their parents will never come to the school unless they really have to.

The result is that students with exceptional ability fail to achieve because their classmates have set a low standard, because of home and community indifference and the bright ones do not wish to be regarded as "squares" and "egg-heads."

THE CHURCHES and other community agencies are also at fault in that they seldom inquire about the report grades of their juvenile patrons. Sunday School teachers and church youth leaders as well as Boy and Girl Scout leaders and YMCA secretaries could be very helpful in raising the sights of the youngsters, whose homes and neighborhoods are remiss in this particular.

Churches, Sunday Schools and youth organizations could honor the boys and girls who achieve in school. They could also establish scholarship funds for those boys and girls whose scholarship and economic conditions warranted it.

A great deal of attention is directed by all of the community institutions toward the delinquent boys and girls and the boy or girl who wants to be recognized has to commit anti-social acts. This is putting the emphasis on the negative.

If every member of a neighborhood would take an interest in the significant achievements of Harry or Jane from the time they first enter kindergarten and let them know of this interest it would go a long way toward providing an incentive for them to prepare to make the contribution to the world which their native ability makes possible.

WE MUST as the adults in the community put first things first. Principles should come before things. A well kept neighborhood and home is to be preferred to a fine motor car and scholarly achievement is to be honored above athletic prowess.

We must maintain an interest and a concern in our bright boys and girls which is even more sustained than those we hold for our athletes. Negro youth will achieve scholastically whenever the community really sets the goal.

Protests 'Front Page' Spread In Alleged Speeding Case

To The Editor:

I am the mother of the driver, George L. Page, who was cited in the local paper of Tuesday, Feb. 27. Those so-called "warning shots" were fired directly into the windows of the car George was driving and shot approximately four inches from the top of the front door on the left side and just over the steering wheel.

There are five or six bullet holes in the body of the car. I saw no holes in the tires or lower part of the car. Nine cars used in the chase for a speeding violation seem to be a pretty large number of vehicles.

This is true especially in view of the fact that there are at present numerous unsolved murders where apparently much less effort at apprehension has been made in this fair city. The paper states that it was thought one bullet hit Page. No mention was made of an ambulance being called, though.

In the paper I read that the fugitive tried the doors of several houses apparently looking for a place to hide. Why would not any human being try to hide if he thought the police (nine cars) were trying to shoot him to death for a traffic violation—namely, speeding. Many men would try to hide

to keep from being shot to death or mangled to death by a vicious police wolf-dog. There obviously was no charge until police headquarters was checked and later two other traffic violations dating back to 1959 were found. Page was trying so hard to find a job and make an honest living. He had solicited aid in doing so from the only organization I know of in the entire city which has for its purpose helping unfortunate persons who have made mistakes find honest employment.

When the police, who are our "protectors" call out nine cars of policemen, vicious police wolf-dog, and empty a service revolver at one unarmed person, I wonder about their interpretation of "protection."

Please remember this was a traffic violation—violated over many times each day. If all speeding violators each day of the year were chased, by eight or nine cars of police with screaming sirens and put before what appeared to be a "firing squad" it would be a pretty bad situation before a civilized world. I cannot help wondering why my son was given this treatment in the city of Indianapolis and also if he is lying somewhere wounded or dead tonight in this freezing temperature. All this for a speeding violation.

—EVA PAGE, Mother.

Communism Is Defined, In "One Man's Opinion"

The air is polluted with the word Communism. Many of my friends have asked me to define it. I thought it best to reply to all through our paper, The Recorder and that will give some light to the readers.

This is what I found in my books. The old guards known as Bolsheviks had a small rented room in Zurich 44 years ago which served as a Communist headquarters. They were determined to spread and today they control one-third of the world's population and one-fourth of the land area of the world. As history gives us, there are 35 million Communists—14 million in China, eight million in the Soviet Union, and eight million in other satellite countries. A great many are in Yugoslavia, Indonesia, Italy, and France.

The Communist's strategy seeks to avoid a general war by pushing up to the last inch as Mr. Khrushchev did in Germany. One of the most important books on Communism was written by a team of scholars in 1959 at the University of Pennsylvania, entitled: "Protracted Conflict." It gives a graphic knowledge of the Communist's strategy which has been waged against us today.

The success is to keep the enemy in a defensive frame of mind. We hear a great deal about Fidel Castro. He is well-trained and is spreading his doctrine by leaps and bounds. If America drags her feet, trouble will be in the 50 states.

According to records I have in my books, thousands of children are sent against their will to Russia to be indoctrinated in Marxism. A man of authority named Secundino Fernandez reported that 320 children from 12 to 15 years of age were taken off the farm and made four flights from Havana to Prague. Soviets landed fighting machines in Sagua La Grande and took hundreds of children to Russia.

They will spend two years or a little more in Russia. Heaven knows what will happen when those real Communists return and spread over this country. Communists do not declare war. Mr. Khrushchev said that the "President's grandchildren will live under Communism."

The handwriting is on the way. Cuba is only 90 miles from America. Will the United States stop Cuba?

Tribe Integrated, Accurate, Cool

By CHARLES S. PRESTON

Attucks fans had to get acquainted with a new favorite Saturday night.

Quite a few Tiger partisans "adopted" their conquerors, and cheered lustily for Anderson against Southport. (Quite a few others didn't feel like cheering at all.)

The Indians have one of the oldest records of integrated teams in Indiana — we remember Marion George playing "back guard" in 1928 — and this year is no exception.

Two of the famous Four Sophomores are Negro boys, who throughout the Regional played their parts perfectly in the well-meshed Anderson machine.

Edward Fuller, at only 5-8 and 140 pounds, is a dandy little guard, quick as a cat and hustling every minute. He even grabbed three straight defensive rebounds toward the close of the championship game.

Ed — nicknamed "Butch," we're told — is the son of Mr. and Mrs. Eugene Fuller, 1902 Dewey in Anderson. He's only 16.

AT FORWARD IS Robby Lewis, lanky 6-1 pot-shooter who'll give you 2 right now from way out. Bobby fired .450 from the field through the Sectional — not considered remarkable in Indian-town, since the team as a whole fired .460. He is 17, and the son of Mr. and Mrs. Arthur Lewis, 2216 Henry.

In addition, two tan subs didn't see action during the close Regional scrapping. Roger Kerns, a 6-1, 17-year-old sophomore, is the son of Mr. and Mrs. Odell Hammon, 1616 W. 19th.

Sammy Nunn, a 5-9 junior, is the son of Mrs. Annie Nunn, 1523 W. 20th.

IN THE DRESSING ROOM after the nets were snipped, Coach

We'll Be Back, Roar 8 Tigers

"We'll be back next year" was the comment of Allen Bridgforth on Saturday night, after six hours had elapsed to allow the sting of disappointment to fade.

Attucks Coach Bill Garrett will have returning next season Bridgforth, sharp-shooting Wilson Watkins, Don Rhodes, William Brittain, William C. Taylor, Leroy Patton and Matthew Ellison, all now juniors; and Horace Webb, a sophomore.

The incomparable Richard "Boo" Ellis, who took the day's scoring honors with 24 points in the Tigers' losing cause against Anderson, said he'll go to college, "probably out West."

Ellis' feat was all the more remarkable because he was saddled with his 4th personal early in the second half. He sat out 5 minutes and 33 seconds on the bench.

DURING THIS TIME Glenn Bradley took over, turning in one of his best all-time performances for 17 points in the second half. Ellis had scored 17 in the first half.

When Dick returned to the fray, those personals still weighed on him and he accomplished little the rest of the distance. He played at a high post — safer from the foul point of view, but not his effective station.

Guard Cornell Brooks apparently was the victim of some sharp scouting. When he came down to his favorite outside-center shooting spot, he ran into more hostile Indians than General Custer, forcing him to go to the left. He was held to 9 points.

ATTACKS TREMENDOUS RALLY, from a 22-9 deficit at 7:43 of the second quarter to a 59-58 lead with 2:54 left in the game, "deserved" to win.

But just as in their late-season loss to East Chicago Washington, the Tigers did everything with the ball but put it in the basket. They almost doubled the rebounds, 36-19. And they MISSED more shots (58) than Anderson TOOK (52). So long, kids—you were interesting all the way.—C.S.P.

OUR WORLD CHAMPION: Tired of looking at sports photos of boys in short pants? We are, but that's only one of the reasons we're proud to picture Miss JoAnn Terry, Indianapolis' own world champion hurdler who only last month set a new record of 9.2 seconds for the 70-yard lows indoors. A native of the city and former star of Northwestern Community Center cinder teams, Miss Terry graduated from Attucks and Tennessee State and was a member of the U.S. Olympic Team in 1960. She teaches physical education at Schools 43 and 64. (Photo by John L. Patterson)

TERRE HAUTE—Two former Indianapolis Attucks players are members of the Terre Haute All-Stars, which compete in the Midwest Professional Basketball League.

Willie Merriweather, who played his college ball at Purdue, and Bill Scott, who performed at Butler, are the ex-Tigers.

Arley and Harley Andrews, the onetime Terre Haute Gerstmeyer twins, are also on the team.

Howard Moves Berra as Catcher

FORT LAUDERDALE, Fla. (ANP)—Modestly Elston Howard greeted the news that he will replace the fabulous Yogi Berra as the New York Yankees' No. 1 catcher.

Manager Ralph Houk broke the news to Elston when he reported for spring practice.

"That's good news," Elston said, breaking into a big smile. "Because I want to be in the lineup, catching from Opening Day."

"I want to get off to a fast start. I haven't any idea of changing anything I did last year. I'll still try to hit the ball through the middle and forget about home runs."

Howard did all right in both homers and hitting. He batted .348 and cracked 21 home runs.

RIGHT NOW, Elston's biggest headache is getting his weight down to a trim 207—his best playing weight.

Humes, Webb, Miles Among 'Sweet 16' Stars

Paced by the fabulous Jim "Goose" Ligon of Kokomo, several tan stars are set to shine at the four basketball Semistates on Saturday.

The 6-8 Ligon is looking more and more like the Wilt Chamberlain of the Hoosier high school sport. If the Kats go all the way so that he plays four games, he seems a cinch to smash Jimmy Rayl's Sweet Sixteen scoring record to smithereens.

Back in 1959 when the Goose was just a gosling, the Splendid Splinter — also then of Kokomo — set the record of 116 points. But the way Ligon was scoring in Saturday's Regional round, 77 points in two tilts, he might break Rayl's mark before the final game.

On the other hand, Big Jim is due to meet somebody almost his own size if the Kats tangle with Elkhart in the Semistate final at Fort Wayne. That would be Coley Webb, the Blue Blazers' star center who scored 51 points himself in the Regional — against tougher competition than Ligon.

Coley has to give the Goose a couple of inches but outweighs him a pound, 195 to 194. Attucks players, against whom Webb scored 22 as the Tigers beat Elkhart 62-60 in January, will testify that Coley's unorthodox moves are effective.

For the Blazers to get a crack at Kokomo, however, they will first have to dispose of Fort Wayne Central while the Kats must handle Huntington.

No less than eight of the Fort Wayne Tigers are Negro boys, comprising Pres Underwood, Cletus Edmonds, Rod Haywood, Archie Smith, Jim Martin, Nate Banker, Herb Banks and George Underwood. White lads include Sam Kelsey, Larry Kuhn and Bob Bean.

HERE AT BUTLER FIELDHOUSE a Southern Indiana superstar will be making a return appearance after two years' absence.

That same year that Rayl was singing the nets for Kokomo, a slender FRESHMAN from Madison hit 7-for-12 from the field and 4-for-5 from the charity stripe as the Cubs went down 82-80 in overtime before Attucks' eventual state titlist.

Now Larry Humes is a senior, and he tallied 53 points in the Regional for the Cubs who are undefeated in 23 games. In turn his brother, Howard "Bugs" Humes, is on the team as a freshman.

Larry at 6-4 plays center or forward, while Howard at 5-11 is a guard. In between them is John Perry, 6-1 sophomore, who lines up at forward.

Madison should breeze past Connersville in the 12:30 game, to be followed by a battle between old rivals Anderson and Muncie Central.

The Indians' personnel is discussed elsewhere on this page. The Bearcats' lineup includes Carl Brown, 6-4 senior who tipped in the winning basket in double overtime against Middletown; and Billy Ray, a fast little performer. Glinder Torain is sub for Connersville in the 12:30 game. Continued on Page 13

Soph Rebound Whiz Is Ball State's MVP

MUNCIE—A sophomore center from South Bend has been selected Most Valuable Player by the current basketball season by his Ball State teammates, it was announced Monday by Coach Jim Hinga.

Ed Butler, 6-6 rebound specialist, did his high school playing at South Bend Adams High School. He is the son of Mr. and Mrs. Edward Butler, Sr., 1138 E. Howard in South Bend.

Butler set new Cardinal rebounding records both for the season and a single game. For the year he grabbed 385 off the boards, far surpassing the 328 of last year by teammate Mike Readnour.

Ed's single-contest high was 27 pull-downs, against Northern Illinois in the Inter-state Classic at Terre Haute on Dec. 28. He was named the Most Valuable Player of the two-day classic.

All-around, Butler's best game was probably at Indiana State on Jan. 23. He gathered 26 rebounds and scored 24 points as Ball State nipped the Sycamores, 86-85.

In the Indiana Collegiate Conference, his 16.6 rebounds per game were 3.5 more than those of his nearest competitor, Jeff Blue of Butler.

Floyd, Archie, Jackie Speak in Jackson, Miss.

JACKSON, Miss. (ANP)—Heavyweight champion Floyd Patterson and other sports greats last week praised efforts of Southern Negroes in behalf of civil rights.

Patterson, along with light-heavyweight champion Archie Moore and baseball stars Jackie Robinson and Curtis Flood, appeared here at a Southeastern Regional Conference of the NAACP.

Speaking almost in a whisper, Patterson told the Deep South Negroes he was "proud to be a part of this fight for equal rights."

"I feel extremely guilty sitting there in the North reading and hearing about the things you are going through down here," said Patterson. "You people are the ones going through all the danger."

Floyd called for Southern and Northern Negroes to unite in the civil rights campaign.

PATTERSON WAS INTRODUCED by Robinson as "the heavyweight champion of boxing and the heavyweight champion of our fight for freedom."

The champion's attorney, Julius November, also spoke. He recalled that Floyd insisted promoters of his fight with Ingemar Johansson at Miami Beach put up a \$10,000 bond against segregation of the arena.

Robinson, who recently was named to baseball's Hall of Fame, served as master of ceremonies at the rally. He said:

"What happens in Jackson, Mississippi, is talked about in Russia or in Latin America. They only hear about the bad things and not some of the good things like those happening in Memphis, Tenn."

The former Brooklyn Dodger star said if he had to choose between the Hall of Fame and "continuing my drive for equal opportunities for Negroes," he would give up the baseball recognition.

MOORE TOLD THE CROWD he was born in Mississippi and left the state when he was 18 months old.

"It took 4 1/2 years to come back and that's a long time, but I wanted to come back," Archie declared.

The program included remarks by Marguerite Belafonte, former wife of singer Harry Belafonte, and a song by Mickey Alan, a white youth whose singing career is managed by Patterson.

The crowd overflowed the 3,000-seat Negro Masonic Hall on Lynch St. The rally concluded a 3-day meeting of NAACP delegates from six Southern states.

... Believe Me— When I Tell You!

By BOB WOMACK SR.

By BOB WOMACK, SR. FLASH LAWRENCE, veteran board beater, emcee and what have you visited us in the theatrical offices recently and talked over old times. My friend has been in the entertainment field since he was 77 years old. He has worked many top-flight spots from coast to coast. Each year gives a helping hand to the annual Recorder Xmas Benefit Show.

ALL ROADS these days seem to lead to BOB HARVEY'S Ritz Lounge out Harding Street-way. The spot received their three-way licenses recently. Owner Bob and wife Louise, wishes to thank the public for their fine support extended them on their grand opening night. There was standing room only. . . . You want believe me when I tell you. . . . Too bad about Attacks High School basketball loss during the Regional Tournament. They had the game in the bag. . . . Better luck next time, boys. Rome wasn't built in a day.

A LETTER jumped into port from BRAZZLE TOBIN, Theatrical Editor and public relationsman for the Louisville Defender advising me that the all-Negro Joyette Record Company of Louisville had folded. (Naptown's own Four Sounds, singing group made platters for them).

However, Mr. Tobin went on to state he is still doing publicity work for the Deb Records out of New York City. Recently, its owner, Julius Dixon, has been having police difficulty pertaining to one of the top stars, namely—Avis, vocalist, who is featured at Ben's Cotton Club in New Jersey. After hours, the young lady in question went to another club for sports named the Little Nates and was brutally beaten by an auxiliary policeman on duty there. The singer was kicked and punched about like a man. At this writing, the thrush is suing the management of the club. . . . Wow! . . . Would like to hear from you again, my friend. . . .

DIGGING THE RECORDS: Chubby Checker has two new ones "Twistin' Round the World" — "For Teen Twisters Only" and found on the Parkway label. Connie Francis' latest — "Do the Twist" an MGM album. A few top R & B Records: "All In My Mind," Maxine Brown (Nomar); "Rain Drops" by Dee Clark (see Jay); "Don't Cry No More" — Bobby Bland (Duke).

"Shop Around" — Miracles (Tamla); "Last Night, Mar-Keys (Sattelite); "Toss and Turnin'" — Bobby Lewis (Bel-tone); "Mother-in-Law" — Ernie-Doe (Minit); "I Lige It Like That" — Chris Kenner (Instant); "It's Gonna Work Out Fine" — Ike & Tina Turner and "Will You Love Me Tomorrow" — Shirelles.

Let's hear from the musicians and laymen out there. Your letters will be printed in reason in this column. Many of you have told me that you wanted to express your opinions. Now is your chance. No phone calls. WE LEAVE YOU WITH THESE LINES TO LIVE BY — DON'T LEND YOUR MONEY BECAUSE THAT IS WHEN YOU LOOSE SIGHT ON THE WORLD. . . . BELIEVE ME WHEN I TELL YOU.

HOLLYWOOD (ANP)—I was surprised when one of the film actresses called to tell me of the sudden death of Willie Best, the drawing comedian of the 30's and 40's who was almost a carbon copy of Stepin' Fetchit in his popular years.

Best, who skyrocketed to fame when he was spotted in a dance marathon in Los Angeles shortly after his arrival here in the early thirties, made over 60 pictures between 1932 and 1951. Born in Mississippi, he migrated here as a chauffeur for a wealthy family.

Veteran actor and comedian Harold Lloyd gave Best his first break at Paramount in "Feet First" in 1932. Nicknamed "Buckshot" by RKO-Radio director George Stevens, he typified the droll character so common in early films.

Other pictures he appeared in were "The Little Rebel," "Thank You Jeeves," "The Cat's Paw" and "Gold Is Where You Find It." The famous comic's funeral will be held at Valhalla Cemetery.

Ertha Kitt, Husband Are All Smiles As Daughter Is Baptized

HOLLYWOOD (ANP)—Two of the happiest persons in the world were entertainer Ertha Kitt and her real estate businessman husband William McDonald, as their eight-week old daughter, Kitt, was christened here Sunday.

The child of the famous Negro singer and her white husband was baptized in Blessed Sacrament Catholic Church, in a ceremony attended by McDonald's parents, among others. A large crowd of spectators were also on hand.

The infant was obviously named after her mother.

Hank Marr Wailing Like Mad at George's Bar Nitely

Local jazz buffs are still talking about Hank Marr's big opening last week at George's Bar and Orchid Room, one of Naptown's top playspots. The sensational jazz group remains at the bistro thru March 13 with a big matinee Saturday from 4 till 7.

The King recording star and organist supreme has been drawing jazz lovers from all around

the town, having played an exciting engagement here previously at one of the town's top nite spots. Hank's latest hits are "Your Magic Touch" and "Twist Sere-nade," which are real killer dillers with any type of audience. . . . and the patrons of George's just love it.

Don't miss this great attraction now playing George's thru Mar.

Woman Scientist Aids Orbital Flight

PHILADELPHIA — Two Negroes played prominent roles in the history-making orbital flight of U. S. astronaut John Glenn last week.

One of them was a brilliant woman mathematician who is credited with helping devise the highly complex tracking system which enabled scientists to predict within two miles the location of Lt. Col.

Glenn's rocket upon its return to earth after three orbits around the earth. Miss Katherine Johnson, a top security mathematician at the Langley Air Force Base, spent nearly six months making mathematical calculations before producing the formula which allowed scientists to continually track the path of Glenn's orbit through space.

Charlie Aikens Revue Clicks at Pink Poodle

Charlie Aikens (son of Moms Mabley) Copper Fantasy Revue got off to good start Monday nite at the Pink Poodle before an appreciative audience. The fast-moving stage production with a slew of name stars remains at the downtown entertainment spot thru March 24 with gala matinee on Saturdays from 4 to 7. Show time Friday and Saturday is 9:30, 11:30 and 12:45 with the band starting at 9. Entertainment during week days start at 10 with second show at 12:30.

Charlie Aikens, star of the show with 30 people and a bevy of beautiful girls, emcees and sings and in fact is most of the show which also stars Dutch and Dutchy, Vivian Foster, Harold King and

Bobby Preston plus Choker Campbell's band, formerly with the Idlewild Revue.

The show is really a crowd pleaser with Aikens doing vocals on "The Nearness of You," "Getting to Know You" and an impression of Della Reese singing "Someday."

Kurt Wild dances the male lead surrounded by beautiful girls; Bobby Preston sends you with "Please Send Me Someone to Love" with the Four Sounds taking encores as usual doin' "Let's Twist" and "Ole Man River."

Harold King, tap danced on roller skates to the enjoyment of patrons followed by an exciting and clever exotic dancer. The show is real fine and should attract large crowds during its stay at the Pink Poodle. Make reservations now by calling ME. 2-0087—and don't forget the big Saturday matinee from 4 to 7. (The show is under the personal management of Ernest Perry.)

Sidney Poitier Stars in 'A Raisin' in the Sun' at Walker Theater Sun.

The People I Meet

By BARON HARRIS

Sidney Poitier returns to the Walker Theater in Columbia Pictures' "A Raisin in the Sun," in a role he flatly calls his favorite of all he has ever done, because "I've put more of my sweat and blood in it than any other." This, in spite of the fact that he was nominated for an Academy Award as best actor, for his work in "The Defiant Ones."

In "A Raisin in the Sun," Poitier brings to the screen a characterization he played for well over a year on Broadway. With him on Broadway were Claudia McNeil, Ruby Dee and other players in the film. In fact, the show itself was halted in the middle of its triumphant run, so that the entire cast could travel to Chicago and later to Hollywood for filming the David Susskind-Philip Rose screen production.

Poitier's pride in the play and in his role, he explains, stem from "its success in relation to the contribution I feel it is making in aiding understanding between human beings."

Story of a Chicago South Side family with its dreams, ambitions and frustrations, "A Raisin in the Sun" is told with compassion, warmth and humor. Poitier, playing a husband and father who wants to better living conditions for his family but chooses the wrong way to go about it, had no interest in acting as a youth; he wanted to be a doctor. He turned to acting when he discovered that nothing else he was doing in life gave him any satisfaction.

"A Raisin in the Sun" is, for Poitier, something of a synthesis of his early years of struggle, even to the childhood ambition of wanting to be a doctor. He has, in the play, a younger sister who also wants to be a doctor.

Daniel Petrie directed "A Raisin in the Sun," from the screenplay written by Lorraine Hansberry based on her New York Drama Critics Circle Award-winning success.

HOLLYWOOD—By the time you read this we hope to be on our way to New York and we'll be saying hello to you from there. We have an April 6 engagement at the Apollo Theatre but our good friend, WILLIE BRYANT, has a March 9 engagement at the same theatre so we'll be going along together unless Willie decides to fly. In that case we'll have to drive coast to coast by our lonesome but it's been done by others; why not by me?

MISS CORRINA PAREER, I hope our answer to your letter was sufficient. Your idea of a RAY CHARLES fan club and your aim to help blind people is marvelous. My hat is off to you and those who have joined with you in your endeavor. We wish you much success. We shall endeavor to get Mr. Ray Charles to assist you as much as possible and whenever he returns to Indianapolis we shall try to get him to give you a personal call. Thanks for such a nice letter and thanks for sending your phone number along.

THE CARVER HOUSE in Las Vegas has re-opened its supper club and casino. At last report the show was very weak even with LOTTIE, THE BODY on the bill.

It's a very nice place but in the wrong location and seems headed for the same fate as the now defunct Moulin Rouge. It's too bad.

FLOWER DRUM SONG, FEATURING JUANITA HALL is continually being held over at the Thunderbird over Las Vegas way. Our landlady, who is Japanese, is also in the show. We had a long talk with Juanita when she was here making the picture of the same name. She's charming and very unassuming.

AS WE WRITE this copy our parakeet, Lassie, who is a fool, is busily engaged in scratching her seed out of her tray and onto the floor. We shall fix her clock. When her food runs out we'll just open her cage and she can have dinner on the floor. We wonder why we keep her around as she's too lazy to talk and when she chatters it's always at the wrong time. I sometimes wish that she

would just go away and pester someone else. LOUIS JORDAN who was real bigtime a short time ago has been reduced to near obscurity and is working with an ofay as a part of his act. He once said that he would retire at forty and watch the other musicians blow their heads off. He is now past 40 so the old adage, 'Don't count your chickens before they hatch,' still holds true.

PREDICTION Heavyweight champion Floyd Patterson will meet the number one challenger, Sonny Liston, sometime this summer and will successfully defend his title by way of a decision. Floyd is too clever for Sonny and Liston will collect the biggest paycheck of his career.

ADVICE: Sugar Ray Robinson no longer has a title to defend and contrary to those who say he should hang 'em up' we say he had better ply his trade as long as he's a drawing card. Fighting is all that he really knows and in what endeavor could he collect \$25,000 for such short working hours? If he starts getting pulverized then we will agree that it will be time for him to quit the fight game. Until then we say he had better keep making it while he can.

Masco Young's They're Talking About

SAMMY DAVIS JR., minus the usual ballyhoo that goes before it or along with it, has quietly become one of the busiest and most popular actors on television. Recently, Sammy was seen as a broke former prizefighter turned bootblack on one of Dick Powell's TV series. Before that he was a trigger-happy, vengeful-minded gunfighter on the "Riflemen" video drama; an underwater demolition expert in "Hennessey," the TV vehicle starring Jackie Cooper, and will soon be seen as himself in a "Cain's Hundred" segment.

"Sergeants Three," a movie in which he appears, is still making the rounds of local theaters. Next month the multi-talented Sammy starts work on another movie entitled "Whisper In The Wind." It's all about the life of composer James Bland, who wrote such standard tunes as "Carry Me Back To Old Virginia," "There'll Be A Hot Time In The Old Town Tonight" and "Oh, Dem Golden Slippers." Davis will play the part of Bland, who, incidentally, was buried in a Main Line cemetery in Philadelphia when his grave was found unmarked following his death as a pauper in that city.

WHEN **HANK MARK** heard that vocalist Nancy Wilson wanted him to accompany her during a waxing session in their Columbus, Ohio, home town, the popular organist cancelled an eastern tour that had been planned to promote his newest recordings, "Your Magic Touch" and "Twist Sere-nade."

HAL JACKSON, the New York deejay who has been fighting payola charges in and out of court for several years, was finally cleared of "commercial bribery" allegations in New York's Special Sessions Court.

RAMON BRUCE, the west coast deejay who died after a prolonged illness, was the first of a string of disc jockeys who became well-known after getting their first radio job on WHAT in Philly. Others who followed the pioneering Ramon "I Am The Bruce" at WHAT include Jocko Henderson, Mitch Thomas, George Woods, Hy Lit, Kae Williams—and more recently, Portia Perry, Mary Dee, Hot Rod Hulbert, Lloyd Fatman, Bill Curtis and Rockin' Robin.

BILL MASSEY, the talented

musician-composer-arranger quickly formed his own band when Doc Bagby disbanded his group in order to work exclusively for a New York recording firm.

CHUCK (AND BETT) JACKSON, determined not to splurge the popular singer's earnings, will keep the Chrysler auto and nixed all talk about getting a Cadillac. Said Chuck: "Our car's two years old, runs like new, looks like new, and it's paid for—so why should we get rid of it?"

JAMES BROWN, who recently cleared up a misunderstanding with his press agent, is shopping for an apartment house investment in either New York or Philly, so he can have a home-away-from-home as well as an income producer.

The People I Meet

Continued from Page 12

city of make believe. **HOLLYWOOD** — At long last my planned trip to New York is becoming a reality and, come March 16, my good friend **WILLIE BRYANT**, singer, dancer, actor, deejay, former Mayor of Harlem and now a Hollywood actor and I will begin our cross country tour to the city where Willie will begin a series of theatre dates beginning at the Apollo Theatre in Harlem, U.S.A.

Yours truly will be along as public relations man and aide de camp to Bryant, who is still a ranking showman. While there (in N.Y.) a large theatrical agency will start the wheels turning to launch yours truly into the big time.

Since we were successful in getting former Ted Lewis shadow, **ELROY PEACE** off for a series of engagements in Tokyo (the left on Feb. 19) we are going for ourself because of the old saying "God helps those who help themselves. When we get ourself properly set up, we will then return to the task of helping others get a start but not before."

SAMMY DAVIS, JR. may yet make good his boast that he'll be the first tan actor to win an "Academy Award." He's on your TV screens quite regularly these days and his parts call for legitimacy acting with no singing or imitations involved. We hope he makes it and with theatrical giant Frank Sinatra behind him we think he will, don't you?

MAJOR ROBINSON'S "New York Beat," which makes Jet Magazine weekly, says in the February 22 edition that **HOWARD MOOREHEAD** submitted pictures of several tan beauties to Playboy magazine in the latter's search for an All-American beauty and they were returned with the curt note that their (Playboy's) policy is against using non-Caucasian girls.

However the incident should not be news to you as we reported it in our column several months ago. With tan artists hogging the screen of Playboy's Penthouse we wonder how long editor-publisher **HUGH HEPNER** can allow this policy to continue. Could it be that he is not as democratic as we would have him be? **KITTY SUMMERS**, tall, stately, shapely and pretty figure model, will soon get an unexpected break in show business as a singer. She doesn't know it yet but some recording folk are very interested in her and want to hear her sound in wax. **OLD MAN JIM CROW** is running rampant here in L.A. and is continually being battered by Core (Congress of Racial Equality). Mayor **SAM YORTY** seems to be helping to man the battering ram in order to beat Mr. Crow, who is bloody but still unbowed, down to his knees.

THE LATE CHARLIE (Yardbird) Parker, with whom we were quite close and whose hometown was the same as ours (Kansas City), keeps popping up in the news which proves that he will never be the forgotten man. Many ofay musicians are on his time today because of his pioneering genius and soon there'll be memorial programs for him in every corner of the U.S.A.

JACKIE 'MOMS' MABLEY, comedienne extraordinaire, recently closed a not too successful run at the Summit Club out on the Strip. If her public relations and advertisement had been better we are prone to think she would have played the S.P.O. Maybe they'll bring her back again when things are different. However, if they don't, it'll be because that's the way the mop flops.

COMEDIAN REDD FOX has already opened at New York's "Basin Street East" and if he has a successful run it'll be because he has cleaned up his act a bit. It's a funny stud. **SHREDS FROM A TALL PALM TREE**—Folks here say that California has had more rain this year than in the past six years put together. Ha! If they think that is something let them wait until things really start happening. They'll be ready to run but not to the hills 'cause there'll be no hiding place up there. Do you dig me, Jim?

IT'S THAT TIME AGAIN so we'll trilly on down to the post-man's box in order to get this copy off and then we'll contact our kinkin' cousin to see if everything's ship shape out at our hillside crib which is still located at 1124 N. Hoover St., in Hollywood U.S.A., the city of make believe.

PEACE CORPS CHAT: Robert Hadley, of Thomasville, Ga., and Miss Priscilla Thorsrud, of Fontana, Calif., Peace Corps Volunteer candidates, chat with Dr. Benjamin Mays, president of Atlanta's Morehouse College, at the national 4-H Foundation Center in Washington, D.C. Hadley and Miss Thorsrud are part of a 53-member group of trainees preparing for Ueace Corps service in Brazil. Dr. Mays is a member of the Peace Corps National Advisory Council.

Duke Ellington's Band Thrills Collegians

CLEVELAND (ANP)—Playing several of his favorite compositions as well as a number of special arrangements, the Duke Ellington 15-piece orchestra thrilled a crowd of 2,400 on the campus of John Carroll University recently.

The university was one of the stops the Duke men made in their current annual tour of the college circuit. He and his men regaled with their artistry in the school's gymnasium, before the audience of students and adults.

The orchestra, beautifully chordeed by Duke at the keyboard, opened the program playing interpretations of several movie scores, including one of the overture to the "Nutteracker Suite" and the theme of "Paris Blues," which co-starred the Ellington troupe.

Warming up to the task, the orchestra then swung into a medley of some of Ellington's famous compositions. They included the ever-popular "Sophisticated Lady," "I've Got It Bad and That Ain't Good" and "Mood indigo." The audience was delighted by these and others.

Saxophone star Johnny Hodges, on alto, Cat Anderson, on trumpet, and several others of the instrumentalists were featured in solos, as well as in trios, quartets and septets.

Duke was introduced to the audience by the Rev. Herman S. Hughes, S.J., director of the university's cultural entertainment series.

African Scholar, Teacher Joins Staff Of Boston

Most Africans in the Union of South Africa are trained in the humanities rather than business or science because the latter fields are closed to them, according to a South African anthropologist recently appointed to the Boston University faculty.

Dr. Absalom L. Vilakazi, now a resident of Hartford, Conn., and also a faculty member at the Hartford Seminary Foundation, has been appointed visiting lecturer in anthropology and African studies at the University's African Studies Program. He will teach a course in African cultures.

"The liberal arts tradition is chosen as an area of concentration because Africans know they can earn their living by teaching. None of the South African institutions have policies which allow them in to engineering or business schools."

Dr. Vilakazi also said that few trade schools for Africans exist in the country because most skilled jobs are generally held by Europeans.

Dr. Vilakazi feels that one of the greatest needs in African education right now is higher standards in South African primary education. He said that according to government-released figures approximately two-thirds of African children attend school. "However, many of them leave school between the fourth and sixth grades," he said, "and I would estimate that no more than five percent go on to a higher education."

NAACP Set For Regional In Dayton, O. DAYTON, OHIO—Region III of the NAACP, made up of Illinois, Indiana, Kentucky, Michigan, Ohio, West Virginia, and Wisconsin, will meet here for a leadership training conference March 23-24 at the Van-Cleve Hotel.

The purpose of the two-day session is to discuss techniques for implementing the NAACP's program throughout the region. State officers will review the problems of the region at the Friday morning session. Workshops will be held on a number of topics including employment, public relations, political action, membership and fund-raising, housing, education, and civil rights.

"Voting Apathy" Of Negroes Cited By Sociologist

Failure to register and vote and failure to participate in numerous community activities are two faults of Negro people in Indianapolis, Dr. Joseph Taylor, sociology professor and program director of Flanner House, told civic leaders attending a meeting of the Summit Conference of Negro Leadership recently.

Dr. Taylor, a conference organizer, blamed apathetic Negroes for slow racial progress in Indianapolis. He added that stubborn whites were also to blame.

Dr. Taylor and Atty. Rufus Kuykendall, general chairman of the conference, met with Negro leaders at the FAC home, 2309 Capitol, to outline a plan for united action on integration and civil rights programs for 1962.

The program is designed to provide comprehensive planning and to achieve a more complete inclusion of Negroes in the life of the community.

"This plan will serve as guidelines for the immediate and practical objectives of Negroes here in 1962," Taylor said.

"Failure to register and vote, failure to utilize opportunities for personal growth and failure to participate in numerous community activities are faults of Negro people in Indianapolis," Taylor added.

Kuykendall said, "The Negro has not gotten out of Indianapolis in the past what he should have gotten."

Groups will be urged to work in these areas: Employment, Education, Housing, Political Activity and Public Accommodations.

Motorist Facing Speeding Charge Flees Scene

George L. Page, 29, 1940 W. Coll accompanied by his attorney surrendered to police Wednesday and later was placed in the General Hospital. Early Tuesday morning he was wounded in his arm, it is said, when a motorcycle patrolman fired six shots at his fleeing automobile.

According to police reports—Page was stopped in the 5200 block of E. 38th St. around 1 p.m. and charged with speeding. The arresting officer, Motorcycle Patrolman Russell L. Engle on calling headquarters was told that three warrants were on file for Page's arrest on traffic law violations.

Officer Engle called for a patrol wagon and a tow truck to carry away Page's car. He charged that Page seated in his car suddenly backed it up ramming the cycle on which he (Engle) was seated.

He said that Page made a quick U-turn and headed west on 38th St. Engle says that as Page passed by he warned him to halt, then fired six shots as Page sped away.

Five bullet holes were found in the car, where it was found abandoned in the rear of 3800 block N. Emerson. Police accompanied by a patrol dog searched a nearby wooded area longer than an hour.
