HUNTER TRADED WIFE FOR WATCH IN EARLY DAYS OF PUTNAM COUNTY

Somewhat more than half a cen- tury ago, The Green- castle Banner printed a story written for its ex- clusive use, which concerned a unique actual happening in the county in about the year 1828, in which was told the enterprise of a pioneer hunt- er and trapper of Putnam in trading his wife for a watch.

The tale pictures the crude condi- tions of living in this part of the county, in that period.

"The greater part of the trade in Putnam of that day," says the story, "was simply an exchange of prod- ucts. This was necessary in order to obtain the bare necessities of liv- ing. Yet, with the log cabin, wild meats, cornbread, rude furniture and plain clothing, most of the set- tlers were content and happy; but sometimes one would be found who had set his heart on some of the luxu- ries of the older settlements.

"Such was the case with Jack, an early settler in the north part of the county, whose real name we sup- press. Jack was a hunter by profes- sion; to some extent a rude gen- ius, not given much to work and al- together an easy-going frontiersman. "He had a gun without a lock, but this lack he overcame by making a wooden one and with this gun he killed 60 deer in the winter of 1827-28. The snow was very deep and crusted

but not sufficiently so to bear up the deer on its surface. This, with the scarcity of food making them less shy.

"But Jack had a higher ambition than 60 deer in one winter. He wanted a watch and a watch he must have. He had a wife, and a brood of children.

"In the spring of 1828, an itinerant fur-trader came to Jack's cabin and stayed over night. The stranger and his host were soon on good terms, and passed the evening in a jolly manner, spinning back woods yarns and drinking whiskey, and in trading for Jack's stock of furs.

"The stranger had a watch, worth more than all the rest of his goods put together, and Jack made up his mind to have it. In the morn- ing, when the trader was ready to depart, he proposed to trade his watch for Jack's wife. Quicker than a wink, Jack took him up. Jack re- ceived the watch and the stranger drove away with the woman.

"In about a year, the woman came back alone and thus Jack had the watch and the woman, both.

"This happened two years before the writer, to whom Jack was well known, came to Putnam county, and the story is well vouched for by his neighbors of undoubted veracity."

Ribbons Awarded At Flower Show

DROUGHT CONDITIONS DO NOT STOP COUNTY-WIDE SHOW; MANY GET AWARDS

The Putnam county flower show, judged yesterday afternoon, was on display today in the auditorium of the Second Ward school building after county fair officials announced the winners.

Although the present drought con- ditions have greatly impaired the beauty of several flowers, many county residents brought scores of different flowers to the fair yester- day for judging.

The Sweepstakes ribbon was awarded to Mrs. R. R. Grove of Greencastle, by the judge, Chris H. Elsner, a representative of Minnie Pett's Flower Shop in Crawfords- ville. Mrs. Grove displayed a table arrangement of different varieties of flowers.

Under the supervision of Mrs. Charles Ragan, of Fillmore, county president of the Home Economic Clubs, the entries were arranged on tables in the second ward auditorium.

The following are the winners in the county flower show:

FORMER RESIDENT OF MITCHELL DIES FOLLOWING EXTENDED ILLNESS

Mrs. G. W. Walls, widow of the late Doctor Walls of Mitchell, passed away early Thursday morning, August 14th at her home at 205 North Jackson street. Death was due to a hip injury, which she suffered in a fall several months ago.

She leaves a son Carl F. Walls and a daughter Mrs. Charles D. McIn- ire and a sister Mrs. Laura Parks, who made her home with her.

Short funeral services will be held from the home Saturday morn- ing at 10:30 a. m. (DST) with burial at Mitchell, Indiana. Friends may call at the home on North Jackson street.

County's State Fair Entrants Selected

NAME MANY COUNTY YOUTHS TO SHOW WORK AT INDIANA STATE FAIR

Putnam county 4-H club boys and girls who are to show their various achievements at the Indiana State Fair this year were announced today by Miss Mary Lou Schott, county home demonstration agent, following the judging of displays at the county fair grounds yesterday.

Chosen by Miss Schott and the two judges, Mrs. Calvin Perdue and Miss Norma Buchanan, many county girls will send their work to the state- wide fair this September it was re- vealed. Also scores of local fellows will enter livestock and poultry in the Hoosier event.

Miss Schott stated that the choice of entrants was based largely on placements in county exhibits, how- ever, in some cases the classifica- tions set forth by the state fair board were taken into consideration.

REDS ADMIT GERMANS ARE IN SMOLENSK

LOSE KEY CITY ON MOSCOW FRONT AFTER BITTER FIGHTING

BERLIN, Aug. 14 (UP)—A high command communique announced today that German and Rumanian forces had reached the Black Sea coast between Odessa and the mouth of the Bug river, 60 miles to the east.

MOSCOW, Aug. 14—(UP)—Russia admitted today the loss of Smo- lensk, key city of the Moscow front, 235 miles southwest of the capital, and indicated that the Germans had made a gain of 40 miles south of Lake Ilmen on the Leningrad-Mos- cow front.

A high command communique which admitted Russian troops had given up Smolensk after almost four weeks of bitter resistance also men- tioned fighting in the direction of Staraya Russia.

Staraya Russia, mentioned for the first time, is 40 miles southeast of Soltsi and 70 miles from the nearest point on the main Leningrad-Mos- cow railroad. It is 100 miles from the road along the railroad from Pskov to Bologee, a junction point midway on the 400 mile stretch be- tween Moscow and Leningrad.

Fighting has been intensified again in the Kakisalmi direction on Lake Ladoga north of Leningrad, the communique disclosed, and it men- tioned continued fighting in the Smolensk sector and the Belaya Tserkov sector of the Kiev-Odessa front.

The day's first war communique said a Russian submarine had sunk a 15,000 ton German oil tanker in the Baltic and that planes and war- ships of the Baltic fleet had sunk four German torpedo boats and at least two transports which were carrying infantrymen, guns and trucks to the Finnish front.

Airplanes sighted the German convoy, the communique said, and airplane reinforcements and torpedo boats hastened to the attack. The Germans threw up a smoke screen in an attempt to escape, it was said, but the Russian torpedo boats moved in with gun and machine gun fire and started torpedoing the trans- ports.

Moses A. Carney Expired Thursday

FORMERLY LIVED AT FILLMORE, AND WAS FATHER OF MRS. FOREST McFARLAND

Moses A. Carney, a former resident of Putnam county, died Thursday morning at 4 o'clock at his home in Boone county. He had been ill since December 9, 1940.

Mr. Carney was born in Marion county, February 23, 1868, the son of Martin and Sarah Jane Morris Carney. Mr. Carney resided on a farm near Fillmore from 1919 until 1933, when he moved to Boone county. He was married three times. All of his wives have preceded him in death.

Mr. Carney was a member of the New Brunswick Christian church.

Survivors are four children: Car- don Carney and Morris Carney, both of Boone county, Mrs. Corda Stern of Detroit, Mich., and Mrs. Forest McFarland of Bainbridge; eleven grandchildren; one brother, David Carney of Boone county, and a sister, Mrs. Ella Miller of Indianapolis.

The body will be taken to the home of the son Cardon Carney, where friends may call until 8 o'clock Sat- urday morning, after which the body will be removed to the Bratton Fun- eral Home in Ladoga. The funeral services will be held from the Brat- ton Funeral Home Saturday morning at 10 o'clock (CST), with burial in the Old Union cemetery near James- town.

Philip Maxwell was spoken of as the "live wire" reporter of the Bra- zil Review. He was the first person in Brazil who recognized William Jennings Bryan when the latter stopped at a Brazil restaurant. "He rushed out, extended him a hearty hand shake and welcomed him to the town," said the newspaper.

Mrs. Shelby Padgett led in a song service at Wesley Chapel.

MEDIATION BOARD ENTERS RAILWAY CONTROVERSY

CHICAGO, Aug. 14—(UP)—The three-man national railway media- tion board today steps into the huge wages and rules controversy which has precipitated a strike vote among 1,500,000 railroad employes.

The board, comprising Chairman George A. Cooke, Otto S. Beyer and David J. Lewis, scheduled separate conferences with the big five trans- portation brotherhoods, 14 non-op- erating employes' unions and an 18- man carriers' joint conference com- mittee. The board, created by the railway labor act of 1926, offered its services when direct negotiations ended in a deadlock after two weeks of conferences.

Although the controversy moved with unprecedented swiftness to the mediation stage and strike balloting began, threat of a transportation stoppage remained at least two months distant because of the provi- sions of the railway labor act.

If the mediation board should fail to settle the dispute or to persuade the parties to accept arbitration, the machinery of an emergency fact finding board would delay a strike. A mediation board report to the Pres- ident that an emergency existed would bring such a fact finding com- mission into being, guaranteeing the status quo for 60 days.

Admiral Darlan Urges Frenchmen To Back Program

UPHOLD REVISED NATIONAL POLICY IS PLEA OF VICHY LEADER

VICHY, France, Aug. 14 (UP)—Admiral Jean Darlan, France's new "strong man," appealed by radio today to the land, sea and air forces of France and her colonies to support the revised national program an- nounced Tuesday by Chief of State Marshal Philippe Petain.

Darlan spoke in his new capacity as national defense minister, in charge of the Secretariats of war, navy and aviation. He got the new title in Tuesday's cabinet shake-up, at which time Petain announced a broad policy of collaboration with the Axis powers.

Darlan's speech at 12:00 p. m. (6:30 a. m. EDT) was broadcast over an empire-wide radio hook-up. He said it was his first "order of the day" as defense minister.

"Called by the Marshal Chief of State to the functions of National Defense, I express to generals, officers, non-commissioned officers and simple soldiers of the army, navy and air force the pride I feel in the great honor done me," he said.

"All can count on my spirit of or- ganization, my impartiality, my spirit of justice, my affection.

"I salute respectfully the flags and standards of the three arms (branches of service.) I bow before their dead whose sacrifice was not in vain, but so France can be reborn.

"I think of their prisoners, whose high morale and patriotism I know.

"I know I can count on the devo- tion of all to the cause of France so nobly defended by the Marshal."

Two New Members Join Rotary Club

WALTER GARDNER AND SERGEANT ERNEST HUGUNIN INDUCTED WEDNESDAY

Walter Gardner and Sergeant Ernest Hugunin were inducted into the Greencastle Rotary Club by Floyd Hemmer at the weekly lunch- een meeting on Wednesday.

Following the induction ceremony, Herbert Craver, vice president of the club, gave a timely talk on the ef- fect of the defense program on the oil industry. The threatening oil shortage in the east was explained by Mr. Craver, who brought out clearly why this section of the coun- try is more concerned than other sec- tions. According to Mr. Craver, most of the oil shipped into the east has been by transport, which facilities have been reduced by more than 30 percent by reason of the requisition- ing of many of the water transports for overseas service. "A comparatively limited area lying between Dela- ware and New Hampshire consumes almost one third of the total con- sumption of petroleum products," said Mr. Craver. The talk was closed with remarks on what is now being done to alleviate the eastern situa- tion.

Theodore Morris of Indianapolis was a guest of the club.

Joint Statement Is Issued By U.S.-Britain After Conference By FDR-Churchill On High Sea

LONDON, Aug. 14—(UP)—Pres- ident Roosevelt and Prime Minister Winston Churchill met on "the calm blue sea" of the Atlantic for three days last weekend, it was disclo- sed today, upon the express persona invitation of the chief executive of the United States.

The war's "worst kept" secret ended with official announcement of the meeting, which was held as a result of American initiative in which Harry L. Hopkins, lend-lease bill ad- ministrato, took an important part.

Nothing was disclosed in regard to how the principal figures travel- led—by boat or airplane—but it was stated that they met where "only the calm blue seas encircled them." Churchill's present whereabouts was undisclosed but he has an engage- ment in London for next Tuesday.

The meeting was in dramatic con- trast to the fanfare of meetings of Axis leaders in the past.

Unlike the Brenner meetings there was no fanfare, no lines of steel helmeted guards, no swarms of generals, no little girls with posies. There was just the empty Atlantic, which the British and American na- vies still control. On it Messrs. Roosevelt and Churchill talked.

The Brenner meetings always have ended with sharp action by Germany or Italy or both. The po- tentialities for action in the meeting of American and British statesmen embraced five continents and all the seas of the globe. But the world is apt to be kept guessing for a while at least, on just what was said and done.

Assassin's Gun Wounds Japan's Fascist Leader

BARON HIRANUMA SHOT BY MEMBERS OF BLACK DRAGON SOCIETY

TOKYO, Aug. 14—(UP)—Baron Kiichiro Hiranuma, 75, Minister without Portfolio, long known as Ja- pan's No. 1 Fascist, was wounded today by an assassin reported to be allied with the strong ultra-na- tionalist Black Dragon secret society.

The assailant was Naohiko Ishi- yama, 33, who obtained entrance to Baron Hiranuma's suburban home by a ruse and, drawing a pistol from a roll of paper, shot him.

It was officially reported that Bar- on Hiranuma was wounded in the neck and it was implied that his wound was slight. Well informed Japanese quarters reported that he was also shot in the eye and that he had a third wound, but the official prosecutor's office said he was not seriously wounded.

Ishiyama is a native of Baron Hiranuma's home prefecture of Okayama, which is also the home prefecture of Admiral Kichisaburo Nomura, ambassador at Washing- ton.

Police reported that despite his wound and advanced age, Baron Hiranuma chased Ishiyama to the gate of his villa, where a guard in- tercepted Ishiyama and arrested him. Ishiyama was slightly injured in a scuffle.

News of the shooting was sup- pressed for five hours while police were questioning Ishiyama, seeking to find the motive which impelled him to try to kill Baron Hiranuma, and especially seeking to find whether there was a political angle.

The political angle was regarded as important. There had been no po- litical attempt against the life of a cabinet minister since the Extremist army revolt of 1936 in which the fi- nance minister, the lord privy seal and the inspector general of military education were killed.

Koh Ishii, chief government spokesman, said: "Baron Hiranuma is such an im- portant man to Japan at this time that a very thorough investigation must be carried out before there is any formal statement."

(This was a plain intimation of the importance which the govern- ment attached to a possible political motive. Baron Hiranuma is a con- servative leader and has great, al- most dominant, influence in the cab- inet.)

President And Prime Minister Together For Three Days Last Weekend

AN 8-POINT DECLARATION

High Officials Of Two Nations Pres- ent At Important Parley On Future War Action

WASHINGTON, Aug. 14—(UP)—The following statement signed by the President of the United States and the Prime Minister of Great Brit- ain is released for the information of the press.

The President of the United States and the prime minister, Mr. Church- ill, representing His Majesty's gov- ernment in the United Kingdom, have met at sea.

They have been accompanied by officials of their two governments, including high ranking officers of their military, naval and air services. The whole problem of the supply of munitions of war, as approved by the lease-lend act, for the armed forces of the United States and for those countries actively engaged in resisting aggression has been further examined.

Lord Beaverbrook, the minister of supply of the British government, has joined in these conferences. He is going to proceed to Washington to discuss further details with appropriate officials of the United States government. These conferences will also cover the supply problems of the Soviet Union.

The President and the prime min- ister have had several conferences. They have considered the dangers to world civilization arising from the policies of military domination by conquest upon which the Hitlerite government of Germany and other governments associated therewith have embarked, and have made clear the stress which their countries are respectively taking for their safety in the face of these dangers.

They have agreed upon the follow- ing joint declaration:

Joint declaration of the President of the United States of America and the prime minister, Mr. Churchill, representing His Majesty's gov- ernment in the United Kingdom, being met together, deem it right to make known certain common principles in the national policies of their respec- tive countries on which they base their hopes for a better future for the world.

First, their countries seek no ag- grandizement, territorial or other; Second, they desire to see no terri- torial changes that do not accord with the freely expressed wishes of the peoples concerned;

Third, they respect the right of all peoples to choose the form of govern- ment under which they will live; and they wish to see sovereign rights and self government restored to those who have been forcibly deprived of them;

Fourth, they will endeavor, with due respect for their existing obliga- tions, to further the enjoyment by all states, great or small, victor or van- quished, of access, on equal terms, to the trade and to the raw materials of the world which are needed for their economic prosperity;

Fifth, they desire to bring about the fullest collaboration between all nations in the economic field with the object of securing, for all, im- proved labor standards, economic ad- vancement and social security;

Sixth, after the final destruction of the Nazi tyranny, they hope to see established a peace which will afford to all nations the means of dwelling in safety within their own bound- (Continued on Page Two)

INDIANAPOLIS MARKET
INDIANAPOLIS, Aug. 14.—(UP)—Hogs weighing 160 pounds or more unchanged. Top \$11.55 for good to choice 200 to 210 pounders. Receipts: 600 cattle, 500 calves, 6000 hogs and 1500 sheep.

JOINT STATEMENT ISSUED

(Continued from Page One)
The men in all the lands may live out their lives in freedom from fear and want.

Seventh, such a peace should enable all men to traverse the high seas and oceans without hindrance.

Eighth, they believe that all of the nations of the world, for realistic as well as spiritual reasons must come to an abandonment of the use of force.

Since no future peace can be maintained if land, sea or air armaments continue to be employed in quantities which threaten, or may threaten, aggression outside of their frontiers, they believe, pending the establishment of a wider and permanent system of general security,

the disarmament of such nations is essential. They will likewise encourage all other practical measures which will lighten the burden of armaments.

A second torpedo broke the transport in half, the communique said, and within five minutes there was nothing left but debris.

Russian planes accounted for a second transport, which disappeared leaving debris and oil spots on the sea.

BERLIN, Aug. 14.—(UP)—The German high command said in a special communique today that Russian troops had surrounded the Russian Black Sea port of Odessa and that the grain port of Nikolaeiv, east of Odessa, was threatened by German and Hungarian forces.

LONDON, Aug. 14.—(UP)—Prime Minister Winston Churchill was accompanied by a party of 23 when he left England to confer with President Roosevelt at sea, it was disclosed today. The departure was so secret that even some members of the party did not know where they were going when they left.

Included among Churchill's high ranking advisers was minister of supply Lord Beaverbrook, who is proceeding to Washington to coordinate British-American activities under the lend-lease law.

Miss Mary Elizabeth Albin has returned to her home from a most delightful trip to Canada, Niagara Falls and Cleveland, Ohio, where she was a guest of her aunt and uncle, Mr. and Mrs. Harry A. Alter.

Mr. and Mrs. Homer C. Morrison are at home from a vacation trip by automobile which took them 2400 miles of delightful travelling, much of it in the Great Smoky Mountains. They were in Washington, D. C., and Mr. Morrison was on a boat trip in Chesapeake Bay at the same time President Roosevelt was out of touch of the public, and Mr. Morrison is as reticent about what happened during the time he and the President were out on the bay as Mr. Roosevelt himself is.

Mrs. Nellie M. Denny, county recorder, has received word of the death at Portland, Me., of Clarence T. Parks, former president of Washington State University at Seattle, Wash., whose wife is the former Miss Goldie Sheets of Greencastle, sister of Mrs. Denny. Mr. Parks retired from the presidency of the Washington State University some years ago because of ill health, on leave of absence, and entered other work, more compatible with the condition of his health. He was at the head of the research department of the American Can Company at the time of his death. The couple have one son, 10 years old.

Those people came here mostly from North Carolina although some came from other southern states. Most of those coming at that time have since died, a few, not satisfied with the new conditions, found here, returned South. Their memory still lingers in the hearts of the generations left here to join with others of various races and creeds, doing their bit to make American democracy the only safe environment in which to live and enjoy the pursuits of happiness.

For these three score years, we have labored side by side with every one with whom we came in contact so far as it has been possible. We have shared with others, our joys and our sorrows; our labors and rewards. For this cause we do call together the 4th Sunday in August each year those descendants, their friends and neighbors, and the public at large to join with us in words of gratitude, in memory of those whose faith in God and man has made these things possible. We recall a number of descendants who either came to Putnam county in childhood or were born here. Those coming here in childhood are Charles Woods, 1879; Andrew Edmondson, 1880; Sarah Edmondson Phillips, 1880; Sarah Bess, 1880; Tom Ecton, 1881; Julia Shannon, 1881; Luttisue Bess Shepherd, 1881.

There are many of later generations born here in Putnam county, and we older ones join hands with them in keeping the home fires burning.

The meeting this year as planned by the committee will include a noon day basket dinner in the yard, at three o'clock a program of good singing and a prominent speaker will speak. Refreshments will be available on the ground.

We shall be looking for you. Committee—Chas. Woods, Francis Phillips, Andrew Edmondson.

MISS SCHOTT CHOSEN AS STATE FAIR JUDGE
Official announcement was made today by the State Fair Board that Miss Mary Lou Schott, Putnam county home demonstration agent, had been named chairman of the Canning Judging Committee for the Indiana State Fair.

The position is recognized over the state as an honor and distinction, although it is believed that "headaches" may be occasionally involved. The main day for the judging of canning exhibits is set for Friday, August 29.

WHAT ABOUT THE BIG QUINCY PICNIC RAIN?
Since it usually rains and rains hard on the day of the Quincy Picnic, Putnam county farmers had about given up hope of ever receiving much more water for their crops and springs, after nothing but a sprinkle fell early this morning.

In the past almost annually, on the day of the famous Quincy Picnic, it has rained. Many declared that if the Quincy event didn't bring rain, it would never rain again.

REV. GILBERT McCAMMACK IS NEW MODERATOR OF WHITE LICK ASS'N.

Wednesday afternoon, Rev. Dallas Bissler, of Reelsville, welcomed to the moderator's chair another Putnam county minister, the Rev. Gilbert McCamrack, of Cloverdale, at the 106th annual session of the White Lick Baptist Association, meeting in the Bethel Baptist church in Marion township, Putnam county. Rev. Bissler had been moderator three years and expressed appreciation of the honor of the position he had held through that period. The newly elected moderator, Rev. McCamrack, said he hoped to fill the office as ably as had Rev. Bissler.

The retiring moderator was made Moderator, and Rev. Wm. Pepp, of Coatesville, was named second vice moderator. Mrs. Mamie Dorsett, of Clayton, who has been very efficient in that office, was given an additional term in it. Carl Jeffman was named assistant in that office.

Harold Storm, Coatesville rural route, was elected director of the Young People's Association. Rev. Charles Green, of Plainfield, was chosen to bring the introductory sermon next year. Rev. I. E. Souder, pastor of the First Baptist church of Greencastle, will bring the doctrinal sermon. The association, next year, will meet on Thursday and Friday of the second week in August, at the Bethesda church.

Rev. Souder, of the Greencastle Baptist church, preached Wednesday afternoon in place of Rev. Herbert Zachery. His theme was "Assurance of Christian Victory through Giving." The program commemorating the

centennial of the Bethel church, Putnam county, which was planned for Wednesday evening, was postponed until a later, unfixed date.

The clerk-treasurer of the association, Mrs. Mamie Dorsett, of Clayton, had with her at the meetings on Wednesday a copy of an interesting "Centennial History" of the association, written by Mrs. Minnie J. Swindler for the period 1835-1935. The narrative tells of the meeting of 30 representatives from eleven churches, in 1835, to form an association, at the Friendship church, at Hazelwood. The notes say:

"In 1841, Big Walnut (Greencastle) was added to the association. That church was organized in 1822, 10 years before Friendship.

"Greencastle church, on account of her strong adherence to mission, education, benevolences had been dropped from the Eel river association (Regular Baptists.)

"From records 1841 of New Providence church (in Putnam county): 'A committee was authorized to go to the churches to present the need of funds to employ a missionary to labor within the bounds of the association.'

Speaking of the Greencastle church: "Senior church in the association. Development through great tribulation... Still with long strides going forward at 112 years of age (in 1935)." New Providence church: "Ripe old age. Grand church and rich community. Was the home of the well-known Sherrills. Such a heritage! Such men are a tower of strength."

KIDNEYS MUST REMOVE EXCESS ACIDS
 Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste
 If you have an excess of acids in your blood, your 15 miles of kidney tubes may be overworked. These tiny filters and tubes are working day and night to help Nature rid your system of excess acids and poisonous waste.
 When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.
 Kidneys may need help the same as bowels, so ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

PLASTIC AUTOMOBILE IS PLACED ON DISPLAY BY HENRY FORD

DEARBORN, Mich., Aug. 14.—(UP)—Henry Ford displayed a plastic automobile today. Only its frame, motor, and wheels are metal.

The trim, cream-colored coach—was unveiled last night at the climax of this community's 15th annual festival.

Ford wasn't there to hear the cheers as the low-slung machine swung slowly around the lighted field but Robert Allen Boyer, his young research chemist who for 12 years has been experimenting with the manufacturer's idea of utilizing farm products in industry, was.

Boyer, who is only 32 now, said the plastic car was lighter, tougher and more economical than any on the road. He thought its production in large quantities is "at least" several months—and possibly years—away.

"This is purely an experimental stage just now," he said. "Naturally we want to get into mass production eventually but that will take time. For one thing, we'd have to build the plastic industry from the ground up."

"Although we've been working with the idea of a plastic car for 12 years, the defense emergency and the shortage of steel and other materials has speeded our program."

The plastic car is a hand-made model. Its body is made of 32 strips of plastic mounted on a tubular-welded steel frame, was rushed to the public showing with its interior still unfinished.

The panels have a thickness of only 3/16ths of an inch, but will absorb a blow 10 times as great as steel without denting, Ford officials said. They would not reveal the formula of the plastic used.

Production of 1,000,000 cars an-

nually with plastic bodies, Boyer said, would consume at least 170,000 tons of agricultural products and 50,000 tons of synthetic chemicals. Moreover, it would free thousands of tons of steel and strategic materials for defense.

"Mr. Ford saw the car for the first time Wednesday," said Lloyd E. Overly, an associate of Boyer. "He seemed to be very pleased with it."

A completely new engine has been designed for the car and now is under test. Boyer declined to reveal its specifications. It is now powered by a 60-horsepower V-8 engine.

It has a wheelbase of 110 inches, stands 63 1/2 inches high, five to six inches less than most automobiles. Although it now weighs 2,300 pounds Boyer said the weight eventually would be reduced to less than one ton, or about 1,300 pounds less than a steel car of comparable size.

Ford said he was confident plastic bodies could be produced practically and economically.

"Plastic raw materials may cost a little more," he said, "but we anticipate a considerable saving as the result of fewer fabricating and finishing operations."

Ford chemists have developed plastics from cotton, wheat, soybeans and corn. One consists of 70 per cent cellulose fiber and 30 per cent resin binder. The mixture is molded under 1,500 pounds of pressure per square inch. Boyer said it is superior to steel in everything but tensile strength.

Ford himself tested the durability of a plastic panel 18 months ago by swinging an axe upon it. It remained intact. When the same experiment was made upon a steel panel the axe cut through the metal.

STATIONED AT SHELBY

Mr. and Mrs. Glen Clark have received a letter from their son Private Eugene Clark, of 38th Division, Camp Shelby, Miss., saying that instead of leaving for Louisiana for war maneuvers August 7th he had been

placed in charge of Detachment quarters and would be stationed at the base camp. 1st Sgts. tent in Camp Shelby.

His address will be Base Detachment, 38th Division, Camp Shelby, Miss.

LOCAL MEN RELATE WATERMELON STORIES

Watermelons are quite plentiful this time of the year, and the temperature what it is. Kenneth Peck, who once upon a time was a farm boy, said this: "The very coldest and sweetest watermelons in all the world are those that are picked and eaten with the dew on them, in the early morning. I don't know what made them that way, but it is a fact, nevertheless."

The old hound learned to bite into watermelons, and eat out the watery, sweet fruit. The coyotes learned the same thing, too, and used to raid our melon patch regularly.

Kenneth Peck, who once upon a time was a farm boy, said this: "The very coldest and sweetest watermelons in all the world are those that are picked and eaten with the dew on them, in the early morning. I don't know what made them that way, but it is a fact, nevertheless."

NEWS IN THE WORLD OF RELIGION
By W.W. REID

The Presbyterians in Alaska are to have a new boat that will carry the gospel message to the fishermen, the trappers, and others in isolated communities along the many bays and coastal points. Practically every church in Alaska is helping build the vessel, Juneau Memorial Church is giving a steering wheel, constructed by an expert shipwright, a member of the church. It will be inlaid with Alaskan ivory and California abalone shell. The Northern Light Church, of Juneau, is furnishing lines for the bunks, and the two Haines missionary societies will help to buy galley utensils. The 300-pound storm anchor is a gift of the Angoon Church, Petersburg (Alaska) Church is providing a first-class seven-jeweled ship's clock; Wrangell Church will give funds for the bronze rudder and fittings; McClakatah Church is buying a radio phone, and the children at Haines House, not to be outdone by the adults, are buying the ship's whistle. Others have contributed construction funds.

New "mass movement" of Hindu people toward the Christian church are reported by Bishop J. Waskom Pickett, of Bombay, India, from two corners of his far-flung area. Because of close-knit family and caste ties, Indians do not usually accept Christianity as individuals, but by family or occupational groups.

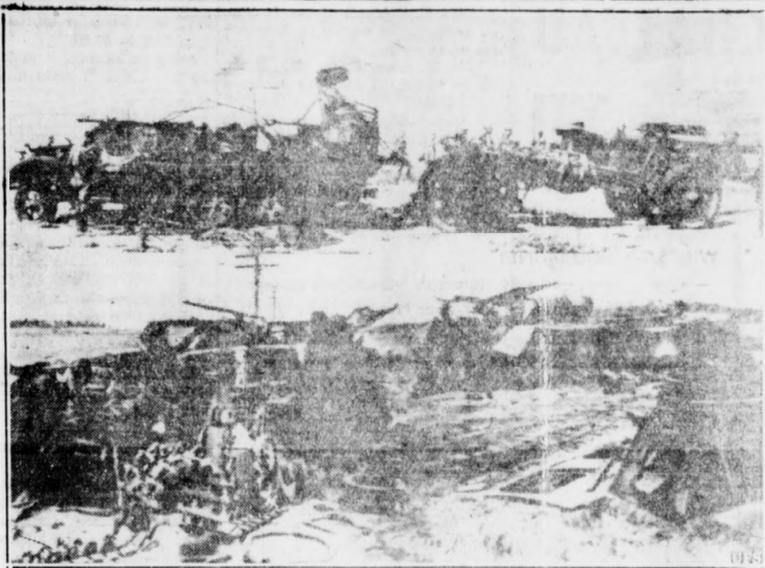

"I have just reached home from a tour of the Nanded District of the Bombay Conference," says the Bishop. "In the Vdgir section of the district hundreds of the 'Depressed Class' people are asking to be received into the church. Two hundred five have been baptized, and probably 2,000 more have declared their faith in Christ. These are Marathi-speaking people and this is our first large mass movement development among Marathi-speaking folk. In the Bhainsa section of the district we have controlled mass movement among middle-caste Hindus. They speak Telugu but are in an area where Marathi is taught in all the schools. By caring for these Telugu-speaking people on the border we have an opportunity to foster a mass movement of middle-caste Hindus among Marathi-speaking people in adjoining territory and among the Telugus."

"The real peace program has ten points and these points are the Ten Commandments," said the Most Rev. Francis J. Spellman, Catholic Archbishop of New York, recently. "The world has lost peace because these Commandments were flouted, and it can regain peace only through their observance and ascendancy. Before they can be observed in the world or in a nation they must be observed by individuals. They must be observed by ourselves.—All of us are the victims of the war, the war of Satan, the war of the flesh, the war of paganism. Only God's grace, only God's love for us and our love for God can save us and save our fellow-man."

Three thousand ministers in town and country churches in every sections of the United States will attend special summer schools, institutes, and camps to be held at the theological seminaries and agricultural colleges in the summer of 1941, it is announced by Benson Y. Landis, secretary of the Joint Committee on Town and Country of the Home Missions Council of North America and the Federal Council of the Churches of Christ in America. Forty-one schools will provide "continuing education for the minister in town and country," Mr. Landis says. "The purposes of these schools are to help ministers become acquainted with

blasted methods of town and country church work, to interpret trends of modern country life, to promote fellowship among rural ministers and to increase the contacts of ministers with agricultural leaders. Schools are conducted without tuition charge.

"The China Relief Legion," authorized by Madame Chiang Kai-shek, wife of China's Generalissimo, for honoring in the United States those who give one hundred dollars for human relief in China, is now being used by the United China Relief of which the Church Committee for Relief in China is a part. The U. S. R. is uniting the major appeals for help to China in one effort across the country and especially in the

churches. Donors of gifts from \$100 to \$1,000 receive membership in the Legion. Those donating \$1,000 or more are awarded the "Fellowship of the Plum Blossom;" \$5,000 or more, "Fellowship of the Wisteria;" \$10,000 or more, "Fellowship of the White Orchid;" \$25,000 or more, "Fellowship of the Lotus." Each "fellowship" will be accompanied by a scroll signed by Madame Chiang Kai-shek.
