THIS EVENING

LOCALS DEFEAT HELMSBURG IN WABASH VALLEY PRELIM FRIDAY NIGHT

Greencastle's Tiger Cubs rolled over Helmsburg, 79 to 55, in a Wabash Valley prelim tourney contest at Spencer Friday evening. Coach Tom Goldsberry used his entire varsity squad of ten players during the game and all but Bieber broke into the scoring column.

The Cubs meet the Spencer Cops tonight at 8:15 to determine which school shall compete in the Wabash Valley finals at Terre Haute next weekend.

Greencastle chalked up 32 field goals and 15 free throws against Helmsburg. The losers hit only 13 buckets from the field but capitalized on 29 attempts from the foul line.

The Cubs got away to a slow start but led 14 to 9 at the end of the first quarter. The locals then turned on the steam and were out in front, 40 to 24, at the half. It was 61-42 at the end of the third frame and the final count was 79 to 55.

Dorwin Duncan, Chuck Saathoff and Jimmy Cowger paced the Greencastle drive while Brummett and Bond were outstanding for Helmsburg.

Cards Win No. 14

Fillmore's Cardinals scored their 14th straight win of the season Friday in thumping Russellville, 75 to 55, in a game played on the Roachdale gym floor.

Ross and Tharp paced the Fillmore squad with 23 and 16 points respectively. Greenlee contributed 10 points and B. Sibbitt hit for nine.

Marsteller got 18 points for the losing Bees and Webster dropped in 14.

Indians Scalp Pointers

Reelsville's Indians went on the warpath again Friday and scalped the Bainbridge Pointers, 48 to 41.

The tilt was interesting throughout with hardly more than four points separating the two teams. The Indians led 18-14 at the end of the first quarter; 29-26 at the half, and 35-31 at the fourth period got underway.

Jack Cox and Hutcherson were the big guns for Reelsville while Bullerick and Fowler were best on offense for Bainbridge.

Clovers Stop Panthers

Cloverdale turned back an aggressive Belle Union squad, 53 to 44, down on the Clover hardwood court Friday night.

The Jefferson Township Panthers were ahead after the first eight minutes of competition, 15 to 11. The Clovers rallied to take over the lead, 24 to 21, at the rest intermission and then held a 41-35 margin at the third quarter ended.

Henson and Whitaker spearheaded the Cloverdale attack. Dorsett's 10 points was high for individual scoring honors on the Belle Union side of the ledger.

IN THE  
GOOD OLD  
DAYS

LINCOLN'S ASSASSINATION

(Continued from last Saturday an account of the assassination of President Lincoln as it appeared in the Greencastle Banner on April 20th, 1865.)

"The President and Mrs. Lincoln did not start for the theater until fifteen minutes after eight o'clock. Speaker Colfax was at the White House at the time, and the President stated to him that he was going, although Mrs. Lincoln had not been feeling well; because the papers had announced that General Grant would be present, and as General Grant had gone north he did not wish the audience to be disappointed. He went with apparent reluctance, and urged Mr. Colfax to go with him, but that gentleman had made other engagements, and with Mr. Ashmead of Massachusetts, bid him goodbye.

When the excitement at the theater was at its wildest height, reports were circulated that Secretary Seward had also been assassinated. On reaching this gentleman's residence, a crowd and military guard were around its door, and on entering it was ascertained that the reports were based on truth.—Everybody there was so excited that scarcely an intelligible word could be gathered, but the facts are substantially as follows: About ten o'clock a man sang the bell, and the call having been answered by a colored servant he said he had come from Dr. Verdir, Secretary Seward's family physician with a prescription, at the same time holding in one of his hands a piece of folded paper, and saying, in answer to a refusal, that he must see the Secretary as he was intrusted with particular directions concerning the medicine. He still insisted on going up, although repeatedly informed that no one could enter the chamber he pushed the servant aside and walked heavily towards the Secretary's room. He was then met by Mr. Fred Seward of whom he demanded to see the Secretary, making the same representations which he did to the servant. What further passed in the way of colloquy is not known but the man struck him on the head with a billy, severely injuring the skull and telling him, almost senseless.—The assassin then rushed into the chamber and attacked Mr. Seward, a paymaster of the United States Army, and Mr. Hansell, a messenger from the State Department and two male nurses, disabling them. He then rushed upon the Secretary, who was lying in the same room, and inflicted three stabs in the neck, but severing, it is thought, and hoped no arteries, though he bled profusely. The assassin then rushed downstairs mounted his horse at the door and rode off before an alarm could be sounded, and in the same manner as the assassination of the President.—It is believed that the injuries to the Secretary are not fatal, nor those of the others, although both the Secretary and the Assistant Secretary are very seriously injured.—Secretaries Stanton and Welles and other prominent officers of the government called at Secretary Seward's house to inquire of his condition and there heard of the assassination of the President.—Then they proceeded to the house where he was lying, exhibiting, of course, intense anxiety and solicitude. An immense crowd was gathered in front of the President's house, and a strong guard was also stationed there, many persons evidently supposing that he would be brought to his home. (To be continued next Saturday.)

PANMUNJOM, Jan. 23 (INS)—The Communist today turned down a fresh Indian appeal to take back 21 pro-Red Americans and 326 other Allied war prisoners staging a sitdown in their unguarded camp on the north side of Korea's truce zone.

Indian's custodial commander, however predicted that the Reds may decide to assume custody of the POWs after lodging an expected "formal protest" with the Allied-Communist military armistice commission which met today.

The joint commission, top watchdog of the Korean truce, convened for the announced purpose of discussing "prisoner and other matters."

Library Reports  
Big Circulation

More than 6000 books were distributed by the Greencastle-Putnam County Library during 1953 than were circulated during the previous year, according to the annual report, announced by Miss Sylvia Taylor, librarian, today.

A total of 128,925 books were circulated during the year, being 6.05 books for every individual in the Putnam County Library System. The library has only 1.89 books for every individual, a book stock which is not sufficient for the demands made upon it.

A total of \$7691.06 was spent for books during the year, making the average cost of each new book \$1.92. During 1953, 3,995 new books were added to the library collections.

The bookmobile circulated 83,040 books, which is a gain of more than 47,900 in the county circulation before the Bookmobile started in September, 1951. Thirteen county schools, and seventeen book stations are visited regularly, on a two-weeks schedule, making books easily available to every resident of the county, except Franklin Township, which maintains its own library. This service was provided at a cost of \$1.18 per capita, with a total expenditure of \$25,067.50 during the year.

Miss Taylor reported that the library staff is justifiable proud of the increase in non-fiction reading of both the adults and the children. The greatest increase was in the social sciences, useful and fine arts, history, biography and current magazines. The library endeavors to call the public's attention to the books on various fields of information, by arranging exhibits in the library. During the year, 95 special exhibits, in addition to the new book displays, were presented in the library. Seventeen school classes visited the library during the year, and 28 story hours were provided. The Greencastle Library is very grateful to the three PTA groups for help during the summer a Reading in the story hours.

Project on the American Child's Heritage was sponsored by the library, with 151 boys and girls registered, and 49 receiving reading diplomas for having read 25 or more books. Some had read more than one hundred books. The statistics show that the Greencastle-Putnam County Library is serving a useful and worthwhile function in the community in providing the resources for education, information and recreation, at a cost of only \$1.18 per capita. (The American Library Association recommends, from extensive studies, a minimum of \$1.50 per capita for reasonably good service). Henry Steele Commager, an outstanding American historian, says in his book "Living Ideas in America," "no institution, except the public school, has contributed more to educate Americans in the duties and responsibilities of citizenship, or to preserve the American heritage, than the public library."

\$ Million Fire  
Destroys Pier

SEATTLE, Jan. 23 (INS)—A series of explosions and fires, touched off when an oil ship struck a loading wharf, destroyed the main 1,000-foot pier of the Standard Oil Company's multi-million-dollar storage tank farm north of Seattle today.

Roaring flames, fed by high test gasoline in drums and pipelines, were brought under control at 6:30 A. M. CST after causing damage estimated at more than \$1,000,000 at the Sprawling Point Wells plant on Pudget Sound.

No casualties were reported. Coast guard, air force, navy and civilian firefighters, battling the holocaust from firetrucks on land and fireboats offshore, checked the blaze before it could leap ashore from the long pier.

The measure would require the exchange to make regular reports on its transactions to the government and limit price fluctuations in a move to curb illegal speculation.

EXTRA!

ROCKVILLE, Ind., Jan. 22 (UP)—Governor Craig made a surprise tour of the Tuberculosis Sanatorium here late Friday and said he found conditions there "very satisfying."

Craig, accompanied only by his Administrative Assistant, William Sayer, inspected kitchens, stock rooms and other facilities and "found conditions satisfactory in every way."

Craig also planned to pay a second visit to the State Farm at Putnamville, which he criticized as a "glorified flophouse" after an inspection three weeks ago but postponed the tour because of lack of time.

SPRINGFIELD, Ill., Jan. 23 (INS)—William G. Hierens, who confessed to one of the nation's most shocking crimes, has been granted a review of his bid for a new trial by the Illinois Supreme Court.

The court agreed yesterday to hear an appeal of a ruling in a post conviction hearing which denied Hierens a re-trial.

Hierens, now 25, was sentenced to three consecutive life terms in 1946 for the slayings of two women and six-year-old Suzanne Degnan, whose dismembered body was found in sewers throughout her Chicago neighborhood.

The convicted slayer now claims he did not commit the crimes and that the confessions he made were given under duress and with the use of "truth serum" in violation of his constitutional rights.

WASHINGTON, Jan. 23 (INS)—A key Democratic tax-writer charged today that the proposed House revision of the nation's revenue laws favors corporations and special interests.

Rep. Herman Eberharter, D., Pa., a member of the House Ways and Means Committee which is conducting the overhaul, told newsmen that the proposed method was a "radical departure from accepted principles."

He said it was done to aid "big business" in the immediate future while corporation taxes are high.

MIAMI, Jan. 23 (INS)—Former olympic diving champion Fete Desjardens has testified that little Kathy Tongay did not possess the strength or skill to perform the perilous dives her father allegedly compelled her to make from a 33-foot tower before her death last May.

Desjardens, who won both the springboard and high diving titles in the 1928 olympics, also declared that Russell Tongay was not qualified to teach his five-year-old daughter fancy high dives.

EAST BERLIN  
REPORTS RUSS  
IRON CURTAIN

SOVIET ARMORED FORCES RING RED SECTION OF GERMAN CAPITAL

BERLIN, Jan. 23 (INS)—East Berlin informants report that Soviet armored forces have thrown a ring around Berlin presumably to prevent disgruntled East Germans from complaining to Allied diplomats in West Berlin about their Red government.

The informants said the Soviet forces were moved into positions around the city two days ago as the stage was being set for the Big Four conference opening Monday.

The Russian units were said to be of the same type used to crush the anti-Communist uprising last June.

The information Bureau—West, which has contacts behind the Iron Curtain, reported Soviet soldiers are being restricted to their barracks throughout the East Zone after 9 o'clock nightly to avoid any trouble with East Germans for the duration of the Big Four meeting.

The Soviets sealed off a railroad station in East Berlin as well as a Soviet airport south of Berlin, as a security measure for the arrival of Soviet Foreign Minister V. M. Molotov today.

The Allies, for their part, threw a strong security cloak around West Berlin, as Army, State Department and other United States representatives began arriving. The conference will be held in West Berlin the first week. It rotates to the Soviet Embassy in East Berlin for the second week and returns to the Allied Control Building the third week.

The public, with the exception of those working in the area, will be kept away from the Control Authority Building during the conference.

Fat Lamb Sales  
Set Record In '53

More fat lambs were sold through lamb marketing pools in Indiana during 1953 than ever before, remarks Henry Mayo, Purdue University sheep specialist.

His late '53 count shows that about 26,000 lambs were sold through these marketing outlets compared with 17,000 in 1952. All of these market lambs were sold on a graded basis, and Mayo adds that practically 60 percent of them, or 15,000, made the top two grades—prime and choice.

"Our figures indicate sheep producers are doing a better job of marketing all the time," observes the extensionist. He estimates about 13,000 lambs, or one-half the total, were sold before Aug. 1, and most of these during June and July when more dollars are made on fat lambs in Indiana than at any other time of the year.

These 26,000 lambs averaged 66 pounds when sold. Again, producers followed recommendations, says Mayo. For a number of years sheppmen have been encouraged to produce market topping lambs weighing from 80 to 100 pounds at weaning time.

It's well known that if lambs are sold later than June or July, the gains they carry are too expensive. These lambs are usually too heavy to command top price.

Last year was the fourth year that lamb marketing pools have been stressed in the state. Mayo says that in 1953 more than four times as many lambs tipped the scales at the pools than in 1949.

Vincennes and Montpelier claimed the most lambs sold

STATE OFFERS 325 TREES FOR \$3 A statewide campaign, "Trees for Hoosierland", to encourage tree planting on farms to stop erosion and save water has been launched by the Indiana Department of Conservation, Director Dixie Moore announced.

To encourage landowners, conservation clubs, 4-H and Future Farmers organizations in schools to engage in this Spring planting program, the Conservation Department Division of Forestry is offering a tree package consisting of 325 evergreen and hardwood trees for \$5, delivered to a central location in each county.

In addition to the trees, the package will contain a package of stratified black walnuts and complete planting instructions.

The Conservation Department places no restrictions on the number of packages anyone orders but does insist the trees be planted outside cities and towns, and that they are not to be used as ornamentals, or resold with roots attached.

No orders will be accepted after March 15, Director Moore said. Anyone wishing to place an order may contact the County Conservation officer, the county agricultural agent or write direct to the Indiana Department of Conservation, 311 West Washington Street, Indianapolis. Orders must be accompanied by checks or money orders.

Assorted varieties which have been recommended for erosion and waste land planting by Purdue University, consist of red, white, jack, short-leaf and Virginia pines, and black locust and tulip poplar hardwoods.

## A Gift TO BE PRIZED

No gift is more appropriate for a boy or girl, on birthdays or any other time, than a copy of the Holy Scriptures.  
 There is something about the possession of a Bible that gives a young person a new sense of moral and spiritual responsibility. It invests the great characters of the Book with a warmth and nearness that is conducive to spiritual growth.  
 There has been no time in human history when young people needed the instruction and inspiration of the Scriptures more than they need them today, when strange voices are calling and strange hands beckoning them into dangerous paths.  
 Much of the literature and drama of our time is cynical, materialistic and sensual. Only the Bible can tie our young people to the faith and solid virtues that make life strong and safe.  
 The Bible has meant more to the world and humanity than all other books combined. The youth of today should cherish it as a priceless heritage.

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

### In the Middle

**JIMMY HILLERS**, 6, in the middle in an international custody battle, peers through windshield of an auto in London after his father was halted from taking him aboard a plane bound for home in New York. The father, Harry Hillers, Brooklyn house painter, left Stuttgart with the boy, where he had conducted a five-month court struggle against his estranged wife Hannah for custody of Jimmy, who was born in U. S. Mother had taken him to Germany. (International)
